COMMENCEMENT
AND
CONVOCATION
PROGRAM

Fall 2012

December 19-21, 2012

CONTENTS

THE NATIONAL ANTHEM

THE STAR SPANGLED BANNER

O say can you see, by the dawn’s early light,
 What so proudly we hailed at the twilight’s last gleaming?
 Whose broad stripes and bright stars through the perilous fight
 O’er the ramparts we watched, were so gallantly streaming?
 And the rockets’ red glare, the bombs bursting in air
 Gave proof through the night that our flag was still there.
 O say does that Star-Spangled Banner yet wave
 O’er the land of the free and the home of the brave?

ALMA MATER

ARIZONA STATE UNIVERSITY

Where the bold saguaros
 Raise their arms on high,
 Praying strength for brave tomorrows
 From the western sky;
 Where eternal mountains
 Kneel at sunset’s gate,
 Here we hail thee, Alma Mater,
 Arizona State.
 —Hopkins-Dresskell

Students whose names appear in this program are certified graduates for the degrees listed.

University commencement and convocation ceremonies are special events for all involved. Please show respect for everyone who has come to share in the experience.

Individuals who engage in inappropriate or disruptive behavior may be removed from the event.

As a courtesy to those around you and to our graduating students, please turn off pagers and cellular phones during the ceremony.

MISSION STATEMENT

UNIVERSITY COMMENCEMENT

University Commencement represents the culmination of a student's academic achievement.

It is a time of celebration and reflection for students, families, friends, faculty and staff.

It brings together a diverse community to share in the joy of accomplished goals.

Arizona State University continually demonstrates its dedication to efficiency, technology and sustainability. Beginning with this volume, the full University Commencement program is being made available to graduates on a reusable external flash drive. This change aligns with our growing institutional efforts to enhance sustainability practices, and our broader endeavors to employ technology in heightened service to our students.

The reusable external flash drive, combined with the abridged program, will yield a 4 million page reduction in the amount of printed materials distributed at graduation ceremonies over the next three days.

We kindly ask for your help in our sustainability efforts by returning unused or unwanted programs to the venue or recycling your printed programs after you have enjoyed them.

To order additional copies of this final printed bound book with all graduates names listed, scan this QR code with your smart phone's reader app or go to <http://ironwood.worksmartsuite.com> (User name: *ASUuser* Password: *password*)

HISTORY OF HONORARY DEGREES

Harvard was the first university to confer honorary degrees in 1692. Since then it has become a recognized function of degree granting institutions. Honorary degrees are an opportunity for universities to single out people who have made contributions to society. At ASU, honorary degree recipients are nominated by faculty members. The Academic Affairs Honorary Degrees Committee reviews faculty nominations for the Honorary Degree. It then recommends candidates to the president. The committee is appointed by and responsible to the president.

PRESENTATION AND HOODING OF JD CANDIDATES

CLOSING REMARKS

Dean Douglas Sylvester, JD, LL.M.

***RECESSION OF FACULTY AND CANDIDATES**

*Audience should stand for these portions of the program.

At its founding, the College of Law at Arizona State University committed itself to innovation. While retaining important aspects of traditional legal education, Dean Willard H. Pedrick and the six well-respected faculty members, whom Pedrick recruited to the desert from around the country, embraced a vision of the future of legal education, befitting a young school in a growing city.

Nearly from its inception, the College pursued clinical legal education models, through which students receive a foundation in lawyering before they become practicing attorneys, while providing indigent members of the community with valuable legal assistance. Today, the College of Law has more than a dozen clinics and clinical units, more per capita than almost any law school in the country. These programs offer hands-on experience in both litigation and transactional settings, across an extraordinarily wide range of topic areas. Indeed, each year approximately 90 percent of students participate in clinics, externships, or pro bono activities.

In the four decades since its founding, the College of Law, now renamed the Sandra Day O'Connor College of Law, has grown in size and national prominence, assembling an acclaimed faculty in the traditionally core areas of legal study while continuing to offer innovative approaches that look to the future of legal education. The Center for Law, Science & Innovation is the nation's first and largest academic center focused on the intersection of law and science, and through it the College offers the country's only LL.M. in Biotechnology and Genomics, as well as innovative new programs in Governance of Emerging Technologies, Personalized Medicine, Law & Policy, Public Health Law and Policy, Law and Sustainability, and Information and Communications Technology. The Indian Legal Program is arguably the leading program in the country; it offers a strong curriculum in Indian Law, including the Certificate in Indian Law and the Indian Legal Clinic, and trains students to be leaders in Indian Country. The Center for Law and Global Affairs and a new LL.M. program for foreign lawyers increase the law school's emphasis on cutting-edge transnational and international legal issues. The Diane Halle Center for Family Justice, in collaboration with the Center for Law and Global Affairs, pursues direct representation and policy advocacy on core issues of human trafficking and human rights, and engages other ASU units and community partners to address domestic violence, juvenile law and other issues related to families and their interaction with the law. The College's Washington, D.C., Legal Externship Program and research think-tank experiences across the curriculum allow students and faculty to be important participants in addressing the local, national, and global public policy challenges of our time.

The College of Law bridges the gap between theory and practice, and our faculty and students address the local, national, and global public policy challenges of our time. In short, the Sandra Day O'Connor College of Law remains an innovator, building new models for 21st century public legal education in a dynamic, increasingly diverse, local, national, and global environment.

RECESSIONAL

The Barrett Story

Barrett, The Honors College at Arizona State University, is a selective, residential college for academically outstanding undergraduates. Named “Best Honors College” in the nation, the college often has more National Merit Scholars than Princeton, Yale or Stanford.

The college is supported by a \$10 million endowment that is used exclusively to benefit honors students and fund their projects. Barrett students major in any field offered at ASU’s campuses - Tempe, Polytechnic, Downtown or West.

Barrett students are members of a small community of scholars who have direct access to our deans and receive personalized attention from approximately 25 honors faculty fellows and 35 staff members who care about them as individuals. In addition to these full-time honors college personnel there are more than 1400 university faculty members who teach and mentor Barrett students across all four campuses.

The \$130 million Barrett campus in Tempe was designed by students, faculty and staff working with nationally renowned architects. The Barrett complex functions as its own small honors community on the ASU Tempe campus where students enjoy the amenities and resources of a large university. This unique arrangement is a model for higher education and has often been referred to as the best of both worlds by students who thrive in a small college atmosphere but appreciate access to large university programs like Division I athletics and high profile lecturers.

Student Opportunities

Barrett students take advantage of an array of opportunities that enrich the honors experience. They participate in study abroad programs that enable them to travel to foreign countries, immerse themselves in small classes taught by honors faculty, and experience different cultures and societies while earning honors credits. Barrett Summer Abroad destinations include France, Greece, Italy, Germany, Switzerland, Spain, the British Isles, South American and China. Barrett students

receive national and international graduate scholarships such as Rhodes, Truman and Marshall Scholarships. They take advantage of unique undergraduate research and internship opportunities, such as those available at the Translational Genomics Research Institute, the governor’s office, Congress, the White House, or on Wall Street. Barrett students attend social and cultural events, publish poetry in the honors literary publication LUX, shadow doctors at the Mayo Clinic, and work with professors in the Biodesign Institute on latest developments in nanotechnology. Many honors students seek leadership opportunities and find fulfillment in serving others, both on campus and in the larger metropolitan community. Barrett students also have opportunities to meet with individuals renowned for contributions in their fields, such as retired U.S. Supreme Court Justice Sandra Day O’Connor, former CNN anchor Aaron Brown, authors Guy Dauncey and David Kessler, and photographer Joel Meyerowitz.

Signature Events

Barrett hosts two signature events annually, the Centennial Lecture and the Rhodes Lecture. In 1985, the Flinn Foundation established an endowment to commemorate ASU’s 100th year. The gift created the ASU Centennial Lecture, and in 1989 it provided the Barrett Honors College the resources to bring some of the world’s most influential intellectuals to campus. The Centennial Lecture has become one of ASU’s premier intellectual events featuring noted diplomats, scientists, playwrights, and authors. Each Centennial Lecturer has helped to strengthen the university and has provided students and community members with a memorable experience. Former Centennial lecturers include Edward James Olmos, dedicated actor, community activist in 2010; Dr. Oscar Arias, Nobel Peace Laureate and two-time president of Costa Rica in 2011; and most recently, Sylvia Nasar, author of best-selling novel, “A Beautiful Mind” and Knight Professor of Business Journalism, Columbia University in Fall 2012.

The Rhodes Lecture is given by the John J. Rhodes Chair in Public Policy and American Institutions at Barrett. The Chair was created to celebrate the career in public service of one of Arizona’s and the nation’s most distinguished leaders. The Rhodes Chair is dedicated to deepening theoretical and practical understanding of the many voices and forces that influence public policy. The Chair honors the values of personal integrity, fiscal responsibility, respect for persons, and international farsightedness exemplified in the Hon. John J. Rhodes’ career. The 2012 Rhodes Chair was Jessica Jackley, American businesswoman, entrepreneur who co-founded Kiva, the world’s first microlending web site. The upcoming 2013 Rhodes Chair will be Leroy Chiao, PhD, NASA Astronaut and engineer who specializes in government and private space programs and also serves as an international advocate for STEM education. The 2013 Rhodes Lecture is scheduled for Wednesday, February 20 at Tempe Center for the Arts. Visit www.barretthonors.asu.edu/events/ for more information about future Barrett events.

Barrett on all four campuses

In fall 2009, Barrett, The Honors College at Arizona State University, opened the

nation's first comprehensive four-year residential honors college within a top-tier Research I university that underscores its standing as the premier honors college in the nation. On the Tempe campus, the nine-acre college includes resident halls for 1700 students, several classrooms, a community center with student lounges, activity rooms, computer labs, a fitness center, a multi-room dining facility with a refectory, café, and administrative, faculty and staff offices.

Multiple upgrades to the Barrett Honors College facilities on Downtown, Polytechnic and West campuses have taken place – featuring honors student lounges, libraries, kitchens, computer labs, student activity and study rooms, faculty and administrative offices, and honors residential communities.

Barrett at the Downtown Campus is home to about 400 honors students. The Barrett residential community, called B-Town D-Town, is located at Taylor Place at the heart of the campus and offers a living environment where students have easy access to ASU's downtown colleges and programs, as well as Phoenix's increasingly vibrant lifestyle.

Barrett at the Polytechnic campus gives students the feeling of studying at a small private college with the advantages of a large university. The honors residential community is unique among the ASU campuses – freshman honors student reside together on a floor of Century Hall, which opened in the summer of 2012 while upper-division honors students live in 2- and 3-bedroom houses in a special Barrett neighborhood on campus. Honors students also have access to a new dining hall and fitness facility.

Barrett at the West Campus provides the entire range of honors activities in a small liberal arts college setting. Barrett West students live and learn on the ASU West Campus with approximately 500 other residents. Honors students live in the new Casa de Oro, a residence hall that opened in fall 2012. The 5,000-square-foot Barrett Suite includes a computer lab, study rooms, a meeting area, a library, and staff and faculty offices.

With its outstanding programs, dedicated faculty and staff, and comprehensive facilities, Barrett is a national model for organizing resources to support the honors experience at all four campuses at ASU.

The Moeur Award is Arizona State University's oldest, continuing honor. It was established in 1901 by Dr. Benjamin B. Moeur and Honor Anderson Moeur, and is now sponsored annually by the Arizona State University Alumni Association. The award is presented at each Commencement ceremony to those individuals who have attained the highest academic standing in any four-year curriculum during their undergraduate years at ASU. All courses of the curriculum must be completed at ASU.

RECESSIONAL**ABOUT THE COLLEGE OF HEALTH SOLUTIONS**

Arizona State University established the College of Health Solutions (CHS) in May 2012 as part of its strategic initiative to build a new model for health education.

The new multi-disciplinary College includes the School of Nutrition and Health Promotion, the Department of Biomedical Informatics, and the soon to launch School of the Science of Health Care Delivery. The College also collaborates closely with affiliated health units at ASU, including the College of Nursing and Health Innovation, the School of Biological and Health Systems Engineering, and numerous research centers and programs, such as the Center for Health Information and Research, the Health Care Delivery and Policy Program, and the Healthcare Transformation Institute.

The mission of the College of Health Solutions is to better promote good health, prevent and control disease, and to improve health outcomes for patients and their families. To accomplish this mission, it serves as a knowledge exchange and catalyst for collaboration among health-related units across ASU, as well as providing support for health-related academic programs, transdisciplinary research initiatives, and strategic partnerships. World renowned faculty, diverse student populations, unique and innovative research opportunities and phenomenal academic exploration best characterize the College of Health Solutions. It presents a new model of integrated and interprofessional health education and delivery unlike any other in the nation.

ABOUT THE SCHOOL OF NUTRITION AND HEALTH PROMOTION

The School of Nutrition and Health Promotion (SNHP), established in 2011, offers a unique opportunity for students interested in a range of health related academic programs and research opportunities. While the School itself is newly formed, its programs in Exercise and Wellness, Health Sciences, Kinesiology, Medical Laboratory Science, and Nutrition represent as many as 100 years of academic excellence at ASU. The School provides unique and challenging interprofessional academic programs and supports transdisciplinary research. Its graduates are now part of an ever-growing alumni base of skilled and compassionate professionals dedicated to the optimization of health and the reduction of chronic disease risk. These graduates transform the lives of individuals and communities throughout Arizona and beyond by promoting healthy lifestyles.

As the nation's health care systems continue to evolve and improve, Americans must be prepared to assume more responsibility for their own health and well-being. The traditional emphasis on the "care" or treatment side of the healthcare system is now shifting to a greater emphasis on disease risk reduction and prevention. Graduates of the School of Nutrition and Health Promotion are well positioned to design, implement and evaluate programs that reflect the expanded importance of

“health and wellness” within the U.S. healthcare system. The mission of the School of Nutrition and Health Promotion is to educate future professionals to serve as leaders, scholars, educators, and promoters of healthy lifestyles.

ABOUT THE DEPARTMENT OF BIOMEDICAL INFORMATICS

The Department of Biomedical Informatics (BMI) at Arizona State University fosters strong partnerships among academic researchers, clinical practitioners and regional health care providers in the advancement of research and education in the science and practice of biomedical informatics. Its mission is to advance the science and technology of biomedical informatics, inform and influence policy, and improve individual and population health. It is committed to excellence and leadership in research, development, education and service. BMI is currently offering a Master of Science (M.S.) and a Doctor of Philosophy (Ph.D.) in the field, specifically designed to bring together clinicians and researchers in teams to apply new developments in informatics theory to clinical practice. Courses feature a sequence in methodology, problem solving and the latest software and systems solutions. Partnerships with Mayo Clinic, Barrow Neurological Institute and Banner Health, among others, infuse the program with practical research mandates and clinical relevance that reinforce BMI’s standard of excellence and leadership.

RECESSIONAL**COLLEGE OF LIBERAL ARTS AND SCIENCES**

Serving as the intellectual heart of this vibrant university, the College of Liberal Arts and Sciences is redefining what is expected of the well-educated person of the 21st century. Spanning the humanities, social sciences, natural sciences and life sciences, CLAS offers a challenging environment of learning and discovery in which students and faculty can aspire to personal achievement and collaborative problem-solving.

The College of Liberal Arts and Sciences, the largest at ASU, is structured to help students identify and focus their dreams and aspirations. The college is in actuality many communities within communities where students meet peers and faculty who share their interests and passions through a rich diversity of schools, departments, majors, programs, institutes, centers, laboratories, clubs and organizations.

Faculty members in the college are committed to providing each of our students with the best education that we can, recognizing that the pace and complexity of the modern world will ask successful citizens and leaders to reinvent themselves time and again. Any institution of higher learning can train a student for a first job. Our goal is to equip our students with knowledge and skills for a lifetime of success. Although we are continually innovating and adapting as a college, the liberal arts remain the best foundation for successful careers and deeply rewarding personal and professional lives.

The College of Liberal Arts and Sciences—*Creating a life with meaning.*

HONORS CORDS

Some of our undergraduate degree candidates wear maroon and/or gold honor cords. These cords designate students who have completed at least 56 resident credit hours at ASU and who have attained the following grade point averages:

Summa Cum Laude = Maroon and Gold cords, 3.80 to 4.0 GPA

Magna Cum Laude = Gold cord, 3.60 to 3.79 GPA

Cum Laude = Maroon cord, 3.40 to 3.59 GPA

ASU COLLEGE OF NURSING & HEALTH INNOVATION

Distinction with a Difference

The ASU College of Nursing & Health Innovation is a very special and different place, as evidenced by its name. Like many colleges of nursing and health throughout the nation, our goal to offer the highest quality of academic, research and clinical practice programs to produce graduates who will be the best clinicians, teachers, advocates of good health, and researchers.

However, the College of Nursing & Health Innovation is different in its culture that is based on dreaming, discovering and delivering that enables students, faculty and staff to reach their full potential. It is the way we do business.

First, we encourage our students, faculty and staff to catch big dreams and believe in those dreams. Too often, individuals are surrounded by others who discourage them from thinking big, being bombarded with skepticism. Here, though, we encourage and provide an environment where dreams are cultivated. We foster innovative thinking at ASU—being on the cutting edge and visioning solutions to the most complex healthcare problems before others see answers.

Second, discovery and risk-taking are a way of life at our college. So many times, individuals do not achieve their dreams because they are afraid to be risk-takers. However, the most successful people in life typically take the most risks. We not only encourage our students to take risks, we mentor them to do so.

Third, we model follow-through on the goals that we set, and persist through what we call the “character-building times.” So many individuals give up on their dreams right before they would have accomplished them. We teach the value of persisting through adversity with enthusiasm, knowing that success will ultimately be achieved.

Fourth, we teach and implement a hands-on approach to care in a rich interdisciplinary environment throughout all of our educational programs. Our outstanding nationally recognized researchers in our Center for Improving Health Outcomes in Children, Teens & Families, Center for Healthy Outcomes in Aging, and the Hartford Center for Geriatric Nursing Excellence are generating evidence through research and building faculty capacity that has a direct impact on improving quality of care and patient outcomes for two vulnerable populations.

Fifth, we operate three high-quality academic nursing health centers in the greater Phoenix area that emphasize an interdisciplinary approach to care, which are part of more than 700 clinical placement sites where our students receive outstanding educational experiences in the real world. In addition, we house what we believe is the most cutting-edge simulation center in the country that provides our students with the competencies they need to transition to real-world healthcare systems with confidence and essential practice skills.

Finally, we cultivate innovation and entrepreneurship in our college. Our Center for Healthcare Innovation & Clinical Trials, is becoming a state and national hub for the development, design and testing of new healthcare products and systems to improve patient outcomes. Students here are taught how to innovate and think entrepreneurially as well as how to make their dreams come to fruition.

THE COLLEGE

The College of Public Programs is home to the School of Community Resources & Development, the School of Criminology and Criminal Justice, the School of Public Affairs, and the School of Social Work. The College was established to bring together academic disciplines focused on community, stewardship of democracy, public service and use-inspired research. Its programs at the undergraduate and graduate levels incorporate the spirit of leadership, scholarship, and professionalism.

THE SCHOOLS IN THE COLLEGE OF PUBLIC PROGRAMS

The School of Community Resources & Development students, faculty, and staff share a commitment to making communities better places to live, work, and visit. The fields subsumed within our School are extremely diverse and involve the private, government, and nonprofit sectors of the economy. The concept of building sustainable and healthy communities is the unifying principle encompassing our School's three established focus areas of parks and recreation management, tourism development and management, and nonprofit leadership and management.

The School of Criminology and Criminal Justice merges theory and practice. This occurs in the teaching, research, and service activities of our faculty, students, and alumni. The convenient downtown location makes the School accessible to working professionals and traditional students. In addition, the location of major criminal justice agencies downtown enhances the opportunities for instruction, practice and internships for all students. The School offers a bachelor's degree, two master's degrees and a Ph.D. The degrees are designed to meet the needs of working professionals and full-time students. The curriculum is delivered both in-class and online.

The School of Public Affairs will continue our long tradition of developing outstanding public leaders; people who are committed to making a difference in our world and who are well prepared to meet the rigorous demands and substantial challenges of the future. We offer innovative educational and professional opportunities to help build strong and more effective leaders. We are the only public administration program in the Phoenix area to be accredited by the National Association of Schools of Public Affairs and Administration (NASPAA) and are consistently ranked among the top 25 public affairs schools in the country.

The School of Social Work strives to develop and provide access to innovative social services that allow disadvantaged families and communities to prosper. We are among the largest and most diverse social work programs in the U.S., with over 1,300 students now enrolled at our Phoenix and Tucson locations, and over 8,000 alumni. We offer Bachelor (BSW), Master (MSW), and Ph.D. degrees, as well as many certificate and continuing professional education programs. Our students intern at more than 800 field placement sites. Extensive online and nontraditional hour courses facilitate access to those with varying schedules and needs.

THE CENTERS, INSTITUTES, AND PROGRAMS

Bob Ramsey Executive Education Program

Our program offers a wide variety of quality professional development programs for public managers, executives and elected officials. It provides intensive workshops and top-notch management training.

Center for Applied Behavioral Health Policy

The Center conducts research, provides program development and evaluation services, and designs and conducts workforce development initiatives to improve policies and programs that affect people with substance use disorders or mental illness.

Center for Policy Informatics

The Center leverages cutting-edge technology and cross-disciplinary theory to help individuals and communities make and evaluate policy choices. It develops policy-relevant models that balance the complexity of real-world phenomenon with transparent, actionable evidence.

Center for Urban Innovation

As the College's focal point for research on urban affairs, the Center's mission is to improve the quality of life in neighborhoods, cities, and urban regions by promoting innovation in governance, policy, and management.

Center for Violence Prevention and Community Safety

The Center brings together scholars from social, behavioral, and humanistic backgrounds to conduct research confronting international, regional and local problems for the purpose of conceiving and implementing policies, programs, and practices grounded in evidence.

Lodestar Center for Philanthropy & Nonprofit Innovation

The Center builds the capacity of the social sector by enhancing the effectiveness of those who lead, manage and support nonprofit organizations. It promotes the understanding of the nonprofit sector and philanthropy in community life, with a particular focus on effective practices that help organizations meet their missions.

Tourism Research Center

The Tourism Research Center is devoted to studying the role of tourism in community development in order to strengthen its contribution to viable economic, social and environmental systems, especially in megapolitan regions around the world – aptly named tourism for the public good.

Morrison Institute for Public Policy

Morrison Institute bridges the gap between academic scholarship and public policy development through independent research and services to public and private sector clients. The Institute researches public policies that impact Greater Phoenix, the state of Arizona and the nation.

Southwest Interdisciplinary Research Center

The Center conducts transdisciplinary minority health and health disparities research, research education training, and community outreach and engagement on drug abuse, mental health and HIV/AIDS.

COLLEGE OF TECHNOLOGY AND INNOVATION

The College of Technology and Innovation (CTI) is making a new higher education experience that focuses on learning through making things and solving real-world challenges through collaboration. Today we celebrate the graduates who embody this mission.

At CTI we strive to fully exemplify the polytechnic values of engaged learning, use-inspired applied research and deep engagement with industry. We operate at the intersection science, technology, engineering, mathematics, entrepreneurship and management; connected by a mission to make innovative contributions to society and industry.

CTI is an environment for learning and discovery that is suited to the needs of the 21st century. Society needs innovative and technically competent leaders and the world needs new solutions to address complex problems in our region, nation and around the world. Our students gain technical competence through systems-thinking and we solve problems in interdisciplinary teams. Our core values are reflected in all of our programs.

- We believe students learn best when they are deeply engaged in their learning, so we focus on learning in context. *How* you learn is as important as *what* you learn. This approach contributes to deeper and more effective learning and ultimately it enables us to better foster creativity and innovation.
- We believe the discoveries we make in our laboratories and studios should emerge as real products or practices. We are committed to identifying ways to bring our ideas to the marketplace and elevating our best thoughts that will ultimately create enterprise and impact society.
- We know that for students and faculty to make an impact on our world, they need to engage industry at a level well beyond academic norms.

Over 3,300 students are engaged in a learning environment established and nurtured by a faculty guided by these values.

Innovation is not a subject; it is a way of being. We are centered on creativity and innovation. We focus on challenges in areas of human concern where technology is the best hope at advancement. Our students and faculty thrive in this setting as engaged discoverers, teachers, learners, and entrepreneurs.

We are a college of makers. Regardless of the degrees bestowed upon our graduates today, they have all majored in making. Graduates of CTI have a multidisciplinary foundation from which they are positioned to make the world a better place.

Special thanks to Marvin and June Morrison for the endowment of the Morrison School of Agribusiness and Resource Management in 1998. The commitment of the Morrison Family to education and scholarship is appreciated. We are grateful for their generosity and continued support.

ABOUT THE HERBERGER INSTITUTE FOR DESIGN AND THE ARTS

The ASU Herberger Institute for Design and the Arts leads an exploration of the contemporary human condition through creative practice and research, bringing together a unique array of disciplines that allow for distinctive opportunities for collaboration. Continually striving to enable design and arts students to succeed beyond graduation, the Herberger Institute consists of the following six schools: Art; Arts, Media and Engineering; Dance; Design; Music; and Theatre and Film.

More than 5,500 students are supported by 400 faculty and faculty associates and 170 staff offering a total of 51 undergraduate and 53 graduate degree programs and concentrations. The ASU Art Museum and the Herberger Institute Research Center support research initiatives, while diverse community engagement projects enable students and faculty to interact with the public through meaningful partnerships.

We encourage all of our alumni to continue to share their stories with us and to take an active role in the Herberger Institute Alumni Chapter. For more information on our alumni activities, please visit us on the Web at herbergerinstitute.asu.edu/alumni.

Engineering at Arizona State University

The Ira. A Fulton Schools of Engineering, ranked in the top 50 U.S. engineering schools, are home to more than 225 faculty and more than 8,700 students. The Schools were awarded about \$78 million in externally funded research in fiscal year 2012. In 2011-2012, the Fulton Schools of Engineering granted 1,653 undergraduate and graduate degrees. Today, more than 32,000 Engineering alumni are advancing the fields of engineering and technology in Arizona and around the world.

To produce the engineers and innovations needed to address society's changing needs, we have crafted a visionary blueprint for an engineering school that transcends traditional organization around degrees and disciplines, and fosters a transdisciplinary approach to teaching and research. Through our five schools, we offer 15 undergraduate and 27 graduate degree programs that encourage innovative collaboration across disciplines, with faculty and students alike focusing their efforts on developing solutions that will have significant, lasting impact on our local and global communities.

The School of Biological and Health Systems Engineering provides a rich, interdisciplinary curriculum that prepares students to use engineering and scientific principles and methods to develop instrumentation, materials, diagnostic and therapeutic devices, artificial organs or other equipment and technologies needed in medicine and biology. The school's biomedical engineering degree programs strive to produce graduates with a broad-based education in both engineering and the life and natural sciences, with a focus on improving the overall quality of global health care.

The School of Computing, Informatics, and Decision Systems Engineering is home to computer engineering, computer science, computer systems engineering, engineering management, industrial engineering and informatics degree programs. From data to decisions, the school covers the spectrum for designing the modern, information-driven society, engaging in the fundamental activities of sensing, optimizing, controlling and communicating. Computing serves as the engine that drives this transformation, linking together the school's fundamental activities. The school is dedicated to creating new knowledge and technology that contributes to solving the major problems facing modern society.

The School of Electrical, Computer and Energy Engineering brings together university faculty, students and companies to develop collaborative relationships and solutions. The school's computer engineering and electrical engineering degree programs and research efforts are aligned with national and international efforts to address worldwide challenges in energy production and distribution, healthcare technology and delivery, sustainable development and economic growth, communications technology and information management and global security.

The School for Engineering of Matter, Transport and Energy leverages the synergy of engineering and science to develop new knowledge and technologies, and create innovative solutions to society's most pressing problems in energy, human health, public safety, exploration, environmental infrastructure and sustainability. Degree programs in aerospace engineering, chemical engineering, materials science and engineering, mechanical engineering, and solar energy engineering and commercialization are offered. The school gathers together a broad range of disciplines and world-class faculty members who are engaged in a cutting-edge research, all of which contributes to a unique educational experience for all of our students.

The School of Sustainable Engineering and the Built Environment provides a nexus for education and research that address the critical infrastructure needs of our society in an environmentally sound manner. The school offers a holistic approach in its degree programs, covering the engineering expertise of civil, environmental and sustainable engineering, the design and construction principles of construction engineering and the project management and leadership skills of construction management.

Dr. Ira A. Fulton

Chairman of the Board and CEO, Fulton Homes

Ira A. Fulton, founder and CEO of Arizona-based Fulton Homes, established an endowment of \$50 million in support of ASU's College of Engineering and Applied Sciences in 2003. The college was renamed the Ira A. Fulton Schools of Engineering in his honor. The gift has enabled the Ira A. Fulton Schools of Engineering to provide funding for scholarships, fellowships, research programs and investments in faculty, all integral to the school's goal to move from its position as a highly ranked U.S. program into the ranks of world-class institutions.

"With this endowment, we are building an engine of educational and economic growth that will endure for generations. It is a gift of opportunity, prosperity, social equality and hope."

ABOUT THE MARY LOU FULTON TEACHERS COLLEGE

This year's graduates from Arizona State University's Mary Lou Fulton Teachers College (Teachers College) are now part of an ever-growing alumni base of excellent teachers, school leaders and scholars who touch and influence the lives of tens of thousands of children and youth. Our graduates transform the lives of their students and the character of schools, educational institutions and communities throughout Arizona and beyond.

Teachers College offers world-class academic programs for educators and scholars preparing to enter or advance in the profession. The college provides challenging education programs to prepare successful and highly qualified PreKindergarten-12th grade teachers in addition to graduate programs in advanced study and research training for those pursuing careers in school leadership, education policy, education technology, higher and post-secondary education, and many other fields.

Teachers College offers academic programs for educators and scholars at all four ASU campuses; Downtown Phoenix, Polytechnic, Tempe and West, as well as at partner school districts statewide and online.

Arizona State University's Mary Lou Fulton Teachers College is named for distinguished alumna Mary Lou Fulton, who, with her husband Ira A. Fulton, generously invested and created a transformational endowment to foster excellence in education. The Fultons are committed to supporting the well-being and education of children and initiatives dedicated to improving public education. Their gifts have provided opportunities for quality teaching, research and service that extend far beyond the university, touching the lives of generations to come.

PREPARING OUTSTANDING TEACHERS AND LEADERS

As one of the largest, most influential colleges of education in the nation, Teachers College is dedicated to bringing Arizona's schools and children to the forefront of academic achievement. Every year more than half of Arizona's graduating teachers come from Arizona State University. Teachers College prepares successful teachers and school leaders by integrating theory, pace-setting research and practice with technology; competencies to teach children from diverse backgrounds, including children with special needs; and standards-based, data-driven instruction and assessment. All relevant components are combined to prepare today's teachers to successfully face the many challenges that simply did not exist a generation ago. Our graduates in teacher education are highly sought after because of their comprehensive education, both in rigorous curriculum driven by current research, and by demonstrating best practices through intensive field experience in which they work directly with preschool, elementary, middle and high school students.

Teachers College prepares educational leaders through programs that immerse them in studying the challenges of leadership in schools and school districts, examining

problems of practice, and working with others to address these problems. Graduates develop skills to meet national standards in leadership and earn state certification as principals and superintendents.

EXCELLENCE IN RESEARCH

Teachers College boasts a legacy of excellence in scholarship and research – ASU's graduate education programs consecutively rank among the best by U.S. News & World Report. Teachers College is committed to fostering scholarship and research within our graduate programs to provide answers that will ultimately transform the role and effectiveness of PreK-20 education. We are preparing the next generation of leaders and scholars who actively participate in research and experience opportunities that make significant contributions to the creation and discovery of new knowledge within the field of education. Our graduate students are accomplished leaders in education who have completed a rigorous academic program and through their research, make a discernable, positive difference in our local and professional communities. They hold faculty positions at prestigious institutions throughout the United States and internationally, and lead educational organizations including PreK-12 schools and school districts.

Faculty members in the college conduct research and examine critical issues on diverse topics such as improving reading and mathematics achievement, effectively working with English language learners, testing and student achievement, and assisting children and youth with special needs, along with their families. In addition, faculty members provide service to local schools and communities, the college, the university, and to state and national professional organizations. Through grants and partnerships, the college is able to work extensively with schools and school districts throughout Arizona.

MESSAGE TO THE NEW COLLEGE GRADUATES

Congratulations on your outstanding achievements! We offer our best wishes for your continued professional and personal success. We also take this opportunity to welcome you as New College of Interdisciplinary Arts and Sciences alumni.

Stay connected by taking advantage of the special new graduate membership rates (\$25 annual or \$300 lifetime dues) and become an active member of the ASU Alumni Association at www.asu.edu/alumni.

ABOUT THE NEW COLLEGE

New College of Interdisciplinary Arts and Sciences educates students to succeed in a globalized, diverse, sustainable economy by providing them with solid disciplinary foundations coupled with an ability to think and act constructively across disciplines. Such interdisciplinary thinking is necessary if we are to discover answers to the complex problems that face society today and create civic and economic well being, from local to global contexts.

The distinctive majors and programs at New College of Interdisciplinary Arts and Sciences have, from their inception, sought to enhance students' understanding and appreciation of the way phenomena connect and interrelate. This approach to understanding our world—from human institutions and systems, to biological

organisms, to cultural artifacts, and more—gives students the ability to grapple effectively with the challenges they will encounter in their lives, from developing sustainable environments, to curing disease, to managing our growing metropolis, to creating new forms of artistic expression, to enhancing appreciation for human diversity.

The currently existing programs at New College of Interdisciplinary Arts and Sciences all build on this philosophy that inter-, multi-, and transdisciplinary education enhances our graduates' ability both to address the needs of business, industry, schools, and communities of this region and to meet the challenges of the twenty-first century. The college houses 20 undergraduate B.A. and B.S. degree programs (in Communication Studies, American Studies; Applied Computing; Applied Mathematics; Applied Science (BAS); English; Ethnicity, Race, and First Nations Studies; History; Integrative Studies; Interdisciplinary Arts and Performance; Life Sciences; Political Science; Psychology, Psychology (online); Religion and Applied Ethics Studies; Social and Behavioral Sciences; Sociology; Spanish; Statistics; and Women's and Gender Studies) as well as four master's degree programs (in Interdisciplinary Studies; Social Justice and Human Rights; Communication Studies and Psychology).

SCHOOL OF LETTERS AND SCIENCES

The School of Letters and Sciences provides students across ASU with the knowledge and skills to both comprehend and effectively engage the changing world of the 21st century at local, national and global levels. The school offers graduate and undergraduate degree programs that prepare students for a rapidly changing marketplace, as well as foundational instruction in humanities, social sciences, mathematics, sciences, and professional fields. The School of Letters and Sciences is guided by the principles of student success, strategic partnerships within the university and the community, and interdisciplinary inquiry. Theory, creativity and applied learning are integrated as students create entrepreneurial opportunities both inside the university and in their communities. In addition, the school serves the citizens of Arizona by offering a variety of outreach programs that engage people in cultural events and lifelong learning.

CLOSING REMARKS

RECESSIONAL

ABOUT THE SCHOOL OF SUSTAINABILITY

Established in 2007, the School of Sustainability brings together multiple disciplines and leaders to create and share knowledge, train a new generation of scholars and practitioners, and develop practical solutions to the most pressing environmental, economic, and social challenges of sustainability – especially as they relate to urban areas.

The School offers graduate programs leading to Master of Science, Master of Arts, and Doctor of Philosophy degrees in Sustainability and undergraduate programs leading to Bachelor of Science and Bachelor of Arts degrees in Sustainability. Degree programs focus on collaborative learning, transdisciplinary approaches, and problem-oriented training that address sustainability challenges relating to areas such as energy and materials, water, ecosystems, urbanization, international development, social transformations, climate, and food systems.

The School of Sustainability works closely with the Global Institute of Sustainability, which is the hub of Arizona State University's sustainability initiatives. The Institute advances research, education and business practices for an urbanizing world. Both the School and the Institute initiate and nurture work on issues of sustainability across the University and collaborate with other academic institutions, governments, businesses and industries, and community groups locally, nationally, and globally. WALTER CRONKITE SCHOOL OF JOURNALISM
AND MASS COMMUNICATION

About the School

The Cronkite School is widely recognized as one of the nation's premier journalism programs. Rooted in the time-honored values that characterized its namesake — accuracy, responsibility, objectivity, integrity — the school fosters journalistic excellence and ethics in its students as they master the practical professional skills they need to succeed in the digital journalism world of today and of tomorrow.

The Cronkite School's 1,300 students consistently lead the country in national competitions. The school has the best record in the Hearst Journalism Awards, often called the Pulitzer Prizes of college journalism, over the past seven years. Cronkite also has the country's best overall record in the national Society of Professional Journalists' Mark of Excellence competition over the same period and has taken first place in its region for 12 consecutive years. Students have won three Robert F. Kennedy Journalism Awards, an Edward R. Murrow Award, a Mark Twain Award from The Associated Press and many other awards from organizations such as the Association for Education in Journalism and Mass Communication and the Broadcast Education Association.

Students are guided by a faculty that is made up of both award-winning professional journalists and world-class media scholars. In recent years the school has added to its faculty such leading journalists as Washington Post Executive Editor Leonard Downie Jr., CNN anchor Aaron Brown, Minneapolis Star Tribune Editor Tim McGuire, BET Vice President Retha Hill, Sacramento Bee Executive Editor Rick Rodriguez and nationally syndicated business columnist Andrew Leckey.

The Cronkite School continues to lead the field of journalism education with its innovative use of the teaching hospital model, for which it has received national acclaim. The school's full-immersion professional programs give students opportunities to practice what they've learned in a real-world setting under the guidance of professionals. Students in Cronkite News Service produce public service journalism for media outlets and consumers statewide and beyond from news bureaus in Phoenix and Washington. Carnegie-Knight News21 student-reporters conduct national investigations of issues critical to Americans, and the business journalism specialization prepares students to report in depth on business, finance and economics. Cronkite NewsWatch is a nightly newscast that reaches 1.1 million Arizonans on Eight, Arizona PBS. In the New Media Innovation Lab, students use digital technologies to forge the future of journalism, and in the school's Public Relations Lab, students develop campaigns for client companies. Other programs, such as the Donald W. Reynolds National Center for Business Journalism, provide education and training to professional journalists. And Cronkite Global Initiatives brings international journalists to the school for study and training.

All of these initiatives are happening in a state-of-the-art media complex that is unparalleled in journalism education. Last year, the Federal Communications

Commission held a public hearing at the school that explored a major FCC report on the state of American journalism in the digital age. The report featured the Cronkite School prominently in a chapter on university-produced journalism content. The New York Times, The Times of London and others have written about the school as a leader and innovator in shaping the future of journalism education.

About Walter Cronkite

The journalism program at Arizona State University was named in honor of former CBS News anchor Walter Cronkite in 1984.

The relationship started when Tom Chauncey, longtime owner of the CBS affiliate in Phoenix, and his son, Tom Chauncey II, leading supporters of journalism education at ASU, contacted their old friend in an effort to advance the program. An endowment on behalf of the program was soon established, and the school was named after “the most trusted man in America.”

Over the next quarter of a century, Cronkite lent much more than his name to the school. He was closely involved — advising leadership, guiding students and faculty and traveling to Arizona each year to personally give the Walter Cronkite Award for Excellence in Journalism to one of the nation’s top journalists.

Though Cronkite died on July 17, 2009, before he was able to visit the school that bears his name in its new downtown Phoenix location, he remains an ever-present part of the school’s heartbeat and direction. His legacy lives on in the spirit and passion with which the school teaches both the skills to do journalism in today’s media environment and the time-honored ethics and news values necessary to do it in the manner that would make our namesake proud.

About Our Graduates

The Cronkite School has more than 9,000 alumni throughout the Valley, across the country and around the world. Many of them are leaders in television, newspapers, radio, magazines, public relations firms and digital media enterprises.

In 1993, the Cronkite School inducted its first class into the Cronkite Alumni Hall of Fame. The charter inductees were Al Michaels (’66), an Emmy Award-winning sports broadcaster best known for anchoring *Monday Night Football*, and Bill Redeker (’71), an ABC News correspondent who covered the Middle East and the Far East during his 30 years with the network.

Other notable Cronkite Alumni Hall of Fame inductees include Derrick Hall (’91), president and CEO of the Arizona Diamondbacks; Susan Karis (’80), executive vice president of operations for the Western region of Clear Channel Radio; Christine Devine (’87), anchor at FOX 11 in Los Angeles; Mary Kim Titla (’85), founder of NativeYouthMagazine.com; and Ray Artigue (’76), principal of The Artigue Agency.

Graduates who are interested in joining the Cronkite School alumni chapter are encouraged to contact the school at 602.496.5555 or visit www.asu.edu/alumni.

ABOUT THE W. P. CAREY SCHOOL OF BUSINESS

The W. P. Carey School of Business at Arizona State University is one of the highest-ranked and largest business schools in the United States. The school is internationally recognized for its leadership in business education and for positively impacting the practice, science and art of management on a national and international scale. The school's mission is to change lives through business education.

More than 10,000 students attend the W. P. Carey School of Business, including about 100 National Merit Scholars and more than 100 doctoral candidates. The student body is especially diverse, including representatives from about 100 countries.

The acclaimed faculty includes a Nobel Prize winner, members of the National Academy of Sciences, two Guggenheim Fellows, and a fellow of the American Academy of Arts and Sciences. Many faculty members are also on the editorial boards of academic journals and publications. The school boasts 11 well-known research centers and a research institute, and is ranked Top 25 in the nation among business schools for research productivity.

Both the school's graduate and undergraduate business programs are ranked Top 30 in the nation by *U.S. News & World Report*. The executive MBA program is ranked No. 13 in the world by *The Wall Street Journal*.

The W. P. Carey School of Business is also known for providing excellent "return on investment" at both the graduate and undergraduate levels. In fact, *Bloomberg Businessweek* recently ranked the full-time MBA program among the Top 10 in the United States in this category.

Undergraduate degrees are offered in seven traditional business areas, including accountancy, computer information systems, economics, finance, management, marketing and supply chain management. Undergraduates can also earn a degree in business with a concentration from another ASU school in communication, global leadership, global politics, human resources, legal studies, public service and public policy, sports and media studies, statistics, sustainability, technology, tourism management or urban policy. A new program also allows some top students to get degrees from both the W. P. Carey School of Business and the Ira A. Fulton Schools of Engineering at the same time

The school's renowned MBA program is offered in five platforms: full time, evening, executive, weekend and online. Students can also earn master's degrees in accountancy, business administration, business analytics, information management, management, real estate development, supply chain management and engineering, or taxation.

The school ranks high for the quantity and quality of its doctoral graduates. Many managers and executives also come to the school for its highly desirable executive education certificates, placing a large emphasis on professional development.

The school's extensive alumni network is 80,000 strong. Distinguished alums represent highly regarded companies from diverse industries, including manufacturing, technology, retail, banking, accounting, entertainment and food, as well as smaller entrepreneurial firms and respected nonprofit organizations.

The school provides students with personalized job-placement assistance through separate, dedicated graduate and undergraduate career centers. The full-time MBA program has one of the best job-placement rates among business schools in the country.

 Dissertation: *Electrostatic Properties of Water at Interfaces with Nanoscale Solutes*
 Co-Chairs: Charles Austen Angell, Department of Chemistry and Biochemistry; Dmitry V. Matyushov, Department of Chemistry and Biochemistry

Meredith L. Gartin *Global Health*
 Dissertation: *Residence in a Deprived Urban Food Environment: Food Access, Affordability, and Quality in a Paraguayan Food Desert*
 Chair: Alexandra A. Brewis Slade, School of Human Evolution and Social Change

Emily Davis Gerstein *Psychology*
 Dissertation: *Family Systems in the Context of Child Risk: An Observational Analysis*
 Chair: Keith Alan Crnic, Department of Psychology

Mohammad Reza Ghajar *Electrical Engineering*
 Dissertation: *Energy Efficient RF Transmitter Design using Enhanced Breakdown Voltage SOI-CMOS Compatible MESFETs*
 Chair: Trevor John Thornton, School of Electrical, Computer and Energy Engineering

Christopher R. Glein *Geological Sciences*
 Dissertation: *Theoretical and Experimental Studies of Cryogenic and Hydrothermal Organic Geochemistry*
 Chair: Everett Shock, School Of Earth and Space Exploration

Zhi Guo *Physics*
 Dissertation: *The Role of Protein Dielectric Relaxation on Modulating the Electron Transfer Process in Photosynthetic Reaction Centers*
 Chair: Neal Walter Woodbury, Biodesign Institute

Ahmet Baykal Hafizoglu *Industrial Engineering*
 Dissertation: *Matching Supply and Demand Using Dynamic Quotation Strategies*
 Chair: Esma Senturk Gel, School Computing, Informatics, and Decision Systems Engineering

Leonardo Esteban Figueroa Helland *Political Science*
 Dissertation: *Indigenous Philosophy and World Politics: Cosmopolitical Contributions from across the Americas*
 Chair: Roxanne Lynn Doty, School of Politics and Global Studies

Carolyn E. Hickman *Nursing and Healthcare Innovation*
 Dissertation: *The Acceptability, Feasibility, and Preliminary Effects of a Cognitive Behavioral Skills Building Intervention in Adolescents with Chronic Daily Headaches*
 Co-Chairs: Bernadette Mazurek Melnyk, College of Nursing and Health Innovation Deans Office Support; Diana L. Jacobson, College of Nursing and Health Innovation Research Faculty and Staff

Brian K. Hillen *Biomedical Engineering*
 Dissertation: *Experimental and Computational Assessment of Locomotor Coordination and Complexity Following Incomplete Spinal Cord Injury in the Rat*
 Chair: Ranu Jung, School of Biological and Health Systems Engineering

Hongxin Hu *Computer Science (Information Assurance)*
 Dissertation: *Assurance Management Framework for Access Control Systems*
 Chair: Gail-Joon Ahn, School Computing, Informatics, and Decision Systems Engineering

Mengqi Hu *Industrial Engineering*
 Dissertation: *Adaptive Operation Decisions for a System of Smart Buildings*
 Chair: Tong Wu, School Computing, Informatics, and Decision Systems Engineering

Qing Huang *Statistics*
 Dissertation: *Some Topics Concerning the Singular Value Decomposition and Generalized Singular Value Decomposition*
 Co-Chairs: Randall Eubank, School of Mathematical and Statistical Sciences; Rosemary Anne Renaut, School of Mathematical and Statistical Sciences

Shuai Huang *Industrial Engineering*
 Dissertation: *Novel Statistical Models for Complex Data Structures*
 Chair: Jing Li, School Computing, Informatics, and Decision Systems Engineering

Ganpathy Vijay Kumar Iyer *Electrical Engineering*
 Dissertation: *Evaluation of Epoxy Nanocomposites for High Voltage Insulation*
 Chair: Ravi S. Gorur, School of Electrical, Computer and Energy Engineering

Kathryn Ann Johnson *Psychology*
 Dissertation: *From Beliefs to Virtuous Behaviors: The Influence of God-concepts on Intentions to Volunteer*
 Co-Chairs: Adam Cohen, Department of Psychology; Morris A. Okun, Department of Psychology

Leila Kabiri-Badr *Civil, Environmental and Sustainable Engineering*
 Dissertation: *The use of Bacteroides Genetic Markers to Identify Microbial Sources in Natural Water*
 Chair: Morteza Abbaszadegan, School of Sustainable Engineering and the Built Environment

Korhan Kaftanoglu *Electrical Engineering*
 Dissertation: *Design of NMOS and CMOS Thin Film Transistors and Application to Electronic Textiles*
 Chair: David Ray Allee, School of Electrical, Computer and Energy Engineering

Hyun Jung Kang *Curriculum and Instruction (Mathematics Education)*
 Dissertation: *Identity Development of Preservice Elementary Teachers of Mathematics From Teacher Education Program to Student Teaching*
 Chair: James Arthur Middleton, Curriculum and Instruction

Maria Kapantzoglou *Speech and Hearing Science*
 Dissertation: *Latent Language Ability Groups in Bilingual Children Across Three Methods of Assessment*
 Chair: Maria Adelaida Restrepo, Department of Speech and Hearing Science

Parminder Kaur *Physics*
 Dissertation: *AFM Study of Gene Silencing by DNA Methylation and its Interactions Involving Chromatin and Methyl CpG Binding Proteins*
 Chair: Stuart Lindsay, Biodesign Institute

Atsuko Kawakami *Sociology*
 Dissertation: *Aging and Identity among Japanese Immigrant Women*
 Chair: Takeyuki Tsuda, School of Human Evolution and Social Change

Hyun Jun Kim *Electrical Engineering*
 Dissertation: *Performance Analysis of MIMO Relay Networks with Beamforming*
 Chair: Cihan Tepedelenioglu, School of Electrical, Computer and Energy Engineering

Seong Hee Kim *Curriculum and Instruction (Mathematics Education)*

Dissertation: Student Growth in Elementary Mathematics: A Cross Level Investigation
Chair: Finbarr Sloane, College of Teacher Education and Leadership

Jeffrey S. Kinderdietz *Psychology*

Dissertation: The Influence of Benefit Finding on Activity Limitation and Everyday Adaptation to Chronic Pain
Co-Chairs: Alex John Zautra, Department of Psychology; Carol Jill Nemeroff, Department of Psychology

Kendra R. Knight *Communication*

Dissertation: The Influence of Response Threshold on Domestic Labor Performance and Conflict
Chair: Janet Kaye Alberts, Hugh Downs School Of Communication

Jie Young Kong *Communication*

Dissertation: Opening Fields through Aikido: An Embodied Dialogic Practice at a Martial Art Dojo
Chair: Benjamin J. Broome, Hugh Downs School Of Communication

Danielle Marie Ladd *Chemistry*

Dissertation: Synthesis of Mesoporous Metal Oxide Materials
Chair: Dong Kyun Seo, Department of Chemistry and Biochemistry

Jingjin Li *Statistics*

Dissertation: Multivariate Generalization of Reduced Major Axis Regression
Co-Chairs: Dennis L. Young, School of Mathematical and Statistical Sciences; Randall Eubank, School of Mathematical and Statistical Sciences

Jingjing Li *Electrical Engineering*

Dissertation: Novel Materials, Grid Design Rule, and Characterization Methods for Multi-Junction Solar Cells
Chair: Yong-Hang Zhang, School of Electrical, Computer and Energy Engineering

Yexin Li *Psychology*

Dissertation: The Functionality of Risk-Taking: Mating Motivation, Relationship Status, and Sex Differences
Chair: Douglas T. Kenrick, Department of Psychology

Lynn M. Lucas *Anthropology*

Dissertation: Variation in Dental Morphology and Bite Force Along the Tooth Row in Anthropoids
Chair: Mark Alan Spencer, School of Human Evolution and Social Change

Arti Mann *Business Administration (Computer and Information Systems)*

Dissertation: Outsourcing of IT Services: Studies on Diffusion and New Theoretical Perspectives
Co-Chairs: Raghu Santanam, W.P. Carey Information Systems; Robert John Kauffman, W.P. Carey Information Systems

Emily Margaret McLinden *Astrophysics*

Dissertation: Investigating the Early Universe with Lyman-alpha Emission: Galactic Winds and Stellar Populations at $z \sim 3.1$
Chair: James Ely Rhoads, School Of Earth and Space Exploration

Siobhan Kathleen McMahon *Nursing and Healthcare Innovation*

Dissertation: Enhancing Motivation for Physical Activity to Reduce Fall Risk Among Community Dwelling Older Adults
Chair: Julie M. Fleury, College of Nursing and Health Innovation

Muhsin Menekse *Curriculum and Instruction (Science Education)*

Dissertation: Interactive-Constructive-Active-Passive: The Relative Effectiveness of Differentiated Activities on Students' Learning
Chair: Michelene T.H. Chi, Division of Education Leadership and Innovation

Yvonne Jay Montoya *Communication*

Dissertation: Hispanic Entrepreneurs' Anticipatory Work-Life Socialization: Conceptual Analysis of Narrative Accounts
Chair: Sarah Amira De La Garza, Hugh Downs School Of Communication

Adam Joseph Mott *Physics*

Dissertation: Calculating Infrared Spectra of Proteins and Other Organic Molecules Based on Normal Modes
Chair: Peter Rez, Department Of Physics

Tischa A. Munoz *Sustainability*

Dissertation: How Cities Think: Knowledge-Action Systems Analysis for Urban Sustainability in San Juan, Puerto Rico
Chair: Charles L. Redman, School of Sustainability; Kelli Leigh Larson, School of Geographical Sciences and Urban Planning

David Le Minh Murillo *Applied Mathematics for the Life & Social Sciences*

Dissertation: Cities in Ecology: Settlement Patterns and Diseases
Co-Chairs: Carlos Castillo-Chavez, School of Mathematical and Statistical Sciences; John M. Anderies, School of Human Evolution and Social Change

Samantha L. Neufeld *Psychology*

Dissertation: Self-Conscious Cooperation: Implications of a Functional Approach to Emotions for Behavior in Social Dilemmas
Chair: Michelle Noelani Shiota, Department of Psychology

Tracy Robin Nguyen *Curriculum and Instruction (Curriculum Studies)*

Dissertation: Link, Depth, and Breadth: Comparing Arizona's ELP Standards to the Common Core and WIDA
Chair: M. Beatriz Arias, Department of English

Gabriel Ferreyra Orozco *Justice Studies*

Dissertation: Challenges, Inertia, and Corruption in the Mexican Federal Judiciary
Chair: M. Beatriz Arias, Department of English

Derek James Overstreet *Biomedical Engineering*

Dissertation: Temperature-Responsive Hydrogels with Controlled Water Content and Their Development Toward Drug Delivery and Embolization Applications
Chair: Michael Ryckman Caplan, School of Biological and Health Systems Engineering

Lacey Elizabeth Peters *Curriculum and Instruction (Early Childhood Education)*

Dissertation: "When the Bell Rings we Go Inside and Learn": Children's and Parents' Understandings of the Kindergarten Transition
Chair: Elizabeth Blue Swadener, School of Social Transform

Archana Ramesh *Computer Science*

Dissertation: Computational Methods for Knowledge Integration in the Analysis of Large-scale Biological Networks
Chair: Seungchan Kim, School Computing, Informatics, and Decision Systems Engineering

Amanda B. Reed *Psychology*

Dissertation: Pathways From Family Contextual Factors to Romantic Outcomes in Young Adults of Divorced Parents: Mediation Through Peer Competence and Coping Efficacy
Chair: Irwin Noah Sandler, Department of Psychology

Lindsay Patricia Richerson *Educational Psychology (School Psychology)*

Dissertation: Longitudinal Factor Structure of the Wechsler Intelligence Scale for Children-Fourth Edition in a Referred Sample
Co-Chairs: John R. Balles, Psychology In Education; Marley Wayne Watkins, Division of Education Leadership and Innovation

Shannon Janelle Chiemi Riley *Curriculum and Instruction (Early Childhood Education)*

Dissertation: The Evolution of Play in Public School Kindergarten Classrooms
Chair: Elaine Surbeck, Division of Education Leadership and Innovation

Stephen Justin Romaniello *Geological Sciences*

Dissertation: Incorporation and Preservation of Molybdenum and Uranium Isotope Variations in Modern Marine Sediments
Chair: Ariel David Anbar, School Of Earth and Space Exploration

Bharadwaj Ranganathan Sathyanarayana *Electrical Engineering*

Dissertation: Sensitivity-based Pricing and Multiobjective Control for Energy Management in Power Distribution Systems
Chair: Gerald Heydt, School of Electrical, Computer and Energy Engineering

Rachel M. Satter *Counseling Psychology*

Dissertation: Diagnosing Mental Health Disorders in Primary Care: Evaluation of a New Training Tool
Chair: Richard T. Kinnier, Counseling and Counseling Psychology

Matthew William Savage *Communication*

Dissertation: Developing a Measure of Cyberbullying Perpetration and Victimization
Chair: Anthony Roberto, Hugh Downs School Of Communication

Erin Nicole Schoenfelder *Psychology*

Dissertation: Behavioral and Subjective Participant Responsiveness to a Manualized Preventive Intervention
Chair: Irwin Noah Sandler, Department of Psychology

Gregory Brian Schymik *Business Administration (Computer and Information Systems)*

Dissertation: The Impact of Subject Indexes on Semantic Indeterminacy in Enterprise Document Retrieval
Chair: Robert D. St Louis, W.P. Carey Information Systems

Denisse Maria Roca Servat *Justice Studies*

Dissertation: Unveiling Water (In)Justice in Arequipa: a case-study of Mining Industry in Urban Space
Chair: Robert Bolin, School of Human Evolution and Social Change

Alexandria Terese Silva *Curriculum and Instruction (Language and Literacy)*

Dissertation: Literacy Development among Adolescent ELLs: The Impact of English-only Classrooms
Chair: M. Beatriz Arias, Department of English

Ekaterina Smyk *Speech and Hearing Science*

Dissertation: Second Language Proficiency in Sequential Bilingual Children with and without Primary Language Impairment
Chair: Maria Adelaida Restrepo, Department of Speech and Hearing Science

Richard Carlisle Sobers, Jr. *Chemistry*

Dissertation: Studies of Singly and Multiply Charged Secondary Ion Emission And The Effects Of Oxygen On Ionization And Sputter Erosion
Chair: Peter Williams, Department of Chemistry and Biochemistry

Brian Howard Stone *Construction Management*

Dissertation: Foundational Analysis in Initiative-Based Change Management Modeling An Interdisciplinary Study of Organizational Change in the Built Environment
Chair: Kenneth T. Sullivan, School of Sustainable Engineering and the Built Environment

Kara Marie Styck *Educational Psychology (School Psychology)*
 Dissertation: *Diagnostic Utility of the Culture-Language Interpretive Matrix for the WISC-IV Among Referred Students*
 Co-Chairs: Marley Wayne Watkins, Division of Education Leadership and Innovation; Roy Levy, School Social Family Dynamics

John S. Thieken *Curriculum and Instruction (Mathematics Education)*
 Dissertation: *A Study of Problem Solving Strategies in AP Calculus: An Investigation Into Student Performance on Related Rate Free-Response Problems*
 Chair: Tirupalavanam Gopal Ganesh, School for Engineering of Matter, Transport and Energy

Juliana Yuh-Shun Tsai *Business Administration (Computer and Information Systems)*
 Dissertation: *Information Systems and Technology Sourcing Strategies and Performance of E-Retailers*
 Chair: Benjamin Shao, W.P. Carey Information Systems

Mithra Vankipuram *Biomedical Informatics*
 Dissertation: *Understanding Adaptive Behaviors in Complex Clinical Environments*
 Chair: Robert Greenes, Biomedical Informatics, Vimla Patel, Biomedical Informatics

Alex Michael Volosin *Chemistry*
 Dissertation: *Nanoporous Conducting Materials*
 Chair: Dong Kyun Seo, Department of Chemistry and Biochemistry

Jenelle Rose Walker *Physical Activity, Nutrition and Wellness*
 Dissertation: *The Feasibility of a Spirituality-Based Wellness Program on Stress Reduction and Health Behavior Change*
 Chair: Pamela D. Swan, School of Health Promotion Exercise and Wellness

Feng Wang *Electrical Engineering*
 Dissertation: *Coding for Insertion/Deletion Channels*
 Chair: Tolga Mete Duman, School of Electrical, Computer and Energy Engineering

Rui Wang *Electrical Engineering*
 Dissertation: *Mobile Health Sensor for Personal Exposure Assessment*
 Chair: Nongjian Tao, Biodesign Institute

Shanshan Wang *Electrical Engineering*
 Dissertation: *Cognitive Communications in White Space: Opportunistic Scheduling, Spectrum Shaping and Delay Analysis*
 Chair: Junshan Zhang, School of Electrical, Computer and Energy Engineering

Dana Joy Weber *Counseling Psychology*
 Dissertation: *Academic Success and Well-Being Following OEF/OIF Deployment*
 Co-Chairs: Nicole Alicia Roberts, Social and Behavioral Sciences; Sharon E. Kurpius, Counseling and Counseling Psychology

Jon William Weeks *Microbiology*
 Dissertation: *Genetics of Functional AcrAB-TolC Tripartite Complex Assembly*
 Chair: Rajeev Misra, School of Life Sciences

Nicole L. Weller *Sociology*
 Dissertation: *A Comparative Analysis of Health-Seeking Behaviors for Women at Risk of Primary or Secondary Infertility*
 Chair: Scott Thomas Yabiku, School Social Family Dynamics

Liou Xie *Sustainability*
 Dissertation: *Sustainability Implications of Mass Rapid Transit on the Built Environment and Human Travel Behavior in Suburban Neighborhoods: The Beijing Case*
 Chair: Douglas Richard Webster, Department of Political Science

Liangjie Xue *Industrial Engineering*
 Dissertation: *Dynamic Management of Inspection Effort Allocation: An Application in POE Inspection*
 Chair: Jesus R. Villalobos, School Computing, Informatics, and Decision Systems Engineering

Waleed Abdelaziz Mohammed Zeiada *Civil, Environmental and Sustainable Engineering*
 Dissertation: *Endurance Limit for HMA Based on Healing Phenomenon Using Viscoelastic Continuum Damage Analysis*
 Co-Chairs: Kamil Elias Kaloush, School of Sustainable Engineering and the Built Environment; Matthew Walter Witzczak, School of Sustainable Engineering and the Built Environment

Argero Anne Zerr *Psychology*
 Dissertation: *A Longitudinal Examination of Anxiety across Childhood and Adolescence*
 Chair: Armando A. Pina, Department of Psychology

Jiaping Zhang *Mechanical Engineering*
 Dissertation: *Mechanics Analysis of Coupled Large Deformation and Diffusion in Gels*
 Chair: Hanqing Jiang, School for Engineering of Matter, Transport and Energy

Jin Zhang *Computer Science*
 Dissertation: *Robust and Efficient Medium Access Despite Jamming*
 Chair: Andrea W. Richa, School Computing, Informatics, and Decision Systems Engineering

Xu Zhang *Electrical Engineering*
 Dissertation: *Power management interface circuit for MEMS (Micro-Electro-Mechanical-Systems) bio-sensing and chemical sensing applications*
 Chair: Junseok Chae, School of Electrical, Computer and Energy Engineering

Chiyu Zhu *Physics*
 Dissertation: *Electronic States of High-k Oxides in Gate Stack Structures*
 Chair: Robert John Nemanich, Department of Physics

James Duncan Zook *Biochemistry*
 Dissertation: *Structure Investigations of Membrane Protein OEP16*
 Chair: Petra Fromme, Department of Chemistry and Biochemistry

DOCTOR OF BEHAVIORAL HEALTH

Michael R. Hedden

Chante Chere Pantila

DOCTOR OF EDUCATION

Destinie Pilar Pascual Barrow *Higher and Postsecondary Education*
 Dissertation: *Standardization and Quality Assurance in an Online Community College*
 Chair: Christopher Michael Clark, Division of Education Leadership and Innovation

Christine Lee Niven *Educational Administration and Supervision*
 Dissertation: *Latino Parent Perspectives on Parental Involvement in Elementary Schools*
 Chair: Kathleen Marie McCoy, Division of Education Leadership and Innovation

Ronald Briggs, Jr. *Higher and Postsecondary Education*
 Dissertation: *Increasing First-Semester Student Engagement: A Residential Community Retention Study*
 Chair: Christopher Michael Clark, Division of Education Leadership and Innovation

Sharon D. Smith *Higher and Postsecondary Education*
 Dissertation: *Improving Student Employment*
 Chair: Christopher Michael Clark, Division of Education Leadership and Innovation

DOCTOR OF MUSICAL ARTS

Devon Dean Howard *Music (Performance)*
 Dissertation: *Organ Improvisation in Context: Historical and Practical Influences on the Craft of Improvisation at the Organ*
 Chair: Kimberly Anne Marshall, School Of Music

Amy L. Yekel *Music (Performance)*
 Dissertation: *Bringing Opera to a Small Community*
 Chair: Jerry D. Doan, School Of Music

THE ARIZONA STATE UNIVERSITY
MACE AND PRESIDENT'S CHAIN OF OFFICE

In Medieval times, a mace was a hand-to-hand combat weapon. In about the year 1400 A.D., a mace evolved from a weapon to a ceremonial instrument used by academicians in rituals such as commencement and inaugurations. The oldest known ceremonial mace was that of the Faculty of Common Law of St. Andrew University in Scotland, used in 1438.

The Mace and Chain of Office are presented only at ceremonies in which faculty members are in full academic regalia, such as the Inauguration of the ASU President, University Commencement, Faculty Assemblies, Regents' and President's Professor Induction Ceremonies and Convocation.

The Mace is carried at the head of the procession and laid in a cradle, thus signifying the formal onset of the ceremony.

ASU's ceremonial mace and chain of office was created in observance of ASU's Centennial in 1985. Handcrafted by ASU Professor of Art, David Pimentel (1943-2004), the mace and chain was created with "austere elegance and traditional southwestern motifs." In keeping with these directions, Professor Pimentel constructed both items out of materials native to Arizona. The ASU Mace is a wood staff, approximately three and a half feet long, weighing eight pounds and made of hollowed and polished Mesquite.

The head of the ASU Mace has four sterling silver blades and is banded with copper, Morenci turquoise, and a silver ring on which the words Arizona State University are embossed. The turquoise inlay was cut and polished by Navajo jeweler Richard Charlie of Mesa. The ASU seal is embossed in silver on the heel of the mace.

The President's Chain of Office includes a silver rope woven from strands of hand-turned links, which holds a medallion six inches in diameter that reverses to reveal the ASU seal in gold on one side and the same in silver and turquoise on the other.

College Marshals Fall 2012

College Marshals consist of selected faculty members from each college at all ASU campuses. Selection criteria is left to the individual colleges, but faculty who have recently won awards or have received special recognition are given primary consideration.

Barrett, the Honors College — Dr. Jacquelyn Scott is a Principal Lecturer and Honors Faculty Fellow at Barrett, the honors college. Dr. Scott established *The Barrett Writing Center* in 2002 and is the founding director the *Barrett Faculty Mentoring Program for Teaching Excellence*. Her university recognitions include the *Provost's Faculty Achievement Award in Teaching Performance*, the *Faculty Women's Association Outstanding Faculty Mentor Award*, the *Barrett Faculty Award for Outstanding Academic Service*, and the *Barrett Faculty Award for Excellence in Teaching*.

College of Health Solutions — Glenn Gaesser is a professor of Exercise and Wellness in the School of Nutrition and Health Promotion, and is director of the Healthy Lifestyles Research Center, at Arizona State University. His research focuses on the effects of exercise and diet on cardiovascular fitness and health. He is currently funded by the National Institutes of Health to develop and validate a wireless, multi-sensor, artificial neural network-based heart rate and physical activity monitor. He is the author of several books, including *Big Fat Lies: The Truth About Your Weight and Your Health* (Gurze, 2002). Professor Gaesser has given more than 200 invited regional, national and international presentations to a variety of professional, business, and lay audiences on the subjects of health, fitness and body weight, and is interviewed frequently by the media on these topics. He has appeared on The Dr. Oz Show, Good Morning America, ABC's 20/20, World News Tonight, NBC Nightly News, CNN, Dateline NBC, and dozens of regional talk/news shows. In addition, he has been a guest on more than 70 radio shows in North America and has been interviewed for stories on body weight, fitness and health for more than 100 newspapers and magazines throughout the world. Professor Gaesser was graduated Phi Beta Kappa from the University of California, Berkeley, where he also received his M.A. and Ph.D. degrees with a specialization in exercise physiology.

College of Liberal Arts and Sciences — The College of Liberal Arts and Sciences honored Dr. Tamiko Azuma for excellence in teaching. The Zebulon Pearce Distinguished Quality Teaching Award was established in memory of Zebulon Pearce who graduated from Territorial Normal School at Tempe (now ASU) with teacher's credentials in 1899. Speech and Hearing Science Associate Professor Tamiko Azuma was selected from a pool of over 60 nominees to receive this award which recognizes quality teaching.

College of Nursing and Health Innovation — Gail Petersen Hock, Clinical Assistant Professor with the College of Nursing and Health Innovation, served as director of Breaking the Cycle of Community Health Care (BTC) from 2002 to 2007 and Associate Director of Clinical Practice and Community Partnerships in 2007-2008. During her tenure at BTC, Gail raised over one hundred thousand dollars in grants and private donations through the ASU Foundation and secured over 1.25 million dollars in government contracts. Gail is a recent graduate of the Johns Hopkins University's Applied Health Informatics Program and serves in leadership roles with our County and State Immunization coalitions.

College of Public Programs — Associate Professor Cynthia A. Lietz teaches practice and research courses in the undergraduate and graduate programs in the School of Social Work. Her research focuses on understanding and applying the strengths and resilience of families in interventions to improve family functioning in high risk situations such as loss, trauma, and violence. She also has examined how the process of clinical supervision can enhance implementation of strengths-based principles when working in social work practice with children and families. Dr. Lietz was the recipient of the 2011-12 Associated Students of Arizona State University Centennial Professor Award, which annually recognizes two ASU junior faculty members for their contributions to teaching and community engagement. With that award, she holds the title of Associated Students Centennial Professor for the 2012-2013 academic year. She also was named Tucson Component Coordinator for the School of Social Work in August 2012, and will lead the administration and development of the School's degree programs in Tucson.

College of Technology and Innovation — Dr. Hristovski is an Assistant Professor in the Department of Engineering in the College of Technology and Innovation. In his short academic career, he has published 35 peer-reviewed articles and served as a PI or co-PI on 13 funded projects totaling more than \$2.9 million. Dr. Hristovski received the College of Technology and Innovation Outstanding Faculty Mentor Award for the 2011-2012 academic year. Two of Dr. Hristovski's graduate students were awarded the Dean's Award for Academic Excellence. Dr. Hristovski is a recent recipient of a Fulbright Specialist Program Fellowship to assist the City of Panama with the development of sustainable environmental solutions and practices.

Herberger Institute for Design and the Arts — Associate Professor William Partlan teaches stage directing and acting at ASU and serves as Artistic Director of TRIPLE ESPRESSO, LLC. Professionally, he has directed well-known talents Angela Bassett, Delroy Lindo, Cleavon Little, Mary McDonnell, Frances McDormand, and John Turturro in over 100 Off-Broadway, regional and international premieres and on PBS American Playhouse. His premiere production of Triple Espresso has performed in 44 American cities, Canada, Ireland, Belgium, Germany, and England's West End. He has served as an evaluator for the National Endowment for the Arts and as Jury Chairman for the 2000 Cairo International Festival of Experimental Theatre.

Ira A. Fulton Schools of Engineering — David H. Frakes received the B.S. and M.S. degrees in electrical engineering, the M.S. degree in mechanical engineering, and the Ph.D. degree in bioengineering, all from the Georgia Institute of Technology. In April 2008, he joined the faculty at Arizona State University (ASU) where he currently serves as a jointly appointed assistant professor in the School of Biological and Health Systems Engineering (SBHSE) and the School of Electrical, Computer, and Energy Engineering. Professor Frakes was the ASU Centennial Professor of the Year in 2009, received the IEEE Outstanding University Faculty Award in 2011, and was awarded the National Science Foundation CAREER Award and SBHSE Professor of the Year Award in 2012. He manages the Image Processing Applications Laboratory at ASU, which focuses on problems in image and video processing, machine vision, and fluid dynamics.

Mary Lou Fulton Teachers College — Leanna Archambault, Ph.D., is assistant professor of educational technology in the Mary Lou Fulton Teachers College, and has become a nationally recognized leader in the use of technology in online learning. This year, she won the Online Learning Innovator Award for Outstanding Research from the International Association for K-12 Online Learning. Dr. Archambault currently is collaborating on the Hartwell Education Initiative to develop and study Sustainability Science for Teachers, a newly designed hybrid course aimed at preparing future educators to explore the significant challenges we face in sustaining human health and well-being on Earth.

New College of Interdisciplinary Arts and Sciences — Dr. Erika T. Camacho received her Ph.D. in Applied Mathematics from Cornell University. Her current research is at the interface of mathematics, biology, physiology, and sociology and involves mathematically modeling degenerative eye diseases, Type-2 Diabetes, gene networks within yeast, and social interactions in the spread of epidemics. Her leadership, scholarship, and mentoring has won her many recognitions including the SACNAS Distinguished Undergraduate Mentoring Award, the 40 Hispanic Leaders Under 40 Award in 2012, the ASU FWA Outstanding Faculty Mentor Award, the National Hispanic Women Corporation Latina Leadership Award in 2011, and recognition as one of 12 Emerging Scholars of 2010 by *Diverse: Issues in Higher Education*.

School of Letters and Sciences — Professor Eva Brumberger is a nationally recognized scholar in visual communication, visual literacy, and professional communication pedagogy. She is the author of numerous articles and studies on the rhetoric of typography and visual communication, and she is co-editor of a forthcoming book entitled, *Designing Texts: Teaching Visual Communication*, a text intended to support faculty in traditionally non-visual disciplines in their efforts to develop the visual literacy of their students. Professor Brumberger has worked in the computer industry as a technical writer and continues to do freelance writing, editing, and design. She joined the faculty in the School of Letters and Sciences in 2012, and she will serve in a leadership role as head of the growing program in technical communication.

School of Sustainability — Dr. John “Marty” Anderies' research interests focus on developing an understanding of how ecological, behavioral, social, and institutional factors affect the robustness/vulnerability characteristics of social-ecological systems. His work combines qualitative insights from present-day, historical, and archaeological case studies of social-ecological systems with formal mathematical modeling and experiments with human subjects to study how individual decision-making processes interact with governance regimes to influence social and environmental outcomes. Dr. Anderies teaches Dynamic Modeling in Social and Ecological Systems; Dynamic Modeling for Sustainability Science, Collective Action and Decision Making for Sustainability, and Rules, Games, and Society.

Walter Cronkite School of Journalism and Mass Communication — Steve Doig is the Knight Chair in Journalism, specializing in computer-assisted reporting — the use of computers and social science techniques to help journalists do their jobs better. Doig joined the ASU faculty in 1996 after a 23-year career as a newspaper journalist, including 19 years at the Miami Herald. There, he served variously as research editor, pollster, science editor, columnist, federal courts reporter, state capital bureau chief, education reporter and aviation writer. He is the winner of the Pulitzer Prize for Public Service (1993) for *What Went Wrong*, a study of the damage patterns from Hurricane Andrew. In 2012 Doig received the George Polk Award (2012) for *Decoding Prime*, an analysis of suspect hospital billing practices for the California Watch investigative organization.

W. P. Carey School of Business — Michael Hertzler is the Richard C. Kraemer Professor of Finance at ASU W. P. Carey School of Business. Formerly, he was a Ford Honors Program Faculty Fellow and a Dean's Council of 100 Distinguished Scholar. Dr. Hertzler received his Ph.D. from University of Oregon in 1988 and earned B.A., M.S., and MBA degrees from University of Rochester. Dr. Hertzler has teaching/research interests in corporate finance, capital markets, and behavioral economics. He has published numerous academic papers in premiere journals and received the JFE best paper award in 2008. He has taught undergraduate and graduate courses at ASU and is co-founder of the Intel Collaborative Thesis Program.

Emeritus College — Elmer Gooding began his career at ASU in August 1967 as Assistant Professor of Economics. He earned his Ph.D. and M.A. in Economics from the University of Kansas and his B.S. from McPherson College. He retired from ASU as Emeritus Professor of Economics in 2004. At ASU he held numerous academic and administrative positions including the following: Associate Dean of the College of Business and Director of Graduate Programs, Assistant Provost, Acting Vice President for Academic Affairs, Loaned Executive to the Arizona Board of Regents, Vice Provost, Interim Provost and Vice President for Academic Affairs, Acting President (for two months in the spring of 1991). His teaching fields were international economics and macro economics. He is currently on the Board of Directors of the ASU Retirees Association and is serving as Associate Dean of the Emeritus College.

HISTORY OF THE ACADEMIC COSTUME

The present-day academic costume seemingly originated at Oxford and Cambridge Universities in the 1300s. As the universities passed from ecclesiastical control, brighter colors distinguished the academic robe from the drab clerical gown. Colonial American universities based their academic regalia on the British system.

In the 1880s, a student movement centering in New England investigated the establishment of a “senior badge,” to improve commencement week exercises and revive the traditions of university life. In 1893, an intercollegiate commission established a uniform code for caps, gowns and hoods for the various degrees.

Of the costume’s three components, the hood is the most interesting. Originally it had three uses: as a head covering, as a shoulder cape, and as a bag in which alms could be collected. It is mentioned as early as 1480 in clerical literature. When large wigs were in vogue in Britain, the cape part of the hood was split in front and a narrow neckband inserted. The entire cape and hood was allowed to fall back as it is today, and it was never restored to the original style.

Black tassels are correct for all degrees,
and colored tassels are worn only by preference.

Gold metallic tassels may be worn by doctors or presidents of universities and colleges.

*This information was taken from
“An Academic Costume Code and An American Ceremony Guide”
by Eugene Sullivan, American Council on Education*
