THE NATIONAL ANTHEM
THE STAR-SPANGLED BANNER

O say can you see, by the dawn’s early light,
What so proudly we hailed at the twilight’s last gleaming?
Whose broad stripes and bright stars through the perilous fight
O’er the ramparts we watched, were so gallantly streaming?
And the rockets’ red glare, the bombs bursting in air
Gave proof through the night that our flag was still there.
O say does that Star-Spangled Banner yet wave
O’er the land of the free and the home of the brave?

ALMA MATER
ARIZONA STATE UNIVERSITY

Where the bold saguaros
Raise their arms on high,
Praying strength for brave tomorrows
From the western sky;
Where eternal mountains
Kneel at sunset’s gate,
Here we hail thee, Alma Mater,
    Arizona State.

—Hopkins-Dresskell

MAROON AND GOLD

Fight, Devils down the field
Fight with your might and don’t ever yield
Long may our colors outshine all others
Echo from the buttes, Give em’ hell Devils!
Cheer, cheer for A-S-U!
Fight for the old Maroon
For it’s Hail! Hail! The gang’s all here
And it’s onward to victory!

Students whose names appear in this program are candidates for the degrees listed, which will be conferred subject to completion of requirements.

University commencement and convocation ceremonies are special events for all involved. Please show respect for everyone who has come to share in the experience. Individuals who engage in inappropriate or disruptive behavior may be removed from the event.

MISSION STATEMENT

UNIVERSITY COMMENCEMENT

University Commencement represents the culmination of a student’s academic achievement.

It is a time of celebration and reflection for students, families, friends, faculty and staff.

It brings together a diverse community to share in the joy of accomplished goals.
Arizona State University continually demonstrates its dedication to efficiency, technology and sustainability. The full University Commencement program is made available online at graduation.asu.edu/commencement_programs.

This change aligns with our growing institutional efforts to enhance sustainability practices, and our broader endeavors to employ technology in heightened service to our students.

To order copies of the final book with all graduates names listed, email your request to ASUCommencement@rrd.com and someone will respond with payment instructions and order details.
MESSAGE FROM THE
ARIZONA BOARD OF REGENTS

Dear Graduates,

On behalf of the Arizona Board of Regents, we would like to offer our sincere congratulations on your graduation. Your dedication, persistence and discipline led to this amazing milestone. We are proud of you and commend you for your hard work. You deserve every accolade you will receive this day.

Graduation unlocks a world of new possibilities. Your degree will only grow in value and will serve you throughout your life. As you embark on the next stage of your journey, you will be well prepared to navigate challenges that may be encountered along the way. You have opened the door to a brighter future for yourself and for all of those in your life.

The board is proud that you chose to pursue your degree at Arizona State University, and we hope your achievement today is not viewed as an arrival at a destination, but rather as a gateway to lifelong learning as you travel the many paths life offers. We invite you to join the thousands of Sun Devils who continue as members of this great university community. Your continued association with our university will enhance your life and improve ASU, creating new opportunities for the next generation of students.

Above all, enjoy this milestone. We are pleased to have played a part in your journey, and we have every confidence you will succeed in whatever path you choose.

Sincerely,

John Arnold  Ron Shoopman

HISTORY OF HONORARY DEGREES

Harvard was the first university to confer honorary degrees in 1692. Since then it has become a recognized function of degree granting institutions. Honorary degrees are an opportunity for universities to single out people who have made contributions to society. At ASU, honorary degree recipients are nominated by faculty members. The six-member Academic Affairs Honorary Degrees Committee reviews faculty nominations for the Honorary Degree. It then recommends candidates to the president. The committee is appointed by and responsible to the president.

HONORARY DEGREE CITATION

DAVID BROOKS

He began his media career as a police reporter – a beat that can be exciting and exhilarating at times and both routine and mundane – for a news service in Chicago serving both the iconic Chicago Tribune and the storied Chicago Sun-Times. Today he’s a political analyst, frequent commentator on television and radio news programs including the PBS “NewsHour,” NBC’s “Meet the Press,” and NPR’s “All Things Considered,” and an Op-Ed columnist at The New York Times. Beyond his role in the media, the best-selling author has taught at Yale University in the Jackson Institute for Global Affairs and Duke University’s Terry Sanford Institute of Public Policy.

Brooks’ writing career began in college while at the University of Chicago when he was a frequent contributor to campus publications with reviews and satirical pieces. After graduation, he went to work for City News Bureau covering crime for Chicago’s two largest daily newspapers. After a number of years, he applied and accepted an internship with the National Review, a magazine founded and led by renowned conservative William F. Buckley Jr. After the internship, Brooks went to the Hoover Institute at Stanford University and then onto a nine-year stint at The Wall Street Journal, where he served various roles including book review editor, film critic, Brussels correspondent, and Op-ed editor. In 1995, he left to become a senior editor at The Weekly Standard.

Brooks received the 2011 Report of Social Issues Award from the American Sociological Association for exploring core sociological themes as social capital, status, trust, embeddedness, and the impact of social structures on life changes. He has received honorary degrees from Williams College, New York University, Brandeis University and Occidental College. He also has established an awards program, The Sidney Awards, in honor of philosopher Sidney Hook to recognize the best political and cultural journalism.

Brooks serves on the Board of Directors for the New America, a non-partisan think tank focusing on a range of public policy issues. He also serves as a member of the American Academy of Arts & Sciences, one of the nation’s oldest learned societies and independent policy research centers addressing critical challenges facing today’s global society. In 2012, Brooks was elected to the University of Chicago Board of Trustees. He also has served on The University of Chicago Institute of Politics Board of Advisors and has served as an Executive Director with the Aspen Institute. As the current Executive Director of Weave, The Social Fabric Project, Brooks leads the Aspen Institute’s initiative focused on the challenges of social fragmentation, the rise of distrust and incivility. Weave serves to illuminate and learn from projects, people and organizations positively impacting the world and link them together.

Brooks began his professional career as a journalist reporting on law enforcement and crime in one of America’s largest cities. During his time with The Wall Street Journal, he was stationed in Brussels for more than four years covering Russia, the Middle East, South Africa and European affairs. Throughout his media career, he has contributed to some of the nation’s most high profile publications and news outlets including The New Yorker and The Atlantic Monthly. As a political commentator and analyst, he’s been a model of conservatism and moderatism.

Arizona State University is honored to confer upon David Brooks the degree of Doctor of Humane Letters, honoris causa, in recognition of his contributions to social sciences, the humanities and American democracy.

The Sandra Day O'Connor College of Law at Arizona State University has been committed to innovation from the beginning. Its founding faculty embraced a forward-looking approach while retaining important aspects of traditional legal education befitting a young school in a growing city.

From its inception, the College has provided extensive training in practical legal skills, offering students a firm foundation in lawyering before they become practicing attorneys. Today, the College of Law has one of the strongest legal writing programs in the country, provides myriad field placement opportunities, and offers a variety of clinics that allow students to get hands-on experience while providing indigent members of the community with valuable legal assistance.

In the five decades since its founding, the College of Law has grown in size and national prominence, assembling an acclaimed faculty, while continuing to offer innovative approaches to legal education. The Center for Law, Science & Innovation is the nation’s first and largest academic center focused on the intersection of law and science and offers the country’s only LLM in Biotechnology and Genomics. The Center for Public Health Law and Policy and the Law and Sustainability Center offer specialized Certificates, and the Indian Legal Program, arguably the leading program on Indian law in the country, offers an LLM in Tribal Policy, Law, and Government, Certificate in Indian Law, and the Indian Legal Clinic. The Lodestar Dispute Resolution Center offers training in conflict resolution, and The Sports Law and Business Program provides students critical legal and business training and hands-on experiences in the field of sports. The Center for Law and Global Affairs and the International Rule of Law and Security Program, located in Washington, D.C., support and inspire research, education, and practice regarding emerging forms of transnational governance. In addition to these programs, the College of Law continues to provide opportunities for its students and graduates with innovative endeavors such as a nonprofit law firm, an employer outreach initiative, and a faculty and staff committed to student success.

The College of Law bridges the gap between theory and practice, and our faculty and students address many of the pressing legal and public policy challenges of our time.

The Barrett Story

Barrett, The Honors College at Arizona State University, is a selective, residential college for academically outstanding undergraduates. Named “the gold standard” for honors colleges in the nation, Barrett often has more nationally-recognized merit scholars than Princeton, Yale or Stanford.

The college is supported by a $20 million endowment that is used exclusively to benefit honors students and fund their projects. Barrett students major in any field offered at ASU’s campuses - Tempe, Polytechnic, Downtown or West. Barrett students are members of a small community of scholars who have direct access to our deans and receive personalized attention from approximately 45 honors faculty fellows and 65 staff members who care about them as individuals. In addition to these full-time honors college personnel there are more than 1900 university faculty members who teach and mentor Barrett students across all four campuses each year.

The $140 million Barrett campus in Tempe was designed by students, faculty and staff working with nationally-renowned architects. The Barrett facilities at all four ASU campuses function as their own small honors communities on the ASU campuses where students enjoy the amenities and resources of a large university. This unique arrangement is a model for higher education and has often been referred to as “the best of both worlds” by students who thrive in a small college atmosphere but appreciate access to large university programs like Division I athletics and high profile lecturers.
Student Opportunities

Barrett students take advantage of an array of opportunities that enrich the honors experience. They participate in study abroad programs that enable them to travel to foreign countries, immerse themselves in small classes taught by honors faculty, and experience different cultures and societies while earning honors credits. Barrett students receive record numbers of national and international graduate scholarships such as Rhodes, Fulbright, Truman and Marshall Scholarships. Top students from multiple majors live in a four-year residential community and secure leadership positions or participate in a full range of academic, cultural, service, professional development, travel, wellness, arts, social, entrepreneurial, and sustainability programming. Barrett students engage in cutting edge research with distinguished ASU faculty or through special partnerships with the Mayo Clinic, the Biodesign Institute and Intel. Students are developing iPhone applications, building robots, designing games, or developing tools to improve healthcare, meet global energy needs, provide clean water, or secure data and information privacy. There are over six hundred internship opportunities developed exclusively for Barrett students. We have students working with Goldman Sachs, Microsoft, Google, and The American Heart Institute. Barrett students secure internships in the governor’s office, local congressional districts, and the United States Senate.

Signature Events

Barrett hosts annual signature events, the Centennial Lecture, the Rhodes Lecture, and the Distinguished Global Leader Series. In 1985, the Flinn Foundation established an endowment to commemorate ASU’s 100th year, creating the ASU Centennial Lecture. Barrett Honors College has brought some of the world’s most influential intellects to campus. Noted diplomats, scientists, playwrights, and authors. Former Centennial lecturers include Edward James Olmos, dedicated actor, and community activist in 2010; Dr. Oscar Arias, Nobel Peace Laureate and two-time president of Costa Rica in 2011; and most recently, Norah O’Donnell, co-host of CBS This Morning as well as a contributor to 60 minutes.

The Rhodes Family created the John J. Rhodes Chair in Public Policy and American Institutions at Barrett to celebrate the career in public service of one of Arizona’s and the nation’s most distinguished leaders. The Rhodes Chair is dedicated to deepening theoretical and practical understanding of the many voices and forces that influence public policy. The Chair honors the values of personal integrity, fiscal responsibility, respect for persons, and international farsightedness exemplified in the Hon. John J. Rhodes’ career. The 2019 Rhodes Chair featured former Director of the Central Intelligence Agency, John Brennan.

The Distinguished Global Leader Series was established by Barrett Honors College as a new cornerstone global engagement program in 2017. The program invites noted leaders in government and industry to spend time on campus sharing their knowledge and expertise with honors students and faculty. During the recent academic year, Barrett hosted short-stay visits with Former Finnish Defense Minister Elizabeth Rehn,
Former US Secretary of State Condoleezza Rice, Former Chief Secretary of Hong Kong Anson Chan, Uruguayan Ambassador to the United States Carlos Gianelli and most recently the Secretary General of the Organization of American States, Luis Almagro. In addition, the Former President of the Republic of Latvia, Dr. Vaira Vike-Freiberga, was the first Leader-In-Residence. During her six week stay at the Honors College, she delivered several keynote speeches, met with small groups of students to discuss current events and participated in honors-level courses.

**Barrett on all four campuses**

In fall 2009, Barrett, The Honors College at Arizona State University, opened the nation’s first comprehensive four-year residential honors college within a top-tier Research I university that underscores its standing as the premier honors college in the nation. On the Tempe campus, the nine-acre college includes residence halls for 1,700 students, several classrooms, a community center with student lounges, activity rooms, computer labs, a fitness center, a multi-room dining facility with a refectory, café, and administrative, faculty and staff offices. In fall 2014, Barrett expanded the residential college experience to another 1600 upper division honors students living in the 18 acre Vista Del Sol Community, across the street.

The Barrett Honors College resident & communities on the Downtown, Polytechnic and West campuses feature honors student lounges, libraries, kitchens, computer labs, student activity and study rooms, faculty and administrative offices. Barrett at the Downtown Campus is home to about 750 honors students. The Barrett residential community, called “B-Town D-Town,” is located at Taylor Place at the heart of the campus and offers a living environment where students have easy access to ASU’s downtown colleges and programs, as well as Phoenix’s increasingly vibrant lifestyle.

Barrett at the Polytechnic campus gives students the feeling of studying at a small private college with the advantages of a large university. The honors residential community is unique among the ASU campuses – freshman honors students reside together on a floor of Century Hall, which opened in the summer of 2012 while upper-division honors students live in 2- and 3-bedroom houses in a special Barrett neighborhood on campus. Honors students also have access to a contemporary dining hall and fitness facility.

Barrett at the West Campus provides the entire range of honors activities in a small liberal arts college setting. Barrett West students live and learn on the ASU West Campus with approximately 500 other residents. Honors students live in the Casa de Oro residence hall. The 5,000-square-foot Barrett Suite includes a computer lab, study rooms, a meeting area, a library, and staff and faculty offices.

With its outstanding programs, dedicated faculty and staff, and comprehensive facilities, Barrett is a national model for organizing resources to support the honors experience at all four campuses at ASU.

The Moeur Award is Arizona State University’s oldest, continuing honor. It was established in 1901 by Dr. Benjamin B. Moeur and Honor Anderson Moeur, and is now sponsored annually by the Arizona State University Alumni Association. The award is presented at each Commencement ceremony to those individuals who have attained the highest academic standing in any four-year curriculum during their undergraduate years at ASU.

RECESSIONAL

ABOUT THE COLLEGE OF HEALTH SOLUTIONS

Arizona State University established the College of Health Solutions in May 2012 as part of a strategic initiative to build a new comprehensive enterprise for health education. The college is dedicated to translating scientific health research and discovery into practical interventions. Its programs prepare students to address the challenges facing our populations to stay healthy, improve their health and manage chronic disease – all toward improving health outcomes.

The college has experienced rapid growth and offers innovative degree programs to satisfy the global demand for qualified health and health care professionals. Programs are offered in behavioral health, biomedical informatics and biomedical diagnostics, kinesiology and exercise science, nutrition, public and population health, the science of health care delivery, and speech and hearing science. The college also offers non-degree executive and continuing education programs to help professionals achieve results in a rapidly changing health care environment. Faculty, staff and students at the College of Health Solutions collaborate with academic units across the university as well as with industry and community partners to drive change in health education, research and policy. Students learn from top-tier research and clinical faculty, have access to state-of-the art research facilities, and participate in solving real-world health issues through internships, transdisciplinary research and global study abroad experiences.
Graduates of the College of Health Solutions are uniquely prepared to make an impact in the health workforce and shift the focus of health from sickness to wellness, addressing the factors that enable populations to be and stay healthy.

COLLEGE OF INTEGRATIVE SCIENCES AND ARTS

The College of Integrative Sciences and Arts provides students across ASU with the knowledge and skills to comprehend and effectively engage the changing world of the 21st century at local, national and global levels.

We offer graduate and undergraduate degree programs that prepare students for a rapidly changing marketplace, as well as foundational instruction in humanities, social and natural sciences, mathematics and professional fields. Our exploratory and major and career exploration programs empower students to find a major anywhere at ASU based on their interests, career goals and personality traits. Faculty support knowledge enterprise development by advancing research, clinical and creative activities that promote discovery, innovation and human understanding. The college is guided by the principles of student success, strategic partnerships within the university and the community and interdisciplinary inquiry.

Theory, creativity and applied learning are integrated as students build entrepreneurial opportunities both inside the university and in their communities. In addition, the college serves the citizens of Arizona by offering a variety of outreach programs that engage people in cultural events and lifelong learning. The college is home to the Center for the Study of Race and Democracy, which serves as a leading interdisciplinary, problem-solving venture committed to engaged scholarship and information dialogue involving the topics of race and democracy.

THE COLLEGE OF LIBERAL ARTS AND SCIENCES
As the academic heart of Arizona State University, The College of Liberal Arts and Sciences fosters unmatched access, educational excellence, and interdisciplinary inquiry to generate solutions for the changing world. Our diversity and dynamism ignite continued growth and development in any field of study, from space exploration and chemistry to history and justice studies, to create global citizens for the 21st century.

We unite our academic disciplines — the analytical ability of natural scientists, the creativity of humanities scholars and the curiosity of social scientists — to harness the power of our interdisciplinary nature. We encourage our students to follow their dreams, pursue their passions and accomplish their goals in order to create a better future for the next generation and beyond.

Our faculty personify a broad vision of legendary academic scholarship at the forefront of global innovation. They teach our scholars how to adapt to new challenges and a changing landscape so they’re capable of tackling tomorrow’s challenges with ease. Any institution of higher learning can train a student for a first job, but we’d rather create master learners who are equipped with the right knowledge and skills for a lifetime of success. The liberal arts and sciences remain the best foundation for successful careers and deeply rewarding personal and professional lives.

We transform learning, accelerate discoveries and change lives.
HONOR CORDS

Some of our undergraduate degree candidates wear maroon and/or gold honor cords. These cords designate students who have completed at least 56 resident credit hours at ASU and who have attained the following grade point averages:

- Summa Cum Laude = Maroon and Gold cords, 3.80 to 4.0 GPA
- Magna Cum Laude = Gold cord, 3.60 to 3.79 GPA
- Cum Laude = Maroon cord, 3.40 to 3.59 GPA

EDSON COLLEGE OF NURSING AND HEALTH INNOVATION

The growth of ASU’s Edson College of Nursing and Health Innovation reflects our desire to do more, serve more and sustain innovation. Our mission drives us to offer the highest quality academic, research and clinical practice programs so that we can produce the next generation of evidence-based health professionals who will excel as clinicians, teachers, health advocates and researchers.

The challenges that permeate our health care system require innovative solutions that will positively impact patients and entire systems, locally and globally. Our curriculum and clinical experiences expose students to different types of delivery systems, equipping them with the tools and knowledge that will unleash their innovative thinking from day one. Interprofessionalism guides us as we build programs and curriculum to meet the needs of future health professionals. Our graduate and undergraduate programs continue to expand with a focus on program design and delivery that prepares graduates to work collaboratively within complex and dynamic patient care and health delivery systems.

Our online programs continue to expand access to the highest quality education as we focus on adopting new and better instructional tools while ensuring the rigor and quality that characterize the reputation of our programs.

ABOUT THE PhD PROGRAM
Program Director: Bronwynne Evans, PhD, RN, FNGNA, ANEF, FAAN

The PhD Program in Nursing and Health Innovation, one of the few interdisciplinary programs in nursing in the country, provides an academic environment that fosters scholarship, critical thinking, and creativity. Scholars who wish to develop advanced leadership skills in innovation, research, education, health care delivery, and policy issues can learn to generate and apply knowledge across practice settings.
ABOUT THE DOCTOR OF NURSING PRACTICE PROGRAM
Associate Program Director: Daniel Crawford, DNP, RN, CPNP-BC

The Doctor of Nursing Practice (DNP) degree was established at Arizona State University in 2008. The Doctor of Nursing Practice degree is a practice-focused degree that prepares graduates to practice at the most advanced level of nursing. This program prepares nurse practitioners and nurse leaders to positively impact health outcomes at the individual and organizational level.

ABOUT THE MASTER OF SCIENCE IN NURSING PROGRAMS
Program Director: Pauline Komnenich, PhD, RN

ASU remains on the cutting edge in preparing nurse educators for 21st century nursing education through its innovative program. The MS, Nurse Educator (NED) concentration at the Edson College of Nursing and Health Innovation is a pathway designed to prepare the new and experienced nurse to meet demands of the changing health care environment.

ABOUT THE MASTER OF SCIENCE, CLINICAL RESEARCH MANAGEMENT PROGRAM
Program Director: JoAnn Pfeiffer, DrSC

The Master of Science in Clinical Research Management (CRM) degree program prepares students to take the next step in their clinical research career by focusing their studies in the elements of leadership within the research industry. The CRM program is focused on management and leadership development in the pharmaceutical, medical device, research site, research institute, academic medical center, hospital, medical office, or other clinical research or drug development industry.

ABOUT THE HEALTHCARE INNOVATION PROGRAM
Program Director: Rick Hall, PhD, RDN, FAND

The Master of Healthcare Innovation degree program (MHI) is an interdisciplinary degree designed to prepare students to design, implement and lead transformation in health care. Students in this program come from a wide variety of professions including health sciences, architecture, nutrition, exercise, engineering, business administration, journalism, the humanities, all with an interest in leading innovation in health and health care. Students search for and implement sustainable solutions for today’s health care issues with an eye to the future within an interdisciplinary environment.

ABOUT THE BACHELOR OF SCIENCE IN NURSING PROGRAM
Program Director: Kathleen Fries, PhD, RN, CNE

The Bachelor of Science in Nursing (BSN) degree prepares beginning professional nurses who possess the theoretical foundation and the clinical competence to function in various health care settings. Graduates of ASU’s nursing degree programs are prepared to respond to the vast and changing health care needs of individuals and communities. The Traditional and Year-Round Pre-licensure Nursing Programs are 8-semester programs, in which students advance to the upper-division clinical nursing program for their final four semesters. The Post-Baccalaureate Clinical Nursing Program (PBCNP) is available to students who have earned a Bachelor’s degree in another discipline but desire to have a BSN degree.
ABOUT THE RN-BSN PROGRAM
Program Director: Heidi Sanborn, DNP, RN, CNE

The online RN-BSN program builds on the knowledge and skills the student learned in their associate degree or diploma program, especially in the areas of evidence based practice, leadership and management, and community/public health. The interactive course assignments enhance the student’s written and verbal communication skills, clinical reasoning skills, teamwork, and information technology skills. Students will integrate new knowledge into their nursing practice.

ABOUT THE CONCURRENT ENROLLMENT PROGRAM
Program Director: Heidi Sanborn, DNP, RN, CNE

The Concurrent Enrollment Program (CEP) is designed for qualified nursing students who are interested in earning their BSN degree from ASU while simultaneously pursing their Associate of Applied Science (AAS) in Nursing degree through a participating community college. The CEP is a rigorous program with a plan of study that enables students to build on the knowledge and skills learned in the AAS in nursing program.

ABOUT THE BACCALAUREATE HEALTH PROGRAMS
Program Directors: Brenda Hosley, PHD, RN, CNE
                    Rick Hall, PHD, RDN, FAND
                    Cris Wells, EdD, MBA, CCRP

The Baccalaureate Health Programs consist of the Bachelor of Science in Integrative Health, Community Health, Health Care Coordination, Health Innovation, and Health Care Compliance and Regulations. Each of these degrees prepare students to be part of the health care team. Graduates are prepared to collaborate with individuals, families and communities regarding changes to the health care system. This includes health education, health promotion, care coordination, disease management, health care navigation, health innovation, health care compliance, and advocacy services as well as assisting patients in obtaining services, understanding policies, and making health care decisions.

ABOUT THE HERBERGER INSTITUTE FOR DESIGN AND THE ARTS

The Herberger Institute for Design and the Arts is the largest comprehensive design and arts school in the nation, located within a dynamic 21st-century research university.

With 5,000+ students, more than 675 faculty and faculty associates, nearly 160 staff members, 125 degrees and a tradition of top-ranked programs, the Herberger Institute is committed to redefining design and arts education in the 21st-century. Our college is built on a combination of disciplines unlike any other program in the nation, comprising schools of art; arts, media and engineering; design; film, dance and theatre; and music; as well as the ASU Art Museum. The ASU Art Museum supports research initiatives in addition to diverse community engagement projects that enable students and faculty to interact with the public through meaningful partnerships. This unique array of disciplines allows for distinctive opportunities for collaboration.

Our faculty lead students in an exploration of the issues affecting society today and in the future — the contemporary human condition — through design thinking, creative practice and research. We are continually striving to enable design and arts students to succeed beyond graduation.
The Institute is dedicated to the following design principles:

**Creativity is a core 21st-century competency.** Our graduates develop the ability to be generative and enterprising, to work collaboratively within and across artistic fields and to generate non-routine solutions to complex problems. With this broad exposure to creative thinking and problem-solving, our graduates are well prepared to lead in every arena of our economy, society and culture.

**Design and the arts are critical resources for transforming our society.** Artists must be embedded in their communities and dedicate their creative energy and talent to building, reimagining and sustaining our world. Design and the arts must be socially relevant and never viewed as extras or as grace notes. The Herberger Institute is committed to placing artists and arts-trained graduates at the center of public life.

**The Herberger Institute is committed to enterprise and entrepreneurship.** For most college graduates today, the future of work is unpredictable, nonlinear and constantly evolving. A recent study found that 47 percent of current occupations will likely not exist in the next few decades. At the Herberger Institute, our faculty, students and graduates are inventing the jobs and the businesses of the future; reimagining how art and culture get made and distributed; and coming up with new platforms and technology for the exchange of culture and the enrichment of the human experience. The legendary author and expert on city life Jane Jacobs talks about the abundance of “squelchers” — parents, educators, managers and leaders who tend to say no to new ideas. At the Herberger Institute, there are no squelchers. We embrace the cardinal rule of improvisation — always say: “Yes, and…”

**Every person, regardless of social background, deserves an equal chance to help tell our nation’s and our world’s stories.** Our creative expression defines who we are, what we aspire to and how we hope to live together. At the Herberger Institute, we are committed to projecting all voices – to providing an affordable education to every student who has the talent and the desire to boldly add their creative voice to the world’s evolving story.

**Effectiveness requires excellence.** We know that our ability to solve problems, build enterprises and create compelling and socially relevant design and art requires high levels of mastery. By being the best in our chosen fields, we can stretch ourselves and our talents to make a difference in the world.

We encourage all of our alumni to continue to share their stories with us and to take an active role in the Herberger Institute Alumni Chapter. For more information on our alumni activities, please visit herbergerinstitute.asu.edu/alumni. Connect with fellow design and arts alumni on LinkedIn, Facebook and Twitter.

CLOSING
ENGINEERING AT ARIZONA STATE UNIVERSITY

The Ira. A Fulton Schools of Engineering, ranked in the top 50 U.S. engineering schools, are home to more than 350 faculty members and more than 22,400 students. The Fulton Schools were awarded over $104 million in externally funded research awards in fiscal year 2018.

In 2017-2018, the Fulton Schools granted 4,216 undergraduate and graduate degrees. Today, more than 58,000 Fulton Schools alumni are advancing the fields of engineering and technology in Arizona and around the world.

To produce the engineers and innovations needed to address society’s changing needs, we have crafted a visionary blueprint for an engineering school that transcends traditional organization around degrees and disciplines and fosters a transdisciplinary approach to teaching and research. Through our six schools, we offer 25 undergraduate and 44 graduate degree programs that encourage innovative collaboration across disciplines with faculty and students alike developing solutions that will have significant, lasting impact on our local and global communities. In addition to online options for degree programs including electrical engineering, software engineering and more, the Fulton Schools offer professional development programs like Six Sigma.

The School of Biological and Health Systems Engineering provides a rich, interdisciplinary curriculum that prepares students to use engineering and scientific principles and methods to develop instrumentation, materials, diagnostic and therapeutic devices, artificial organs or other equipment and technologies needed in medicine and biology. Our biomedical engineering degree program strives to produce graduates with a broad-based education in both engineering and the life and natural sciences with a focus on improving the overall quality of global health care. Graduates from the biological design doctoral program are creative thinkers prepared to work at the intersection of biology, engineering and computing to advance human health and quality of life.

The School of Computing, Informatics, and Decision Systems Engineering is home to computer engineering, computer science, computer systems engineering, engineering management, industrial engineering and informatics degree programs. From data to decisions, we cover the spectrum for designing the modern, information-driven society, engaging in the fundamental activities of sensing, optimizing, controlling and communicating. Computing serves as the engine that drives this transformation, linking together our school’s fundamental activities. We are dedicated to creating new knowledge and technology that contributes to solving the major problems facing modern society.
The School of Electrical, Computer and Energy Engineering brings together university faculty, students and companies to develop collaborative relationships and solutions. Our computer engineering and electrical engineering degree programs and research efforts are aligned with national and international efforts to address worldwide challenges in energy production and distribution, health care technology and delivery, sustainable development and economic growth, communications technology and information management and global security.

The School for Engineering of Matter, Transport and Energy leverages the synergy of engineering and science to develop new knowledge and technologies, and create innovative solutions to society’s most pressing problems in energy, human health, public safety, exploration, environmental infrastructure and sustainability. Degree programs in aerospace engineering, chemical engineering, materials science and engineering, mechanical engineering, and solar energy engineering and commercialization are offered. We have gathered together a broad range of disciplines and world-class faculty members who are engaged in cutting-edge research, all of which contributes to a unique educational experience.

The School of Sustainable Engineering and the Built Environment provides a nexus for education and research that address the critical infrastructure needs of our society in an environmentally sound manner. The holistic approach in our degree programs covers the engineering expertise of civil, environmental and sustainable engineering, the design and construction principles of construction engineering and the project management and leadership skills of construction management.

The Polytechnic School is organized into seven academic programs that offer a breadth of engineering and technology-related degrees. The programs thrive under the guidance of more than 100 faculty members with deep expertise and industry experience in the important technological challenges that society faces. Located in the dynamic, growing Gateway region on the southeast edge of the Greater Phoenix metropolitan area, the school is home to some of the most advanced learning laboratories available to students on any university campus.

Ira A. Fulton
Chairman of the Board and CEO, Fulton Homes

Ira A. Fulton, founder and CEO of Arizona-based Fulton Homes, established an endowment of $50 million in support of ASU’s College of Engineering and Applied Sciences in 2003. The college was renamed the Ira A. Fulton Schools of Engineering in his honor. The gift has enabled the Fulton Schools to provide funding for scholarships, fellowships, research programs and investments in faculty, all integral to the school’s goal to move from its position as a highly ranked U.S. program into the ranks of world-class institutions.

“With this endowment, we are building an engine of educational and economic growth that will endure for generations. It is a gift of opportunity, prosperity, social equality and hope.” – Ira A. Fulton

ABOUT MARY LOU FULTON TEACHERS COLLEGE

WHY WE EXIST
ASU’s Mary Lou Fulton Teachers College creates knowledge, mobilizes people and takes action to improve education.

WHAT WE DO
We champion educators and education. Educators improve individual lives and strengthen civil society. Moment by moment, day by day and person by person, educators drive the most important and positive changes on the planet.

We operate academic programs for undergraduates, graduate students and professionals that focus on educator preparation, leadership and innovation.

We generate cross-disciplinary research that improves the lives of learners, the impact of educators and the performance of education systems.

We partner with schools and community organizations to test, refine and scale solutions to the tough problems in education.
HOW WE DO IT
We instill a core competency in socially embedded, data- and context-driven collaborative problem solving. We call it creative intrapreneurship.

Creative intrapreneurs:
- Ask the right questions
- Navigate uncertainty
- Design and test innovations as individuals and in teams

Through creative intrapreneurship, we bring people and ideas together to increase the innovation capabilities of individual educators, schools and organizations, districts and communities.

MARY LOU FULTON (1933 – 2015)
Anyone fortunate enough to have known Mary Lou Fulton — to celebrate with her and take pride in students’ accomplishments — is grateful to have had that privilege. So much of what we do at our college is an expression of her commitment to education and to providing the best possible opportunities for the greatest number of people.

Mary Lou said that, ever since she was very young, she was “in love with life.” That’s a perspective we hope all our graduates take with them into the next chapter of their lives and, especially, into their work with students.

Entrusted to manage an institution that bears the name of Mary Lou Fulton, all of us at the college strive to be worthy of her legacy. She will always be our inspiration to be the best educators we can be.

MESSAGE TO THE NEW COLLEGE GRADUATES
Congratulations on your extraordinary achievement! The faculty and staff of New College offer our sincere best wishes for your continued personal and professional success. We all look forward to seeing your work in the world; we know you will make your mark as an ASU New College graduate. Today, you join a prestigious body of New College and ASU alumni who have shared in some of the same remarkable experiences. Please stay in touch with us by joining the ASU Alumni Association, so we can continue to celebrate your triumphs and share the journey of our new students with you. You can take advantage of special new graduate membership rates and become an active member of the ASU Alumni Association at www.asu.edu/alumni.

ABOUT THE NEW COLLEGE
The New College of Interdisciplinary Arts and Sciences offers a nationally unique environment: a small college experience with the power of ASU’s major research university resources. Working one-on-one with our cutting-edge faculty—often through our New College Undergraduate Inquiry and Research Experience program (NCUIRE), our students reshape the boundaries of knowledge in their fields of study. This prepares them for a future of reshaping the world outside of ASU.
New College was founded on a “new” way of thinking about the academy. Instead of reproducing the intellectual silos that separate fields of study in other institutions, our programs have been structured on the notion that if we break down the barriers between fields, we can think in more innovative ways, do more path-breaking work, offer more effective solutions to real-world problems. From our Interdisciplinary Arts and Performance degree that teaches students many forms of artistic expression and then asks into what mode a concept should be born; to our Forensics degree that brings together fields including chemistry, psychology, and legal studies; to our Social Justice and Human Rights degree that explores sociological, historical, and contemporary cultural analyses of the issues, New College offers educational experiences that transcend more limited ways of thinking about the world.

The mission of New College is to prepare students to succeed in a globalized, diverse economy by providing them with solid disciplinary foundations that are coupled with an ability to think and act constructively across disciplines to discover answers to the complex problems that face society today and to create civic and economic well-being, within contexts ranging from the local to the global.

New College’s programs build on the philosophy that inter-, multi-, and transdisciplinary education enhances our graduates’ ability both to address the needs of business, industry, schools, and communities of this region and to meet the challenges of the twenty-first century. New College’s Bachelor of Art and Bachelor of Science degrees include: American Studies; Applied Computing; Applied Computing—Cybersecurity; Applied Mathematics; Applied Science; Biology; Biology—Pharmacology/Toxicology; Biotechnology and Bioenterprise; Communication; Computational Forensics; Conflict Resolution; English; English—Secondary Education; Environmental Science; Ethnicity, Race and First Nations Studies; Forensic Science; History; History—Secondary Education; Interdisciplinary Arts and Performance; Interdisciplinary Arts and Sciences; Latin American Studies; Pharmacology/Toxicology; Philosophy, Religion and Society; Political Science; Psychology; Psychology — Forensic Psychology; Psychology (Online); Social and Behavioral Sciences; Social and Cultural Analysis; Social and Cultural Analysis—American Studies; Social and Cultural Analysis—Ethnicity, Race, and Indigenous Studies; Social and Cultural Analysis—Latin American Studies; Social and Cultural Analysis—Peace Studies; Social and Cultural Analysis—Queer and Sexuality Studies; Social and Cultural Analysis—Women and Gender Studies; Sociology; Spanish; Statistics; and Women and Gender Studies. New College offers Master of Art degrees in Communication Studies, English, Interdisciplinary Studies, Social Justice and Human Rights, and Social Technologies and Master of Science degrees in Biological Data Science, Psychology, Forensic Psychology and a PhD in Law and Psychology.

ABOUT THE SCHOOL FOR THE FUTURE OF INNOVATION IN SOCIETY

Established in 2015, the School for the Future of Innovation in Society educates new generations of students to make innovation the object of systematic study. With our interdisciplinary faculty, students study the promises and challenges of new technologies and the big ideas that change our lives each day, and they explore how decisions we make today about innovations will transform the world around us. We see our efforts and those of our students as part of a larger social fabric – local, regional, national, global – that informs our wants and needs about innovation. We are planning now for the kinds of futures that we want to inhabit. More information can be found at sfis.asu.edu.

ABOUT THE SCHOOL OF SUSTAINABILITY

Established by the Arizona Board of Regents in 2006, the nation’s first School of Sustainability is now in its second decade educating a new generation of scholars and practitioners. It creates innovative modes of scholarship by bringing together leaders, stakeholders and people from multiple disciplines to develop practical solutions to the most pressing sustainability challenges.

The school offers graduate programs leading to Master of Science, Master of Arts, Master of Sustainability Solutions, Master of Sustainability Leadership, Executive Master of Sustainability Leadership and Doctor of Philosophy degrees in sustainability, as well as undergraduate programs leading to Bachelor of Science and Bachelor of Arts degrees in sustainability. Degree programs focus on collaborative learning, transdisciplinary approaches and solution-oriented training to address sustainability challenges relating to areas such as energy and materials, water, ecosystems, urbanization, international development, social transformations, climate and food systems.

The School of Sustainability is a unit of the Julie Ann Wrigley Global Institute of Sustainability — the hub of Arizona State University’s sustainability initiatives and the world’s most innovative sustainability laboratory. The institute advances solutions, engagement, education and research for a better world. Both the school and the institute initiate and nurture work on issues of sustainability across the university and collaborate with other academic institutions, governments, businesses and industries, as well as community groups locally, nationally and globally. ABOUT THUNDERBIRD SCHOOL OF GLOBAL MANAGEMENT

Thunderbird has trained global leaders and managers to advance sustainable prosperity worldwide for over 70 years. Thunderbird (originally known as the American Institute for Foreign Trade) was chartered on April 8, 1946, at a Glendale, Arizona, World War II airbase, Thunderbird Field, where pilots from around the world came for training during wartime. General Barton Kyle Yount obtained the airfield with the express purpose of developing a school focused exclusively on international trade and global affairs. The core DNA established at that time is best summarized in a phrase coined by original faculty member Dr. William Lytle Schurz, “Borders frequented by trade seldom need soldiers.”

Thunderbird became the first-ever higher-education institution to focus exclusively on international leadership by concentrating its curriculum on global management and business skills, international political economy and regional business environments, languages and cross-cultural communications. The school has often been called a “mini-United Nations” because of its diverse and inclusive global student body. Thunderbird is now known worldwide for its vast and engaged alumni network of more than 45,000 individuals in nearly 150 nations around the globe. Thunderbird has more than 170 alumni chapters that meet regularly in 70 countries.

In 2014, Thunderbird became an independent unit of the Arizona State University Knowledge Enterprise, combining Thunderbird’s multi-decade heritage of developing global leaders with ASU’s expansive resources. The school relocated to ASU’s vibrant Downtown Phoenix campus in 2018. The move brought the world’s #1-ranked Master’s in Management under the umbrella of the nation’s #1-ranked school for innovation. Thunderbird’s global footprint has expanded over the years as well, with operations now in Geneva, Switzerland, Moscow, Russia, Dubai, UAE, Tokyo, Japan and Seoul, Korea, making it the world’s first truly “global multinational business school,” committed to training the next generation of global leadership managers for the 4th Industrial Revolution.

WALTER CRONKITE SCHOOL OF JOURNALISM
AND MASS COMMUNICATION

About the School
The Cronkite School is widely recognized as one of the nation’s premier professional journalism programs. Rooted in the time-honored values of accuracy, responsibility, objectivity and integrity that characterize its namesake, the school fosters journalistic excellence and ethics among students as they master the practical professional skills they need to succeed in the digital journalism world of today and tomorrow.

The Cronkite School’s 2,000 students consistently lead the country in national competitions. Over the past decade, Cronkite has been No. 1 in the nation in the Society of Professional Journalists’ Mark of Excellence competition and the Broadcast Education Association’s Festival of Media Arts awards and has finished in the top 10 in the Hearst Journalism Awards each year. Cronkite students annually win more than 100 journalism and public relations awards.

Students are guided by a faculty that is made up of award-winning professional journalists, strategic communications executives and world-class media scholars. Cronkite professors include Pulitzer Prize-winning journalists, digital media thought leaders, top TV producers and correspondents, major metropolitan newspaper editors and strategic communications experts. They are master teachers, writers and scholars who often speak around the globe on the most important topics facing journalism today.

The Cronkite School leads the field of journalism education with its innovative use of the “teaching hospital” method, providing both unparalleled learning opportunities for students and important news content to the community, state, region and nation. Arizona PBS, one of the nation’s largest public television stations, is the largest media outlet operated by a journalism school in the world. Arizona PBS serves as a hub for the Cronkite School’s full-immersion professional programs and a testing ground for new approaches in journalism.

Cronkite students choose from more than a dozen professional immersion programs, applying what they have learned in the classroom in real-world learning environments.
Students cover public affairs from news bureaus in Phoenix and Washington, and they cover sports from bureaus in Phoenix and Los Angeles. Carnegie-Knight News21 multimedia journalists conduct national data-driven investigations. For Arizona PBS, they produce a nightly newscast that reaches 1.9 million households as well as a robust multimedia news website. In Cronkite Noticias, bilingual students produce Spanish-language broadcast and digital stories on important issues.

Students in the Public Relations Lab develop campaigns for client companies, while Digital Audiences Lab students harness social media, SEO and analytics to grow and engage audiences for clients. In the New Media Innovation and Entrepreneurship Lab, they use digital technologies to forge the future of journalism.

The Cronkite School also has a student-produced TV news magazine that airs on Arizona PBS in prime time, spotlighting the innovative science research at ASU. And the school has created a Facebook-supported collaborative aimed at helping people find new ways of understanding and engaging with news and information.

Most recently, Cronkite received a $3 million grant from the Scripps Howard Foundation to establish a center that will train the next generation of investigative reporters.

Elsewhere at the school, the Donald W. Reynolds National Center for Business Journalism provides education and training to professional journalists, and Cronkite Global Initiatives brings international journalists to the school for study and training.

All of these initiatives take place in a state-of-the-art building that is unequaled in journalism education. ASU’s investment in the school has generated national and international attention from educators and media professionals who place the school in the top tier of all U.S. journalism schools. The Times of London, The New York Times and USA Today have pointed to the school as a leading example of changes taking place at journalism schools across the country. These prestigious publications have called the Cronkite School a pioneer, kindling a notion of new media that will shape how news is delivered and how people will stay informed in the future.

**About Walter Cronkite**
ASU’s journalism program was named in honor of former CBS News anchor Walter Cronkite in 1984.

The relationship started when Tom Chauncey, longtime owner of the CBS affiliate in Phoenix and a leading supporter of journalism education at ASU, contacted his old friend in an effort to advance the program. An endowment on behalf of the program was soon established and the school was named after “the most trusted man in America.”

Over the next quarter of a century, Cronkite lent much more than his name to the school. He was closely involved — advising leadership, guiding students and faculty and traveling to Arizona each year to personally give the Walter Cronkite Award for Excellence in Journalism to one of the nation’s top journalists. The most
special relationship, though, was with “our students,” as Cronkite would always call them. Young women and men, some with parents barely old enough to remember Cronkite behind the anchor desk, lit up when he walked into a classroom. They hung on his every word as he thoughtfully answered their questions about the profession he so loved. They lined up just to shake his hand, and he loved every minute of it.

In what turned out to be Cronkite’s last visit to ASU in 2007 before declining health prevented him from traveling, a group of 100 students gathered with just a few minutes of notice that Cronkite was in the building. He held them spellbound as he spoke about covering World War II, Vietnam, Apollo, Watergate and presidents from Truman to Reagan — and of how important “our school” was to him. Although Cronkite died on July 17, 2009, before he was able to visit the new building, he remains an ever-present part of the school’s heartbeat and direction.

Cronkite’s legacy lives on in the spirit and passion with which the school teaches both the skills to do journalism in today’s media environment and the time-honored ethics and news values necessary to do it in the manner that would make him proud.

The Cronkite School has established a special memorial fund in Cronkite’s name. For more information on the fund and to learn more about Cronkite’s legacy and career, visit cronkite.asu.edu/rememberingcronkite.

About Our Graduates
The Cronkite School has more than 11,000 alumni throughout the Valley, across the country and around the world. Many are leaders in television, digital media, newspapers, radio, magazines and public relations.

In 1993, the Cronkite School inducted its first class into the Cronkite Alumni Hall of Fame. The charter inductees were Al Michaels (’66), an Emmy Award-winning sports broadcaster best known for anchoring “Monday Night Football,” and Bill Redeker (’71), an ABC News correspondent who covered the Middle East and the Far East during his 30 years with the network.

Other notable Cronkite Alumni Hall of Fame inductees include Nicole Carroll (’91), editor-in-chief of USA Today; Becky Anderson (’94), CNN International anchor; Julie Cart (’98), Pulitzer Prize-winning Los Angeles Times reporter; Derrick Hall (’91), president of the Arizona Diamondbacks; Christine Devine (’87), news anchor at FOX 11 in Los Angeles; Mary Kim Titla (’85), founder of Native Youth Magazine; Ray Artigue (’76), president of The Artigue Agency; and Chip Dean (’77), director of ESPN’s “Monday Night Football.”

THE NATION’S LEADING
COMPREHENSIVE PUBLIC SERVICE COLLEGE

The Watts College of Public Service and Community Solutions is a unique, comprehensive public service college dedicated to fully integrating teaching, research and service to address social problems.

PREPARING PUBLIC SERVICE LEADERS FOR LIFELONG LEARNING, EQUIPPED WITH TOOLS TO AFFECT CHANGE
Our degree programs cover the spectrum of public service, including public policy, social work, criminology and criminal justice, nonprofit leadership, emergency management, community development, parks and recreation, and more.

A particular point of pride is that the college is home to ASU’s most diverse student body, with the highest percentages of minority, college transfer and employed students — and the largest community of first-generation college students. Many chose public service because of their own life experiences and firsthand understanding of systems that need improvement. Of equal importance is how this commitment translates into real impact for the communities to which students return.
INTEGRATING TEACHING, RESEARCH AND SERVICE ROOTED IN SOLUTIONS-BASED LEARNING
Through rigorous, applied research, we develop solutions to address pressing issues from child welfare to neighborhood safety, city management to human trafficking, water scarcity to tourism development.

From day one of their college experience, our students are immersed in hands-on learning through a signature solutions-based pedagogy. They are paired with community partners to tackle real-world problems—both an educational, and service-based experience—delivering more than 600,000 hours of community service each year.

LEADING ASU SERVICE AND POLICY INITIATIVES TO CREATE A MODEL OF A SERVICE-COMMITTED UNIVERSITY
The college serves as a model for ASU’s commitment to service—leading university-wide initiatives such as spearheading the first-of-its-kind Public Service Academy, partnering with the Harvard Institute of Politics to increase civic participation through our Pastor Center for Politics and Public Service and leading AmeriCorps programs like Public Allies Arizona, Safety Planning for Survivors of Domestic Violence and Corporation for National and Community Service Employment Outcomes.

SOLVING PROBLEMS THOUGH COLLABORATION WITH COMMUNITY PARTNERS ACROSS SECTORS
The college brings collaborative ideas into action working closely with hundreds of government, private and nonprofit partners locally and globally. Our research and scholarship, through our research centers and offices, individual faculty members and cross-disciplinary teams has an impact beyond dollars: training, policy guidance, best practices and direct service.

OUR SCHOOLS AND CROSS-COLLEGE PROGRAMS
The School of Community Resources and Development advances the social, economic, environmental and cultural well-being of our local and global communities through instruction, research and service. We provide nationally recognized interdisciplinary research expertise and innovative academic programs in nonprofit leadership and management, parks and recreation management, and tourism development and management.

The School of Criminology and Criminal Justice merges theory and practice. The core of our highly-ranked program—#5 overall by US News & World Report—focuses on the theories of criminality and evidence-based best practices for responding to crime through the lenses of three interrelated structures—policing, courts and corrections—that collectively comprise the criminal justice system.
The School of Public Affairs’ mission is to understand and address society’s grandest challenges in public management, policy and governance. We seek to maximize our impact through rigorous transdisciplinary research, project-based education, collaborative and inclusive community engagement, experiential learning and innovative solutions. We are ranked consistently among the top 10 public affairs schools in the country with highly rated programs in urban management, environmental policy, nonprofit management, and public finance.

One of the largest and most diverse social work programs in the U.S., the School of Social Work, is motivated by its steadfast commitment to promote social, political and economic justice with a special emphasis on populations of the Southwest. The School prepares professional social work practitioners and scholars who are committed to enhancing individual, family and group problem-solving capacities, maximizing human potential, and creating a more just and humane society.

Our cross-college interdisciplinary programs blend the expertise of our disciplines to create innovative, well-informed approaches to emerging social problems. The emergency management and homeland security program promotes healthier and more vibrant communities through the effective management of hazards and crises. The program evaluation program develops expertise in response to increasing demands for accountability in the public, private and nonprofit sectors. The public safety leadership and administration program prepares graduates for management in the public safety sector with a particular emphasis on emergency medical services, fire and police administration.

RESEARCH AND IMPACT

The College leads the university in the production of research that has system-wide and large-scale impact on a myriad of social, behavioral, economic and political challenges. Through rigorous applied research, we are developing solutions with the potential to better our response to pressing issues and positively impact our communities locally, nationally and globally. Among our 20 centers:

Southwest Interdisciplinary Research Center
Center for Child Well-Being
Lodestar Center for Philanthropy and Nonprofit Innovation
Morrison Institute for Public Policy
Center for Violence Prevention and Community Safety

ABOUT THE W. P. CAREY SCHOOL OF BUSINESS

The W. P. Carey School of Business at Arizona State University is one of the highest-ranked and largest business schools in the United States. The school is internationally recognized for its leadership in business education and for positively impacting the practice, science, and art of management on a national and international scale. The school works to rethink the nature of business, engage the world, and create a better future.

Nearly 16,000 students attend the W. P. Carey School of Business, including over 2,500 online learners and more than 100 doctoral candidates. The student body is especially diverse, including representatives from over 100 countries.

The W. P. Carey School boasts an acclaimed faculty of more than 160 esteemed tenure and tenure-track faculty, including a Nobel Prize winner. Many faculty members are also on the editorial boards of academic journals and publications. Housed within the school are nine respected research centers and a research institute, which generate research, ideas, and information that support academics and business professionals and are internationally recognized for research productivity.

Both the school’s graduate and undergraduate programs are ranked among the best in the nation by *U.S. News & World Report*. The undergraduate program is ranked No. 30 overall, as well as Top 30 for 10 disciplines within business. The W. P. Carey Online MBA is ranked No. 6, the Professional Flex MBA No. 22, and the Full-time MBA is ranked No. 33 in the country. The school is also known for providing an excellent return on investment at both the undergraduate and graduate levels.

Undergraduate Bachelor of Science degrees are offered in accountancy, business data analytics, business entrepreneurship, computer information systems, economics, finance, management, marketing, supply chain management, and technological entrepreneurship and management.

Undergraduate students also have the option of earning a Bachelor of Arts degree in business with concentrations in business administration, Chinese language and culture, communication, corporate accounting, food industry management, global agribusiness, global leadership, global logistics management, global politics, health care, human resources, information security, law, public service and public policy, retail management, Spanish language and culture, sports business, statistics, sustainability, technology, and tourism.
The school offers its renowned MBA program in four distinct platforms: Full-time, Professional Flex, Online, and Executive. Master’s degrees are available in accountancy, business analytics, finance, global logistics, information management, real estate development, and taxation. Doctoral degrees are offered in accountancy, agribusiness, economics, finance, information management, management, marketing, and supply chain management.

The W. P. Carey alumni network spans the globe. Our alumni represent highly regarded companies from diverse industries, including manufacturing, technology, retail, banking, accounting, entertainment, and food, as well as entrepreneurial firms and respected nonprofit organizations.

THE ARIZONA STATE UNIVERSITY
MACE AND PRESIDENT’S CHAIN OF OFFICE

In Medieval times, a mace was a hand-to-hand combat weapon. In about the year 1400 A.D., a mace evolved from a weapon to a ceremonial instrument used by academicians in rituals such as commencement and inaugurations. The oldest known ceremonial mace was that of the Faculty of Common Law of St. Andrew University in Scotland, used in 1438.

The Mace and Chain of Office are presented only at ceremonies in which faculty members are in full academic regalia, such as the Inauguration of the ASU President, University Commencement, Faculty Assemblies, Regents’ and President’s Professor Induction Ceremonies and Convocation.

The Mace is carried at the head of the procession and laid in a cradle, thus signifying the formal onset of the ceremony.

ASU’s ceremonial mace and chain of office was created in observance of ASU’s Centennial in 1985. Handcrafted by ASU Professor of Art, David Pimentel (1943-2004), the mace and chain was created with “austere elegance and traditional southwestern motifs.” In keeping with these directions, Professor Pimentel constructed both items out of materials native to Arizona. The ASU Mace is a wood staff, approximately three and a half feet long, weighing eight pounds and made of hollowed and polished Mesquite.

The head of the ASU Mace has four sterling silver blades and is banded with copper, Morenci turquoise, and a silver ring on which the words Arizona State University are embossed. The turquoise inlay was cut and polished by Navajo jeweler Richard Charlie of Mesa. The ASU seal is embossed in silver on the heel of the mace.

The President’s Chain of Office includes a silver rope woven from strands of hand-turned links, which holds a medallion six inches in diameter that reverses to reveal the ASU seal in gold on one side and the same in silver and turquoise on the other.
College Marshals consist of selected faculty members from each college at all ASU campuses. Selection criteria is left to the individual colleges, but faculty who have recently won awards or have received special recognition are given primary consideration.

**Barrett, the Honors College** — Dr. Matthew Voorhees received his PhD in Political Science from Rutgers University and joined the Barrett Faculty in 2014. His primary area of interest is American political thought and he has published articles on the role of music in Rousseau’s political thought and on the future of political philosophy.

**College of Health Solutions** — Dr. Shelley Gray is a professor of Speech and Hearing Science in the College of Health Solutions at Arizona State University and a certified speech-language pathologist. She is also an affiliate faculty member in the Mary Lou Fulton Teachers College and a Barrett Honors Faculty member. She leads the Child Language and Literacy Lab (CHILLL) that focuses on the development of early literacy, reading, and working memory in children and adolescents and the development and testing of assessments and curricula to improve children’s learning and academic success. She holds Doctor of Philosophy in Speech and Hearing from Arizona State University.

**College of Integrative Sciences and Arts** — Dr. Cristalís Capielo Rosario is an assistant professor in the Counseling and Counseling Psychology Program in the College of Integrative Sciences and Arts. Dr. Capielo Rosario’s scholarship focuses on investigating sociocultural and sociopolitical determinants of health disparities burdening Puerto Ricans living on the island and in the United States. Her most recent publication shows how the colonization of Puerto Rico negatively influences the psychological health of Puerto Ricans. Dr. Capielo Rosario’s research findings have been featured in regional and national news outlets such as The Arizona Republic and NBC News.

**The College of Liberal Arts and Sciences** — English Professor James Blasingame is the 2018 Zebulon Pearce Distinguished Professor of the Humanities and a 2018 Pat Tillman Veterans’ Center Professor. In previous years he has also been named the Arizona Humanities Council Dan Shilling Public Scholar, the International Reading Association Arbuthnot Professor of Young Adult Literature, the Arizona State University Parents’ Association Professor of the Year, and the Arizona English Teachers’ Association Lifetime Achievement Award winner.
Edson College of Nursing and Health Innovation — Dr. Diane Nuñez is a Clinical Assistant Professor in the Edson College of Nursing and Health Innovation and serves as Director of the Rural Health Practice Program. In 2018 she launched the AHEC Scholars Program for interprofessional practice in rural communities throughout Arizona. As Coordinator for the Doctor of Nursing Practice Residency, she supports student learning outcomes through community engagement for sustainable practice change. Diane practices as an adult nurse practitioner in geriatrics and is a Fellow of the National Academies of Practice. Last year, Dr. Nuñez received the Daisy Faculty Award for Excellence in Education by the Daisy Foundation.

Herberger Institute for Design and the Arts — David Barker has a BS in Education from Duquesne University and a MFA in Theatre Arts from Rutgers University. He is an award-winning actor, director and fight choreographer. Also an accomplished mime, his work has been featured in numerous publications. Credits include national and international tours, Broadway, Off-Broadway, regional theatre, international festivals and TV. He has conducted master classes, workshops and residencies nationally and internationally, taught at the University of California at Santa Barbara, Douglass College and Scottsdale and Mesa Community Colleges. He teaches graduate and undergraduate classes in movement and acting in the School of Film, Dance and Theatre.

Ira A. Fulton School of Engineering — Keith D. Hjelmstad is President’s Professor and Chair of the Civil Engineering Program in the School of Sustainable Engineering and the Built Environment. He is the founder and architect of The Mechanics Project, an innovative approach to teaching mechanics to undergraduates in engineering. Professor Hjelmstad came to ASU ten years ago, serving as University Vice President and Dean of the College of Technology and Innovation after a distinguished academic and administrative career at the University of Illinois. He does research in computational mechanics, structural engineering, and engineering education. He is the author of the book Fundamentals of Structural Mechanics.

Mary Lou Fulton Teachers College — Wendy Peia Oakes is an associate professor at the Mary Lou Fulton Teachers College. Her work focuses on improving educational access and outcomes for young children with and at risk for emotional and behavioral disorders. Her research addresses comprehensive, integrated, three-tiered (Ci3T) models of prevention; evidence-based academic and behavioral interventions; and professional development for preservice and in-service educators in implementing practices with fidelity. Dr. Oakes serves as an associate editor for the following journals: Remedial and Special Education, Journal of Positive Behavior Interventions and Behavioral Disorders. She also serves on the Council for Exceptional Children–Council for Children with Behavioral Disorders.
New College of Interdisciplinary Arts and Sciences — J. Chadwick (Chad) Johnson is an Associate Professor in the School of Mathematical and Natural Sciences in New College of Interdisciplinary Arts and Sciences. His research includes studying animal behavior at the levels of mechanisms, individuals, populations and communities. He is particularly interested in behavioral expression that occurs in distinct behavioral-ecological contexts. He tracks animals through their life cycles, studying behavior and ecological variations found in nature. He is also interested in the Philosophy of Science and conservation ecology. Dr. Johnson also serves as Barrett faculty and has contributed greatly to the culture of interdisciplinarity and collaboration of New College.

School for the Future of Innovation in Society — Dr. Laura Hosman, Associate Professor in the School for the Future of Innovation in Society, focuses her work on the role of new technologies in developing countries. She brings her passion for learning to the classroom and beyond, through real-world, project-based courses that bring students and student-built technology to the field. Her SolarSPELL project is used in over 220 schools and medical clinics across the Pacific Islands and East Africa. Dr. Hosman was awarded the PLUS Alliance Innovation Award in 2017 and recently won the Global Humanitarian Award from the Phoenix section of the Institute of Electrical and Electronics Engineers.

School of Sustainability — Sonja Klinsky is an assistant professor at the School of Sustainability. Her research focuses on the justice dilemmas presented by climate change and by policy attempts to manage climate change. In collaboration with others, her work has sought to generate theoretically sound and politically relevant proposals for constructively addressing debates about justice embedded in climate policy decision-making at all scales. Her most recent book is “The Global Climate Regime and Transitional Justice”. She was awarded a 2018-2019 Nehru-Fulbright fellowship to deepen collaborations with colleagues in India working on climate change, justice and public policy.

Thunderbird School of Global Management — Dr. Roy C. Nelson is an Associate Professor at Thunderbird School of Global Management, as well as Associate Dean of Thunderbird’s undergraduate programs. He also served as Academic Director for Thunderbird’s Executive MBA program in Sao Paulo, Brazil.

Dr. Roy Nelson’s book, “Harnessing Globalization: The Promotion of Nontraditional Foreign Direct Investment in Latin America” (Penn State University Press), is based on his extensive field research in Brazil, Chile, Mexico, Costa Rica, Singapore, and Ireland. An earlier book, “Industrialization and Political Affinity: Industrial Policy in Brazil” (Routledge Press), is based on his field research in Brazil.
Walter Cronkite School of Journalism and Mass Communication —
Brett Kurland is an Emmy Award-winning sports producer and multimedia entrepreneur with more than 16 years of experience producing content across a variety of platforms, ranging from mobile phones to broadcast television networks. Kurland’s work has included documentaries, features, live events and studio shows for networks, including ESPN, CBS, FOX, NBC, ABC, NFL Network, Big Ten Network, FOX Sports Net and NHL Network. Kurland earned his undergraduate degree from the Medill School of Journalism at Northwestern University, He received his M.B.A. from the Kellogg School of Management, with majors in media management, entrepreneurship and innovation, and marketing.

Watts College of Public Service and Community Solutions —
Barbara Klimek, PhD, MSW, is a Clinical Associate Professor and MSW Coordinator in Arizona State University’s School of Social Work. She holds an MSW degree from ASU, MA degree in Economics, major: Econometrics from Warsaw School of Economics, and PhD degree in economics from the University of Warsaw, Poland. She serves as the Director of the Office of Global Social Work, Senior Sustainability Scientist with the Global Institute of Sustainability (GIOS). Dr. Klimek is also Affiliate Faculty of the Master of Social Justice and Human Rights program, and Affiliate Faculty of the Melikian Center at ASU. Prior to joining the faculty at ASU, she was an Assistant Professor in the Department of Economics at the University of Warsaw, Poland where she was engaged in research and teaching in the areas of economics and econometrics. She came to ASU with 25 years of experience working in social service agencies. Dr. Klimek’s research agenda is related to issues of cultural diversity, specifically refugees and immigrants, international community development, as well as global social work. Dr. Klimek is a recipient of the 2019 ASU Graduate College Outstanding Faculty Mentor Award in the category of Outstanding Instructional Faculty Mentor.

W. P. Carey School of Business — Paul John Steinbart is a Professor in the Department of Information Systems in the W. P. Carey School of Business at Arizona State University where he teaches graduate and undergraduate courses on information security and cyber-risk management. His research interests include issues concerning the usability of information security solutions, individuals’ information security behaviors, and effective governance of information security. He has published his research in leading academic journals such as MIS Quarterly, Information Systems Research, The Accounting Review, and Accounting, Organizations and Society. He is also the co-author of the undergraduate textbook “Accounting Information Systems” published by Prentice-Hall.

P. Carey School of Business, interim dean of the College of Extended Education, director of the Center for the Advancement of Small Business, director of the Bachelor of Interdisciplinary Studies degree, and president of the University Senate. He was inducted into the Business Faculty Hall of Fame in 2018. He is president elect of the Association of Retirement Organizations in Higher Education (AROHE).
HISTORY OF THE ACADEMIC COSTUME

The present-day academic costume seemingly originated at Oxford and Cambridge Universities in the 1300s. As the universities passed from ecclesiastical control, brighter colors distinguished the academic robe from the drab clerical gown. Colonial American universities based their academic regalia on the British system.

In the 1880s, a student movement centering in New England investigated the establishment of a “senior badge,” to improve commencement week exercises and revive the traditions of university life. In 1893, an intercollegiate commission established a uniform code for caps, gowns and hoods for the various degrees.

Of the costume’s three components, the hood is the most interesting. Originally it had three uses: as a head covering, as a shoulder cape, and as a bag in which alms could be collected. It is mentioned as early as 1480 in clerical literature. When large wigs were in vogue in Britain, the cape part of the hood was split in front and a narrow neckband inserted. The entire cape and hood was allowed to fall back as it is today, and it was never restored to the original style.

Following is a list of the hood and tassel colors established by the Intercollegiate Code to represent departments of learning:

- Architecture — Blue-Violet
- Agriculture — Maize
- Arts, Letters, Humanities — White
- Business Administration, Commerce
- Accountancy — Sapphire Blue
- Dentistry — Lilac
- Economics — Copper
- Education — Light Blue
- Engineering — Orange
- Fine Arts — Brown
- Forestry — Russet
- Home Economics — Maroon
- Journalism — Crimson
- Law — Purple
- Library Science — Lemon
- Medicine — Green
- Music — Pink
- Nursing — Apricot
- Oratory (Speech) — Silver Gray
- Pharmacy — Olive Green
- Philosophy — Dark Blue
- Physical Education — Sage Green
- Public Administration, including Foreign Service — Peacock Blue
- Public Health — Salmon Pink
- Science — Gold-Yellow
- Social Science — Citron
- Theology or Divinity — Scarlet
- Veterinary Science — Gray

Black tassels are correct for all degrees, and colored tassels are worn only by preference.

Gold metallic tassels may be worn by doctors or presidents of universities and colleges.
