**THE NATIONAL ANTHEM
THE STAR-SPANGLED BANNER**

O say can you see, by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming?
Whose broad stripes and bright stars through the perilous fight
O'er the ramparts we watched, were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air
Gave proof through the night that our flag was still there.
O say does that Star-Spangled Banner yet wave
O'er the land of the free and the home of the brave?

**ALMA MATER
ARIZONA STATE UNIVERSITY**

Where the bold saguaros
Raise their arms on high,
Praying strength for brave tomorrows
From the western sky;
Where eternal mountains
Kneel at sunset's gate,
Here we hail thee, Alma Mater,
Arizona State.
—Hopkins-Dresskell

MAROON AND GOLD

Fight, Devils down the field
Fight with your might and don't ever yield
Long may our colors outshine all others
Echo from the buttes, Give em' hell Devils!
Cheer, cheer for A-S-U!
Fight for the old Maroon
For it's Hail! Hail! The gang's all here
And it's onward to victory!

MISSION STATEMENT

UNIVERSITY COMMENCEMENT

University Commencement represents the culmination of a student's academic achievement.

It is a time of celebration and reflection for students, families, friends, faculty and staff.

It brings together a diverse community to share in the joy of accomplished goals.

**MESSAGE FROM THE
ARIZONA BOARD OF REGENTS**

Dear Graduate,

On behalf of the Arizona Board of Regents, we would like to take this opportunity to congratulate you on achieving this important milestone in your life. It took hard work to reach where you are today. Your accomplishment is significant and commendable.

A university degree opens a world of opportunity in life for many graduates from higher wages to better quality of life. As you celebrate this day, take a moment to recognize the people who supported you during your college years and to reflect on the skills, qualities and new knowledge you've gained during your time at Arizona State University.

We are grateful you chose to pursue an education at ASU and are impressed with your forbearance in earning your degree during the COVID-19 pandemic. This is a difficult time for our nation and our graduates are providing new hope for the future as you begin careers that will make a difference in your life as well as throughout our state, nation and the world.

As you begin a new stage in life as a graduate of ASU, we encourage you to stay connected to the university, the friends you've met here, the professors who have made a difference in your life and the mentors who helped guide you on your journey. We hope that the friends you've made and the experiences you've had positively influence your life for years to come.

Most of all, congratulations! You've earned a degree, which is a tremendous accomplishment. We wish you the best of luck in the future. Go Devils!

Sincerely,

Larry E. Penley

HISTORY OF HONORARY DEGREES

Harvard was the first university to confer honorary degrees in 1692. Since then it has become a recognized function of degree granting institutions. Honorary degrees are an opportunity for universities to single out people who have made contributions to society. At ASU, honorary degree recipients are nominated by faculty members. The six-member Academic Affairs Honorary Degrees Committee reviews faculty nominations for the Honorary Degree. It then recommends candidates to the president. The committee is appointed by and responsible to the president.

CLOSING REMARKS

Douglas J. Sylvester, Dean

SANDRA DAY O'CONNOR COLLEGE OF LAW

In 1965, President G. Homer Durham hired Willard H. Pedrick to become Arizona State University's first law school dean and tasked him with the responsibility of building, literally from the ground up, its very first law school. Located on ASU's Tempe campus, Armstrong Hall housed the law school until its move to the downtown Phoenix campus in 2016.

This year the Sandra Day O'Connor College of Law at Arizona State University celebrates 50 years of community impact of its graduating classes. Fifty years ago, 83 students graduated with their Juris Doctor from the ASU College of Law. Today, over 650 students graduate annually from ASU Law, receiving one of our four degrees: Juris Doctor (JD), Master of Laws (LLM), Master of Legal Studies (MLS), or Master of Sports Law and Business (MSLB).

The law school has accomplished many significant milestones in its 50+ years. In 2006, the law school was renamed to honor Justice Sandra Day O'Connor, the first woman appointed to the Supreme Court of the United States. It is a privilege—and a great responsibility—to be entrusted with Justice O'Connor's (ret.) name and legacy. Students continue to personify Justice O'Connor's legacy and lifetime work to advance civics education and civic engagement and discourse, by donating more than 120,000 hours of public service each year.

Led by Dean Douglas Sylvester, who was appointed the eighth dean in 2012, ASU Law has risen in national and world rankings, continued to attract highly credentialed students and offers more personalized programs than any other law school in the country.

In 2016, ASU Law moved to the Beus Center for Law and Society in the ASU downtown Phoenix campus further enhancing the law school's ability to serve the community and provide students access to the best legal opportunities. Students can also study beyond Phoenix at ASU campuses located in Washington, D.C. and Los Angeles, as well as participate in global study abroad and externship or internship opportunities. ASU Law's world-class faculty and administrators provide students with unparalleled opportunities to gain insights and practical skills needed to address legal challenges locally, nationally, and globally. ASU Law also prides itself on its network of engaged alumni and its relationship to the broader legal community, which has fully embraced the law school and is dedicated to the success of its graduates.

ASU Law is the youngest law school in the top 25 as ranked by U.S. News & World Report and consistently ranks in the top 20 in the nation for job placement, No. 1 in the state for student outcomes and No. 1 in the state for bar passage, often exceeding the national average.

The Barrett Story

Barrett, The Honors College at Arizona State University, is a selective, residential college for academically outstanding undergraduates. Named “the gold standard” for honors colleges in the nation, Barrett is widely considered the model for honors education in the US and abroad.

Barrett stands alone in dedicated resources, size and complexity with a presence on four ASU campuses, a multi-million dollar endowment used to support honors students and their projects, and dedicated Deans, faculty and staff that include seven administrators, 45 Faculty Fellows, 64 staff within the college and more than 1,900 university faculty members who teach and mentor Barrett students who major in any field across all four campuses.

Barrett represents a powerful and unique combination of the special care and attention an honors student should expect from an excellent residential liberal arts college, with the vast program choices and research mentoring resources of a vibrant Research I University. Barrett students are members of a small community of scholars known nationally for its number of National Merit, National Hispanic, and Flinn scholars, and nationally ranked numbers of recipients of Fulbright, Truman, Goldwater, Udall, and Marshall Fellowships.

Student Opportunities

ASU’s size, number of majors, student organizations, and student support services is an advantage and provides important opportunities for Barrett students to engage in meaningful ways. With the largest college residential profile across all four campuses, Barrett significantly contributes to the student life of the University. Barrett students demonstrate leadership in the classroom, in research labs, in mentoring and tutoring other students, and in securing leadership roles in student government, Changemaker Central, Greek Life and over 800 student organizations. Barrett offers a full range of student-driven academic, service, wellness, arts, cultural, social, entrepreneurial, and sustainability programming. Barrett students positively impact ASU and our local, national, and global communities through internships, service, travel, and other professional development opportunities within Barrett and across ASU. Barrett students participate in study abroad programs that enable them to travel to foreign countries, immerse themselves in small classes taught by honors faculty, and experience different cultures and societies while earning honors credits. Barrett students engage in cutting edge research with distinguished

ASU faculty or through special partnerships with the Mayo Clinic, the Biodesign Institute and Intel. Students are developing iPhone applications, building robots, designing games, or developing tools to improve healthcare, meet global energy needs, and provide clean water, or secure data and information privacy. Many students also take advantage of internship opportunities developed exclusively for Barrett students with organizations like Mayo Clinic, Goldman Sachs, Microsoft, Google, The American Heart Institute and local congressional districts, the governor's office, and the United States Senate.

Signature Events

Barrett hosts annual signature events, the Centennial Lecture, the Rhodes Lecture, and the Distinguished Global Leader Series. In 1985, the Flinn Foundation established an endowment to commemorate ASU's 100th year, creating the ASU Centennial Lecture. Barrett Honors College has brought some of the world's most influential intellectuals to campus: noted diplomats, scientists, playwrights, and authors. Former Centennial lecturers include Edward James Olmos, dedicated actor, and community activist in 2010; Dr. Oscar Arias, Nobel Peace Laureate and two-time president of Costa Rica in 2011; and most recently, Dr. Roxane Gay, an author and cultural critic whose writing is unmatched and widely revered. Her work garners international acclaim for its reflective, no-holds-barred exploration of feminism and social criticism.

The Rhodes Family created the John J. Rhodes Chair in Public Policy and American Institutions at Barrett to celebrate the career in public service of one of Arizona's and the nation's most distinguished leaders. The Rhodes Chair is dedicated to deepening theoretical and practical understanding of the many voices and forces that influence public policy. The Chair honors the values of personal integrity, fiscal responsibility, respect for persons, and international farsightedness exemplified in the Hon. John J. Rhodes' career. The 2020 Rhodes Chair featured former Secretary of Defense, General James N. Mattis.

The Distinguished Global Leader Series was established by Barrett Honors College as a new cornerstone global engagement program in 2017. The program invited noted leaders in government and industry to spend time on campus sharing their knowledge and expertise with honors students and faculty. During the program's first years, Barrett has hosted short stay visits with Former Finnish Defense Minister Elizabeth Rehn, Former US Secretary of State Condoleezza Rice, Former Chief Secretary of Hong Kong Anson Chan, Uruguayan Ambassador to the United States Carlos Gianelli, and former Ecuadorean Foreign Minister Guillaume Long. In addition, the Former President of the Republic of Latvia, Dr. Vaira Vike-Freiberga, was the first Leader-In-Residence and the Fall 2019 was Louise Fréchette, Former United Nations Deputy Secretary-General. During their stays at the Honors College, these distinguished leaders deliver keynote speeches, meet with small groups of students to discuss current events and participate in honors-level courses.

Barrett on All Four Campuses

In fall 2009, Barrett, The Honors College at Arizona State University, opened the nation's first comprehensive four-year residential honors college within a top-tier Research I university that underscores its standing as the premier honors college in the nation. The \$140 million Barrett campus in Tempe was designed by students, faculty and staff working with nationally-renowned architects. On the Tempe campus, the nine-acre college includes residence halls for 1,700 students, several classrooms, a community center with student lounges, activity rooms, computer labs, a fitness center, a multi-room dining facility with a refectory, café, and administrative, faculty and staff offices. In fall 2014, Barrett expanded the residential college experience to another 1,600 upper division honors students living in the 18 acre Vista Del Sol Community, across the street.

The Barrett Honors College residential communities on the Downtown, Polytechnic, and West campuses feature honors student lounges, libraries, kitchens, computer labs, student activity and study rooms, faculty and administrative offices. Barrett at the Downtown Campus is home to about 750 honors students. The Barrett residential community, called "B-Town D-Town," is located at Taylor Place at the heart of the campus and offers a living environment where students have easy access to ASU's downtown colleges and programs, as well as Phoenix's increasingly vibrant lifestyle. Barrett at the Polytechnic campus gives students the feeling of studying at a small private college with the advantages of a large university. The honors residential community is unique among the ASU campuses – freshman honors students reside together on a floor of Century Hall, which opened in the summer of 2012 while upper-division honors students will enjoy a brand new residence hall to open next fall. Barrett at the West Campus provides the entire range of honors activities in a small liberal arts college setting. Barrett West students live and learn on the ASU West Campus with approximately 500 other residents. Honors students live in the Casa de Oro residence hall. The 5,000-square-foot Barrett Suite includes a computer lab, study rooms, a meeting area, a library, and staff and faculty offices.

With its outstanding programs, dedicated faculty and staff, and comprehensive facilities, Barrett is a national model for organizing resources to support the honors experience at all four campuses at ASU. This unique arrangement is a model for higher education and has often been referred to as "the best of both worlds" by students who thrive in a small college atmosphere but appreciate access to large university programs like Division I athletics and high profile lecturers.

The Moeur Award is Arizona State University's oldest, continuing honor. It was established in 1901 by Dr. Benjamin B. Moeur and Honor Anderson Moeur, and is now sponsored annually by the Arizona State University Alumni Association. The award is presented at each Commencement ceremony to those individuals who have attained the highest academic standing in any four-year curriculum during their undergraduate years at ASU. All courses of the curriculum must be completed at ASU.

ABOUT THE COLLEGE OF GLOBAL FUTURES

We all share a stake in the future. The College of Global Futures is dedicated to creating a sustainable, equitable, and vibrant future for everyone.

The College of Global Futures prepares next-generation leaders with the knowledge, skills and mindsets they need to tackle complex global challenges. Home to the School for the Future of Innovation in Society, the School of Sustainability and the School of Complex Adaptive Systems, the college fosters new interactions between students, staff, faculty and partners that elevate our ability to understand complex, integrated social, environmental and technical systems, drive responsible innovation, and lead to ethical interventions that ensure a just, healthy and fulfilling future for everyone. Students learn how to develop enduring solutions that benefit all people everywhere on a thriving, healthy planet.

ABOUT THE SCHOOL FOR THE FUTURE OF INNOVATION IN SOCIETY

Scientific and technological advances are deeply intertwined with societal concerns. When we innovate, are we thinking critically about social and technical systems in a way that anticipates potential concerns so that we can be confident that what we are creating is both useful and good for our global future?

The School for the Future of Innovation in Society envisions responsible innovation at scale. Our students anticipate societal challenges and work across disciplines to examine areas such as global technology and development, biomedical and health ethics, public interest technology and policies for emerging technologies. We are grounded in the belief that by considering the ways in which we translate imagination into innovation, engaging the public and exploring the social impacts of technological and scientific advancements, we collectively build more just and equitable futures for all.

ABOUT THE SCHOOL OF SUSTAINABILITY

School of Sustainability students, diverse in their backgrounds and interests, work toward a common goal: leaving the world better than they found it. Students are drawn to this rapidly growing field because sustainability integrates social, economic and environmental dimensions to develop enduring and equitable solutions to global challenges.

Learning tracks within the school include energy and technology, international development, ecosystems management, urban dynamics, food systems, policy and governance, and sustainability leadership. Our curriculum is grounded in experiential learning and practical faculty-led research, equipping graduates of the School of Sustainability with the skills and tools to make positive impacts in a rapidly changing world.

ABOUT THE SCHOOL OF COMPLEX ADAPTIVE SYSTEMS

Uncertainty, scalability, thresholds (tipping points), path dependence...these are among the most pressing issues facing societies across the globe. The School of Complex Adaptive Systems explores these challenges, develops solutions and suggests interventions that enhance the resilience and well-being of our planet and our shared global futures.

Our planet is the ultimate complex system with many intertwined subsystems that envelop natural, social and technological systems and transcend traditional disciplinary boundaries. This visionary school engages wide-ranging national and international collaborations to advance the exploration of these systems and disseminate fundamental transdisciplinary knowledge through a unique set of academic graduate offerings.

ABOUT THE COLLEGE OF HEALTH SOLUTIONS

The College of Health Solutions translates health research and discovery into practice and prepares students to address the challenges facing people to stay healthy, improve their health and manage chronic disease.

Since its founding in 2012, the college has experienced rapid growth. Its degree programs are designed to meet the global demand for qualified health and health care professionals. Programs are offered in biomedical informatics and biomedical diagnostics; kinesiology, sports and exercise science; nutrition; population health; health care delivery; and speech and hearing science.

Students learn from renowned research and clinical faculty, engage in experiential activities and are encouraged to contribute to innovative health research. They participate in solving health challenges through internships, interdisciplinary research teams and global study abroad experiences.

Students, faculty and staff at the College of Health Solutions work together toward a common goal of improving health outcomes. Graduates of the college are uniquely prepared to make an impact in the health workforce and shift the focus of health from sickness to wellness.

COLLEGE OF INTEGRATIVE SCIENCES AND ARTS

The College of Integrative Sciences and Arts provides students across ASU with the knowledge and skills to comprehend and effectively engage the changing world of the 21st century at local, national and global levels.

We offer graduate and undergraduate degree programs that prepare students for a rapidly changing marketplace, as well as foundational instruction in humanities, social and natural sciences, mathematics and professional fields. Our exploratory and major and career exploration programs empower students to find a major anywhere at ASU based on their interests, career goals and personality traits. Faculty support knowledge enterprise development by advancing research, clinical and creative activities that promote discovery, innovation and human understanding. The college is guided by the principles of student success, strategic partnerships within the university and the community and interdisciplinary inquiry.

Theory, creativity and applied learning are integrated as students build entrepreneurial opportunities both inside the university and in their communities. In addition, the college serves the citizens of Arizona by offering a variety of outreach programs that engage people in cultural events and lifelong learning. The college is home to the Center for the Study of Race and Democracy, which serves as a leading interdisciplinary, problem-solving venture committed to engaged scholarship and information dialogue involving the topics of race and democracy.

INTRODUCTION OF GRADUATES

THE COLLEGE OF LIBERAL ARTS AND SCIENCES

As the academic heart of Arizona State University, The College of Liberal Arts and Sciences fosters unmatched access, educational excellence, and interdisciplinary inquiry to generate solutions for the changing world. Our diversity and dynamism ignite continued growth and development in any field of study, from space exploration and chemistry to history and justice studies, to create global citizens for the 21st century.

We unite our academic disciplines — the analytical ability of natural scientists, the creativity of humanities scholars and the curiosity of social scientists — to harness the power of our interdisciplinary nature. We encourage our students to follow their dreams, pursue their passions and accomplish their goals in order to create a better future for the next generation and beyond.

Our faculty personify a broad vision of legendary academic scholarship at the forefront of global innovation. They teach our scholars how to adapt to new challenges and a changing landscape so they're capable of tackling tomorrow's challenges with ease. Any institution of higher learning can train a student for a first job, but we'd rather create master learners who are equipped with the right knowledge and skills for a lifetime of success. The liberal arts and sciences remain the best foundation for successful careers and deeply rewarding personal and professional lives.

We transform learning, accelerate discoveries and change lives.

HONOR CORDS

Some of our undergraduate degree candidates wear maroon and/or gold honor cords. These cords designate students who have completed at least 56 resident credit hours at ASU and who have attained the following grade point averages:

Summa Cum Laude = Maroon and Gold cords, 3.80 to 4.0 GPA

Magna Cum Laude = Gold cord, 3.60 to 3.79 GPA

Cum Laude = Maroon cord, 3.40 to 3.59 GPA

CLOSING REMARKS

EDSON COLLEGE OF NURSING AND HEALTH INNOVATION

The growth of the Edson College of Nursing and Health Innovation reflects our desire to do more, serve more and sustain innovation. Our mission drives us to offer the highest quality academic, research and clinical practice programs so that we can produce the next generation of evidence-based health professionals who will excel as clinicians, teachers, health advocates and researchers.

The challenges that permeate our health care system require innovative solutions that will positively impact patients and entire systems, locally and globally. Our curriculum and clinical experiences expose students to different types of delivery systems, equipping them with the tools and knowledge that will unleash their innovative thinking from day one. Interprofessionalism guides us as we build programs and curriculum to meet the needs of future health professionals. Our graduate and undergraduate programs continue to expand with a focus on program design and delivery that prepares graduates to work collaboratively within complex and dynamic patient care and health delivery systems.

Our online programs continue to expand access to the highest quality education as we focus on adopting new and better instructional tools while ensuring the rigor and quality that characterize the reputation of our programs.

ABOUT THE PhD PROGRAM

The PhD in Nursing and Healthcare Innovation is one of the few interdisciplinary programs in nursing in the country, providing an enriching academic environment that fosters scholarship, critical thinking, and interprofessional collaboration. This research-focused interdisciplinary PhD degree creates leaders in health science, health education and policy, and health innovation through preparation in the research skills necessary to generate, apply, and disseminate scientific knowledge.

ABOUT THE DOCTOR OF NURSING PRACTICE PROGRAM

The Doctor of Nursing Practice (DNP) degree was established at Arizona State University in 2008. The Doctor of Nursing Practice degree is a practice-focused degree that prepares graduates to practice at the most advanced level of nursing. This program prepares nurse practitioners and nurse leaders to positively impact health outcomes at the individual and organizational level.

ABOUT THE MASTER OF SCIENCE IN NURSING PROGRAMS

ASU remains on the cutting edge in preparing nurse leaders and nurse educators for the 21st century. The MS in Nursing and MS in Nursing, Nurse Educator (NED) concentration at the Edson College of Nursing and Health Innovation prepares new and experienced nurses to meet the demands of the complex and changing health care environment.

ABOUT THE MASTER OF SCIENCE, CLINICAL RESEARCH MANAGEMENT PROGRAM

The Master of Science in Clinical Research Management (CRM) prepares students to take on leadership roles in clinical research. Courses focus on the elements of leadership, operations of clinical research, data management, ethics, and quality.

ABOUT THE MASTER OF SCIENCE, REGULATORY SCIENCE PROGRAM

The Master of Regulatory Science (CRM-RS) prepares students to meet the regulatory challenges in the clinical research field. The program focuses on US and global regulations, application of regulations to the research life cycle, and development of safe and effective new medical products.

ABOUT THE HEALTHCARE INNOVATION PROGRAM

The Master of Healthcare Innovation (MHI) program is an interdisciplinary degree that prepares participants to design, implement and lead transformation in health care. Participants in this program come from a wide variety of professions, from all over the world, all with an interest in leading innovation in health and health care. Graduates search for and implement sustainable solutions for today's health care issues with an eye to the future within an interdisciplinary environment.

ABOUT THE BACHELOR OF SCIENCE IN NURSING PROGRAM

The Bachelor of Science in Nursing (BSN) degree prepares beginning professional nurses who possess the theoretical foundation and the clinical competence to function in various health care settings. Graduates of ASU's nursing degree programs are prepared to respond to the vast and changing health care needs of individuals and communities.

ABOUT THE RN-BSN PROGRAM

The online RN-BSN program builds on the knowledge and skills the student learned in their associate degree or diploma program, especially in the areas of evidence based practice, leadership and management, and community/public health. The interactive course assignments enhance the student's written and verbal communication skills, clinical reasoning skills, teamwork, and information technology skills. Students will integrate new knowledge into their nursing practice.

ABOUT THE CONCURRENT ENROLLMENT PROGRAM

The Concurrent Enrollment Program (CEP) is designed for qualified nursing students who are interested in earning their BSN degree from ASU while simultaneously pursuing their Associate of Applied Science (AAS) in Nursing degree through a participating community college. The CEP is a rigorous program with a plan of study that enables students to build on the knowledge and skills learned in the AAS in nursing program.

ABOUT THE BACCALAUREATE HEALTH PROGRAMS

The Baccalaureate Health Programs consist of the Bachelor of Science degrees in Integrative Health, Community Health, Health Care Coordination, Health Entrepreneurship & Innovation, and Health Care Compliance and Regulations. Each of these degrees prepare students to be part of the health care team. Graduates are prepared to collaborate with individuals, families and communities regarding changes to the health care system. This includes health education, health promotion, care coordination, disease management, health care navigation, health innovation, health care compliance, and advocacy services as well as assisting patients in obtaining services, understanding policies, and making health care decisions.

ABOUT THE HERBERGER INSTITUTE FOR DESIGN AND THE ARTS

The Herberger Institute for Design and the Arts is the largest comprehensive design and arts school in the nation, located within a dynamic 21st-century research university.

With 5,400+ students, more than 675 faculty and faculty associates, over 200 staff members, 125 degrees and a tradition of top-ranked programs, the Herberger Institute is committed to redefining design and arts education in the 21st-century. Our college is built on a combination of disciplines unlike any other program in the nation, comprising schools of art; arts, media and engineering; design; music, dance and theatre, and film; as well as the ASU Art Museum. The ASU Art Museum supports research initiatives in addition to diverse community engagement projects that enable students and faculty to interact with the public through meaningful partnerships. This unique array of disciplines allows for distinctive opportunities for collaboration.

Our faculty lead students in an exploration of the issues affecting society today and in the future — the contemporary human condition — through design thinking, creative practice and research. We are continually striving to enable design and arts students to succeed beyond graduation.

The Institute is dedicated to the following design principles:

Creativity is a core 21st-century competency. Our graduates develop the ability to be generative and enterprising, to work collaboratively within and across artistic fields and to generate non-routine solutions to complex problems. With this broad exposure to creative thinking and problem-solving, our graduates are well prepared to lead in every arena of our economy, society and culture.

Design and the arts are critical resources for transforming our society. Artists must be embedded in their communities and dedicate their creative energy and talent to building, reimagining and sustaining our world. Design and the arts must be socially relevant and never viewed as extras or as grace notes. The Herberger Institute is committed to placing artists and arts-trained graduates at the center of public life.

The Herberger Institute is committed to enterprise and entrepreneurship. For most college graduates today, the future of work is unpredictable, nonlinear and constantly evolving. A recent study found that 47 percent of current occupations will likely not exist in the next few decades. At the Herberger Institute, our faculty, students and graduates are inventing the jobs and the businesses of the future; reimagining how art and culture get made and distributed; and coming up with new platforms and technology for the exchange of culture and the enrichment of the human experience. The legendary author and expert on city life Jane Jacobs talks about the abundance of “squelchers” — parents, educators, managers and leaders who tend to say no to new ideas. At the Herberger Institute, there are no squelchers. We embrace the cardinal rule of improvisation — always say: “Yes, and...”

Every person, regardless of social background, deserves an equal chance to help tell our nation’s and our world’s stories. Our creative expression defines who we are, what we aspire to and how we hope to live together. At the Herberger Institute, we are committed to projecting all voices – to providing an affordable education to every student who has the talent and the desire to boldly add their creative voice to the world’s evolving story.

Effectiveness requires excellence. We know that our ability to solve problems, build enterprises and create compelling and socially relevant design and art requires high levels of mastery. By being the best in our chosen fields, we can stretch ourselves and our talents to make a difference in the world.

We encourage all of our alumni to continue to share their stories with us and to take an active role in the Herberger Institute Alumni Chapter. For more information on our alumni activities, please visit herbergerinstitute.asu.edu/alumni. Connect with fellow design and arts alumni on LinkedIn, Facebook and Twitter.

ENGINEERING AT ARIZONA STATE UNIVERSITY

The Ira A. Fulton Schools of Engineering, ranked among the top 50 U.S. engineering schools, is home to 355 tenured/tenure-track faculty members and nearly 25,000 students. The Fulton Schools received almost \$126 million in externally funded research awards in fiscal year 2019-2020

During the 2019-2020 academic year, the Fulton Schools granted 4,687 undergraduate and graduate degrees. Today, 70,863 Fulton Schools alumni are advancing the fields of engineering and technology in Arizona and around the world.

To produce the engineers and innovations needed to address society's changing demands, we have crafted a visionary blueprint for engineering education that transcends traditional organization around degrees and disciplines and fosters a transdisciplinary approach to teaching and research. The Fulton Schools offers 25 undergraduate and 46 graduate degree programs that encourage innovative collaboration across disciplines with faculty and students alike developing solutions that will have significant, lasting impact on our local and global communities. In addition to online options for degree programs like electrical engineering, software engineering and more, the Fulton Schools offers professional development trainings like Six Sigma.

The School of Biological and Health Systems Engineering provides a rich, transdisciplinary curriculum that prepares students to use engineering and scientific principles and methods to develop instrumentation, materials, diagnostic and therapeutic devices, artificial organs and other equipment and technologies needed in medicine and biology. Our biomedical engineering degree program strives to produce graduates with a broad-based education in both engineering and the life and natural sciences with a focus on improving the overall quality of global health care. Graduates from the biological design doctoral program are creative thinkers prepared to work at the intersection of biology, engineering and computing to advance human health and quality of life.

The School of Computing, Informatics, and Decision Systems Engineering is home to computer engineering, computer science, computer systems engineering, engineering management, industrial engineering, informatics, robotics and autonomous systems, and software engineering degree programs. From data to decisions, we cover the spectrum for designing a modern, information-driven society, engaging in the fundamental activities of sensing, optimizing, controlling and communicating. Computing serves as the engine that drives this transformation, linking together our school's fundamental activities. We are dedicated to creating new knowledge and technology that contribute to solving the major challenges facing modern society.

The School of Electrical, Computer and Energy Engineering brings together university faculty, students and companies to develop collaborative relationships and solutions. Our computer engineering, electrical engineering, and robotics and autonomous systems degree programs and research efforts are aligned with national and international efforts to address worldwide challenges in energy production and

distribution, health care technology and delivery, sustainable development and economic growth, communications technology, information management and global security.

The School for Engineering of Matter, Transport and Energy leverages the synergy of engineering and science to develop new knowledge and technologies, and to create innovative solutions to society's most pressing problems in energy, human health, public safety, exploration, environmental infrastructure and sustainability. We offer degree programs in aerospace engineering, biological design, chemical engineering, materials science and engineering, mechanical engineering, robotics and autonomous systems, and solar energy engineering and commercialization. We have gathered a broad range of disciplines and world-class faculty members who are engaged in cutting-edge research that contributes to a unique educational experience.

The School of Sustainable Engineering and the Built Environment provides a nexus for education and research that addresses the critical infrastructure needs of our society in an environmentally sound manner. The holistic approach in our degree programs covers the engineering expertise of civil, environmental and sustainable engineering, the design and construction principles of construction engineering and the project management and leadership skills of construction management.

The Polytechnic School is organized into eight academic programs that offer a breadth of engineering and technology-related degrees. Students in The Polytechnic School can choose from a wide array of degree programs, including aeronautical engineering, environmental and resource management, graphic information technology, human systems engineering, information technology, manufacturing engineering, systems engineering, and engineering, which includes programs in systems engineering and engineering education systems and design. The programs thrive under the guidance of more than 100 faculty members with deep expertise and industry experience in the important technological challenges that society faces. Located in the dynamic, growing Gateway region on the southeast edge of the greater Phoenix metropolitan area, the school is home to some of the most advanced learning laboratories available to students on any university campus.

Ira A. Fulton

Chairman of the Board and CEO, Fulton Homes

Ira A. Fulton, founder and CEO of Arizona-based Fulton Homes, established an endowment of \$50 million in support of ASU's College of Engineering and Applied Sciences in 2003. The college was renamed the Ira A. Fulton Schools of Engineering in his honor. The gift has enabled the Fulton Schools to provide funding for scholarships, fellowships, research programs and investments in faculty — all integral to elevating the position of the Fulton Schools as a highly ranked U.S. program into the ranks of world-class institutions.

“With this endowment, we are building an engine of educational and economic growth that will endure for generations. It is a gift of opportunity, prosperity, social equality and hope.” – Ira A. Fulton

ABOUT MARY LOU FULTON TEACHERS COLLEGE

Mission

ASU's Mary Lou Fulton Teachers College creates knowledge, mobilizes people and takes action to improve education.

MLFTC faculty create knowledge by drawing from a wide range of academic disciplines to gain insight into important questions about the process of learning, the practice of teaching and the effects of education policy.

MLFTC mobilizes people through bachelor's, master's and doctoral degree programs, through non-degree professional development programs and through socially embedded, multilateral community engagement.

MLFTC takes action by bringing people and ideas together to increase the capabilities of individual educators and the performance of education systems.

Core Value: Principled Innovation

Children born today will be shaped by accelerating change in technology, demography and our physical and social environments. The speed and convergence of change across so many dimensions of human experience will shape life in ways that are as profound as they are unpredictable.

For educators and education systems, these facts demand principled innovation that delivers positive social value and prepares children to thrive as individuals and as citizens at local, national and global levels.

Principled innovation is the core value that inspires all our activities: our academic programs; our strategic initiatives; how we teach and learn; and how we engage with one another and with the communities we serve.

Purpose of Principled Innovation

Through our core value of principled innovation, we believe that education should answer to three imperatives:

An Equity Imperative

We need to deliver excellence in education to all learners regardless of any human characteristics that might lead to unfairness or discrimination in learning opportunities.

An Economic Imperative

We need to prepare learners for the next economy and equip them for success in the workforce of the future.

A Democratic Imperative

We need to prepare learners to be caring, responsible citizens capable of balancing individual ambition and the public good.

Practice of Principled Innovation

MLFTC has developed an ethical framework for innovation and decision-making that is guided by four character assets:

Moral Character

Empathy, compassion and fairness help us keep sight of the irreducible dignity of all people, especially the youngest, and of the realness of their experience.

Civic Character

The desire to serve and understand others reminds us that we are social beings and that, ultimately, we thrive not by ourselves but in community.

Intellectual Character

Critical thinking and problem-solving keep us honest with ourselves and with one another. They help us acknowledge and resist bias, pursue truth and distinguish fact from opinion.

Performance Character

Initiative, creativity, perseverance, resilience, risk-taking and collaboration help us marry the quality of our actions to the strength of our convictions. They help us navigate uncertainty and transform good intentions into good outcomes.

MARY LOU FULTON (1933 – 2015)

Anyone fortunate enough to have known Mary Lou Fulton — to celebrate with her and take pride in students’ accomplishments — is grateful to have had that privilege. So much of what we do at our college is an expression of her commitment to education and to providing the best possible opportunities for the greatest number of people.

Mary Lou said that, ever since she was very young, she was “in love with life.” That’s a perspective we hope all our graduates take with them into the next chapter of their lives and, especially, into their work with students.

Entrusted to manage an institution that bears the name of Mary Lou Fulton, all of us at the college strive to be worthy of her legacy. She will always be our inspiration to be the best educators we can be.

MESSAGE TO THE NEW COLLEGE GRADUATES

Congratulations on your extraordinary achievement! The faculty and staff of New College offer our sincere best wishes for your continued personal and professional success. We all look forward to seeing your work in the world; we know you will make your mark as an ASU New College graduate.

ABOUT THE NEW COLLEGE

The New College of Interdisciplinary Arts and Sciences offers a nationally unique environment: a small college experience with the power of ASU's major research university resources. Working one-on-one with our cutting-edge faculty—often through our New College Undergraduate Inquiry and Research Experience program (NCUIRE), our students reshape the boundaries of knowledge in their fields of study. This prepares them for a future of reshaping the world outside of ASU.

New College was founded on a “new” way of thinking about the academy. Instead of reproducing the intellectual silos that separate fields of study in other institutions, our programs have been structured on the notion that if we break down the barriers between fields, we can think in more innovative ways, do more path-breaking work, offer more effective solutions to real-world problems. From our Interdisciplinary Arts and Performance degree that teaches students many forms of artistic expression and then asks into what mode a concept should be born; to our Forensics degree that brings together fields including chemistry, psychology, and legal studies; to our Social Justice and Human Rights degree that explores sociological, historical, and contemporary cultural analyses of the issues, New College offers educational experiences that transcend more limited ways of thinking about the world.

The mission of New College is to prepare students to succeed in a globalized, diverse economy by providing them with solid disciplinary foundations that are coupled with an ability to think and act constructively across disciplines to discover answers to the complex problems that face society today and to create civic and economic well-being, within contexts ranging from the local to the global.

New College's programs build on the philosophy that inter-, multi-, and transdisciplinary education enhances our graduates' ability both to address the needs of business, industry, schools, and communities of this region and to meet the challenges of the twenty-first century.

ABOUT THUNDERBIRD SCHOOL OF GLOBAL MANAGEMENT

Thunderbird School of Global Management is the world's premier institution for global leadership, management, and business education for the Fourth Industrial Revolution, but we are much more than a school. Thunderbird is also a global network of leaders, managers, entrepreneurs, and intrapreneurs across the private and public sectors who advance the School's vision of inclusive and sustainable prosperity worldwide.

Thunderbird has trained global leaders and managers for more than 70 years. Originally known as the American Institute for Foreign Trade, Thunderbird was chartered on April 8, 1946, at a World War II airbase in Glendale, Arizona called Thunderbird Field, where pilots from around the world came for training during wartime. General Barton Kyle Yount obtained the airfield with the express purpose of developing a school for professionals focused exclusively on international trade and global affairs. The guiding principle established at Thunderbird's founding is best summarized in a phrase coined by original faculty member Dr. William Lytle Schurz, "Borders frequented by trade seldom need soldiers."

Thunderbird became the world's first-ever higher education institution to focus exclusively on international leadership by concentrating its curriculum on global management and business skills, international political economy and regional business environments, languages and cross-cultural communications. The School has often been called a "mini-United Nations" because of its diverse and inclusive global student body. Thunderbird is now known worldwide for its vast and engaged alumni network of more than 45,000 graduates in nearly 150 nations around the globe. Thunderbird has more than 170 alumni chapters that meet regularly in 70 countries.

In 2015, Thunderbird became an independent unit of Arizona State University, combining Thunderbird's multi-decade heritage of developing global leaders with ASU's expansive resources. The School relocated to ASU's vibrant Downtown Phoenix campus in 2018. The move brought the world's #1-ranked Master's in Management (WSJ/THE) under the umbrella of the nation's #1-ranked school for innovation (U.S. News & World Report). Thunderbird's global footprint has grown

over the years as well, with operations now in Geneva, Moscow, Dubai, Tokyo, Seoul, Nairobi, and Jakarta. Thunderbird is now expanding its network of satellite offices to at least 20 by the year 2025, making it the world's first truly "global multinational business school," committed to training the next generation of global leaders and managers for the Fourth Industrial Revolution. WALTER CRONKITE SCHOOL OF JOURNALISM AND MASS COMMUNICATION

About the School

The Cronkite School is widely recognized as one of the nation's premier professional journalism programs. Rooted in the time-honored values of accuracy, responsibility, objectivity and integrity that characterize its namesake, the school fosters journalistic excellence and ethics among students as they master the practical professional skills they need to succeed in the digital journalism world of today and tomorrow.

The Cronkite School's 2,770 students, including in-person and online, consistently lead the country in national competitions. Over the past decade, Cronkite has been No. 1 in the nation in the Society of Professional Journalists' Mark of Excellence competition and the Broadcast Education Association's Festival of Media Arts awards and has finished in the top 10 in the Hearst Journalism Awards each year. Cronkite students annually win more than 100 journalism and public relations awards.

Students are guided by a faculty that is made up of award-winning professional journalists, strategic communications executives and world-class media scholars. Cronkite professors include five Pulitzer Prize-winning journalists, digital media thought leaders, top TV producers and correspondents, major metropolitan newspaper editors and strategic communications experts. They are master teachers, writers and scholars who often speak around the globe on the most important topics facing journalism today.

The Cronkite School leads the field of journalism education with its innovative use of the "teaching hospital" method, providing both unparalleled learning opportunities for students and important news content to the community, state, region and nation. Arizona PBS, one of the nation's largest public television stations and the largest media outlet operated by a journalism school in the world, serves as a hub for the Cronkite School's full-immersion professional programs and a testing ground for new approaches in journalism.

Cronkite students choose from 15 professional immersion programs, applying what they have learned in the classroom in real-world learning environments. Students cover public affairs from news bureaus in Phoenix, Los Angeles and Washington, D.C. and sports from bureaus in Phoenix and Los Angeles.

Carnegie-Knight News21 multimedia journalists conduct national data-driven investigations, and students in the Howard Center for Investigative Journalism produce watchdog journalism for national audiences. In Cronkite Noticias, bilingual students produce Spanish-language broadcast and digital stories, and those in the Southwest Health Reporting Initiative cover health news for audiences across the Southwest.

For Arizona PBS, Cronkite students produce a nightly newscast that reaches 1.9 million households as well as a robust multimedia news website, while others produce “Catalyst,” showcasing science research at ASU.

Meanwhile, Public Relations Lab students develop campaigns for client companies; Digital Audiences Lab students harness social media, SEO and analytics to grow and engage audiences for clients; and New Media Innovation and Entrepreneurship Lab students use digital technologies to forge the future of journalism.

Elsewhere at the school, the News Co/Lab works with news organizations around the country to help them find new ways of understanding and engaging with news and information. The Donald W. Reynolds National Center for Business Journalism provides education and training to professional journalists, and Cronkite Global Initiatives brings international journalists to the school for study and training. Cronkite also is home to PBS NewsHour West and Indian Country Today, creating enhanced coverage and added student opportunities.

All of these initiatives take place in a state-of-the-art building that is unequalled in journalism education. ASU’s investment in the school has generated national and international attention from educators and media professionals who place the school in the top tier of all U.S. journalism schools. The Times of London, The New York Times and USA Today have pointed to the school as a leading example of how journalism education is helping to redefine how news is delivered and how people will stay informed in the future.

About Walter Cronkite

ASU’s journalism program was named in honor of former CBS News anchor Walter Cronkite in 1984.

The relationship started when Tom Chauncey, longtime owner of the CBS affiliate in Phoenix and a leading supporter of journalism education at ASU, contacted his old friend in an effort to advance the program. An endowment on behalf of the program was soon established and the school was named after “the most trusted man in America.”

Over the next quarter of a century, Cronkite lent much more than his name to the school. He was closely involved — advising leadership, guiding students and faculty and traveling to Arizona each year to personally give the Walter Cronkite Award for Excellence in Journalism to one of the nation’s top journalists. The most special relationship, though, was with “our students,” as Cronkite would always call them. Young women and men, some with parents barely old enough to remember Cronkite behind the anchor desk, lit up when he walked into a classroom. They hung on his every word as he thoughtfully answered their questions about the profession he so loved. They lined up just to shake his hand, and he loved every minute of it.

In what turned out to be Cronkite's last visit to ASU in 2007 before declining health prevented him from traveling, a group of 100 students gathered with just a few minutes of notice that Cronkite was in the building. He held them spellbound as he spoke about covering World War II, Vietnam, Apollo, Watergate and presidents from Truman to Reagan — and of how important “our school” was to him. Although Cronkite died on July 17, 2009, before he was able to visit the new building, he remains an ever-present part of the school's heartbeat and direction.

Cronkite's legacy lives on in the spirit and passion with which the school teaches both the skills to do journalism in today's media environment and the time-honored ethics and news values necessary to do it in the manner that would make him proud.

The Cronkite School has established a special memorial fund in Cronkite's name. For more information on the fund and to learn more about Cronkite's legacy and career, visit cronkite.asu.edu/rememberingcronkite.

About Our Graduates

The Cronkite School has about 14,000 alumni throughout the Valley, across the country and around the world. Many are leaders in television, digital media, newspapers, radio, magazines and public relations.

In 1993, the Cronkite School inducted its first class into the Cronkite Alumni Hall of Fame. The charter inductees were Al Michaels ('66), an Emmy Award-winning sports broadcaster best known for anchoring “Monday Night Football,” and Bill Redeker ('71), an ABC News correspondent who covered the Middle East and the Far East during his 30 years with the network.

Other notable Cronkite Alumni Hall of Fame inductees include Nicole Carroll ('91), editor-in-chief of USA Today; Becky Anderson ('94), CNN International anchor; Julie Cart ('98), Pulitzer Prize-winning Los Angeles Times reporter; Derrick Hall ('91), president and CEO of the Arizona Diamondbacks; Christine Devine ('87), news anchor at FOX 11 in Los Angeles; Mary Kim Titla ('85), founder of Native Youth Magazine; Ray Artigue ('76), president of The Artigue Agency; and Chip Dean ('77), legendary director of ESPN's “Monday Night Football.”

Stay connected to fellow #CronkiteNation alumni on LinkedIn, Facebook, Instagram and Twitter.

THE NATION'S LEADING COMPREHENSIVE PUBLIC SERVICE COLLEGE

The Watts College of Public Service and Community Solutions is a unique, comprehensive public service college dedicated to fully integrating teaching, research and service to address social problems.

PREPARING PUBLIC SERVICE LEADERS FOR LIFELONG LEARNING, EQUIPPED WITH TOOLS TO AFFECT CHANGE

Our degree programs cover the spectrum of public service, including public policy, social work, criminology and criminal justice, nonprofit leadership, emergency management, community development, parks and recreation, and more.

A particular point of pride is that the college is home to ASU's most diverse student body, with the highest percentages of minority, college transfer and employed students—and one of the largest communities of first-generation college students. Many chose public service because of their own life experiences and firsthand understanding of systems that need improvement. Of equal importance is how this commitment translates into real impact for the communities to which students return.

INTEGRATING TEACHING, RESEARCH AND SERVICE ROOTED IN SOLUTIONS-BASED LEARNING

Through rigorous, applied research, we develop solutions to address pressing issues from child welfare to neighborhood safety, city management to human trafficking, water scarcity to tourism development.

From day one of their college experience, our students are immersed in hands-on learning through a signature solutions-based pedagogy. They are paired with community partners to tackle real-world problems—both an educational, and service-based experience—delivering more than 600,000 hours of community service each year.

LEADING ASU SERVICE AND POLICY INITIATIVES TO CREATE A MODEL OF A SERVICE-COMMITTED UNIVERSITY

The college serves as a model for ASU's commitment to service—leading university-wide initiatives such as spearheading the first-of-its-kind Public Service Academy, partnering with the Harvard Institute of Politics to increase civic participation through our Pastor Center for Politics and Public Service and leading AmeriCorps programs like Public Allies Arizona, Safety Planning for Survivors of Domestic Violence and Corporation for National and Community Service Employment Outcomes.

SOLVING PROBLEMS THROUGH COLLABORATION WITH COMMUNITY PARTNERS ACROSS SECTORS

The college brings collaborative ideas into action working closely with hundreds of government, private and nonprofit partners locally and globally. Our research and scholarship, through our research centers and offices, individual faculty members and cross-disciplinary teams has an impact beyond dollars: training, policy guidance, best practices and direct service.

OUR SCHOOLS AND CROSS-COLLEGE PROGRAMS

The School of Community Resources and Development advances the social, economic, environmental and cultural well-being of our local and global communities through instruction, research and service. We provide nationally recognized interdisciplinary research expertise and innovative academic programs in nonprofit leadership and management, parks and recreation management, and tourism development and management.

The School of Criminology and Criminal Justice merges theory and practice. The core of our highly-ranked program—#5 overall by US News & World Report—focuses on the theories of criminality and evidence-based best practices for responding to crime through the lenses of three interrelated structures—policing, courts and corrections—that collectively comprise the criminal justice system.

The School of Public Affairs' mission is to understand and address society's grandest challenges in public management, policy and governance. We seek to maximize our impact through rigorous transdisciplinary research, project-based education, collaborative and inclusive community engagement, experiential learning and innovative solutions. We are ranked consistently among the top 10 public affairs schools in the country with highly rated programs in urban management, environmental policy, nonprofit management, and public finance.

One of the largest and most diverse social work programs in the U.S., the *School of Social Work*, is motivated by its steadfast commitment to promote social, political and economic justice with a special emphasis on populations of the Southwest. The School prepares professional social work practitioners and scholars who are committed to enhancing individual, family and group problem-solving capacities, maximizing human potential, and creating a more just and humane society.

Our cross-college interdisciplinary programs blend the expertise of our disciplines to create innovative, well-informed approaches to emerging social problems. The emergency management and homeland security program promotes healthier and more vibrant communities through the effective management of hazards and crises. The program evaluation program develops expertise in response to increasing demands for accountability in the public, private and nonprofit sectors. The public safety leadership and administration program prepares graduates for management in the public safety sector with a particular emphasis on emergency medical services, fire and police administration.

RESEARCH AND IMPACT

The College leads the university in the production of research that has system-wide and large-scale impact on a myriad of social, behavioral, economic and political challenges. Through rigorous applied research, we are developing solutions with the potential to better our response to pressing issues and positively impact our communities locally, nationally and globally. Among our 20 centers:

Southwest Interdisciplinary Research Center
Center for Child Well-Being
Lodestar Center for Philanthropy and Nonprofit Innovation
Morrison Institute for Public Policy
Center for Violence Prevention and Community Safety

Reflections from W. P. Carey Graduates

ALMA MATER – ARIZONA STATE UNIVERSITY

Music and Words by *Ernest Hopkins* and *Miles Dresskell*

ABOUT THE W. P. CAREY SCHOOL OF BUSINESS

The W. P. Carey School of Business at Arizona State University is one of the highest-ranked and largest business schools in the United States. The school is internationally recognized for its leadership in business education and for positively impacting the practice, science, and art of management on a national and international scale. The school works to rethink the nature of business, engage the world, and create a better future.

More than 16,000 students attend the W. P. Carey School of Business, including over 2,500 online learners and more than 100 doctoral candidates. The student body is especially diverse, including representatives from over 100 countries.

Each member of the W. P. Carey community, whether on campus or around the globe, aspire to do great things — for themselves and each other. This promise is enshrined in the Carey Code, to enrich our legacy by living our values of excellence, integrity, impact, and community; to demonstrate that business is personal by treating others with respect; to advocate for diversity, equity, and inclusion; to champion fellow Sun Devils by volunteering time, talent, and treasure; and to embrace and exhibit ethical business practices.

The W. P. Carey School boasts an acclaimed faculty of more than 200 esteemed tenure and tenure-track faculty, including a Nobel Prize winner. Many faculty members are also on the editorial boards of academic journals and publications. Housed within the school are nine respected research centers and a research institute, which generate research, ideas, and information that support academics and business professionals and are internationally recognized for research productivity.

Both the school's graduate and undergraduate programs are ranked among the best in the nation by *U.S. News & World Report*. This year, 30 W. P. Carey programs or disciplines were ranked Top 25, with 12 ranked Top 10 in the nation.

Undergraduate Bachelor of Science degrees are offered in accountancy, business data analytics, business entrepreneurship, computer information systems, economics, finance, management, marketing, supply chain management, and technological entrepreneurship and management.

Undergraduate students also have the option of earning a Bachelor of Arts degree in business with concentrations in business administration, communication, corporate accounting, food industry management, global agribusiness, global leadership, global logistics management, global politics, health care, human resources, information security, language and culture, law, public service and public policy, retail management, sports business, statistics, sustainability, technology, and tourism.

The school offers its renowned MBA program in five distinct platforms: Full-time, Professional Flex, Online, Executive, and Fast-track. Master's degrees are available in accountancy, business analytics, finance, global logistics, information systems management, innovation and venture design, management, real estate development, and taxation. Doctoral degrees are offered in accountancy, agribusiness, economics, finance, information management, management, marketing, and supply chain management.

The W. P. Carey alumni network spans the globe. Our alumni represent highly regarded companies from diverse industries, including manufacturing, technology, retail, banking, accounting, entertainment, and food, as well as entrepreneurial firms and respected nonprofit organizations.

DOCTOR OF PHILOSOPHY

Halah Abdulaziz A Alateeq *Speech and Hearing Science*

Dissertation: Cognitive-Communication Abilities in Bilinguals with a History of Mild Traumatic Brain Injury
Chair: Tamiko Azuma, College of Health Solutions

Mohammed Saeed H Alharbi *Electrical Engineering*

Dissertation: High-Directive Metasurface Printed Antennas for Low-Profile Applications
Chair: Constantine A. Balanis, School of Electrical, Computer, and Energy Engineering

Nourah S A M Almatooq *Industrial Engineering*

Dissertation: Capacity Planning, Production and Distribution Scheduling for a Multi-Facility and Multi-Product Supply Chain Network
Co-Chairs: Jorge Alberto Sefair, School of Computing, Informatics, and Decision Systems Engineering; Ronald Gene Askin, School of Computing, Informatics, and Decision Systems Engineering

Talal Saeed Alqahtani *Mechanical Engineering*

Dissertation: Phase Change Materials for Thermal Management in Thermal Energy Storage Applications
Chair: Patrick E. Phelan, School for Engineering of Matter, Transport and Energy

Megan Leigh Altizer *Civil, Environmental and Sustainable Engineering*

Dissertation: Enhancing Reductive Dechlorination Through Electrokinetic Transport and Microbially Driven H₂ Cycling in the Subsurface
Co-Chairs: Cesar I. Torres, Biodesign Institute; Rosa Krajalnik-Brown, Biodesign Institute

Pouya Amrollahi *Biological Design*

Dissertation: Nanoplasmonic Sensing of Disease-Associated Extracellular Vesicles – An Ultrasensitive Diagnosis and Prognosis Approach
Chair: Xiao Wang, School of Biological and Health Systems Engineering

Timothy James Ashe, Jr. *Spanish*

Dissertation: The Role of WhatsApp in Developing L2 Spanish Learners' Intercultural Sensitivity: An Exploratory Task-Based Language Study in a Language Immersion Setting
Co-Chairs: David Bryan Smith, English; Sara Mariel Beaudrie, School of International Letters and Cultures

Neeta Ashok Kumar *Biomedical Engineering*

Dissertation: Neural Activity Mapping Using Electromagnetic Fields: An In Vivo Preliminary Functional Magnetic Resonance Electrical Impedance Tomography (fMREIT) Study
Chair: Rosalind Jane Sadleir, School of Biological and Health Systems Engineering

Haroon Iqbal Atcha *Political Science*

Dissertation: The Internet and Ethnic Riots
Chair: David Siroky, School of Politics and Global Studies

Annabelle Lin Atkin *Family and Human Development*

Dissertation: Familial Racial-Ethnic Socialization of Multiracial Youth: A Qualitative Examination and Validation of the Multiracial Youth Socialization (MY-Soc) Scale
Chair: Hyung Chol Yoo, School of Social Transformation

Diego Emmanuel Avalos *Justice Studies*

Dissertation: (Re)Mapping the Border: Mobility and Survival Across a Geography of Borders
Chair: Alan Gomez, School of Social Transformation

Ketut Gita Ayu *Industrial Engineering*

Dissertation: Modeling Cascading Network Disruptions Under Uncertainty For Managing Hurricane Evacuation
Chair: Pitu B. Mirchandani, School of Computing, Informatics, and Decision Systems Engineering

Joseph Anthony Azzolini *Electrical Engineering*

Dissertation: Development of a Load-Managing Photovoltaic System Topology
Chair: Meng Tao, School of Electrical, Computer, and Energy Engineering

Ali Basiri *Electrical Engineering*

Dissertation: Metasurface-Based Optoelectronic Devices for Polarization Detection and Ultrafast Optical Modulation
Chair: Yu Yao, School of Electrical, Computer, and Energy Engineering

Ganapati Manjunath Bhat *Computer Engineering (Electrical Engineering)*

Dissertation: Design, Optimization, and Applications of Wearable IoT Devices
Chair: Umit Ogras, School of Electrical, Computer, and Energy Engineering

- Saurabh Biswas** *Sustainability*
Dissertation: Creating Social Value of Energy at the Grassroots: Investigating the Energy-Poverty Nexus and Co-Producing Solutions for Energy Thriving
 Chair: Clark Anson Miller, School of Politics and Global Studies
- Concetta Mariella Lina Bondi** *Spanish*
Dissertation: Urban Chicana/Latinx Art and Cultural Production in Phoenix, Arizona
 “Mujeres del Desierto”: Cultural Identity, Eco-Somaesthetics, and Urban Space in the Work of Stella Pope Duarte, La Morena, and Annie Lopez
 Chair: Jesus Rosales, School of International Letters and Cultures
- Tejas Shyam Borkar** *Electrical Engineering*
Dissertation: Robust Deep Learning Through Selective Feature Regeneration
 Chair: Lina Karam, School of Electrical, Computer, and Energy Engineering
- Ute Barbara Brady** *Environmental Social Science*
Dissertation: Robust Conservation Anarchy: Comparing Treaty Institutional Design for Evidence of Ostrom’s Design Principles, Fit, and Polycentricity
 Chair: John M. Anderies, School of Human Evolution and Social Change
- Danielle Christine Brager** *Applied Mathematics*
Dissertation: Modeling and Analyzing the Progression of Retinitis Pigmentosa
 Co-Chairs: Erika T. Camacho, School of Mathematical and Natural Sciences; Stephen A. Wirkus, School of Mathematical and Natural Sciences
- Karalee Kim Brugman** *Geological Sciences*
Dissertation: Timescales and Characteristics of Magma Generation in Earth and Exoplanets
 Chair: Christy B. Till, School of Earth and Space Exploration
- Charlie Ventura Champion** *Psychology*
Dissertation: Exploring the Within- and Between-Person Effects of Alcohol Use and Discrepant Drinking on Mood and Relationship Functioning
 Chair: William Robert Corbin, Psychology
- Neng Iong Chan** *Environmental Life Sciences*
Dissertation: Dimensions of Phosphorus Sustainability: Phosphorus Flows in a Rapidly Growing City and Field Tests of Potential Agricultural Prototypes
 Co-Chairs: Bruce Edward Rittmann, Biodesign Institute; James Joseph Elser, School of Life Sciences
- Hong Chen** *Electrical Engineering*
Dissertation: Nonlinear Integrated Photonics in the Visible Spectrum Based on III-N Material Platform
 Chair: Yuji Zhao, School of Electrical, Computer, and Energy Engineering
- Jiawei Chen** *Civil, Environmental and Sustainable Engineering*
Dissertation: Context Integration for Reliable Anomaly Detection from Imagery Data for Supporting Civil Infrastructure Operation and Maintenance
 Chair: Pingbo Tang, School of Sustainable Engineering and the Built Environment
- Rong Chen** *Physics*
Dissertation: Path Integral Quantum Monte Carlo Method for Light Nuclei
 Chair: Kevin Edward Schmidt, Physics Department
- Feng Cheng** *Business Administration (Supply Chain Management)*
Dissertation: Firm Environmental and Social Sustainability in Supply Chains
 Chair: Kevin John Dooley, W. P. Carey School of Business, Supply Chain Management
- Michele D. Clark** *Environmental Life Sciences*
Dissertation: Evaluating the Social and Ecological Drivers of Invasive Plant Species Abundance in Sub-Tropical Community Forests of Nepal
 Chair: Sharon Hall, School of Life Sciences

Dissertation: Investigating the Effect of Salts and Small Molecule on Dissociation and Association Kinetics of the DNA Processivity Clamps Using Fluorescence Techniques
 Chair: Marcia Levitus, Biodesign Institute

Amirul Islam Rajib *Civil, Environmental and Sustainable Engineering*

Dissertation: Structure-Property Relationships to Understand Comprehensive Rejuvenation Mechanisms of Aged Asphalt Binder
 Chair: Elham H. Fini, School of Sustainable Engineering and the Built Environment

Aaron Carl Redman *Sustainability*

Dissertation: Assessing the Development of Key Competencies in Sustainability
 Chair: Arnim Wiek, School of Sustainability

Charles Bradley Rolsky *Biology*

Dissertation: Role of Microplastics as Anthropogenic Pollutants of Global Ecosystems
 Chair: Rolf Halden, Biodesign Institute

Daniel William Roush *Microbiology*

Dissertation: Photosynthetic Agents of Carbonate Bioerosion in Endolithic Microbiomes
 Chair: Ferran Garcia-Pichel, The College of Liberal Arts and Sciences

Megan Leigh Rudolph *Neuroscience*

Dissertation: Mesolimbic GluA1 AMPA Receptor Signaling in Dopaminergic Neurons Plays a Critical Role in the Induction of Cross-Sensitization to Psychostimulants in Response to Social Stress
 Chair: Michael Foster Olive, Psychology

John David Selby *Public Administration and Policy*

Dissertation: State R&D Tax Credits: Social and Economic Outcomes
 Chair: Stuart Ira Bretschneider, School of Public Affairs

Michael Ziad Serhan *Chemical Engineering*

Dissertation: Point of Care Detection of Iron Metabolism Parameters Through Colorimetric Sensing
 Chair: Erica Silvia Forzani, School for Engineering of Matter, Transport and Energy

Piyush Anil Shah *Business Administration (Supply Chain Management)*

Dissertation: Cognitive Antecedents to Knowledge Asset Outsourcing Decision
 Chair: Thomas J. Kull, W. P. Carey School of Business, Supply Chain Management

Ghazal Shams *Industrial Engineering*

Dissertation: Active Learning with Explore and Exploit Equilibriums
 Chair: George Runger, School of Computing, Informatics, and Decision Systems Engineering

Rachael Paige Sherman *Civil,**Environmental and Sustainable Engineering*

Dissertation: Assessing the Impact of Regulation on the Performance of Power and Pipeline Projects
 Chair: Kristen Parrish, School of Sustainable Engineering and the Built Environment

Yue Shi *Counseling Psychology*

Dissertation: Dual Autonomy: A Culturally Encompassing Reinterpretation of Traditional Autonomy in Clinical Supervision
 Chair: Terence John Tracey, College of Integrative Sciences and Arts

Hoon Cheol Shin *Environmental Social Science*

Dissertation: Internal Stresses and Social Feedback Mechanisms in Social-Ecological Systems: A Multi-Method Approach to the Effectiveness of Exit and Voice
 Chair: John M. Anderies, School of Human Evolution and Social Change

Kai Shu *Computer Science*

Dissertation: Understanding Disinformation: Learning with Weak Social Supervision
 Chair: Huan Liu, School of Computing, Informatics, and Decision Systems Engineering

Po-Yi Su *Materials Science and Engineering*

Dissertation: Structural and Optical Properties of III-V Semiconductor Materials for Photovoltaics and Power Electronic Applications
 Chair: Fernando Agustin Ponce, Physics Department

Zhe Sun *Civil, Environmental and Sustainable Engineering*

Dissertation: Predictive Control of Interpersonal Communication Processes in Civil Infrastructure Systems Operations
 Chair: Pingbo Tang, School of Sustainable Engineering and the Built Environment

Andrew Michael Svesko *Physics*

Dissertation: Emergence of Spacetime: From Entanglement to Einstein
 Co-Chairs: Maulik Kirit Parikh, Physics Department; Tanmay Vachaspati, Physics Department

Sylvia Alicia Symonds *Educational Policy and Evaluation*

Dissertation: Been There, Done That: Peer Coaching and Community Cultural Wealth
 Chair: David R. Garcia, Mary Lou Fulton Teachers College

Rahim Taghikhani *Applied Mathematics*

Dissertation: Mathematics of Dengue Transmission Dynamics and Assessment of Wolbachia-based Interventions
 Chair: Abba B. Gumel, School of Mathematical and Statistical Sciences

Chun Tao *Counseling Psychology*

Dissertation: The Role of Critical Consciousness on Asian-White Interracial Couples' Perceived Racism and Well-Being: A Mixed-Methods Study
 Chair: Ashley Karay Randall, College of Integrative Sciences and Arts

- Alexander Richard Tomes** *Biology*
Dissertation: The Influence of Solar Radiation, Temperature, Humidity and Water-Vapor Sorption on Microbial Degradation of Leaf Litter in the Sonoran Desert
 Chair: Thomas Day, School of Life Sciences
- Zachary Augustus Torrano** *Geological Sciences*
Dissertation: Early Solar System Processes and Parent Body Relationships Recorded by Chromium and Titanium Isotopes in Meteorites
 Chair: Meenakshi Wadhwa, School of Earth and Space Exploration
- Michael Tristano Jr** *Communication*
Dissertation: After the 49: Pulse's Performative Afterlife
 Chair: Daniel C. Brouwer, Hugh Downs School of Human Communication
- Zaharenia Vasiliki Tsikopoulos** *Nursing and Healthcare Innovation*
Dissertation: Improving Transitional Care for Individuals with Severe Mental Illness: The Role of Narrative Repair
 Chair: Gerri Lamb, Edson College of Nursing and Health Innovation
- Samantha Leigh Vandermeade** *Gender Studies*
Dissertation: Using the Master's Tools to Dismantle the Master's House: White Women's Gendered and Racialized Citizenship, Pro-Immigrants' Rights Advocacy, and White Privilege in the Borderlands
 Chair: Mary Margaret Fonow, School of Social Transformation
- Kartik Venkatraman** *Materials Science and Engineering*
Dissertation: Towards High Spatial Resolution Vibrational Spectroscopy in a Scanning Transmission Electron Microscope
 Chair: Peter Crozier, School for Engineering of Matter, Transport and Energy
- Brian Lawrence Wadsworth** *Chemistry*
Dissertation: Hybrid Materials and Interfaces for Artificial Photosynthetic Assemblies
 Chair: Gary Moore, School of Molecular Sciences
- Qingqing Wang** *Public Administration and Policy*
Dissertation: Turnover and Career Outcomes of Scientists and Engineers
 Chair: Barry Bozeman, Watts College of Public Service and Community Solutions
- Ian Matthew Welland** *Electrical Engineering*
Dissertation: Wave-Packet Phase-Space Monte Carlo Approach to the Modeling of Quantum Devices
 Co-Chairs: David K. Ferry, School of Electrical, Computer, and Energy Engineering; Stephen Marshall Goodnick, School of Electrical, Computer, and Energy Engineering
- Timothy Charles Wells** *Learning, Literacies and Technologies*
Dissertation: Modes of Misbehavior Pedagogy and Affect in the 19th-Century
 Chair: Mirka Elina Koro, Mary Lou Fulton Teachers College
- Zuoting Wen** *East Asian Languages and Civilizations (Chinese)*
Dissertation: Born of the North Wind: Northern Chinese Poetry and the Eurasian Steppes, 1206-1260
 Chair: Stephen H. West, School of International Letters and Cultures
- Megan Michele Wheeler** *Environmental Life Sciences*
Dissertation: Urban Ecology for Conservation: Evaluating Social and Ecological Drivers of Biodiversity Change Over Time
 Chair: Sharon Hall, School of Life Sciences
- Kyle Joseph Whitman** *Public Administration and Policy*
Dissertation: Using Latent Profile Analysis to Derive a Classification of Four-Year Colleges and Universities
 Co-Chairs: Derrick Mason Anderson, School of Public Affairs, Michael M. Crow, Office of the President
- Samuel Garrett Williams** *Chemistry*
Dissertation: Electrocatalytic Comparison of [FeFe]-Hydrogenase
 Chair: Anne Katherine Jones, School of Molecular Sciences
- Zhaokun Xin** *East Asian Languages and Civilizations (Chinese)*
Dissertation: Angry Men, Angry Women: Patience, Righteousness, and the Body in Late Imperial Chinese Literature
 Co-Chairs: Stephen H. West, School of International Letters and Cultures; Xiaoqiao Ling, School of International Letters and Cultures
- Xueyan Yin** *Business Administration (Computer and Information Systems)*
Dissertation: Digital Media Analytics: Towards an Understanding of Content Design and Social Media Promotion
 Chair: Pei-yu Chen, W. P. Carey School of Business, Information Systems
- Hyeonho Yu** *Learning, Literacies and Technologies*
Dissertation: The Effects of Mobile App Technology on Technique and Game Performance in Physical Education
 Chair: Hans Van Der Mars, Mary Lou Fulton Teachers College

Jia Yu Computer Science

Dissertation: System Support for Large-Scale Geospatial Data Analytics
Chair: Mohamed Sarwat Abdelghany Aly Elsayed, School of Computing, Informatics, and Decision Systems Engineering

Wen Zhang Computer Science

Dissertation: The Fusion of Multimodal Brain Imaging Data from Geometry Perspectives
Chair: Yalin Wang, School of Computing, Informatics, and Decision Systems Engineering

The Moeur Award is Arizona State University's oldest, continuing honor. It was established in 1901 by Dr. Benjamin B. Moeur and Honor Anderson Moeur, and is now sponsored annually by the Arizona State University Alumni Association. The award is presented at each Commencement ceremony to those individuals who have attained the highest academic standing in any four-year curriculum during their undergraduate years at ASU. All courses of the curriculum must be completed at ASU.

**THE ARIZONA STATE UNIVERSITY
MACE AND PRESIDENT'S CHAIN OF OFFICE**

In Medieval times, a mace was a hand-to-hand combat weapon. In about the year 1400 A.D., a mace evolved from a weapon to a ceremonial instrument used by academicians in rituals such as commencement and inaugurations. The oldest known ceremonial mace was that of the Faculty of Common Law of St. Andrew University in Scotland, used in 1438.

The Mace and Chain of Office are presented only at ceremonies in which faculty members are in full academic regalia, such as the Inauguration of the ASU President, University Commencement, Faculty Assemblies, Regents' and President's Professor Induction Ceremonies and Convocation.

The Mace is carried at the head of the procession and laid in a cradle, thus signifying the formal onset of the ceremony.

ASU's ceremonial mace and chain of office was created in observance of ASU's Centennial in 1985. Handcrafted by ASU Professor of Art, David Pimentel (1943-2004), the mace and chain was created with "austere elegance and traditional southwestern motifs." In keeping with these directions, Professor Pimentel constructed both items out of materials native to Arizona. The ASU Mace is a wood staff, approximately three and a half feet long, weighing eight pounds and made of hollowed and polished Mesquite.

The head of the ASU Mace has four sterling silver blades and is banded with copper, Morenci turquoise, and a silver ring on which the words Arizona State University are embossed. The turquoise inlay was cut and polished by Navajo jeweler Richard Charlie of Mesa. The ASU seal is embossed in silver on the heel of the mace.

The President's Chain of Office includes a silver rope woven from strands of hand-turned links, which holds a medallion six inches in diameter that reverses to reveal the ASU seal in gold on one side and the same in silver and turquoise on the other.

HISTORY OF THE ACADEMIC COSTUME

The present-day academic costume seemingly originated at Oxford and Cambridge Universities in the 1300s. As the universities passed from ecclesiastical control, brighter colors distinguished the academic robe from the drab clerical gown. Colonial American universities based their academic regalia on the British system.

In the 1880s, a student movement centering in New England investigated the establishment of a "senior badge," to improve commencement week exercises and revive the traditions of university life. In 1893, an intercollegiate commission established a uniform code for caps, gowns and hoods for the various degrees.

Of the costume's three components, the hood is the most interesting. Originally it had three uses: as a head covering, as a shoulder cape, and as a bag in which alms could be collected. It is mentioned as early as 1480 in clerical literature. When large wigs were in vogue in Britain, the cape part of the hood was split in front and a narrow neckband inserted. The entire cape and hood was allowed to fall back as it is today, and it was never restored to the original style.

Following is a list of the hood and tassel colors established by the Intercollegiate Code to represent departments of learning:

Architecture	Blue-Violet
Agriculture	Maize
Arts, Letters, Humanities	White
Business Administration, Commerce, Accountancy	Sapphire Blue
Dentistry	Lilac
Economics	Copper
Education	Light Blue
Engineering	Orange
Fine Arts	Brown
Forestry	Russet
Home Economics	Maroon
Journalism	Crimson
Law	Purple
Library Science	Lemon
Medicine	Green
Music	Pink
Nursing	Apricot
Oratory (Speech)	Silver Gray
Pharmacy	Olive Green
Philosophy	Dark Blue
Physical Education	Sage Green
Public Administration, including Foreign Service	Peacock Blue
Public Health	Salmon Pink
Science	Gold-Yellow
Social Science	Citron
Theology or Divinity	Scarlet
Veterinary Science	Gray

Black tassels are correct for all degrees,
and colored tassels are worn only by preference.

Gold metallic tassels may be worn by doctors or presidents of universities and colleges.
