

ARIZONA STATE UNIVERSITY
COMMENCEMENT
AND
CONVOCATION
PROGRAM

Fall 2022

December 12-15, 2022

**THE NATIONAL ANTHEM
THE STAR-SPANGLED BANNER**

O say can you see, by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming?
Whose broad stripes and bright stars through the perilous fight
O'er the ramparts we watched, were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air
Gave proof through the night that our flag was still there.
O say does that Star-Spangled Banner yet wave
O'er the land of the free and the home of the brave?

**ALMA MATER
ARIZONA STATE UNIVERSITY**

Where the bold saguaros
Raise their arms on high,
Praying strength for brave tomorrows
From the western sky;
Where eternal mountains
Kneel at sunset's gate,
Here we hail thee, Alma Mater,
Arizona State.
—Hopkins-Dresskell

MAROON AND GOLD

Fight, Devils down the field
Fight with your might and don't ever yield
Long may our colors outshine all others
Echo from the buttes, Give em' hell Devils!
Cheer, cheer for A-S-U!
Fight for the old Maroon
For it's Hail! Hail! The gang's all here
And it's onward to victory!

Students whose names appear in this program
have completed degree requirements.

MISSION STATEMENT

UNIVERSITY COMMENCEMENT

University Commencement represents the culmination of a student's academic achievement.

It is a time of celebration and reflection for students, families, friends, faculty and staff.

It brings together a diverse community to share in the joy of accomplished goals.

Arizona State University continually demonstrates its dedication to efficiency, technology and sustainability. The full University Commencement program is made available online at graduation.asu.edu/commencement_programs.

This change aligns with our growing institutional efforts to enhance sustainability practices, and our broader endeavors to employ technology in heightened service to our students.

To order additional copies of this program, email your request to ASUCommencement@rrd.com and someone will respond with payment instructions and order details.

**MESSAGE FROM THE
ARIZONA BOARD OF REGENTS**

Dear Graduate,

On behalf of the Arizona Board of Regents, congratulations on your graduation!

This is a day of celebration, a time to acknowledge the late-night study sessions, papers written, tests taken and the professors, friends and mentors who have helped you reach this moment. Treasure these memories that will last a lifetime and try to stay connected with your alma mater. As alumni, you all play an important role in the continued success of this institution and the students following in your footsteps.

Earning a college degree is one of the smartest things an individual can do for themselves. College graduates on average earn more, have lower rates of unemployment and enjoy better quality of life than peers who didn't attend college. Your degree path was also impacted by the COVID-19 pandemic; your achievement through this hardship is a tribute to your resilience and perseverance.

As you begin this new chapter in your life, consider that continual learning will offer fulfillment and ensure your skills remain in demand. Learning throughout a lifetime broadens your horizons while acquiring new knowledge. Please keep an open mind and listen to others; consider divergent points of view and discuss topics in a civil manner. Respecting different opinions and considering these as an opportunity to learn is crucial to making progress in our country.

Again, congratulations on earning your degree! Go Devils!

Sincerely,

Lyndel Manson

HISTORY OF HONORARY DEGREES

Harvard was the first university to confer honorary degrees in 1692. Since then it has become a recognized function of degree granting institutions. Honorary degrees are an opportunity for universities to single out people who have made contributions to society. At ASU, honorary degree recipients are nominated by faculty members. The six-member Academic Affairs Honorary Degrees Committee reviews faculty nominations for the Honorary Degree. It then recommends candidates to the president. The committee is appointed by and responsible to the president.

SANDRA DAY O’CONNOR COLLEGE OF LAW

In 1965, President G. Homer Durham hired Willard H. Pedrick to become Arizona State University’s first law school dean and tasked him with the responsibility of building, literally from the ground up, its very first law school. Located on ASU’s Tempe campus, Armstrong Hall housed the law school until its move to the downtown Phoenix campus in 2016.

Over 50 years ago, 83 students graduated with their Juris Doctor from the ASU College of Law. Today, over 650 students graduate annually from ASU Law, receiving one of our five degrees: Juris Doctor (JD), Master of Laws (LLM), Master of Legal Studies (MLS), Master of Human Resources and Employment Law (MHREL), or Master of Sports Law and Business (MSLB).

The law school has accomplished many significant milestones in its 50+ years. In 2006, the law school was renamed to honor Justice Sandra Day O’Connor, the first woman appointed to the Supreme Court of the United States. It is a privilege—and a great responsibility—to be entrusted with Justice O’Connor’s (ret.) name and legacy. Students continue to personify Justice O’Connor’s legacy and lifetime work to advance civics education and civic engagement and discourse, by donating more than 100,000 hours of public service each year.

ASU Law has risen in national and world rankings, continues to attract highly credentialed students and offers more personalized programs than any other law school in the country.

In 2016, ASU Law moved to the Beus Center for Law and Society in the ASU downtown Phoenix campus, further enhancing the law school's service to the community and providing students access to the best legal opportunities. Students can also study beyond Phoenix at ASU campuses in Washington, D.C. and Los Angeles, as well as participate in global study abroad and externship or internship opportunities. ASU Law's world-class faculty and administrators provide students with unparalleled opportunities to gain insights and practical skills needed to address legal challenges locally, nationally, and globally. ASU Law also prides itself on its network of engaged alumni and its relationship to the broader legal community, which has fully embraced the law school and is dedicated to the success of its graduates.

ASU Law has ranked as a top 30 best law school in the nation for eight consecutive years and is the youngest law school in the top 30 as ranked by U.S. News & World Report. ASU Law also has five programs ranked in the top 30 and consistently ranks high in job placement. The law school is also No. 1 in the state for student outcomes and No. 1 in the state for bar passage, often exceeding the national average.

RECESSIONAL

The Barrett Story

Barrett, The Honors College at Arizona State University, is a selective, residential college for academically outstanding undergraduates. Named “the gold standard” for honors colleges in the nation, Barrett is widely considered the model for honors education in the US and abroad.

Barrett stands alone in dedicated resources, size and complexity with a presence on four ASU campuses, a multi-million dollar endowment used to support honors students and their projects, and dedicated Deans, faculty and staff that include seven administrators, 45 Faculty Fellows, 64 staff within the college and more than 1,900 university faculty members who teach and mentor Barrett students who major in any field across all four campuses.

Barrett represents a powerful and unique combination of the special care and attention an honors student should expect from an excellent residential liberal arts college, with the vast program choices and research mentoring resources of a vibrant Research I University. Barrett students are members of a small community of scholars known nationally for its number of National Merit, National Hispanic, and Flinn scholars, and nationally ranked numbers of recipients of Fulbright, Truman, Goldwater, Udall, and Marshall Fellowships.

Student Opportunities

ASU’s size, number of majors, student organizations, and student support services is an advantage and provides important opportunities for Barrett students to engage in meaningful ways. With the largest college residential profile across all four campuses, Barrett significantly contributes to the student life of the University. Barrett students demonstrate leadership in the classroom, in research labs, in mentoring and tutoring other students, and in securing leadership roles in student government, Changemaker Central, Greek Life and over 800 student organizations. Barrett offers a full range of student-driven academic, service, wellness, arts, cultural, social, entrepreneurial, and sustainability programming. Barrett students positively impact ASU and our local, national, and global communities through internships, service, travel, and other professional development opportunities within Barrett and across ASU. Barrett students participate in study abroad programs that enable them to travel to foreign countries, immerse themselves in small classes taught by honors faculty, and experience different cultures and societies while earning honors credits. Barrett students engage in cutting edge research with distinguished ASU faculty or through special partnerships with the Mayo Clinic, the Biodesign Institute and Intel. Students are developing iPhone applications, building robots,

designing games, or developing tools to improve healthcare, meet global energy needs, and provide clean water, or secure data and information privacy. Many students also take advantage of internship opportunities developed exclusively for Barrett students with organizations like Mayo Clinic, Goldman Sachs, Microsoft, Google, The American Heart Institute and local congressional districts, the governor's office, and the United States Senate.

Signature Events

Barrett hosts annual signature events, the Centennial Lecture, the Rhodes Lecture, and the Distinguished Global Leader Series. In 1985, the Flinn Foundation established an endowment to commemorate ASU's 100th year, creating the ASU Centennial Lecture. Barrett Honors College has brought some of the world's most influential intellectuals to campus: noted diplomats, scientists, playwrights, and authors. Former Centennial lecturers include Edward James Olmos, dedicated actor, and community activist in 2010; Dr. Oscar Arias, Nobel Peace Laureate and two-time president of Costa Rica in 2011; and most recently, Maria Teresa Kumar founding CEO of Voto Latino (c4) and Voto Latino Foundation (c3) and an Emmy-nominated on-air analyst for MSNBC. María Teresa Kumar deeply understands and is personally part of the fastest growing demographic group in America. This has given her a unique platform to shape some of the most pressing issues of our time, including police reform, gender pay equity, immigration, diversity and inclusion in tech, protecting the vote, and climate justice. She has dedicated her career to engaging the public to build democracy and protect human rights.

The Rhodes Family created the John J. Rhodes Chair in Public Policy and American Institutions at Barrett to celebrate the career in public service of one of Arizona's and the nation's most distinguished leaders. The Rhodes Chair is dedicated to deepening theoretical and practical understanding of the many voices and forces that influence public policy. The Chair honors the values of personal integrity, fiscal responsibility, respect for persons, and international farsightedness exemplified in the Hon. John J. Rhodes' career. The 2022 Rhodes Chair featured prominent educator and author of books on higher education and teaching, Dr. Arthur Levine

The Distinguished Global Leader Series was established by Barrett Honors College as a new cornerstone global engagement program in 2017. The program invited noted leaders in government and industry to spend time on campus sharing their knowledge and expertise with honors students and faculty. During the program's first years, Barrett has hosted short stay visits with Former Finnish Defense Minister Elizabeth Rehn, Former US Secretary of State Condoleezza Rice, Former Chief Secretary of Hong Kong Anson Chan, Uruguayan Ambassador to the United States Carlos Gianelli, and former Ecuadorean Foreign Minister Guillaume Long. In addition, the Former President of the Republic of Latvia, Dr. Vaira Vike-Freiberga, was the first Leader-In-Residence and the Fall 2019 was Louise Fréchette, Former United Nations Deputy Secretary-General. During their stays at the Honors College, these distinguished leaders deliver keynote speeches, meet with small groups of students to discuss current events and participate in honors-level courses.

Barrett on All Four Campuses

In fall 2009, Barrett, The Honors College at Arizona State University, opened the nation's first comprehensive four-year residential honors college within a top-tier Research I university that underscores its standing as the premier honors college in the nation. The \$140 million Barrett campus in Tempe was designed by students, faculty and staff working with nationally-renowned architects. On the Tempe campus, the nine-acre college includes residence halls for 1,700 students, several classrooms, a community center with student lounges, activity rooms, computer labs, a fitness center, a multi-room dining facility with a refectory, café, and administrative, faculty and staff offices. In fall 2014, Barrett expanded the residential college experience to another 1,600 upper division honors students living in the 18 acre Vista Del Sol Community, across the street.

The Barrett Honors College residential communities on the Downtown, Polytechnic, and West campuses feature honors student lounges, libraries, kitchens, computer labs, student activity and study rooms, faculty and administrative offices. Barrett at the Downtown Campus is home to about 750 honors students. The Barrett residential community, called "B-Town D-Town," is located at Taylor Place at the heart of the campus and offers a living environment where students have easy access to ASU's downtown colleges and programs, as well as Phoenix's increasingly vibrant lifestyle. Barrett at the Polytechnic campus gives students the feeling of studying at a small private college with the advantages of a large university. The honors residential community is unique among the ASU campuses – freshman honors students reside together on a floor of Century Hall, which opened in the summer of 2012 while upper-division honors students will enjoy a brand new residence hall to open next fall. Barrett at the West Campus provides the entire range of honors activities in a small liberal arts college setting. Barrett West students live and learn on the ASU West Campus with approximately 500 other residents. Honors students live in the Casa de Oro residence hall. The 5,000-square-foot Barrett Suite includes a computer lab, study rooms, a meeting area, a library, and staff and faculty offices.

With its outstanding programs, dedicated faculty and staff, and comprehensive facilities, Barrett is a national model for organizing resources to support the honors experience at all four campuses at ASU. This unique arrangement is a model for higher education and has often been referred to as "the best of both worlds" by students who thrive in a small college atmosphere but appreciate access to large university programs like Division I athletics and high profile lecturers.

The Moeur Award is Arizona State University's oldest, continuing honor. It was established in 1901 by Dr. Benjamin B. Moeur and Honor Anderson Moeur, and is now sponsored annually by the Arizona State University Alumni Association. The award is presented at each Commencement ceremony to those individuals who have attained the highest academic standing in any four-year curriculum during their undergraduate years at ASU. All courses of the curriculum must be completed at ASU.

ABOUT THE COLLEGE OF GLOBAL FUTURES

We all share a stake in the future. The College of Global Futures is dedicated to creating a sustainable, equitable, and vibrant future for everyone.

The College of Global Futures, based within the Julie Ann Wrigley Global Futures Laboratory, prepares next-generation leaders with the knowledge, skills and mindsets they need to tackle complex global challenges. Home to the School for the Future of Innovation in Society, the School of Sustainability, the School of Complex Adaptive Systems and the School of Ocean Futures. The college fosters new interactions between students, staff, faculty and partners that elevate our ability to understand complex, integrated social, environmental and technical systems, drive responsible innovation, and lead to ethical interventions that ensure a just, healthy and fulfilling future for everyone. Students learn how to develop enduring solutions that benefit all people everywhere on a thriving, healthy planet.

ABOUT THE SCHOOL FOR THE FUTURE OF INNOVATION IN SOCIETY

Scientific and technological advances are deeply intertwined with societal concerns. When we innovate, are we thinking critically about social and technical systems in a way that anticipates potential concerns so that we can be confident that what we are creating is both useful and good for our global future?

The School for the Future of Innovation in Society envisions responsible innovation at scale. Our students anticipate societal challenges and work across disciplines to examine areas such as global technology and development, biomedical and health ethics, public interest technology and policies for emerging technologies. We are grounded in the belief that by considering the ways in which we translate imagination into innovation, engaging the public and exploring the social impacts of technological and scientific advancements, we collectively build more just and equitable futures for all.

ABOUT THE SCHOOL OF SUSTAINABILITY

School of Sustainability students, diverse in their backgrounds and interests, work toward a common goal: leaving the world better than they found it. Students are drawn to this rapidly growing field because sustainability integrates social, economic and environmental dimensions to develop enduring and equitable solutions to global challenges.

Learning tracks within the school include energy and technology, international development, ecosystems management, urban dynamics, food systems, policy and governance, and sustainability leadership. Our curriculum is grounded in experiential learning and practical faculty-led research, equipping graduates of the School of Sustainability with the skills and tools to make positive impacts in a rapidly changing world.

ABOUT THE SCHOOL OF COMPLEX ADAPTIVE SYSTEMS

Uncertainty, scalability, thresholds (tipping points), path dependence... these are among the most pressing issues facing societies across the globe. The School of Complex Adaptive Systems explores these challenges, develops solutions and suggests interventions that enhance the resilience and well-being of our planet and our shared global futures.

Our planet is the ultimate complex system with many intertwined subsystems that envelop natural, social and technological systems and transcend traditional disciplinary boundaries. This visionary school engages wide-ranging national and international collaborations to advance the exploration of these systems and disseminate fundamental transdisciplinary knowledge through a unique set of academic graduate offerings.

ABOUT THE SCHOOL OF OCEAN FUTURES

The School of Ocean Futures addresses the current and future states of the ocean by exploring and investigating the challenges our oceans experience due to increasing pressure from human activities. It combines research and teaching facilities in the Pacific and Atlantic oceans with the cutting-edge research facilities on ASU's Tempe campus to provide students with a wide array of experiential learning opportunities that will prepare them to conduct work of significant impact.

RECESSIONAL

ABOUT THE COLLEGE OF HEALTH SOLUTIONS

The College of Health Solutions translates health research and discovery into practice and prepares students to address the challenges facing people to stay healthy, improve their health and manage chronic disease.

Since its founding in 2012, the college has experienced rapid growth. Its degree programs are designed to meet the global demand for health and health care professionals who are prepared to improve health outcomes for people and communities. Programs are offered in biomedical informatics and biomedical diagnostics; health care systems; health sciences and medical studies; movement sciences; nutrition; population health; and speech and hearing science.

Students learn from renowned research and clinical faculty, engage in experiential activities and are encouraged to contribute to innovative health research. They participate in solving health challenges through internships, interdisciplinary research teams and global study abroad experiences.

Students, faculty and staff at the College of Health Solutions, along with community partners, work together toward a common goal of optimizing the health of the diverse populations we serve. Graduates of the college are uniquely prepared to make an impact in the health workforce and shift the focus of health from sickness to wellness.

Reflections from College of Integrative Sciences and Arts Graduates

RECESSIONAL

COLLEGE OF INTEGRATIVE SCIENCES AND ARTS

The College of Integrative Sciences and Arts (CISA) is an exciting hub for applied and experiential learning. In other words, we encourage learning through doing.

We offer graduate and undergraduate degree programs that prepare students to be workforce-ready and excel in a rapidly changing marketplace. Theory, creativity and applied learning are integrated as students build entrepreneurial opportunities both inside the university and in their communities. We strive to be as diverse as possible to ensure that our diverse populations throughout the state of Arizona and the Phoenix metropolitan area can find their academic home and success in CISA.

As one of three liberal arts colleges at ASU, the College of Integrative Sciences and Arts offers foundational instruction in humanities, social and natural sciences, mathematics and professional fields to provide students across ASU with the knowledge and skills to comprehend and effectively engage the changing world of the 21st century locally, nationally and globally.

The college is guided by the principles of student success, strategic partnerships within the university and the community, and interdisciplinary inquiry. Faculty members support knowledge enterprise development by advancing research, clinical and creative activities that promote discovery, innovation and human understanding. In addition, the college serves the people of Arizona by offering a variety of cultural events and opportunities for lifelong learning.

RECESSIONAL

THE COLLEGE OF LIBERAL ARTS AND SCIENCES

As the academic heart of Arizona State University, The College of Liberal Arts and Sciences fosters unmatched access, educational excellence, and interdisciplinary inquiry to generate solutions for the changing world. Our diversity and dynamism ignite continued growth and development in any field of study, from space exploration and chemistry to history and justice studies, to create global citizens for the 21st century.

We unite our academic disciplines — the analytical ability of natural scientists, the creativity of humanities scholars and the curiosity of social scientists — to harness the power of our interdisciplinary nature. We encourage our students to follow their dreams, pursue their passions and accomplish their goals in order to create a better future for the next generation and beyond.

Our faculty personify a broad vision of legendary academic scholarship at the forefront of global innovation. They teach our scholars how to adapt to new challenges and a changing landscape so they're capable of tackling tomorrow's challenges with ease. Any institution of higher learning can train a student for a first job, but we'd rather create master learners who are equipped with the right knowledge and skills for a lifetime of success. The liberal arts and sciences remain the best foundation for successful careers and deeply rewarding personal and professional lives.

We transform learning, accelerate discoveries and change lives.

HONOR CORDS

Some of our undergraduate degree candidates wear maroon and/or gold honor cords. These cords designate students who have completed at least 56 resident credit hours at ASU and who have attained the following grade point averages:

Summa Cum Laude = Maroon and Gold cords, 3.80 to 4.0 GPA

Magna Cum Laude = Gold cord, 3.60 to 3.79 GPA

Cum Laude = Maroon cord, 3.40 to 3.59 GPA

EDSON COLLEGE OF NURSING AND HEALTH INNOVATION

The growth of the Edson College of Nursing and Health Innovation reflects our desire to do more, serve more and sustain innovation. Our mission drives us to offer the highest quality academic, research and clinical practice programs so that we can produce the next generation of evidence-based health professionals who will excel as clinicians, teachers, health advocates and researchers.

The challenges that permeate our health care system require innovative solutions that will positively impact patients and entire systems, locally and globally. Our curriculum and clinical experiences expose students to different types of delivery systems, equipping them with the tools and knowledge that will unleash their innovative thinking from day one. Interprofessionalism guides us as we build programs and curriculum to meet the needs of future health professionals. Our graduate and undergraduate programs continue to expand with a focus on program design and delivery that prepares graduates to work collaboratively within complex and dynamic patient care and health delivery systems.

Our online programs continue to expand access to the highest quality education as we focus on adopting new and better instructional tools while ensuring the rigor and quality that characterize the reputation of our programs.

ABOUT THE PhD PROGRAM

The PhD in Nursing and Healthcare Innovation is one of the few interdisciplinary programs in nursing in the country, providing an enriching academic environment that fosters scholarship, critical thinking, and interprofessional collaboration. The PhD degree creates leaders in health science, health education and policy, and health innovation through preparation in the research skills necessary to generate, apply, and disseminate scientific knowledge.

ABOUT THE DOCTOR OF NURSING PRACTICE PROGRAM

The Doctor of Nursing Practice Program (DNP) is a practice-focused doctorate that prepares graduates to practice at the most advanced level of nursing. Graduates of this program apply and integrate research to practice using innovative approaches to improve health care outcomes of populations and individuals across diverse settings.

ABOUT THE MASTER OF SCIENCE IN NURSING PROGRAMS

ASU remains on the cutting edge in preparing nurse leaders and nurse educators for the 21st century. The MS in Nursing and MS in Nursing, Nurse Educator (NED) concentration prepares new and experienced nurses to meet the demands of the complex and changing healthcare environment. The Masters Entry to Nursing Practice (MEPN) prepares entry-level RN students at the graduate level to meet workforce demands in complex health systems.

ABOUT THE MASTER OF SCIENCE, CLINICAL RESEARCH MANAGEMENT PROGRAM

The Master of Science in Clinical Research Management (CRM) prepares graduates to lead clinical research. Courses focus on the elements of leadership, operations of clinical research, data management, ethics, and quality. The Master of Science in Clinical Research Management (Regulatory Science) concentration prepares students for careers in regulatory aspects of clinical research to address the safety and efficacy of new medical products, diagnostics and treatments.

ABOUT THE HEALTHCARE INNOVATION PROGRAM

The Master of Healthcare Innovation (MHI) program is an interdisciplinary degree that prepares graduates to design, implement and lead transformation in health care. Participants in this program come from a wide variety of professions, from all over the world, all with an interest in leading innovation in health and health care. Graduates search for and implement sustainable solutions for today's health care issues with an eye to the future within an interdisciplinary environment.

ABOUT THE BACHELOR OF SCIENCE IN NURSING PROGRAM

The Bachelor of Science in Nursing (BSN) degree prepares professional nurses who possess the theoretical foundation and the clinical competence to function in various health care settings. Graduates of ASU's nursing degree programs are prepared to respond to the vast and changing health care needs of individuals and communities.

ABOUT THE RN-BSN PROGRAM

The online RN-BSN program builds on the knowledge and skills the student learned in their associate degree or diploma program, especially in the areas of evidence based practice, leadership and management, and community/public health. The interactive course assignments enhance the student's written and verbal communication skills, clinical reasoning skills, teamwork, and information technology skills. Graduates will integrate new knowledge into their nursing practice.

ABOUT THE CONCURRENT ENROLLMENT PROGRAM

The Concurrent Enrollment Program (CEP) is designed for qualified nursing students who are interested in earning their BSN degree from ASU while simultaneously pursuing their Associate of Applied Science (AAS) in Nursing degree through a participating community college. The CEP is a rigorous program with a plan of study that enables students to build on the knowledge and skills learned in the AAS in nursing program.

ABOUT THE BACCALAUREATE HEALTH PROGRAMS

The Baccalaureate Health Programs consist of the Bachelor of Science degrees in Integrative Health, Community Health, Health Care Coordination, Health Entrepreneurship & Innovation, and Health Care Compliance and Regulations. Each of these degrees prepare graduates to be integral members of the health care team. Graduates are prepared to collaborate with individuals, families and communities regarding changes to the health care system. This includes health education, health promotion, care coordination, disease management, health care navigation, health innovation, health care compliance, and advocacy services as well as assisting patients in obtaining services, understanding policies, and making health care decisions.

ABOUT THE GRACE CENTER FOR INNOVATION IN NURSING EDUCATION

The Grace Center facilitates over 90,000 student hours annually in experiential learning and community outreach across programs at Edson College. The Center's vision "Knowledge & Action Join as One" is enacted in person and through online resources. State-of-the-art technology and resources provide an effective learning environment for students to practice/master nursing skills and clinical decision making in a dynamic encounter using fully integrated informatics in a variety of healthcare settings while using learning management systems to empower reflective practice. Simulation is an evidenced-based innovation in healthcare education based on objectives guided preparation, and reflection to reinforce student self-discovery that translates to practice competencies.

ABOUT THE HERBERGER INSTITUTE FOR DESIGN AND THE ARTS

ASU's Herberger Institute for Design and the Arts is the largest comprehensive design and arts school in the country, built on a combination of disciplines unlike any other program nationally and located within a dynamic research university focused on transformative change.

The Herberger Institute comprises the Schools of Art; Arts, Media and Engineering; Music, Dance and Theatre; The Design School; The Sidney Poitier New American Film School; and the ASU Art Museum.

With 7,000-plus students, more than 675 faculty and faculty associations, over 200 staff members, more than 125 degrees and a tradition of top-ranked programs, the Herberger Institute is committed to redefining the 21st-century design and arts school. One of the ways we're doing that is by developing and scaling innovative ideas to help strengthen the role of designers and artists across all areas of society and culture, and to increase the capacity of artists to make a difference in their communities.

The Institute is dedicated to the following design principles:

Creativity is a core 21st-century competency. Our graduates develop the ability to be generative and enterprising, to work collaboratively within and across artistic fields and to generate non-routine solutions to complex problems. With this broad exposure to creative thinking and problem-solving, our graduates are well prepared to lead in every arena of our economy, society and culture.

Design and the arts are critical resources for transforming our society. Artists must be embedded in their communities and dedicate their creative energy and talent to building, reimagining and sustaining our world. Design and the arts must be socially relevant and never viewed as extras or as grace notes. The Herberger Institute is committed to placing artists and arts-trained graduates at the center of public life.

The Herberger Institute is committed to enterprise and entrepreneurship. For most college graduates today, the future of work is unpredictable, nonlinear and constantly evolving. A recent study found that 47 percent of current occupations will likely not exist in the next few decades. At the Herberger Institute, our faculty, students and graduates are inventing the jobs and the businesses of the future; reimagining how art and culture get made and distributed; and coming up with new platforms and technology for the exchange of culture and the enrichment of the human experience. The legendary author and expert on city life Jane Jacobs talks about the abundance of “squelchers” — parents, educators, managers and leaders who tend to say no to new ideas. At the Herberger Institute, there are no squelchers. We embrace the cardinal rule of improvisation — always say: “Yes, and...”

Every person, regardless of social background, deserves an equal chance to help tell our nation’s and our world’s stories. Our creative expression defines who we are, what we aspire to and how we hope to live together. At the Herberger Institute, we are committed to projecting all voices – to providing an affordable education to every student who has the talent and the desire to boldly add their creative voice to the world’s evolving story.

Effectiveness requires excellence. We know that our ability to solve problems, build enterprises and create compelling and socially relevant design and art requires high levels of mastery. By being the best in our chosen fields, we can stretch ourselves and our talents to make a difference in the world.

We encourage all of our alumni to continue to share their stories with us and to take an active role in the Herberger Institute Alumni Chapter. For more information on our alumni activities, please visit herbergerinstitute.asu.edu/alumni. Connect with fellow design and arts alumni on LinkedIn, Facebook and Twitter.

ENGINEERING AT ARIZONA STATE UNIVERSITY

The Ira A. Fulton Schools of Engineering, ranked among the top 50 U.S. engineering schools, is home to 390 tenured/tenure-track faculty members more than 30,000 students, making it the largest engineering school in the United States. The Fulton Schools received more than \$119 million in externally funded research awards in

fiscal year 2021. Today, more than 71,500 Fulton Schools alumni are advancing engineering and technology fields in Arizona and around the world.

To produce the engineers and innovations needed to address society's changing demands, we have crafted a visionary blueprint for engineering education that transcends traditional organization around degrees and disciplines and fosters a transdisciplinary approach to teaching and research. The Fulton Schools offers 25 undergraduate and 47 graduate degree programs that encourage interdisciplinary collaboration to develop solutions that will have a lasting impact locally and globally. In addition to online options for degree programs like electrical engineering and software engineering, the Fulton Schools also offers professional development trainings like Six Sigma.

The School of Biological and Health Systems Engineering prepares students to use biomedical and engineering principles and methods to develop instrumentation, materials, diagnostic and therapeutic devices, artificial organs and various other technologies. Our biomedical engineering degree program produces graduates with broad-based training in engineering and the life and natural sciences that focuses on improving the overall quality of global health care. These creative thinkers are excelling at the intersection of biology, engineering and computing to advance human health and quality of life.

The School of Computing and Augmented Intelligence is home to computer engineering, computer science, computer systems engineering, engineering management, industrial engineering, informatics, robotics and autonomous systems, and software engineering degree programs. Our faculty members and students are exploring ways to bring computing, data analytics, cybersecurity, visualization, machine learning and augmented intelligence to bear on decision making, creativity and responsible innovation. We are dedicated to creating new knowledge and technology that contribute to solving the major challenges facing modern society.

The School of Electrical, Computer and Energy Engineering brings together university faculty, students and companies to develop collaborative relationships and solutions. Our computer engineering, electrical engineering, and robotics and autonomous systems degree programs and research efforts are aligned with national and international priorities to address worldwide challenges in energy production and distribution, health care technology and delivery, sustainable development and economic growth, communications technology, information management and global security.

The School for Engineering of Matter, Transport and Energy leverages the synergy of engineering and science to create innovative solutions to society's most pressing problems in energy, human health, public safety, environmental infrastructure and sustainability. We offer degree programs in aerospace engineering, biological design, chemical engineering, materials science and engineering, mechanical engineering, robotics and autonomous systems, and solar energy engineering and commercialization. We have created a unique educational experience with our broad range of disciplines and a world-class faculty engaged in cutting-edge research.

The School of Sustainable Engineering and the Built Environment provides a nexus for education and research that addresses the critical infrastructure needs of our society in an environmentally sound manner. The holistic approach in our degree programs covers the engineering expertise of civil, environmental and sustainable engineering; the design and construction principles of construction engineering; and the project management and leadership skills of construction management.

The Polytechnic School offers a breadth of engineering and technology-related degrees. Students in The Polytechnic School can choose from a wide array of degree programs, including aeronautical engineering, environmental and resource management, graphic information technology, human systems engineering, information technology, and engineering, which includes programs in systems engineering and engineering education systems and design. The Polytechnic School is home to advanced learning laboratories led by faculty members with deep expertise and industry experience.

The School of Manufacturing Systems and Networks is the newest school in the Fulton Schools of Engineering. Located on the Polytechnic campus, one of ASU's central hubs for innovation and design, the School of Manufacturing Systems and Networks is addressing the next-generation engineering challenges that will transform manufacturing systems. With a research portfolio that is inherently multidisciplinary, collaborative and inclusive, students in the School of Manufacturing Systems and Networks will gain knowledge in manufacturing processes, computing technologies, data analytics and managing distributed, digitally-networked manufacturing resource locations.

Ira A. Fulton

Chairman of the Board and CEO, Fulton Homes

Ira A. Fulton, founder and CEO of Arizona-based Fulton Homes, established an endowment of \$50 million in support of ASU's College of Engineering and Applied Sciences in 2003. The college was renamed the Ira A. Fulton Schools of Engineering in his honor. The gift has enabled the Fulton Schools to provide funding for scholarships, fellowships, research programs and investments in faculty — all integral to elevating the position of the Fulton Schools as a highly ranked U.S. program into the ranks of world-class institutions.

“With this endowment, we are building an engine of educational and economic growth that will endure for generations. It is a gift of opportunity, prosperity, social equality and hope.” – Ira A. Fulton

ABOUT MARY LOU FULTON TEACHERS COLLEGE

Mission

ASU's Mary Lou Fulton Teachers College creates knowledge, mobilizes people and takes action to improve education.

MLFTC faculty create knowledge by drawing from a wide range of academic disciplines to gain insight into important questions about the process of learning, the practice of teaching and the effects of education policy.

MLFTC mobilizes people through bachelor's, master's and doctoral degree programs, through non-degree professional development programs and through socially embedded, multilateral community engagement.

MLFTC takes action by bringing people and ideas together to increase the capabilities of individual educators and the performance of education systems.

Core Value: Principled Innovation

Children born today will be shaped by accelerating change in technology, demography and our physical and social environments. The speed and convergence of change across so many dimensions of human experience will shape life in ways that are as profound as they are unpredictable.

For educators and education systems, these facts demand principled innovation that delivers positive social value and prepares children to thrive as individuals and as citizens at local, national and global levels.

Principled innovation is the core value that inspires all our activities: our academic programs; our strategic initiatives; how we teach and learn; and how we engage with one another and with the communities we serve.

Purpose of Principled Innovation

Through our core value of principled innovation, we believe that education should answer to three imperatives:

An Equity Imperative

We need to deliver excellence in education to all learners.

An Economic Imperative

We need to prepare learners for the next economy and equip them for success in the workforce of the future.

A Democratic Imperative

We need to prepare learners to be caring, responsible citizens capable of balancing individual ambition and the public good.

Practice of Principled Innovation

MLFTC has developed an ethical framework for innovation and decision-making that is guided by four character assets:

Moral Character

Empathy, compassion and fairness help us keep sight of the irreducible dignity of all people, especially the youngest, and of the realness of their experience.

Civic Character

The desire to serve and understand others reminds us that we are social beings and that, ultimately, we thrive not by ourselves but in community.

Intellectual Character

Critical thinking and problem-solving keep us honest with ourselves and with one another. They help us acknowledge and resist bias, pursue truth and distinguish fact from opinion.

Performance Character

Initiative, creativity, perseverance, resilience, risk-taking and collaboration help us marry the quality of our actions to the strength of our convictions. They help us navigate uncertainty and transform good intentions into good outcomes.

MARY LOU FULTON (1933 – 2015)

Anyone fortunate enough to have known Mary Lou Fulton — to celebrate with her and take pride in students' accomplishments — is grateful to have had that privilege. So much of what we do at our college is an expression of her commitment to education and to providing the best possible opportunities for the greatest number of people.

MESSAGE TO THE NEW COLLEGE GRADUATES

Congratulations on your extraordinary achievement! The faculty and staff of New College offer our sincere best wishes for your continued personal and professional success. We all look forward to seeing your work in the world; we know you will make your mark as an ASU New College graduate.

ABOUT THE NEW COLLEGE

The New College of Interdisciplinary Arts and Sciences offers a nationally unique environment: a small college experience with the power of ASU's major research university resources. Working one-on-one with our cutting-edge faculty—often through our New College Undergraduate Inquiry and Research Experience program (NCUIRE), our students reshape the boundaries of knowledge in their fields of study. This prepares them for a future of reshaping the world outside of ASU.

New College was founded on a “new” way of thinking about the academy. Instead of reproducing the intellectual silos that separate fields of study in other institutions, our programs have been structured on the notion that if we break down the barriers between fields, we can think in more innovative ways, do more path-breaking work, offer more effective solutions to real-world problems. From our Interdisciplinary

Arts and Performance degree that teaches students many forms of artistic expression and then asks into what mode a concept should be born; to our Forensics degree that brings together fields including chemistry, psychology, and legal studies; to our Social Justice and Human Rights degree that explores sociological, historical, and contemporary cultural analyses of global issues, New College offers educational experiences that transcend more limited ways of thinking about the world.

ABOUT THUNDERBIRD SCHOOL OF GLOBAL MANAGEMENT

Thunderbird School of Global Management is the world's premier institution for global leadership, management, and business education for the Fourth Industrial Revolution, but we are much more than a school. Thunderbird is also a global network of leaders, managers, entrepreneurs, and intrapreneurs across the private and public sectors who advance the School's vision of inclusive and sustainable prosperity worldwide.

Thunderbird has trained global leaders and managers for over 75 years. Originally known as the American Institute for Foreign Trade, Thunderbird was chartered on April 8, 1946, at a World War II airbase in Glendale, Arizona called Thunderbird Field, where pilots from around the world came for training during wartime. General Barton Kyle Yount obtained the airfield with the express purpose of developing a school for professionals focused exclusively on international trade and global affairs. The guiding principle established at Thunderbird's founding is best summarized in a phrase coined by original faculty member Dr. William Lytle Schurz, "Borders frequented by trade seldom need soldiers."

Thunderbird became the world's first-ever higher education institution to focus exclusively on international leadership by concentrating its curriculum on global management and business skills, international political economy and regional business environments, languages and cross-cultural communications. The School has often been called a "mini-United Nations" because of its diverse and inclusive global student body. Thunderbird is now known worldwide for its vast and engaged alumni network of more than 50,000 graduates in nearly 150 nations around the globe. Thunderbird has more than 170 alumni chapters that meet regularly in 70 countries.

In 2015, Thunderbird became a unit of the Arizona State University public enterprise, combining Thunderbird's multi-decade heritage of developing global leaders with ASU's expansive resources. The School relocated to ASU's vibrant Downtown Phoenix campus in 2018. The move brought the world's No. 1 ranked Master's in Management (WSJ/THE) under the umbrella of the nation's No. 1 ranked school for innovation (U.S. News & World Report).

Ushering in the Thunderbird 4.0 era, is the newly opened F. Francis & Dionne Najafi Thunderbird Global Headquarters building, spanning 110,000 square feet over five floors on ASU's Downtown Phoenix campus. The building is designed to bring the world's leading technology directly to the hands of Thunderbird students and faculty. The facility enables students to connect with the world and experience what they seek to learn and study in real time.

Thunderbird's global footprint has also grown over the years as well, with operations now in Geneva, Dubai, Tokyo, Seoul, Nairobi, Jakarta and nearly 15 others, Thunderbird's Center of Excellence regional offices ensure that the School is now the world's first truly "global multinational business school," committed to training the next generation of global leaders.

As the world continues innovating, and technology changes the way we live and work, Thunderbird is developing nimble, ethical, global leaders who can seize the opportunities offered by the Fourth Industrial Revolution to create sustainable prosperity worldwide. **WALTER CRONKITE SCHOOL OF
JOURNALISM AND MASS COMMUNICATION****About the School**

The Cronkite School is widely recognized as one of the nation's premier professional journalism and mass communication programs. Rooted in the time-honored values of accuracy, responsibility, fairness and integrity that characterize its namesake, the school fosters excellence and ethics among students as they master the practical skills they need to succeed in the world of today and tomorrow.

The Cronkite School's 2,500 students, including in-person and online, consistently lead the country in national competitions. Over the past decade, Cronkite has been first in the nation in the Society of Professional Journalists' Mark of Excellence competition and the Broadcast Education Association's Festival of Media Arts awards and has finished in the top 10 in the Hearst Journalism Awards each year.

Students are guided by a faculty made up of award-winning professional journalists, strategic communications executives and world-class media scholars. Cronkite professors include five Pulitzer Prize-winning journalists, digital media thought leaders, top TV producers and correspondents, major metropolitan newspaper editors and strategic communications experts. They are master teachers, writers and scholars who often speak around the globe on the most important topics facing our industries.

The Cronkite School leads the field of mass communication education with its innovative use of the "teaching hospital" method, providing both unparalleled learning opportunities for students and important news content to the community, state, region, nation and around the world.

Students cover public affairs from news bureaus in Phoenix, Los Angeles and Washington D.C., and they report on sports from bureaus in Phoenix and Los Angeles. They conduct national investigations as part of the Howard Center for Investigative Journalism, and they produce multimedia projects on issues of national importance in the Carnegie-Knight News21 program.

Other immersion programs include Cronkite Noticias, in which bilingual students produce Spanish-language broadcast and digital stories; the Public Relations Lab, where they develop campaigns for clients; the Digital Audiences Lab, where they harness social media, SEO and analytics to grow and engage audiences; and the New Media Innovation and Entrepreneurship Lab, where they use emerging media technologies to forge the future of journalism.

Arizona PBS, one of the nation's largest public television stations, serves as a hub for these full-immersion programs, with students producing a nightly newscast that reaches 1.9 million households across the state.

Elsewhere at the school, the Donald W. Reynolds National Center for Business Journalism provides education and training to professional journalists, and Cronkite Global Initiatives fosters partnerships throughout the globe and brings international journalists to the school for study and training. Cronkite also is home to PBS NewsHour West and Indian Country Today, creating enhanced coverage and added student opportunities. ASU's investment in the school has generated national and international attention from educators and media professionals who place the school in the top tier of all U.S. journalism schools, calling it a pioneer in shaping how news is delivered and how people will stay informed in the future.

The Cronkite School is supported by generous individuals, corporations and foundations seeking to help train the next generation of journalists and communication professionals at a pivotal moment of industry transformation and growth. To make a gift today, visit asufoundation.org/cronkite.

About Walter Cronkite

ASU's journalism program was named in honor of former CBS News anchor Walter Cronkite in 1984.

The relationship started when Tom Chauncey, longtime owner of the CBS affiliate in Phoenix and a leading supporter of journalism education at ASU, contacted his old friend in an effort to advance the program. An endowment on behalf of the program was soon established and the school was named after "the most trusted man in America."

Over the next quarter of a century, Cronkite lent much more than his name to the school. He was closely involved — advising leadership, guiding students and faculty, and traveling to Arizona each year to personally give the Walter Cronkite Award for Excellence in Journalism to one of the nation's top journalists. The most important relationship, though, was with "our students," as Cronkite would always call them. Young students, some with parents barely old enough to remember Cronkite behind the anchor desk, lit up when he walked into a classroom. They hung on his every word as he thoughtfully answered their questions about the profession he so loved. They lined up just to shake his hand, and he loved every minute of it.

In what turned out to be Cronkite's last visit to ASU in 2007 before declining health prevented him from traveling, a group of 100 students gathered with just a few minutes of notice that Cronkite was in the building. He held them spellbound as he spoke about covering World War II, Vietnam, Apollo, Watergate and presidents from Truman to Reagan — and of how important "our school" was to him. Although Cronkite died on July 17, 2009, before he was able to visit the new building, he remains an ever-present part of the school's spirit and mission.

About Our Graduates

The Cronkite School has about 16,000 alumni throughout the Valley, across the country and around the world. Many are leaders in television, digital media, newspapers, radio, magazines, public relations and digital marketing.

In 1993, the Cronkite School inducted its first class into the Cronkite Alumni Hall of Fame. The charter inductees were Al Michaels ('66), an Emmy Award-winning sports broadcaster best known for anchoring "Monday Night Football," and Bill Redeker ('71), an ABC News correspondent who covered the Middle East and the Far East during his 30 years with the network.

Other notable Cronkite Alumni Hall of Fame inductees include Matt Barrie ('01), anchor of SportsCenter and studio host of ESPN College Football; Nicole Carroll ('91), editor-in-chief of USA Today; Becky Anderson ('94), CNN International anchor; Julie Cart ('98), Pulitzer Prize-winning Los Angeles Times reporter; Derrick Hall ('91), president and CEO of the Arizona Diamondbacks; Christine Devine ('87), news anchor at FOX 11 in Los Angeles; Mary Kim Titla ('85), founder of Native Youth Magazine; Ray Artigue ('76), president of The Artigue Agency; and Chip Dean ('77), legendary director of ESPN's "Monday Night Football."

**THE NATION’S LEADING
COMPREHENSIVE PUBLIC SERVICE COLLEGE**

The Watts College of Public Service and Community Solutions is a unique, comprehensive public service college dedicated to fully integrating teaching, research and service to address social problems.

PREPARING PUBLIC SERVICE LEADERS FOR LIFELONG LEARNING, EQUIPPED WITH TOOLS TO AFFECT CHANGE

Our degree programs cover the spectrum of public service, including public policy, social work, criminology and criminal justice, nonprofit leadership, emergency management, community development, parks and recreation, and more.

A particular point of pride is that the college is home to ASU's most diverse student body, with the highest percentages of under-represented, college transfer and military veteran students—and one of the largest communities of first-generation college students. Many chose public service because of their own life experiences and firsthand understanding of systems that need improvement. Of equal importance is how this commitment translates into real impact for the communities to which students return.

INTEGRATING TEACHING, RESEARCH AND SERVICE ROOTED IN SOLUTIONS-BASED LEARNING

From day one of their college experience, our students are immersed in hands-on learning through a signature solutions-based pedagogy. They are paired with community partners to tackle real-world problems—both an educational, and service-based experience—delivering more than 600,000 hours of community service each year.

LEADING ASU SERVICE AND POLICY INITIATIVES TO CREATE A MODEL OF A SERVICE-COMMITTED UNIVERSITY

The college serves as a model for ASU's commitment to service—leading university-wide initiatives such as spearheading the first-of-its-kind Public Service Academy, partnering with the Harvard Institute of Politics to increase civic participation through our Pastor Center for Politics and Public Service and leading AmeriCorps programs like Public Allies Arizona, Legacy Corps for Veterans, Safety Planning for Survivors of Domestic Violence and Corporation for National and Community Service Employment Outcomes.

SOLVING PROBLEMS THROUGH COLLABORATION WITH COMMUNITY PARTNERS ACROSS SECTORS

The college brings collaborative ideas into action, working closely with hundreds of government, private and nonprofit partners locally and globally. Through our research and academic expertise, our research centers and offices, individual faculty members and cross-disciplinary teams all have an impact beyond dollars. They also produce training, policy guidance, best practices and direct service.

OUR SCHOOLS AND CROSS-COLLEGE PROGRAMS

The School of Community Resources and Development advances the social, economic, environmental and cultural well-being of our local and global communities through instruction, research and service. We provide nationally recognized interdisciplinary research expertise and innovative academic programs in nonprofit leadership and management, parks and recreation management, therapeutic recreation and tourism development and management.

The School of Criminology and Criminal Justice merges theory and practice. The core of our highly-ranked program—#2 overall by U.S. News & World Report—focuses on the theories of criminality and evidence-based best practices for responding to crime through the lenses of three interrelated structures—policing, courts and corrections—that collectively comprise the criminal justice system.

The School of Public Affairs' mission is to understand and address society's grandest challenges in public management, policy and governance. We seek to maximize our impact through rigorous transdisciplinary research, project-based education, collaborative and inclusive community engagement, experiential learning and innovative solutions. We are ranked consistently among the top 15 public affairs schools in the country with highly rated programs in urban management, environmental policy, nonprofit management and public finance.

One of the largest and most diverse social work programs in the U.S., the *School of Social Work* is motivated by its steadfast commitment to promote social, political and economic justice with a special emphasis on populations of the Southwest. Ranked among the top 10% of social work schools nationwide by U.S. News & World Report, the school prepares professional social work practitioners and scholars who are committed to enhancing individual, family and group problem-solving capacities, maximizing human potential, and creating a more just and humane society.

Our cross-college interdisciplinary programs blend the expertise of our disciplines to create innovative, well-informed approaches to emerging social problems. The emergency management and homeland security program promotes healthier and more vibrant communities through the effective management of hazards and crises. The program evaluation program develops expertise in response to increasing demands for accountability in the public, private and nonprofit sectors. The public safety leadership and administration program prepares graduates for management in the public safety sector with a particular emphasis on emergency medical services, fire and police administration.

RESEARCH AND IMPACT

The College leads the university in the production of research that has system-wide and large-scale impact on myriad social, behavioral, economic and political challenges. Through rigorous applied research, we are developing solutions with the potential to better our response to pressing issues and positively impact our communities locally, nationally and globally.

ABOUT THE W. P. CAREY SCHOOL OF BUSINESS

The W. P. Carey School of Business at Arizona State University is one of the highest-ranked and largest business schools in the United States. The school is internationally recognized for its leadership in business education and for positively impacting the practice, science, and art of management on a national and international scale. The school works to rethink the nature of business, engage the world, and create a better future.

More than 19,000 students attend the W. P. Carey School of Business, including over 2,500 online learners and more than 100 doctoral candidates. The student body is especially diverse, including representatives from over 100 countries.

Each member of the W. P. Carey community, whether on campus or around the globe, aspires to do great things — for themselves and each other. This promise is enshrined in the Carey Code, to contribute to our legacy and live our values of excellence, integrity, impact, and community; to demonstrate that business is personal by treating others with respect and kindness; to advocate for diversity, equity, and inclusion to create stronger organizations and societies; to embrace and exhibit ethical business practices; and to champion fellow Sun Devils and volunteer when and what I can to promote their success.

The W. P. Carey School boasts an acclaimed faculty of more than 200 esteemed tenure and tenure-track faculty, including a Nobel Prize winner. Many faculty members are also on the editorial boards of academic journals and publications. Housed within the school are more than 20 respected research centers, labs, and a research institute, which generate research, knowledge, and information that support academics and business professionals and are internationally recognized for research productivity.

Both the school's graduate and undergraduate programs are ranked among the best in the nation by *U.S. News & World Report*. This year, 31 W. P. Carey programs or disciplines were ranked Top 25, with 13 ranked Top 10 in the nation.

Undergraduate Bachelor of Science degrees are offered in accountancy, business data analytics, business entrepreneurship, computer information systems, economics, finance, management, marketing, and supply chain management.

Undergraduate students also have the option of earning a Bachelor of Arts degree in business with concentrations in business administration, communication, corporate accounting, financial planning, food industry management, global agribusiness, global leadership, global logistics management, global politics, health care, human resources, information security, language and culture, law, public service and public policy, retail management, sports business, statistics, sustainability, technology, and tourism.

The school offers its renowned MBA program in four distinct platforms: Full-time, Evening, Online, and Executive. Master's degrees are available in accountancy and data analytics, business analytics, finance, global logistics, information systems management, innovation and venture development, real estate development, supply chain management, and taxation and data analytics. Doctoral degrees are offered in accountancy, agribusiness, economics, finance, information management, management, marketing, and supply chain management.

The W. P. Carey alumni network spans the globe. Our alumni represent highly regarded companies from diverse industries, including manufacturing, technology, retail, banking, accounting, entertainment, and food, as well as entrepreneurial firms and respected nonprofit organizations.

(EVMS) Leading to Enhanced Project and Program

Management Integration and Performance

Chair: George E. Gibson, School of Sustainable

Engineering and the Built Environment

Anastasia Sergeevna Arrington *Chemistry*

Dissertation: Incorporation of Sustainability into

Copolymer Design

Chair: Timothy E. Long, Biodesign Institute

Peyman Asadzadehmamaghani *Political*

Science

Dissertation: Diplomatic Support for Protest

Movements: Causes and Consequences

Co-Chairs: Cameron G. Thies, School of Politics

and Global Studies; Timothy Michael Peterson,

School of Politics and Global Studies

Jorge Luis Ballesteros *Counseling*

Psychology

Dissertation: Block and Tackle or Interfere:

Student-Athletes Identities and Well-Being

Chair: Cristalis Capielo, College of Integrative

Sciences and Arts

Kaustav Basu *Computer Science*

Dissertation: Identifying Sources of Anomalies

in Complex Networks

Chair: Arunabha Sen, School of Computing

and Augmented Intelligence

Vikrant Kumar Beura *Materials Science*
and Engineering

Dissertation: Role of Non-Equilibrium

Processing Induced Microstructural Variation

on Corrosion Behavior of Light-Weight Alloys

Chair: Kiran N. Solanki, School for Engineering

of Matter, Transport and Energy

Pritha Bisarad *Chemistry*

Dissertation: Exploring the Sequence vs. Binding

Relationships for Monoclonal Antibodies and

Other Proteins

Chair: Neal Walter Woodbury, Biodesign Institute

- Ryan Michael Brosch** *Physics*
Dissertation: Transport Theory and Inelastic Nuclear Scattering for Proton Radiotherapy
Co-Chairs: Peter Rez, Physics Department; Ricardo O. Alarcon, Physics Department
- Andrew Gordon Brown** *Justice Studies*
Dissertation: Fountain of Youth: Surviving Institutional Child Abuse and the Movement to Abolish the Troubled Teen Industry
Chair: Helen Lan Quan, School of Social Transformation
- Noa Bruhis** *Human and Social Dimensions of Science and Technology*

Dissertation: What Do You Want Me To Do? Addressing Model Differences for Human-Aware Decision-Making from a Learning Perspective
Chair: Yu Zhang, School of Computing and Augmented Intelligence

Hyunrang Han *Community Resources and Development*

Dissertation: The Roles, Impacts, and Institutional Characteristics of Grantmaking Foundations Supporting Women's Causes in the U.S.
Chair: Lili Wang, School of Community Resources and Development

Dianqi Han *Computer Engineering (Electrical Engineering)*

Dissertation: IoT Security in the Era of Artificial Intelligence
Chair: Yanchao Zhang, School of Electrical, Computer and Energy Engineering

Xu Han *Electrical Engineering*

Dissertation: Radiation Effects on In-Memory Computing Architectures
Chair: Hugh James Barnaby, School of Electrical, Computer and Energy Engineering

Santosh Mudigundam Harish *Astrophysics*

Dissertation: Observational Studies of Emission Line Galaxies in the Near and Distant Universe
Co-Chairs: Daniel C. Jacobs, School of Earth and Space Exploration; James Rhoads, School of Earth and Space Exploration

Amm Golam Hasib *Mechanical Engineering*

Dissertation: Understanding the Role of Rheology on Binder-Based Metal Additive Manufacturing of Solid and Porous Metals
Co-Chairs: Bruno Pavanelli Azeredo, School of Manufacturing Systems and Networks; Kenan Song, School of Manufacturing Systems and Networks

Linsi He *Community Resources and Development*

Dissertation: Place Representation through Souvenir Production and Consumption
Chair: Dallen J. Timothy, School of Community Resources and Development

Zhibing He *Statistics*

Dissertation: Statistical Inference for Multiple Change Points and Implicit Network Structures
Co-Chairs: Dan Cheng, School of Mathematical and Statistical Sciences; Yunpeng Zhao, School of Mathematical and Natural Sciences

Lena Elizabeth Heffern *Exploration Systems Design (Instrumentation)*

Dissertation: Strange New Worlds: Development of Active Nuclear Technologies and Techniques for Planetary Science Applications
Chair: Craig J. Hardgrove, School of Earth and Space Exploration

Zach Hilgendorf *Geography*

Dissertation: Landscape Evolution In Response to Dynamic Coastal Dune Restoration: Case Studies from the California Coast
Chair: Ian Walker, School of Geographical Sciences and Urban Planning

Md Ashif Iqbal *Electrical Engineering*

Dissertation: Development of Plasmonic Nanoparticle Based Portable, Low-Cost, Versatile Electronic Readout Biosensor for Reliable Detection of Infectious Diseases, Small Molecule, and Eptiope-Specific Quantification of COVID Antibodies
Chair: Chao Wang, School of Electrical, Computer and Energy Engineering

Julia Ilkova Ivanova *Anthropology*

Dissertation: Parental Perceptions of Child Mental Health Stigma Mixed-Method Study
Chair: Jonathan Nathaniel Maupin, School of Human Evolution and Social Change

Diana Leigh Jenkins *Family and Human Development*

Dissertation: Emerging Adults' Romantic Relationship Outcomes: The Impact of Masculinity Ideology and Gender Role Conflict
Chair: Carol Lynn Martin, T. Denny Sanford School of Social and Family Dynamics

Chelsea Kae Johnson *Human Systems Engineering*

Dissertation: Decision-Making Biases in Cybersecurity: Measuring the Impact of the Sunk Cost Fallacy to Delay and Disrupt Attacker Behavior
Chair: Robert Samuel Gutzwiller, Ira A. Fulton Schools of Engineering

Connor Brian Jones *Psychology*

Dissertation: Proximal Antecedents and Subjective Effects of Cannabis use and Their Relation to Cannabis Use Disorder: An Ecological Momentary Assessment of Medical Cannabis Users
Chair: Madeline Hogan Meier, Psychology

Hey Jie Jung *Public Administration and Policy*

Dissertation: How Included are You in Your Workplace?: The Effects of Different Social Structures on Perceived Inclusion
Chair: Eric W. Welch, School of Public Affairs

Aigerim Kamzina *Molecular and Cellular Biology*

Dissertation: Plant-Derived HIV-1 VLPs as Vaccine Candidates and as Antigen Presentation Platforms
Chair: Tzafir Shlomo Leket-Mor, Biodesign Institute

- Andrey Kanygin** *Biochemistry*
Dissertation: Engineering the Next-Generation Type I Reaction Centers Specializing in H₂ Production In Vivo
 Chair: Kevin Edward Redding, School of Molecular Sciences
- Aleksandar Lazaric** *Chemistry*
Dissertation: Disentangling the Spatial Resolution of Changes in Solvation Free Energy Using Explicit Solvent Molecular Dynamics Simulations
 Chair: Bjorn Matthias Heyden, School of Molecular Sciences
- Sameeksha Katoch** *Electrical Engineering*
Dissertation: Effective Prior Selection and Knowledge Transfer for Deep Learning Applications
 Co-Chairs: Andreas Savva Spanias, School of Electrical, Computer and Energy Engineering; Pavan Kumar Turaga, School of Arts, Media and Engineering
- Rebecca Brin Leach** *Communication*
Dissertation: Collective Compassion: How Structures and Agency Influence Individual, Group, and Organizational Compassion in Healthcare Organizations
 Co-Chairs: Alaina Zanin, Hugh Downs School of Human Communication; Sarah Jane Tracy, Hugh Downs School of Human Communication
- Ramin Kaviani** *Electrical Engineering*
Dissertation: Enhanced Energy Management System Including Detection Mechanisms and Post-Attack Corrective Actions Against Load-Redistribution Attacks
 Chair: Kory W. Hedman, School of Electrical, Computer and Energy Engineering
- Ashley Lenz** *Spanish Linguistics*
Dissertation: Talking with the "Spanish Kids": Experiences and Language Ideologies of Dual Language Graduates in Illinois
 Co-Chairs: Alvaro Ulises Cerron-Palomino, School of International Letters and Cultures; Marta Teedor Cabrero, School of International Letters and Cultures; Sara Mariel Beaudrie, School of International Letters and Cultures
- Khaled Hassan Abdo Khafagy** *Mechanical Engineering*
Dissertation: High-Fidelity Multiscale Modeling and In-Situ Experiments of Advanced Aerospace Composites in Extreme Environments
 Chair: Aditi Chattopadhyay, School for Engineering of Matter, Transport and Energy
- Haoran Li** *Electrical Engineering*
Dissertation: Physical System Knowledge Extraction and Transfer Using Machine Learning
 Chair: Yang Weng, School of Electrical, Computer and Energy Engineering
- Joohyung Kim** *Business Administration (Management)*
Dissertation: Understanding How Individuals Deal with Paradoxical Tensions Through Ambivalence Theory: The Case of Technology Transfer Among Federal Laboratory Scientists
 Co-Chairs: Blake Ashforth, W. P. Carey School of Business; David A. Waldman, W. P. Carey School of Business
- Longfeng Li** *Family and Human Development*
Dissertation: The Development of Healthy Lifestyle Behaviors Among US Children: Early Predictors and Associated Outcomes
 Chair: Carlos E. Valiente, T. Denny Sanford School of Social and Family Dynamics
- Javeed Kittur** *Engineering Education Systems and Design*
Dissertation: Understanding Factors Influencing Online Undergraduate Engineering Students' Persistence Decisions
 Co-Chairs: Jennifer McNeill Bekki, Ira A. Fulton Schools of Engineering; Samantha Ruth Brunhaver, Ira A. Fulton Schools of Engineering
- Rui Li** *Civil, Environmental and Sustainable Engineering*
Dissertation: Advancing Transportation Climate Vulnerability Assessment Across Infrastructure and Travel Behavior
 Chair: Mikhail Chester, School of Sustainable Engineering and the Built Environment
- Mary W. Kiura** *Communication*
Dissertation: Toward Reconceptualizing Constructive Employee Voice: Understanding the Process of Voicing in the Renewable Energy Industry in Kenya
 Chair: Heewon Kim, Hugh Downs School of Human Communication
- Weizhi Li** *Computer Engineering (Computer Systems)*
Dissertation: Modeling and Exploiting the Structure of Data via Meta-Features for Robust and Efficient Machine Learning
 Co-Chairs: Gautam Dasarathy, School of Electrical, Computer and Energy Engineering; Visar Shahin Berisha, School of Electrical, Computer and Energy Engineering
- Viswanathan Naveen Kumar** *Electrical Engineering*
Dissertation: Modeling Electrostatics and Low-Field Electron Mobility in GaN FinFETs
 Chair: Dragica Vasilevska, School of Electrical, Computer and Energy Engineering
- Nivedita Mahesh** *Astrophysics*
Dissertation: Impact of Low-Frequency Antenna Characteristics on Observations of Cosmic Dawn with EDGES and FAR SIDE
 Chair: Judd David Bowman, School of Earth and Space Exploration

Patrick Don Manapat *Psychology*
(*Quantitative Research Methods*)

Dissertation: Exploring Heterogeneity in Factor Analytic Results
Co-Chairs: Michael C. Edwards, Psychology;
Samantha F. Anderson, Psychology

Laura Victoria Martinez *Communication*

Dissertation: Circus Hurts: Exploring Occupational Identification and Socialization to Pain Work Among Aerial Acrobats
Co-Chairs: Alaina Zanin, Hugh Downs School of Human Communication; Sarah Jane Tracy, Hugh Downs School of Human Communication

Wilmer Osvaldo Martinez Rivera *Statistics*

Dissertation: Estimation for Disease Models Across Scales
Chair: John Fricks, School of Mathematical and Statistical Sciences

Kristen Marie McCowan *Law and Psychology*

Dissertation: Moral Foundations and Prejudicial Evidence: Helping Jurors Adhere to Jury Instructions
Chair: Tess Neal, School of Social and Behavioral Sciences

Griffin Cooper McCutcheon *Biological Design*

Dissertation: Phage-Enabled Nanotechnology and Novel Sensing Architectures in Ribodevices
Chair: Alexander Green, Biodesign Institute

Samuel Cullen McGee *Speech and Hearing Science*

Dissertation: Bilingual Subtypes and Individual Bilingual Experiences Using Latent Variable Modeling; Latent Profile Analysis and Fuzzy Set Qualitative Comparative Analysis with the Language and Social Background Questionnaire
Chair: Tamiko Azuma, College of Health Solutions

Venkata Vamsikrishna Meduri *Computer Science*

Dissertation: Human-in-the-Loop Machine Learning Systems for Data Integration and Predictive Analytics
Chair: Mohamed Sarwat Abdelghany Aly Elsayed, School of Computing and Augmented Intelligence

Md Jamal Mian *Aerospace Engineering*

Dissertation: Mechanical Behaviors at Elevated Temperature and Fatigue Strength Analysis of E-Beam PBF Additively Manufactured Ti6Al4V Components
Chair: Leila Jannesari Ladani, School for Engineering of Matter, Transport and Energy

Jordan Lynn Miller *Computer Science*

Dissertation: "Can I consider you my friend?" Moving Beyond One-Sided Conversation in Social Robotics
Chair: Troy Lee McDaniel, School of Computing and Augmented Intelligence

Karen Vanessa Montaña Martinez *Electrical Engineering*

Dissertation: Detailed Primary and Secondary Distribution System Modeling and Validation of Feeders, Loads, and Distributed Energy Resources Using Field Measurements
Chair: Vijay Vittal, School of Electrical, Computer and Energy Engineering

Stephanie Jean Morse *Criminology and Criminal Justice*

Dissertation: Doing Well While Doing Time: Incarceration and the Meaning of Positive Adjustment to Harmful Spaces
Chair: Kevin A. Wright, School of Criminology and Criminal Justice

Chirasree Mukherjee *Political Science*

Dissertation: How Diverse Is Religion's Influence on Intractable Conflicts?
Chair: George Thomas, School of Politics and Global Studies

Mainak Mukhopadhyay *Physics*

Dissertation: Neutrinos and Quantum Fields in the Universe
Chair: Cecilia Lunardini, Physics Department

Sameer Nekkhalpu *Electrical Engineering*

Dissertation: Improved Distribution Feeder and Load Modeling in Power Systems Using Electro Magnetic Transient Models
Chair: Vijay Vittal, School of Electrical, Computer and Energy Engineering

Diego Erick Novoa *Civil, Environmental and Sustainable Engineering*

Dissertation: The Impacts of Endocrine-Disrupting Chemicals on Bacteria and Their Influences on the Cycling of Emerging Contaminants and Antibiotic Resistant Efflux Pump Proteins in Engineered Microbial Environments
Chair: Otakuye Conroy-Ben, School of Sustainable Engineering and the Built Environment

Valeria Alejandra Ochoa *Spanish Linguistics*

Dissertation: Centering Indigenous Instructors and Learners in the Field of Spanish as a Heritage Language
Chair: Sara Mariel Beaudrie, School of International Letters and Cultures

Angela Maria Oill *Evolutionary Biology*

Dissertation: Assessment of Genetic Variation in Globally Diverse Human Populations and its Implications for Human Health and Disease
Co-Chairs: Anne C. Stone, School of Human Evolution and Social Change; Melissa Ann Wilson, School of Life Sciences

Pablo Alberto Ortega Poveda *Political Science*

Dissertation: A Theory on the Rise and Fall of Resistance in Civil Wars
Co-Chairs: Reed Morrison Wood, School of Politics and Global Studies; Thorin Wright, School of Politics and Global Studies

Iman Parsa *Business Administration*
(*Supply Chain Management*)

Dissertation: Essays in Humanitarian Operations Management
Chair: Mahyar Eftekhari, W. P. Carey School of Business

Kyla Pria Pasha *Religious Studies*

Dissertation: The Disoriented Worshipper: Namaz, Jamat, and Livable Life
Chair: Shahla Talebi, School of Historical, Philosophical and Religious Studies

Melissa A. Pierce *Speech and Hearing Science*

Dissertation: Preschool Intervention for Embodied Storytelling (PIES): Using Drama to Enhance Language Skills at Storytime
Chair: Maria Adelaida Restrepo, College of Health Solutions

Erik Alexander Poppleton *Biological Design*

Dissertation: Software Tools for Design, Simulation and Characterization of DNA and RNA Nanostructures
Chair: Petr Sulc, Biodesign Institute

Jyothis Anand Prem Anand Jayaprabha
Mechanical Engineering

Dissertation: The Importance of Radiative Properties of Rooftop Materials in Affecting Building Thermal Performance and the Resulting Impact on Urban Climates
Co-Chairs: David J. Sailor, School of Geographical Sciences and Urban Planning; Patrick E. Phelan, School for Engineering of Matter, Transport and Energy

Benjamin Conrad Pyenson *Biology*

Dissertation: Caste-Specific and Social Determinants of Dominance Behavior in a Ponerine Ant
Chair: Juergen Roland Liebig, School of Life Sciences

Mohammad Towshif Rabbani *Biochemistry*

Dissertation: Manipulation of Nano-Rods and Biomolecules with Insulator-Based Dielectrophoresis
Chair: Alexandra Ros, School of Molecular Sciences

Adnan Siraj Rakin *Computer Engineering*
(*Electrical Engineering*)

Dissertation: Exploration of Security and Privacy Challenges Through Adversarial Weight Perturbation in Deep Learning Models
Chair: Deliangu Fan, School of Electrical, Computer and Energy Engineering

Rajagopalan Ramesh *Aerospace Engineering*

Dissertation: Study of Optical and Radiative Properties of Inhomogeneous Metallic Structures
Co-Chairs: Bruno Pavanello Azeredo, School of Manufacturing Systems and Networks; Liping Wang, School for Engineering of Matter, Transport and Energy

Roberto Rentería *Counseling Psychology*

Dissertation: Intersectional Discrimination, Psychological Distress, and Physical Health Symptoms Among Latinx Sexual Minority Adults
Chair: Cristalis Capielo, College of Integrative Sciences and Arts

Mark Christian Reynolds *Microbiology*

Dissertation: Characterization and Manipulation of Microbiomes from Arid Landfills for Improved Methane Production
Co-Chairs: Hinsby Cadillo-Quiroz, School of Life Sciences; Rosa Krajmalnik-Brown, Biodesign Institute

Tyler Richey-Yowell *Astrophysics*

Dissertation: A Photometric and Spectroscopic Analysis of the High-Energy Evolution of K Stars
Chair: Evgenya Shkolnik, School of Earth and Space Exploration

Inam Mahdi Ridha *Biomedical Engineering*

Dissertation: Development and Implementation of an Automated Multiplexed Method to Study Genome-Wide DNA Methylation
Co-Chairs: Joshua LaBaer, Biodesign Institute; Vel Murugan, Biodesign Institute

Amanda Katherine Riske *Learning, Literacies and Technologies*

Dissertation: Understanding Teacher Professional Knowledge and Pedagogical Practices for Data-Driven Decision Making
Co-Chairs: Fabio Augusto Milner, School of Mathematical and Statistical Sciences; Steven J. Zunker, Mary Lou Fulton Teachers College

Morteza Rouhani *Applied Mathematics*

Dissertation: Model-Based Investigations of Peripheral Nerve Stimulation Using Longitudinal Intrafascicular Electrodes
Co-Chairs: James Abbas, Biodesign Institute; Sharon Marie Crook, School of Mathematical and Statistical Sciences

Sohini Roy *Computer Science*

Dissertation: Vulnerability Analysis and Protective Measures for the Design of a Secure, Resilient and Cost-Effective Smart Grid System
Chair: Arunabha Sen, School of Computing and Augmented Intelligence

Mehak Sachdeva *Geographic Information Science*

Dissertation: Advances in Local Multiscale Modeling in a Regression Framework
Chair: Stewart Fotheringham, School of Geographical Sciences and Urban Planning

Susan Sajadi *Engineering Education Systems and Design*

Dissertation: Understanding Adaptability in the Engineering Field
Chair: Samantha Ruth Brunhaver, Ira A. Fulton Schools of Engineering

Muhammad Bilal Saleem *Electrical Engineering*

Dissertation: Localizing Solar Power in Different Distribution Grid Feeders and Identification of the Meter-Transformer Connectivity
 Chair: Yang Weng, School of Electrical, Computer and Energy Engineering

Amir Salimi Lafmejani *Electrical Engineering*

Dissertation: Decentralized Motion Planning for Autonomous Multi-Agent Systems: Multi-Segment Manipulators and Mobile Robot Collectives
 Co-Chairs: Konstantinos Tsakalis, School of Electrical, Computer and Energy Engineering; Spring Melody Berman, School for Engineering of Matter, Transport and Energy

Angguntari Ceria Sari *Political Science*

Dissertation: Political Elites apostrophe Views of Regional Intergovernmental Institutions Promoting Democracy Colon Evidence From a Survey Experiment
 Co-Chairs: Cameron G. Thies, School of Politics and Global Studies; Thorin Wright, School of Politics and Global Studies

Jacob Schichtel *Mechanical Engineering*

Dissertation: Fundamental Investigations into the Properties and Performance of Advanced Materials
 Chair: Aditi Chattopadhyay, School for Engineering of Matter, Transport and Energy

Shruti Sharma *Materials Science and Engineering*

Dissertation: Thermo-Mechanical Behavior of Hierarchical and Nanocrystalline Ni-Y-Zr Alloys
 Chair: Pedro D. Peralta, School for Engineering of Matter, Transport and Energy

Sarath Sreedharan *Computer Science*

Dissertation: Foundations of Human-Aware Explanations for Sequential Decision-Making Problems
 Chair: Subbarao Kambhampati, School of Computing and Augmented Intelligence

Thiago Stangherlin Barbosa *Civil, Environmental and Sustainable Engineering*

Dissertation: Experimental Characterization of Sorbents for Direct Air Capture of Carbon Dioxide
 Chair: Klaus S. Lackner, School of Sustainable Engineering and the Built Environment

Eric Stribling *Innovation in Global Development*

Dissertation: "A University with Better Roots": Tracing the Public Value of Engineering Universities in Cameroon
 Chair: Mary Jane C. Parmentier, School for the Future of Innovation in Society

Jiashen Tian *Mechanical Engineering*

Dissertation: Investigating the Solid Oxide Fuel Cell Anode Degradation Mechanism Under Siloxane Contamination
 Chair: Ryan James Milcarek, School for Engineering of Matter, Transport and Energy

Rodrigo Sebastian Ulloa Correa *Industrial Engineering*

Dissertation: Development of Tools for Planning and Coordinating Small Farmers as a Response to Market Opportunities
 Chair: Jesus R. Villalobos, School of Computing and Augmented Intelligence

Ramin Vakili *Electrical Engineering*

Dissertation: Analytical Approaches for Offline/Online Assessment of Protection System Behavior and Identification of Critical Protection System in Transient Stability Studies
 Chair: Mojdeh K. Hedman, School of Electrical, Computer and Energy Engineering

Annika Vannan *Neuroscience*

Dissertation: Coding and Non-Coding RNA Expression in Rodent Models of Cocaine Craving
 Co-Chairs: Janet Leigh Neisewander, School of Life Sciences; Melissa Ann Wilson, School of Life Sciences

Rohit Nihar Uttam Voleti *Electrical Engineering*

Dissertation: Addressing the Challenges of Automated Speech and Language Analysis for the Assessment of Mental Health and Functional Competency
 Co-Chairs: Julie M. Liss, College of Health Solutions; Visar Shahin Berisha, School of Electrical, Computer and Energy Engineering

Vladislav Voziyanov *Biomedical Engineering*

Dissertation: A Study of Factors Affecting the Safety and Efficacy of Neuromodulation Devices
 Chair: Jitendran Muthuswamy, School of Biological and Health Systems Engineering

Melissa Jeanne Maria Walsh *Speech and Hearing Science*

Dissertation: New Approaches to Characterizing Brain Sex Differences in Autism: Insights into the Autism Sex Bias
 Chair: Brittany Blair Braden, Psychology

Sherri Wasserman *Human and Social Dimensions of Science and Technology*

Dissertation: Constructing Survival: Collaborative Imaginations in the Face of Social-Ecological-Technical Uncertainty
 Chair: Cynthia Lea Selin, School of Sustainability

Eric Andrew Wilson *Biochemistry*

Dissertation: Integrative Computational Immunology: From Molecules to Mortality
 Co-Chairs: Abhishek Singharoy, School of Molecular Sciences; Karen S. Anderson, Biodesign Institute

Laura Kathryn Winstone *Psychology*

Dissertation: Laying the Groundwork: Dynamic Associations Between Physiological and Social Roots of Executive Function Development in a Latent Change Score Framework
 Chair: Linda J. Luecken, The College of Liberal Arts and Sciences

- Jianfeng Wu** *Computer Science*
 Dissertation: *Mining Associations Between MRI Morphometry Measurements and Beta-Amyloid/tau Burden*
 Chair: Yalin Wang, School of Computing and Augmented Intelligence

 Dissertation: *Methods for Multiclass Geospatial Data Visualization*
 Chair: Ross Maciejewski, School of Computing and Augmented Intelligence
- Yan Zhang** *Computer Engineering (Electrical Engineering)*
 Dissertation: *Trustworthy IoT Sensing-as-a-Service*
 Chair: Yanchao Zhang, School of Electrical, Computer and Energy Engineering
- Xinyu Zhao** *Industrial Engineering*
 Dissertation: *Hierarchical Sequential Event Prediction and Translation from Aviation Accident Report Data*
 Chair: Hao Yan, School of Computing and Augmented Intelligence

DOCTOR OF BEHAVIORAL HEALTH

Jasmine Nicole Burns — *Behavioral Health*
(*Management*)

DOCTOR OF BUSINESS ADMINISTRATION

Yifan Zhu — *Global Financial Management*
Dissertation: The Impact of Fund Managers’
Education on the Performance of Private Equity
Funds They Manage
Chair: Zhan Shi, W. P. Carey School of Business

DOCTOR OF EDUCATION

Nicole Mason — *Leadership and Innovation*
Dissertation: Enhancing Career Decision
Self-Efficacy and Navigational Capital While
Preparing for a High School Internship
Chair: Ying-Chih Chen, Mary Lou Fulton

COLLEGE OF GLOBAL FUTURES

EXECUTIVE MASTER OF SUSTAINABILITY LEADERSHIP

Elvy N. Barton	Camey Johnson	Rhianna Lee Milligan
Lindsey Anne Bornstein	Marla Christine Kasper	Jason Matthew Nash
Nina M. Dolishny Regan	Kayla Maureen Lee	Elise Marie Langiano Ruiz
David Alexander Hurst	Renee J. Loveland	Holly Vogt

MASTER OF SCIENCE

Rashad Hussein Ahmed Al-Khmisy— <i>Global Technology and Development</i>	Jason T. Morgan— <i>Global Technology and Development</i>
Sidney Marie Brandhorst— <i>Sustainability</i>	Cameron James Petersen— <i>Sustainable Food Systems</i>
Naomi Shilo Cadena— <i>Biomimicry</i>	Mary Rochelle— <i>Sustainable Food Systems</i>
Chitra Lakshmi Dwarka— <i>Biomimicry</i>	Toby Ananda Shulruff— <i>Public Interest Technology</i>
Jimie Celia Holder Ortiz— <i>Global Technology and Development (Applied International Development)</i>	Danthi Trieu Tran— <i>Biomimicry</i>
Sophia Jendrzejewski— <i>Global Sustainability Science</i>	Kathleen Anne Yetman— <i>Sustainable Food Systems</i>
Mackenzie Jewel Martinez— <i>Sustainable Food Systems</i>	Maria Isabel Yoder— <i>Sustainable Food Systems</i>

MASTER OF SCIENCE AND TECHNOLOGY POLICY

Mitsushi Suzuno	Rebecca Tiernan

The Moeur Award is Arizona State University's oldest, continuing honor. It was established in 1901 by Dr. Benjamin B. Moeur and Honor Anderson Moeur, and is now sponsored annually by the Arizona State University Alumni Association. The award is presented at each Commencement ceremony to those individuals who have attained the highest academic standing in any four-year curriculum during their undergraduate years at ASU. All courses of the curriculum must be completed at ASU.

THE ARIZONA STATE UNIVERSITY MACE AND PRESIDENT'S CHAIN OF OFFICE

In Medieval times, a mace was a hand-to-hand combat weapon. In about the year 1400 A.D., a mace evolved from a weapon to a ceremonial instrument used by academicians in rituals such as commencement and inaugurations. The oldest known ceremonial mace was that of the Faculty of Common Law of St. Andrew University in Scotland, used in 1438.

The Mace and Chain of Office are presented only at ceremonies in which faculty members are in full academic regalia, such as the Inauguration of the ASU President, University Commencement, Faculty Assemblies, Regents' and President's Professor Induction Ceremonies and Convocation.

The Mace is carried at the head of the procession and laid in a cradle, thus signifying the formal onset of the ceremony.

ASU's ceremonial mace and chain of office was created in observance of ASU's Centennial in 1985. Handcrafted by ASU Professor of Art, David Pimentel (1943-2004), the mace and chain was created with "austere elegance and traditional southwestern motifs." In keeping with these directions, Professor Pimentel constructed both items out of materials native to Arizona. The ASU Mace is a wood staff, approximately three and a half feet long, weighing eight pounds and made of hollowed and polished Mesquite.

The head of the ASU Mace has four sterling silver blades and is banded with copper, Morenci turquoise, and a silver ring on which the words Arizona State University are embossed. The turquoise inlay was cut and polished by Navajo jeweler Richard Charlie of Mesa. The ASU seal is embossed in silver on the heel of the mace.

The President's Chain of Office includes a silver rope woven from strands of hand-turned links, which holds a medallion six inches in diameter that reverses to reveal the ASU seal in gold on one side and the same in silver and turquoise on the other.

COLLEGE MARSHALS FALL 2022

College Marshals consist of selected faculty members from each college at all ASU campuses. Selection criteria is left to the individual colleges, but faculty who have recently won awards or have received special recognition are given primary consideration.

Barrett, The Honors College — Sarah R. Graff is an Honors Faculty Fellow and Teaching Professor. She is an accomplished teacher, researcher and mentor. Dr. Graff is an anthropological archaeologist focusing on early economies and social relationships connected to city life and material exchange. She is affiliated faculty with the School of Human Evolution and Social Change, The Center for the Study of Religion and Conflict, and the Melikian Center for Russian, Eurasian and East European Studies. She is also a Senior Global Futures Scientist, and co-director of the Barrett College Research Fellows program, the largest undergraduate research program in the country.

College of Global Futures — Dr. Lauren Keeler is a assistant professor at the School for the Future of Innovation in Society. She is an interdisciplinary scholar whose work draws on perspectives from sustainability science, science and technology studies, futures studies, and game design to inform her work on futures of sustainability and climate change and responsible innovation. Dr. Keeler has presented demonstrated outstanding leadership in her current role as chair of the undergraduate program at SFIS. Through her excellence in research, teaching, service, and public engagement activities, Dr. Keeler embodies ASU's Charter and Design Aspirations and the mission of the College of Global Futures.

College of Health Solutions — Dr. Rachel Larson is a Teaching Assistant Professor in Sports Science and the Program Director for the Masters in Strength and Conditioning degree in the College of Health Solutions at Arizona State University. Larson is a Certified Strength and Conditioning Specialist (CSCS,*D) and a Tactical Strength and Conditioning Facilitator (TSAC-F,*D) through the National Strength and Conditioning Association(NSCA). As a strength and conditioning coach, Larson has worked with a myriad of athletes & tactical populations over the past 13 years. Her current research focus is on a large scale DoD funded project for readiness and cross-cutting prevention in the military.

College of Integrative Sciences and Arts — Shillana Sanchez is an Associate Teaching Professor of English on the Downtown Phoenix campus where she helps to coordinate the Antiracist Teaching Assessment Practicum for her colleagues. She supports programs for student success through her involvement with Upward Bound and Early Start. She serves as the First Year Composition Coordinator for the Downtown Phoenix and Polytechnic campuses. Dr. Sanchez is an Affiliate Faculty and Teaching Faculty Fellow with the Center for the Study of Race and Democracy. Aside from teaching First Year Composition courses, Dr. Sanchez teaches literature; Lord of the Rings: Study in Fan-Fiction; Fairy Tales and Modern Retellings.

The College of Liberal Arts and Sciences — Zachary Shaffer, PhD is an instructor for ASU's School of Life Sciences who was recently awarded the ASU CLAS Outstanding Instructor award for 2022. A teacher of large (often 300+ student) introductory biology classes, Shaffer is also a researcher focusing on the biology of social insects (ants, bees, and wasps). A proud Sun Devil, Shaffer earned both his master's degree and PhD at ASU.

Edson College of Nursing and Health Innovation — Leslie Morgan is a Clinical Assistant Professor in the Edson College of Nursing and Health Innovation. She teaches full-time in the Health Care Compliance and Regulations program and is also currently serving as Interim Program Director. She holds a CHC certification from HCCA in Health Care Compliance and maintained a CCS Certified Coding Specialist certification from AHIMA for 16 years. She is an active member of both organizations. A health care compliance professional by training, she has overseen health care compliance in multiple settings including hospital, physician clinics, lab and research.

Herberger Institute for Design and the Arts — Professor Cala Coats is a practitioner and a scholar who has garnered impressive national recognition in the field of art education. Her teaching is innovative, interdisciplinary and demonstrates excellence with a dedicated commitment to student success and well-being. She is the co-creator of “Designing the Pluriversity” an active site where artists, educators, scholars, and activists engage together in the development of a global curriculum. She received both the 2021 Pacific Region Higher Education Art Educator Award from the National Art Education Association and the 2020 Higher Education Division Outstanding Art Educator Award from the Arizona Art Education Association.

Ira A. Fulton School of Engineering — Dr. Giulia Pedrielli is an Associate Professor of Industrial Engineering in the School of Computing and Augmented Intelligence. In 2021, she received the prestigious NSF CAREER award for her research on improving optimization methods of single-use scalable individualized manufacturing systems for the biopharmaceutical industry of the future. Her research investigates new methods that make highly personalized products feasible and economically viable. Her research impact also includes better decision tools in the fight against COVID-19 and other pandemics through NSF RAPID and NSF Smart and Connected Communities grants.

Mary Lou Fulton Teachers College — Iveta Silova is Professor and Associate Dean of Global Engagement at Mary Lou Fulton Teachers College. Her research focuses on building transcultural and transdisciplinary foundations for re-envisioning education futures toward planetary sustainability. She teaches graduate courses in comparative and international education, education policy, and decolonial perspectives in education research design. She supervises undergraduate and graduate students undertaking research in the areas of globalization and knowledge transfer; post-socialist and post-colonial transformations; nature-culture interactions; as well ecofeminism and environmental sustainability. Professor Silova co-leads a Regional Center of Expertise on Education for Sustainable Development as a part of the United National University global network.

He is also a professor of community development in the School of Community Resources and Development within the Watts College of Public Service and Community Solutions at ASU. His expertise rests in advancing community quality of life by building innovative inter-generational partnerships among businesses, government, non-profit and community service organizations. Professor Knopf's passion rests in community service. He treasures the opportunity to help communities grow into ideal places for all generations to live, work and play.

W. P. Carey School of Business — Carola Grebitus is an associate professor and Dean's Council Distinguished Scholar at the W. P. Carey School of Business. Her research is focused on modeling consumers' food choices in general, and consumers' decision strategies in particular. She teaches courses in *Food Product Innovation and Development*, and *Behavioral and Experimental Economics* and serves as advisor for the Sigma Alpha Sorority within the Morrison School of Agribusiness. Dr. Grebitus was the recipient of the 2022 Huizingh Outstanding Undergraduate Service to Students Award and the 2022 Centennial Professorship Award, which recognizes ASU faculty for academic excellence, community service, and enrichment of students' academic experience.

HISTORY OF THE ACADEMIC COSTUME

The present-day academic costume seemingly originated at Oxford and Cambridge Universities in the 1300s. As the universities passed from ecclesiastical control, brighter colors distinguished the academic robe from the drab clerical gown. Colonial American universities based their academic regalia on the British system.

In the 1880s, a student movement centering in New England investigated the establishment of a "senior badge," to improve commencement week exercises and revive the traditions of university life. In 1893, an intercollegiate commission established a uniform code for caps, gowns and hoods for the various degrees.

Of the costume's three components, the hood is the most interesting. Originally it had three uses: as a head covering, as a shoulder cape, and as a bag in which alms could be collected. It is mentioned as early as 1480 in clerical literature. When large wigs were in vogue in Britain, the cape part of the hood was split in front and a narrow neckband inserted. The entire cape and hood was allowed to fall back as it is today, and it was never restored to the original style.

Following is a list of the hood and tassel colors established by the Intercollegiate Code to represent departments of learning:

Architecture	Blue-Violet
Agriculture	Maize
Arts, Letters, Humanities	White
Business Administration, Commerce, Accountancy	Sapphire Blue
Dentistry	Lilac
Economics	Copper
Education	Light Blue
Engineering	Orange
Fine Arts	Brown
Forestry	Russet
Home Economics	Maroon
Journalism	Crimson
Law	Purple
Library Science	Lemon
Medicine	Green
Music	Pink
Nursing	Apricot
Oratory (Speech)	Silver Gray
Pharmacy	Olive Green
Philosophy	Dark Blue
Physical Education	Sage Green
Public Administration, including Foreign Service	Peacock Blue
Public Health	Salmon Pink
Science	Gold-Yellow
Social Science	Citron
Theology or Divinity	Scarlet
Veterinary Science	Gray

Black tassels are correct for all degrees,
and colored tassels are worn only by preference.

Gold metallic tassels may be worn by doctors or presidents of universities and colleges.
