ARIZONA STATE UNIVERSITY
COMMENCEMENT
AND
CONVOCATION
PROGRAM

Fall 2017
December 11-13, 2017
THE NATIONAL ANTHEM
THE STAR-SPANGLED BANNER

O say can you see, by the dawn’s early light,
What so proudly we hailed at the twilight’s last gleaming?
Whose broad stripes and bright stars through the perilous fight
O’er the ramparts we watched, were so gallantly streaming?
   And the rockets’ red glare, the bombs bursting in air
Gave proof through the night that our flag was still there.
O say does that Star-Spangled Banner yet wave
O’er the land of the free and the home of the brave?

ALMA MATER
ARIZONA STATE UNIVERSITY

Where the bold saguaros
Raise their arms on high,
Praying strength for brave tomorrows
   From the western sky;
Where eternal mountains
Kneel at sunset’s gate,
Here we hail thee, Alma Mater,
   Arizona State.

—Hopkins-Dresskell

MAROON AND GOLD

Fight, Devils down the field
Fight with your might and don’t ever yield
Long may our colors outshine all others
Echo from the buttes, Give ‘em’ hell Devils!
   Cheer, cheer for A-S-U!
Fight for the old Maroon
For it’s Hail! Hail! The gang’s all here
   And it’s onward to victory!

Students whose names appear in this program are candidates for the degrees listed, which will be conferred subject to completion of requirements.

University commencement and convocation ceremonies are special events for all involved. Please show respect for everyone who has come to share in the experience. Individuals who engage in inappropriate or disruptive behavior may be removed from the event.

As a courtesy to those around you and to our graduating students, please turn off all electronics devices and phones during the ceremony.
MISSION STATEMENT

UNIVERSITY COMMENCEMENT

University Commencement represents the culmination of a student’s academic achievement. It is a time of celebration and reflection for students, families, friends, faculty and staff. It brings together a diverse community to share in the joy of accomplished goals.
Arizona State University continually demonstrates its dedication to efficiency, technology and sustainability. The full University Commencement program is available to graduates on a reusable external flash drive. This change aligns with our growing institutional efforts to enhance sustainability practices, and our broader endeavors to employ technology in heightened service to our students.

The reusable external flash drive, combined with the abridged program distributed at fall ceremonies, will yield a 3.2 million page reduction in the amount of printed materials distributed at ceremonies over three days of graduation activities. We kindly ask for your help in our sustainability efforts by returning unused or unwanted programs to the venue or recycling your printed programs after you have enjoyed them.

To order copies of the final book with all graduates names listed, email your request to ASUCommencement@rrd.com and someone will respond with payment instructions and order details.
Dear Graduates,

On behalf of the Arizona Board of Regents, we would like to offer our congratulations on your graduation. Today marks a momentous occasion and stellar accomplishment for each and every one of you — the culmination of years of hard work. Earning a college degree takes dedication, drive and discipline – traits that are indicative of your potential for future success.

Earning a college degree unlocks a world of new possibilities for graduates. As you embark on the next stage of your journey, either through continued education or by entering the workforce, remember that in graduating from college, you have demonstrated sound judgment and exceptional ability. Whatever the future holds, you are already well prepared to navigate challenges that may come your way.

The board is proud that you chose to pursue your degree at Arizona State University. It is our hope that you will cherish the experiences and memories of your college years. Please keep your love for your alma mater alive, wherever the future takes you. The accomplishment we celebrate today — and all of your accomplishments to come — are forever woven into the legacy of ASU.

And, our congratulations extends to families and friends who are joining us to celebrate our graduates. Your graduate’s accomplishment is likely due, in no small part, to your support. Thank you!

Sincerely,

Eileen I. Klein  
President

Harvard was the first university to confer honorary degrees in 1692. Since then it has become a recognized function of degree granting institutions. Honorary degrees are an opportunity for universities to single out people who have made contributions to society. At ASU, honorary degree recipients are nominated by faculty members. The six-member Academic Affairs Honorary Degrees Committee reviews faculty nominations for the Honorary Degree. It then recommends candidates to the president. The committee is appointed by and responsible to the president.

PRESENTATION AND HOODING OF LLM CANDIDATES

PRESENTATION MASTER OF LEGAL STUDIES CANDIDATES
At its founding, the College of Law at Arizona State University, named after the legal trail blazer Sandra Day O’Connor in 2006, committed itself to innovation. While retaining important aspects of traditional legal education, the founding faculty embraced a vision of the future of legal education, befitting a young school in a growing city.

Nearly from its inception, the College has provided extensive training in practical legal skills, offering students a firm foundation in lawyering before they become practicing attorneys. Today, the College of Law has one of the strongest legal writing programs in the country, offers a myriad of field placement opportunities, and has a variety of clinics that provide indigent members of the community with valuable legal assistance while offering hands-on experience in both litigation and transactional settings. Each year, approximately 90 percent of students participate in clinics, externships, or pro bono activities.

In the five decades since its founding, the College of Law, now renamed the Sandra Day O’Connor College of Law, has grown in size and national prominence, assembling an acclaimed faculty in the core areas of legal study while continuing to offer innovative approaches to legal education. The Center for Law, Science & Innovation is the nation’s first and largest academic center focused on the intersection of law and science, and offers the country’s only LL.M. in Biotechnology and Genomics. The Center for Public Health Law Policy and the Program on Law and Sustainability offer specialized Certificates, and the Indian Legal Program, arguably the leading program on Indian law in the country, offers an LL.M. in Tribal Policy, Law, and Government, the Certificate in Indian Law, and the Indian Legal Clinic. The Lodestar Dispute Resolution Center offers training in conflict resolution, and The Sports Law and Business Program provides students with key legal and business training and hands-on field experiences. The Center for Law and Global Affairs and the Rule of Law and Governance Program, located in Washington, D.C. support and inspire research, education, and practice regarding emerging forms of transnational governance. In addition to these programs, the College of Law continues to provide opportunities for its students and graduates with innovative endeavors such as a nonprofit law firm, an employer outreach initiative, and a faculty and staff committed to student success.

The College of Law bridges the gap between theory and practice, and our faculty and students address many of the pressing public policy challenges of our time.

The Barrett Story

Barrett, The Honors College at Arizona State University, is a selective, residential college for academically outstanding undergraduates. Named “the gold standard” for honors colleges in the nation, Barrett often has more nationally-recognized merit scholars than Princeton, Yale or Stanford.

The college is supported by a $15 million endowment that is used exclusively to benefit honors students and fund their projects. Barrett students major in any field offered at ASU’s campuses - Tempe, Polytechnic, Downtown or West. Barrett students are members of a small community of scholars who have direct access to our deans and receive personalized attention from approximately 45 honors faculty fellows and 65 staff members who care about them as individuals. In addition to these full-time honors college personnel there are more than 1900 university faculty members who teach and mentor Barrett students across all four campuses each year.

The $140 million Barrett campus in Tempe was designed by students, faculty and staff working with nationally-renowned architects. The Barrett facilities at all four ASU campuses function as their own small honors communities on the ASU campuses where students enjoy the amenities and resources of a large university. This unique arrangement is a model for higher education and has often been referred to as “the best of both worlds” by students who thrive in a small college atmosphere but appreciate access to large university programs like Division I athletics and high profile lecturers.
Student Opportunities

Barrett students take advantage of an array of opportunities that enrich the honors experience. They participate in study abroad programs that enable them to travel to foreign countries, immerse themselves in small classes taught by honors faculty, and experience different cultures and societies while earning honors credits. Barrett students receive record numbers of national and international graduate scholarships such as Rhodes, Fulbright, Truman and Marshall Scholarships. Top students from multiple majors live in a four-year residential community and secure leadership positions or participate in a full range of academic, cultural, service, professional development, travel, wellness, arts, social, entrepreneurial, and sustainability programming. Barrett students engage in cutting edge research with distinguished ASU faculty or through special partnerships with the Mayo Clinic, the Biodesign Institute and Intel. Students are developing iPhone applications, building robots, designing games, or developing tools to improve healthcare, meet global energy needs, provide clean water, or secure data and information privacy. There are over six hundred internship opportunities developed exclusively for Barrett students. We have students working with Goldman Sachs, Microsoft, Google, and The American Heart Institute. Barrett students secure internships in the governor’s office, local congressional districts, and the United States Senate.

Signature Events

Barrett hosts two signature events annually, the Centennial Lecture and the Rhodes Lecture. In 1985, the Flinn Foundation established an endowment to commemorate ASU’s 100th year. The gift created the ASU Centennial Lecture, and in 1989 it provided the Barrett Honors College the resources to bring some of the world’s most influential intellects to campus. The Centennial Lecture has become one of ASU’s premier intellectual events featuring noted diplomats, scientists, playwrights, and authors. Each Centennial Lecturer has helped to strengthen the university and has provided students and community members with a memorable experience. Former Centennial lecturers include Edward James Olmos, dedicated actor, and community activist in 2010; Dr. Oscar Arias, Nobel Peace Laureate and two-time president of Costa Rica in 2011; and most recently, Titus Kaphar, an American painter in the collections of Museum of Modern Art, Yale University Art Gallery, New Britain Museum of American Art, Seattle Art Museum and Virginia Museum of Fine Arts.

The Rhodes Lecture is given by the John J. Rhodes Chair in Public Policy and American Institutions at Barrett. The Chair was created to celebrate the career in public service of one of Arizona’s and the nation’s most distinguished leaders. The Rhodes Chair is dedicated to deepening theoretical and practical understanding of the many voices and forces that influence public policy. The Chair honors the values of personal integrity, fiscal responsibility, respect for persons, and international farsightedness exemplified in the Hon. John J. Rhodes’ career. The 2017 Rhodes Chair was Jeffrey Toobin, Senior Analyst for CNN and staff writer for The New Yorker. As one of the country’s most esteemed experts on politics, media and the law, Toobin has provided analysis on some of the most provocative and important events of our time.
Barrett on all four campuses

In fall 2009, Barrett, The Honors College at Arizona State University, opened the nation’s first comprehensive four-year residential honors college within a top-tier Research I university that underscores its standing as the premier honors college in the nation. On the Tempe campus, the nine-acre college includes residence halls for 1,700 students, several classrooms, a community center with student lounges, activity rooms, computer labs, a fitness center, a multi-room dining facility with a refectory, café, and administrative, faculty and staff offices.

The Barrett Honors College facilities on Downtown, Polytechnic and West campuses feature honors student lounges, libraries, kitchens, computer labs, student activity and study rooms, faculty and administrative offices, and honors residential communities.

Barrett at the Downtown Campus is home to about 650 honors students. The Barrett residential community, called “B-Town D-Town,” is located at Taylor Place at the heart of the campus and offers a living environment where students have easy access to ASU’s downtown colleges and programs, as well as Phoenix’s increasingly vibrant lifestyle.

Barrett at the Polytechnic campus gives students the feeling of studying at a small private college with the advantages of a large university. The honors residential community is unique among the ASU campuses – freshman honors students reside together on a floor of Century Hall, which opened in the summer of 2012 while upper-division honors students live in 2- and 3-bedroom houses in a special Barrett neighborhood on campus. Honors students also have access to a new dining hall and fitness facility.

Barrett at the West Campus provides the entire range of honors activities in a small liberal arts college setting. Barrett West students live and learn on the ASU West Campus with approximately 500 other residents. Honors students live in the new Casa de Oro, a residence hall that opened in fall 2012. The 5,000-square-foot Barrett Suite includes a computer lab, study rooms, a meeting area, a library, and staff and faculty offices.

With its outstanding programs, dedicated faculty and staff, and comprehensive facilities, Barrett is a national model for organizing resources to support the honors experience at all four campuses at ASU.

The Moeur Award is Arizona State University’s oldest, continuing honor. It was established in 1901 by Dr. Benjamin B. Moeur and Honor Anderson Moeur, and is now sponsored annually by the Arizona State University Alumni Association. The award is presented at each Commencement ceremony to those individuals who have attained the highest academic standing in any four-year curriculum during their undergraduate years at ASU. All courses of the curriculum must be completed at ASU.

RECESSIONAL

ABOUT THE COLLEGE OF HEALTH SOLUTIONS
Arizona State University established the College of Health Solutions in May of 2012 as part of its strategic initiative to build a new model for health education. The college is a dynamic, growing, inter-professional enterprise that brings together the social and natural sciences, and humanities in the name of health. The college has experienced rapid enrollment growth and developed a number of new degree programs to satisfy the global demand for qualified health and health care professionals.

The multidisciplinary college includes the School of Nutrition and Health Promotion, School for the Science of Health Care Delivery, International School of Biomedical Diagnostics, Department of Biomedical Informatics, Department of Speech and Hearing Science, and programs in Integrated Behavioral Health and Executive Education.
The College of Health Solutions collaborates with academic units across the university as well as industry and community partners to drive change in health education, research and policy. Throughout each unit within the college, students have access to top-tier faculty, research facilities, and connectivity with allied programs committed to improvements in health outcomes and expanding patient access to care and resources that cannot be found at other universities.

COLLEGE OF INTEGRATIVE SCIENCES AND ARTS

The College of Integrative Sciences and Arts provides students across ASU with the knowledge and skills to comprehend and effectively engage the changing world of the 21st century at local, national and global levels.

We offer graduate and undergraduate degree programs that prepare students for a rapidly changing marketplace, as well as foundational instruction in humanities, social and natural sciences, mathematics and professional fields. Our exploratory and major and career exploration programs empower students to find a major anywhere at ASU based on their interests, career goals and personality traits. Faculty support knowledge enterprise development by advancing research, clinical and creative activities that promote discovery, innovation and human understanding. The college is guided by the principles of student success, strategic partnerships within the university and the community and interdisciplinary inquiry.

Theory, creativity and applied learning are integrated as students build entrepreneurial opportunities both inside the university and in their communities. In addition, the college serves the citizens of Arizona by offering a variety of outreach programs that engage people in cultural events and lifelong learning. The college is home to the Center for the Study of Race and Democracy, which serves as a leading interdisciplinary, problem-solving venture committed to engaged scholarship and information dialogue involving the topics of race and democracy.

RECESSIONAL

COLLEGE OF LIBERAL ARTS AND SCIENCES
As the intellectual powerhouse of Arizona State University, the College of Liberal Arts and Sciences fosters unmatched access, educational excellence and interdisciplinary inquiry to generate solutions for the changing world. Our diversity and dynamism ignite continued growth and development in any field of study, from space exploration and chemistry to history and justice studies, to create global citizens for the 21st century.

We unite our academic disciplines - the analytical ability of natural scientists, the creativity of humanities scholars and the curiosity of social scientists - to harness the power of our interdisciplinary nature. We encourage our students to follow their dreams, pursue their passions and accomplish their goals in order to create a better future for the next generation and beyond.

Our faculty personify a broad vision of legendary academic scholarship at the forefront of global innovation. They teach our scholars how to adapt to new challenges and a changing landscape so they’re capable of tackling tomorrow's challenges with ease. Any institution of higher learning can train a student for a first job, but we’d rather create master learners who are equipped with the right knowledge and skills for a lifetime of success. The liberal arts and sciences remain the best foundation for successful careers and deeply rewarding personal and professional lives.

We transform learning, accelerate discoveries and change lives.
HONOR CORDS

Some of our undergraduate degree candidates wear maroon and/or gold honor cords. These cords designate students who have completed at least 56 resident credit hours at ASU and who have attained the following grade point averages:

- **Summa Cum Laude** = Maroon and Gold cords, 3.80 to 4.0 GPA
- **Magna Cum Laude** = Gold cord, 3.60 to 3.79 GPA
- **Cum Laude** = Maroon cord, 3.40 to 3.59 GPA

DOCTOR OF PHILOSOPHY  
PhD Program – Bronwynne Evans, Director
The growth of ASU’s College of Nursing and Health Innovation reflects our desire to do more, serve more and sustain innovation. Our mission drives us to offer the highest quality academic, research and clinical practice programs so that we can produce the next generation of evidence-based health professionals who will excel as clinicians, teachers, health advocates and researchers.

The challenges that permeate our health care system require innovative solutions that will positively impact patients and entire systems, locally and globally. Our curriculum and clinical experiences expose students to different types of delivery systems, equipping them with the tools and knowledge that will unleash their innovative thinking from day one. Interprofessionalism guides us as we build programs and curriculum to meet the needs of future health professionals. Our graduate and undergraduate programs continue to expand with a focus on program design and delivery that prepares graduates to work collaboratively within complex and dynamic patient care and health delivery systems.

Our online programs continue to expand access to the highest quality education as we focus on adopting new and better instructional tools while ensuring the rigor and quality that characterize the reputation of our programs.

ABOUT THE PhD PROGRAM
Program Director: Bronwynne Evans, PhD, RN, FNGNA, ANEF, FAAN

The PhD Program in Nursing and Health Innovation, one of only four interdisciplinary programs in nursing in the country, provides an academic environment that fosters scholarship, critical thinking, and creativity. Scholars who wish to develop advanced leadership skills in innovation, research, education, health care delivery, and policy issues can learn to generate and apply knowledge across practice settings.
ABOUT THE DOCTOR OF NURSING PRACTICE PROGRAM
Program Director: Donna Velasquez, PhD, RN, FNP-BC, FAANP

The Doctor of Nursing Practice (DNP) degree was established at Arizona State University in 2008. The Doctor of Nursing Practice degree is a practice-focused degree that prepares graduates to practice at the most advanced level of nursing. This program prepares nurse practitioners and nurse leaders to positively impact health outcomes at the individual and organizational level.

ABOUT THE MASTER OF SCIENCE IN NURSING PROGRAMS
Program Director: Pauline Komnenich, PhD, RN

ASU remains on the cutting edge in preparing nurse educators for 21st century nursing education through its innovative program. The MS, Nurse Educator (NED) concentration at the College of Nursing and Health Innovation is a pathway designed to prepare the new and experienced nurse to meet demands of the changing health care environment.

ABOUT THE MASTER OF SCIENCE, CLINICAL RESEARCH MANAGEMENT PROGRAM
Program Director: JoAnn Pfeiffer, DrSC

The Master of Science in Clinical Research Management (CRM) degree program prepares students to take the next step in their clinical research career by focusing their studies in the elements of leadership within the research industry. The CRM program is focused on management and leadership development in the pharmaceutical, medical device, research site, research institute, academic medical center, hospital, medical office, or other clinical research or drug development industry.

ABOUT THE HEALTHCARE INNOVATION PROGRAM
Program Director: Rick Hall, PhD, RDN, FAND

The Master of Healthcare Innovation degree program (MHI) is an interdisciplinary degree designed to prepare students to design, implement and lead transformation in health care. Students in this fully online program come from a wide variety of professions including health sciences, architecture, nutrition, exercise, engineering, business administration, journalism, the humanities, all with an interest in leading innovation in health and health care. Students search for and implement sustainable solutions for today’s health care issues with an eye to the future within an interdisciplinary environment.

ABOUT THE BACHELOR OF SCIENCE IN NURSING PROGRAM
Program Director: Kathleen Fries, PhD, RN, CNE

The Bachelor of Science in Nursing (BSN) degree prepares beginning professional nurses who possess the theoretical foundation and the clinical competence to function in various health care settings. Graduates of ASU’s nursing degree programs are prepared to respond to the vast and changing health care needs of individuals and communities. The Traditional and Year-Round Pre-licensure Nursing Programs are 8-semester programs, in which students advance to the
upper-division clinical nursing program for their final four semesters. The Post-Baccalaureate Clinical Nursing Program (PBCNP) is available to students who have earned a Bachelor's degree in another discipline but desire to have a BSN degree.

**ABOUT THE RN-BSN PROGRAM**  
Interim Program Director: **Heidi Sanborn, MSN, RN, CCRN**

The online RN-BSN program builds on the knowledge and skills the student learned in their associate degree or diploma program, especially in the areas of evidence based practice, leadership and management, and community/public health. The interactive course assignments enhance the student’s written and verbal communication skills, clinical reasoning skills, teamwork, and information technology skills. Students will integrate new knowledge into their nursing practice.

**ABOUT THE CONCURRENT ENROLLMENT PROGRAM**  
Interim Program Director: **Heidi Sanborn, MSN, RN, CCRN**

The Concurrent Enrollment Program (CEP) is designed for qualified nursing students who are interested in earning their BSN degree from ASU while simultaneously pursing their Associate of Applied Science (AAS) in Nursing degree through a participating community college. The CEP is a rigorous program with a plan of study that enables students to build on the knowledge and skills learned in the AAS in nursing program.

**ABOUT THE BACCALAUREATE HEALTH PROGRAM**  
Program Director: **Brenda Hosley, PhD, RN, CNE**

The Baccalaureate Health Programs consist of three degrees: Bachelor of Science in Integrative Health, Community Health or Health Care Coordination. Each of the three degrees prepare students to be part of the health care team. Graduates of the program are prepared to collaborate with individuals, families and communities regarding changes to the health care system. This includes health education, health promotion, care coordination, disease management, health care navigation and advocacy services as well as assisting patients in obtaining services, understanding policies and making health care decisions. They will be prepared to coordinate resources to optimize individual health outcomes while navigating the delivery of health care.

COLLEGE OF PUBLIC SERVICE AND COMMUNITY SOLUTIONS

The College of Public Service and Community Solutions is made up of four schools and multiple research centers—all with a shared goal of advancing research and discovery of public value, and furthering the economic, social, cultural and overall health of the communities that we serve.

Our degree programs cover the spectrum of public service, including public policy, social work, criminology and criminal justice, nonprofit leadership, emergency management, community development and more. We are preparing a workforce to take on complex issues. At the same time, our students are making a difference today. Through service-based learning, they put ideas into action.
Our research addresses challenges that affect us both locally and globally. We are developing solutions to issues ranging from child welfare to neighborhood safety, city management to human trafficking, water scarcity to tourism development. Together, we bring creativity, systems-level thinking and entrepreneurial spirit to our mission of creating, sustaining and promoting dynamic, prosperous communities.

THE SCHOOLS IN THE COLLEGE OF PUBLIC SERVICE AND COMMUNITY SOLUTIONS

The School of Community Resources & Development advances the social, economic, environmental and cultural well-being of our local and global communities through instruction, discovery and service. We provide nationally recognized interdisciplinary research expertise and innovative academic programs with community development as our foundation. Our focus areas include community sports management, nonprofit leadership and management, parks and recreation management, and tourism development and management. Together, we make communities better places to live, work, play and visit.

The School of Criminology & Criminal Justice is one of the most respected in the field. Our program is rooted in the study of the causes of crime and systemic response to it. The core of the program focuses on the theories of criminality and evidence-based practices for responding to crime through the lenses of the three inter-related structures—policing, courts and corrections—that collectively comprise the criminal justice system. We prepare graduates for leadership and policy positions at the local, state and federal level.

The School of Public Affairs develops outstanding public leaders; people who are committed to making a difference in our world and who are well prepared to meet the rigorous demands and substantial challenges of the future. We maximize our impact through transdisciplinary research, project-based education, collaborative community engagement and innovative solutions. The only public administration program in the Phoenix area to be accredited by the National Association of Schools of Public Affairs and Administration (NASPAA), we are consistently ranked among the top 20 public affairs schools in the country.

The School of Social Work is one of the largest and most diverse social work programs in the world. We are committed to promoting social, political and economic justice with special emphasis on populations of the Southwest. We prepare social work practitioners and scholars who are committed to enhancing individual, family and group problem-solving capacities, maximizing human potential, and creating a more just and humane society.

ABOUT THE HERBERGER INSTITUTE FOR DESIGN AND THE ARTS

The Herberger Institute for Design and the Arts is the largest comprehensive design and arts school in the nation, located within a dynamic 21st-century research university.

With 5,000+ students, more than 675 faculty and faculty associates, nearly 160 staff members, 125 degrees and a tradition of top-ranked programs, the Herberger Institute is committed to redefining design and arts education in the 21st-century. Our college is built on a combination of disciplines unlike any other program in the nation, comprising schools of art; arts, media and engineering; design; film, dance and theatre; and music; as well as the ASU Art Museum. The ASU Art Museum supports research initiatives in addition to diverse community engagement projects that enable students and faculty to interact with the public through meaningful partnerships. This unique array of disciplines allows for distinctive opportunities for collaboration.

Our faculty lead students in an exploration of the issues affecting society today and in the future — the contemporary human condition — through design thinking, creative practice and research. We are continually striving to enable design and arts students to succeed beyond graduation.
The Institute is dedicated to the following design principles:

**Creativity is a core 21st-century competency.** Our graduates develop the ability to be generative and enterprising, to work collaboratively within and across artistic fields and to generate non-routine solutions to complex problems. With this broad exposure to creative thinking and problem-solving, our graduates are well prepared to lead in every arena of our economy, society and culture.

**Design and the arts are critical resources for transforming our society.** Artists must be embedded in their communities and dedicate their creative energy and talent to building, reimagining and sustaining our world. Design and the arts must be socially relevant and never viewed as extras or as grace notes. The Herberger Institute is committed to placing artists and arts-trained graduates at the center of public life.

**The Herberger Institute is committed to enterprise and entrepreneurship.** For most college graduates today, the future of work is unpredictable, nonlinear and constantly evolving. A recent study found that 47 percent of current occupations will likely not exist in the next few decades. At the Herberger Institute, our faculty, students and graduates are inventing the jobs and the businesses of the future; reimagining how art and culture get made and distributed; and coming up with new platforms and technology for the exchange of culture and the enrichment of the human experience. The legendary author and expert on city life Jane Jacobs talks about the abundance of "squelchers" — parents, educators, managers and leaders who tend to say no to new ideas. At the Herberger Institute, there are no squelchers. We embrace the cardinal rule of improvisation — always say: "Yes, and…"

**Every person, regardless of social background, deserves an equal chance to help tell our nation's and our world's stories.** Our creative expression defines who we are, what we aspire to and how we hope to live together. At the Herberger Institute, we are committed to projecting all voices – to providing an affordable education to every student who has the talent and the desire to boldly add their creative voice to the world's evolving story.

**Effectiveness requires excellence.** We know that our ability to solve problems, build enterprises and create compelling and socially relevant design and art requires high levels of mastery. By being the best in our chosen fields, we can stretch ourselves and our talents to make a difference in the world.

We encourage all of our alumni to continue to share their stories with us and to take an active role in the Herberger Institute Alumni Chapter. For more information on our alumni activities, please visit herbergerinstitute.asu.edu/alumni. Connect with fellow design and arts alumni on LinkedIn, Facebook and Twitter.

CLOSING
The Ira A. Fulton Schools of Engineering, ranked in the top 50 U.S. engineering schools, are home to more than 349 faculty and more than 21,000 students. The Fulton Schools were awarded over $103 million in externally funded research awards in fiscal year 2017.

In 2016-2017, the Fulton Schools granted 3,760 undergraduate and graduate degrees. Today, more than 54,000 Fulton Schools alumni are advancing the fields of engineering and technology in Arizona and around the world.

To produce the engineers and innovations needed to address society’s changing needs, we have crafted a visionary blueprint for an engineering school that transcends traditional organization around degrees and disciplines, and fosters a transdisciplinary approach to teaching and research. Through our six schools, we offer 25 undergraduate and 39 graduate degree programs that encourage innovative collaboration across disciplines, with faculty and students alike developing solutions that will have significant, lasting impact on our local and global communities. In addition to online options for degree programs including electrical engineering, software engineering and more, we offer professional development programs like Six Sigma.

The School of Biological and Health Systems Engineering provides a rich, interdisciplinary curriculum that prepares students to use engineering and scientific principles and methods to develop instrumentation, materials, diagnostic and therapeutic devices, artificial organs or other equipment and technologies needed in medicine and biology. Our biomedical engineering degree program strives to produce graduates with a broad-based education in both engineering and the life and natural sciences, with a focus on improving the overall quality of global healthcare. Graduates from the biological design doctoral program are creative thinkers prepared to work at the intersection of biology, engineering and computing to advance human health and quality of life.

The School of Computing, Informatics, and Decision Systems Engineering is home to computer engineering, computer science, computer systems engineering, engineering management, industrial engineering and informatics degree programs. From data to decisions, we cover the spectrum for designing the modern, information-driven society, engaging in the fundamental activities of sensing, optimizing, controlling and communicating. Computing serves as the engine that drives this transformation, linking together our school’s fundamental activities. We are dedicated to creating new knowledge and technology that contributes to solving the major problems facing modern society.

The School of Electrical, Computer and Energy Engineering brings together university faculty, students and companies to develop collaborative relationships and solutions. Our computer engineering and electrical engineering degree programs and research efforts are aligned with national and international efforts to address
worldwide challenges in energy production and distribution, healthcare technology and delivery, sustainable development and economic growth, communications technology and information management and global security.

**The School for Engineering of Matter, Transport and Energy** leverages the synergy of engineering and science to develop new knowledge and technologies, and create innovative solutions to society’s most pressing problems in energy, human health, public safety, exploration, environmental infrastructure and sustainability. Degree programs in aerospace engineering, chemical engineering, materials science and engineering, mechanical engineering, and solar energy engineering and commercialization are offered. We have gathered together a broad range of disciplines and world-class faculty members who are engaged in cutting-edge research, all of which contributes to a unique educational experience.

**The School of Sustainable Engineering and the Built Environment** provides a nexus for education and research that address the critical infrastructure needs of our society in an environmentally sound manner. The holistic approach in our degree programs covers the engineering expertise of civil, environmental and sustainable engineering, the design and construction principles of construction engineering and the project management and leadership skills of construction management.

**The Polytechnic School** is organized into seven academic programs that offer a breadth of engineering and technology-related degrees. The programs thrive under the guidance of more than 100 faculty members with deep expertise and industry experience in the important technological challenges that society faces. Located in the dynamic, growing Gateway region on the southeast edge of the Greater Phoenix metropolitan area, the school is home to some of the most advanced learning laboratories available to students on any university campus.

**Ira A. Fulton**

**Chairman of the Board and CEO, Fulton Homes**

Ira A. Fulton, founder and CEO of Arizona-based Fulton Homes, established an endowment of $50 million in support of ASU’s College of Engineering and Applied Sciences in 2003. The college was renamed the Ira A. Fulton Schools of Engineering in his honor. The gift has enabled the Fulton Schools to provide funding for scholarships, fellowships, research programs and investments in faculty, all integral to the school’s goal to move from its position as a highly ranked U.S. program into the ranks of world-class institutions.

“*With this endowment, we are building an engine of educational and economic growth that will endure for generations. It is a gift of opportunity, prosperity, social equality and hope.*” – Ira A. Fulton

ABOUT MARY LOU FULTON TEACHERS COLLEGE

WHY WE EXIST
ASU’s Mary Lou Fulton Teachers College creates knowledge, mobilizes people and takes action to improve education.

WHAT WE DO
We champion educators and education. Educators improve individual lives and strengthen civil society. Moment by moment, day by day and person by person, educators drive the most important and positive changes on the planet.

We operate academic programs for undergraduates, graduate students and professionals that focus on educator preparation, leadership and innovation.

We generate cross-disciplinary research that improves the lives of learners, the impact of educators and the performance of education systems.

We partner with schools and community organizations to test, refine and scale solutions to the tough problems in education.
HOW WE DO IT
We instill a core competency in socially embedded, data- and context-driven collaborative problem solving. We call it creative intrapreneurship.

Creative intrapreneurs:
- Ask the right questions
- Navigate uncertainty
- Design and test innovations as individuals and in teams

Through creative intrapreneurship, we bring people and ideas together to increase the innovation capabilities of individual educators, schools and organizations, districts and communities.

MARY LOU FULTON (1933 – 2015)

Anyone fortunate enough to have known Mary Lou Fulton — to celebrate with her and take pride in students’ accomplishments — is grateful to have had that privilege. So much of what we do at our college is an expression of her commitment to education and to providing the best possible opportunities for the greatest number of people.

Mary Lou said that, ever since she was very young, she was “in love with life.” That’s a perspective we hope all our graduates take with them into the next chapter of their lives and, especially, into their work with students.

Entrusted to manage an institution that bears the name of Mary Lou Fulton, all of us at the college strive to be worthy of her legacy. She will always be our inspiration to be the best educators we can be.

MESSAGE TO THE NEW COLLEGE GRADUATES

Congratulations on your extraordinary achievement! The faculty and staff of New College offer our sincere best wishes for your continued personal and professional success. We all look forward to seeing your work in the world; we know you will make your mark as an ASU New College graduate. Today, you join a prestigious body of New College and ASU alumni, who have shared in some of the same remarkable experiences. Please stay in touch with us by joining the ASU Alumni Association, so we can continue to celebrate your triumphs and share the journey of our new students with you. You can take advantage of special new graduate membership rates ($25 annual or $300 lifetime dues) and become an active member of the ASU Alumni Association at www.asu.edu/alumni.

ABOUT THE NEW COLLEGE

The New College of Interdisciplinary Arts and Sciences offers a nationally unique environment: a small college experience with the power of ASU’s major research university resources. Working one-on-one with our cutting-edge faculty—often through our New College Undergraduate Inquiry and Research Experience program (NCUIRE), our students reshape the boundaries of knowledge in their fields of study. This prepares them for a future of reshaping the world outside of ASU.
New College was founded on a “new” way of thinking about the academy. Instead of reproducing the intellectual silos that separate fields of study in other institutions, our programs have been structured on the notion that if we break down the barriers between fields, we can think in more innovative ways, do more path-breaking work, offer more effective solutions to real-world problems. From our Interdisciplinary Arts and Performance degree that teaches students many forms of artistic expression and then asks into what mode a concept should be born; to our Forensics degree that brings together fields like chemistry, psychology, and legal studies; to our Social Justice and Human Rights degree that explores sociological, historical, and contemporary cultural analyses of the issues, New College offers educational experiences that transcend more limited ways of thinking about the world.

The mission of New College is to prepare students to succeed in a globalized, diverse economy by providing them with solid disciplinary foundations that are coupled with an ability to think and act constructively across disciplines to discover answers to the complex problems that face society today and to create civic and economic well-being, within contexts ranging from the local to the global.

New College’s programs build on the philosophy that inter-, multi-, and transdisciplinary education enhances our graduates’ ability both to address the needs of business, industry, schools, and communities of this region and to meet the challenges of the twenty-first century. New College’s Bachelor of Art and Bachelor of Science degrees include: American Studies; Applied Computing; Applied Mathematics; Applied Science; Biology; Biology—Environmental Science; Biology—Forensics; Biology—Pharmacology/Toxicology Communication; English; English—Secondary Education; Environmental Science; Ethnicity, Race & First Nations Studies; Forensic Science; History; History—Secondary Education; Interdisciplinary Arts & Performance; Interdisciplinary Arts & Sciences; Latin American Studies; Philosophy, Religion & Society; Political Science; Psychology; Psychology (Forensic Psychology); Psychology (Online); Social & Behavioral Sciences; Social & Cultural Analysis; Social and Cultural Analysis—American Studies; Social and Cultural Analysis—Ethnicity, Race, and Indigenous Studies; Social and Cultural Analysis—Latin American Studies; Social and Cultural Analysis—Peace Studies; Social and Cultural Analysis—Queer and Sexuality Studies; Social and Cultural Analysis—Women and Gender Studies; Sociology; Spanish; Statistics; and Women & Gender Studies. New College offers Master of Art degrees in Communication Studies, English, Interdisciplinary Studies, Social Justice & Human Rights, and Social Technologies and a Master of Science in Psychology.

ABOUT THE SCHOOL FOR THE FUTURE OF INNOVATION IN SOCIETY

Established in 2015, the School for the Future of Innovation in Society educates new generations of students to make innovation the object of systematic study. With our interdisciplinary faculty, students study the promises and challenges of new technologies and the big ideas that change our lives each day, and they explore how decisions we make today about innovations will transform the world around us. We see our efforts and those of our students as part of a larger social fabric – local, regional, national, global – that informs our wants and needs about innovation. We are planning now for the kinds of futures that we want to inhabit. More information can be found at sfis.asu.edu.

ABOUT THE SCHOOL OF SUSTAINABILITY

Established by the Arizona Board of Regents in 2006, the nation’s first School of Sustainability is now in its second decade educating a new generation of scholars and practitioners. It creates innovative modes of scholarship by bringing together leaders, stakeholders and people from multiple disciplines to develop practical solutions to the most pressing sustainability challenges.

The school offers graduate programs leading to Master of Science, Master of Arts, Master of Sustainability Solutions, Master of Sustainability Leadership, Executive Master of Sustainability Leadership and Doctor of Philosophy degrees in sustainability, as well as undergraduate programs leading to Bachelor of Science and Bachelor of Arts degrees in sustainability. Degree programs focus on collaborative learning, transdisciplinary approaches and solution-oriented training to address sustainability challenges relating to areas such as energy and materials, water, ecosystems, urbanization, international development, social transformations, climate and food systems.

The School of Sustainability is a unit of the Julie Ann Wrigley Global Institute of Sustainability — the hub of Arizona State University’s sustainability initiatives and the world's most innovative sustainability laboratory. The institute advances solutions, engagement, education and research for a better world. Both the school and the institute initiate and nurture work on issues of sustainability across the university and collaborate with other academic institutions, governments, businesses and industries, as well as community groups locally, nationally and globally.

FACULTY CONVOCATION AWARDS

HONORED GUEST AND KEYNOTE SPEAKER  
Mr. Andy Unanue ’04,  
Managing Partner of AUA Private Equity Partners
Thunderbird has been one of the top-ranked international business schools, regardless of the publication or category, for decades. With 70 years of experience, Thunderbird continues to develop leaders with the global mindset, business skills and social responsibility necessary to create real, sustainable value for their organizations, communities and the world. Committed to teaching students to lead and live as global citizens, in 2006 Thunderbird became the first graduate business school to adopt an official “Oath of Honor.” The school is sought out by graduate students, working professionals and companies worldwide seeking to gain the leadership skills they need to succeed in today’s global economy.

The graduate school was built on the site of Thunderbird Field I, an historic airbase established to train American, Canadian, British and Chinese pilots during World War II. The remnants of that earlier time can still be seen on the modern campus in a number of landmark buildings, including the airfield control tower, barracks and airplane hangar.

Following the war, the deactivated airbase was obtained at no cost from the U.S. government for use as an educational institution. The founders were three retired officers of the U.S. Army Air Forces, including Lt. General Barton Kyle Yount (1884-1949), former head of the U.S. Army Air Training Command. They wisely perceived that after the war there would be a growing need for managers who were educated to conduct international business. They also knew that to do business on a global scale, executives must not only know the intricacies of business, but they must also appreciate the customs and understand the language of the country in which they were doing business. They envisioned a unique school – the first school of business to focus exclusively on international management. That vision became reality on April 8, 1946, when the American Institute for Foreign Trade was incorporated as a nonprofit organization. After national publicity put the spotlight on the School, the doors opened on October 1, 1946, with 285 students in the first class. Following graduation on June 14, 1947, they went on to careers in Latin America as well as numerous other regions of the world.
Throughout its history, Thunderbird has remained the leader in international business education by offering a cutting-edge curriculum taught by faculty who are recognized as global thought leaders in their respective areas of expertise. The school’s uniqueness draws the very brightest and globally minded students from cultures throughout the world. And, through its partnership with Arizona State University, the School promises to grow even stronger. For those who seek an educational opportunity in an environment focused on global engagement, Thunderbird continues to deliver on its promise of creating global prosperity and global opportunity. Thunderbird offers both graduate and undergraduate degrees as well as executive education in locations around the globe, with its main campus in Glendale, Arizona and offices in Geneva, Dubai, and Moscow.

RECESSIONAL
About the School
The Cronkite School is widely recognized as one of the nation’s premier professional journalism programs. Rooted in the time-honored values — accuracy, responsibility, objectivity, integrity — that characterize its namesake, the school fosters journalistic excellence and ethics among students as they master the practical professional skills they need to succeed in the digital journalism world of today and tomorrow.

The Cronkite School’s 2,000 students consistently lead the country in national competitions. Over the past decade, Cronkite has been No. 1 in the nation in the Society of Professional Journalists’ Mark of Excellence competition and the Broadcast Education Association’s Festival of Media Arts awards and has finished in the top 10 in the Hearst Journalism Awards each year. Cronkite students annually win more than 100 journalism and public relations awards.

Students are guided by a faculty that is made up of both award-winning professional journalists and world-class media scholars. Cronkite professors include Pulitzer Prize-winning journalists, digital media thought leaders, top TV producers and correspondents, major metropolitan newspaper editors and strategic communications experts. They are master teachers, writers and scholars who often speak around the globe on the most important topics facing journalism today.

The Cronkite School continues to lead the field of journalism education with its innovative use of the “teaching hospital” method, providing both unparalleled learning opportunities for students and important news content to the community, state, region and nation. Arizona PBS, one of the nation’s largest public television stations, is the largest media outlet operated by a journalism school in the world. Arizona PBS serves as a hub for the Cronkite School’s full-immersion professional programs and a testing ground for new approaches in journalism.

Cronkite students choose from among 13 different professional immersion programs, applying what they have learned in the classroom in real-world learning environments. Students cover the most important issues of the day from public affairs news bureaus in Phoenix and Washington. For Arizona PBS, they produce a nightly newscast that reaches 1.9 million households as well as a robust multimedia news website featuring in-depth regional stories. In Cronkite Noticias, bilingual students produce Spanish-language broadcast and digital stories on issues important to Arizonans.

Students in the Public Relations Lab develop campaigns for client companies, while Carnegie-Knight News21 multimedia journalists conduct national data-driven investigations into issues critical to Americans. In the New Media Innovation and Entrepreneurship Lab, they use digital technologies to forge the future of journalism.
More than 100 students in many of these professional immersion programs recently collaborated to create a statewide TV special on the deadly problem of prescription painkillers. “Hooked Rx: From Prescription to Addiction” was broadcast on all 32 major broadcast television stations in Arizona and 100 radio stations in English and Spanish. The documentary followed up on issues raised in the 2015 Alfred I. duPont-Columbia University Award-winning documentary “Hooked: Tracking Heroin’s Hold on Arizona.”

Elsewhere at the school, the Donald W. Reynolds National Center for Business Journalism provides education and training to professional journalists and Cronkite Global Initiatives brings international journalists to the school for study and training.

All of these initiatives take place in a state-of-the-art building that is unparalleled in journalism education. ASU’s investment in the school has generated national and international attention from educators and media professionals who place the school in the top tier of all U.S. journalism schools. The Times of London, The New York Times and USA Today have pointed to the Cronkite School as a leading example of changes taking place at journalism schools across the country. These prestigious publications have called the Cronkite School a pioneer, kindling a notion of new media that will shape how news is delivered and how people will stay informed in the future.

About Walter Cronkite
ASU’s journalism program was named in honor of former CBS News anchor Walter Cronkite in 1984.

The relationship started when Tom Chauncey, longtime owner of the CBS affiliate in Phoenix and a leading supporter of journalism education at ASU, contacted his old friend in an effort to advance the program. An endowment on behalf of the program was soon established and the school was named after “the most trusted man in America.”

Over the next quarter of a century, Cronkite lent much more than his name to the school. He was closely involved — advising leadership, guiding students and faculty and traveling to Arizona each year to personally give the Walter Cronkite Award for Excellence in Journalism to one of the nation’s top journalists. The most special relationship, though, was with “our students,” as Cronkite would always call them. Young women and men, some with parents barely old enough to remember Cronkite behind the anchor desk, lit up when he walked into a classroom. They hung on his every word as he thoughtfully answered their questions about the profession he so loved. They lined up just to shake his hand, and he loved every minute of it.

In what turned out to be Cronkite’s last visit to ASU in 2007 before declining health prevented him from traveling, a group of 100 students gathered with just a few minutes of notice that Cronkite was in the building. He held them spellbound as he
spoke about covering World War II, Vietnam, Apollo, Watergate and presidents from Truman to Reagan — and of how important “our school” was to him. Although Cronkite died on July 17, 2009, before he was able to visit the new building, he remains an ever-present part of the school’s heartbeat and direction.

Cronkite's legacy lives on in the spirit and passion with which the school teaches both the skills to do journalism in today’s media environment and the time-honored ethics and news values necessary to do it in the manner that would make him proud.

The Cronkite School has established a special memorial fund in Cronkite’s name. For more information on the fund and to learn more about Cronkite’s legacy and career, visit cronkite.asu.edu/rememberingcronkite.

**About Our Graduates**
The Cronkite School has more than 10,000 alumni throughout the Valley, across the country and around the world. Many are leaders in television, digital media, newspapers, radio, magazines and public relations.

In 1993, the Cronkite School inducted its first class into the Cronkite Alumni Hall of Fame. The charter inductees were Al Michaels ('66), an Emmy Award-winning sports broadcaster best known for anchoring “Monday Night Football,” and Bill Redeker ('71), an ABC News correspondent who covered the Middle East and the Far East during his 30 years with the network.

Other notable Cronkite Alumni Hall of Fame inductees include Becky Anderson ('94), CNN International anchor; Julie Cart ('98), Pulitzer Prize-winning Los Angeles Times reporter; Derrick Hall ('91), president of the Arizona Diamondbacks; Christine Devine ('87), news anchor at FOX 11 in Los Angeles; Mary Kim Titla ('85), founder of Native Youth Magazine; Ray Artigue ('76), president of The Artigue Agency; and Chip Dean ('77), director of ESPN’s “Monday Night Football.”

RECESSIONAL
ABOUT THE W. P. CAREY SCHOOL OF BUSINESS

The W. P. Carey School of Business at Arizona State University is one of the highest-ranked and largest business schools in the United States. The school is internationally recognized for its leadership in business education and for positively impacting the practice, science, and art of management on a national and international scale. The school works to rethink the nature of business, engage the world, and create a better future.

More than 50,000 students attend the W. P. Carey School of Business, including about 40 National Merit Scholars and more than 100 doctoral candidates. The student body is especially diverse, including representatives from more than 100 countries.

The W. P. Carey School boasts an acclaimed faculty of more than 250 acclaimed faculty of nearly 175 esteemed tenure and tenure-track faculty, including a Nobel Prize winner. Many faculty members are also on the editorial boards of academic journals and publications. Housed within the school are nine respected research centers and a research institute, which generate research, ideas, and information that support academics and business professionals and are internationally recognized for research productivity.

Both the school's graduate and undergraduate programs are ranked among the best in the nation. The undergraduate program is ranked No. 24 by U.S. News & World Report, while the Online MBA is ranked No. 5 and the Full-time MBA is ranked No. 25 in the country. The school is also known for providing excellent return on investment at both the undergraduate and graduate levels.

Undergraduate Bachelor of Science degrees are offered in 10 areas: accountancy, business data analytics, business entrepreneurship, computer information systems, economics, finance, management, marketing, supply chain management, and technological entrepreneurship and management.

Undergraduate students also have the option of earning a Bachelor of Arts degree in business with concentrations in business administration, Chinese language and culture, communication, corporate accounting, food industry management, global agribusiness, global leadership, global logistics management, global politics, human resources, law, public service and public policy, retail management, Spanish language and culture, sports and media studies, statistics, sustainability, technology, and tourism.

The school offers its renowned MBA program in four distinct platforms: Full-time, Professional Flex, Online, and Executive. Master's degrees are available in accountancy, business analytics, finance, global logistics, information management, management, real estate development, and taxation. Doctoral degrees are offered in accountancy, agribusiness, economics, finance, information management, management, marketing, and supply chain management.
The W. P. Carey alumni network spans the globe. Our 100,000+ alumni represent highly regarded companies from diverse industries, including manufacturing, technology, retail, banking, accounting, entertainment, and food, as well as entrepreneurial firms and respected nonprofit organizations.

The Moeur Award is Arizona State University’s oldest, continuing honor. It was established in 1901 by Dr. Benjamin B. Moeur and Honor Anderson Moeur, and is now sponsored annually by the Arizona State University Alumni Association. The award is presented at each Commencement ceremony to those individuals who have attained the highest academic standing in any four-year curriculum during their undergraduate years at ASU. All courses of the curriculum must be completed at ASU.

THE ARIZONA STATE UNIVERSITY
MACE AND PRESIDENT’S CHAIN OF OFFICE

In Medieval times, a mace was a hand-to-hand combat weapon. In about the year 1400 A.D., a mace evolved from a weapon to a ceremonial instrument used by academicians in rituals such as commencement and inaugurations. The oldest known ceremonial mace was that of the Faculty of Common Law of St. Andrew University in Scotland, used in 1438.

The Mace and Chain of Office are presented only at ceremonies in which faculty members are in full academic regalia, such as the Inauguration of the ASU President, University Commencement, Faculty Assemblies, Regents’ and President’s Professor Induction Ceremonies and Convocation.

The Mace is carried at the head of the procession and laid in a cradle, thus signifying the formal onset of the ceremony.

ASU’s ceremonial mace and chain of office was created in observance of ASU’s Centennial in 1985. Handcrafted by ASU Professor of Art, David Pimentel (1943-2004), the mace and chain was created with “austere elegance and traditional southwestern motifs.” In keeping with these directions, Professor Pimentel constructed both items out of materials native to Arizona. The ASU Mace is a wood staff, approximately three and a half feet long, weighing eight pounds and made of hollowed and polished Mesquite.

The head of the ASU Mace has four sterling silver blades and is banded with copper, Morenci turquoise, and a silver ring on which the words Arizona State University are embossed. The turquoise inlay was cut and polished by Navajo jeweler Richard Charlie of Mesa. The ASU seal is embossed in silver on the heel of the mace.

The President’s Chain of Office includes a silver rope woven from strands of hand-turned links, which holds a medallion six inches in diameter that reverses to reveal the ASU seal in gold on one side and the same in silver and turquoise on the other.
College Marshals Fall 2017

College Marshals consist of selected faculty members from each college at all ASU campuses. Selection criteria is left to the individual colleges, but faculty who have recently won awards or have received special recognition are given primary consideration.

**Barrett, the Honors College** — Aviva Dove-Viebahn is an Honors Faculty Fellow at Barrett, the Honors College. In addition to her teaching, scholarship, mentorship of five-to-ten honors thesis students each year, and her work on the Board of Directors of the Society for Cinema and Media Studies, she was recently named a Contributing Editor for *Ms.* Magazine’s Scholar Writing Program. In this capacity, Dr. Dove-Viebahn wrote the cover article on Wonder Woman’s cultural significance for the 45th anniversary edition of the magazine this fall and presented at a panel about the enduring legacy of *Ms.* in New York City alongside Gloria Steinem in November.

**College of Health Solutions** — Dr. Ann Sebren is someone whose guiding principle has been to be a good citizen of the academic unit, college, university, and community and to serve students, colleagues, and fellow community members. Sebren served as Program Coordinator of the undergraduate and graduate Exercise and Wellness program. She developed the first graduate-level course on mindfulness, stress, and health at ASU, which has been utilized by students in many programs for more than a decade. Committed to growing the next generation of educators, she developed a teaching internship to help prepare doctoral students in effective university teaching.

**College of Integrative Sciences and Arts** — Venita Blackburn is an Instructor of English in the College of Integrative Sciences and Arts. She is a creative writer whose most recent work, *Black Jesus and Other Superheroes: Stories*, recently won the Prairie Schooner Book Prize in Fiction. Her works have appeared in American Short Fiction, the Georgia Review, Pleiades, Madison Review, Bat City Review, Nashville Review, Smoke Long Quarterly, Café Irreal, Santa Monica Review, Faultline, Devil’s Lake Review, Nat.Brut., Bellevue Literary Review, audio download through Bound Off, and others. She was awarded a Bread Loaf Fellowship in 2014 and three Pushcart prize nominations. Her home town is Compton, California, but she now lives and teaches in Phoenix, Arizona. She earned her MFA from Arizona State University in 2008, and is finishing a new novel, Guts.

**College of Liberal Arts and Sciences** — Dr. Michael E. Smith is Professor of Archaeology in the School of Human Evolution & Social Change. He has directed excavation projects at Aztec sites in Mexico, and is currently Director of the ASU Teotihuacan Research Laboratory in Mexico. He has published eleven books and more than 100 articles on his research. His book, *At Home With the Aztecs: An Archaeologist Uncovers Their Daily Life* (2016) won the Best Popular Book award from the Society for American Archaeology. His ASU honors include the 2017 Zebulon Pearce Distinguished Teaching Award and the 2014 Excellence in Diversity and Inclusion Award.
College of Nursing and Health Innovation — Jennifer Green is a Clinical Assistant Professor in the College of Nursing and Health Innovation. She has taught in the Undergraduate Prelicensure Nursing Program for the last seven years in the specialty of psychiatric-mental health nursing. Jennifer is currently working as the prelicensure acute care clinical placement and immersion coordinator. She is an active member of the Sigma Theta Tau International Honor Society of Nursing, Beta Upsilon chapter, serving as counselor. She is also a practicing psychiatric-mental health nurse practitioner. Jennifer was the recipient of the Sigma Theta Tau International Honor Society of Nursing, Beta Upsilon chapter, Excellence in Education award.

College of Public Service and Community Solutions — Ann MacEachron’s research focus is consistent with the foundational philosophy of the social work profession, specifically, she has investigated person-in-environment perspectives on child welfare outcomes and workforce development. Her work is widely published and has had a significant impact on the Arizona community through the development of the first statewide online training website for DES/DCS employees. She was one of the first adopters and advocates for online teaching statewide and was instrumental in the development of coursework for both the Downtown Phoenix and Tucson campuses.

Herberger Institute for Design and the Arts — Andrew Campbell has established himself as one of the most versatile collaborative pianists in the United States. His performing career has taken him to six continents, including a recent South African concert tour; a concerto performance with the Chintimini Festival Chamber Orchestra; performances at the Miklin Festival Internacional in Bogotá, Colombia; and at the 2017 International Double Reed Society Conference. Dr. Campbell is Director of the Collaborative Piano Program and Assistant Director for Graduate Studies in the School of Music. During the summer season, he is Director of Chamber Music for the Saarburg Serenaden and the Vianden International Music Festivals.

Ira A. Fulton School of Engineering — Nikhilesh Chawla is Director for the Center for 4D Materials Science and is the Fulton Professor of Materials Science and Engineering (MSE) at Arizona State University. He is also a Professor of Mechanical Engineering. Prof. Chawla received his PhD in Materials Science and Engineering from the University of Michigan in 1997. He served as acting chair of the MSE program at ASU in 2010. Prior to joining Arizona State University in 2000 he was a postdoctoral fellow jointly at Ford Motor Company and the University of Michigan, and a senior development engineer at Hoeganaes Corporation.

Mary Lou Fulton Teachers College — Dr. Deborah A. Preach, assistant director of the Division of Teacher Preparation, has been instrumental in advancing the division’s mission for teacher excellence, effective mentoring and professional development. She joined the ASU faculty in 2007. A clinical assistant professor, she teaches in the master’s degree programs leading to Arizona teacher certification.

Dr. Preach taught for 10 years in an urban elementary school in Phoenix. Her master’s degree is in elementary education, and she has endorsements for reading
specialist, early childhood, and structured English immersion. Her doctoral research focused on supporting the development of alternatively certified first-year teachers working in urban areas.

**New College of Interdisciplinary Arts and Sciences** — Dr. Alejandra Elenes is an associate professor of women and gender studies in the School of Humanities, Arts and Cultural Sciences, at the New College at Arizona State University’s West campus. Her research focuses on the experiences of Chicanas in Women, Gender & Sexuality studies and the formation of Chicana intellectual thought. An accomplished author, Dr. Elenes is the recipient of the 2017 Tortuga Award, annually bestowed upon a MALCS (Mujeres Activas en Letras y Cambio Social) member who has embodied both the professional and personal spirit of the MALCS organization.

**School for the Future of Innovation in Society** — Jameson Wetmore is an Associate Professor whose work combines the fields of science and technology studies, and ethics, and public policy in order to understand the interconnected relationships between technology and society and the forces that change those relationships over time. His research examines how people design and create technological systems and how these technological systems help to define, reinforce and propagate specific values? As co-director of the Center for Engagement & Training in Science & Society, Wetmore works to develop ways for scientists and policymakers to think about the future of technology and society.

**School of Sustainability** — Nalini Chhetri is the Assistant Director and Clinical Associate Professor in the School for the Future of Innovation in Society and with the School of Sustainability. She holds a Doctorate in Education Policy Studies with a minor in Demography, and an MSc in Cyto-genetics. Dr. Chhetri’s work centers on climate impacts and communication, technology in developing nations, knowledge systems, gender, and urban sustainability. Her career also included overseeing large sustainable development programs for international nongovernmental organizations. She works with think-tanks and agencies in China, Ghana, India, Jordan, Nepal, Thailand, Vietnam, and Thailand. She has consulted for United Nations and European bilateral agencies.

**Walter Cronkite School of Journalism and Mass Communication** — Melanie Asp Alvarez instructs and supervises student producers for the award-winning student-produced live newscast, Cronkite News. The program is recognized as one of the nation's top student newscasts by organizations such as the Broadcast Education Association and the Society of Professional Journalists. Prior to joining the Cronkite School, Alvarez worked as a newscast producer at KKTV-TV in Colorado Springs, Colo.; WTSP-TV in Tampa/St. Petersburg, Fla.; and KPHO-TV in Phoenix, where she also served as an executive producer for the morning newscast and special projects. Alvarez has received several regional Emmy nominations.
**W. P. Carey School of Business** — Dr. John Eaton was the 2017 recipient of the W. P. Carey Huizingh Outstanding Undergraduate Service to Students Award that recognizes a faculty member in the business school who has been committed to helping students achieve their goals outside of the classroom. Since coming to ASU, Dr. Eaton has been devoted to enhancing the student experience having served as the Faculty Advisor for two award-winning student organizations, the American Marketing Association and the Sports Business Association. He has also directed close to 100 Honors theses for Barrett students in W. P. Carey and from across ASU.

**Emeritus College** — William A. Verdini is professor emeritus at Arizona State University and dean of the Emeritus College. He holds a BS in chemical engineering from CWRU, and MBA and DBA degrees from Kent State University. During his 35 years at ASU, he was chairperson of the Supply Chain Management department of the W. P. Carey School of Business, associate dean and interim dean of the College of Extended Education, founding director of the Center for the Advancement of Small Business, founding director of the Bachelor of Interdisciplinary Studies degree, and president of the University Senate. In addition to his teaching at ASU, he has taught at the Hong Kong Polytechnic
HISTORY OF THE ACADEMIC COSTUME

The present-day academic costume seemingly originated at Oxford and Cambridge Universities in the 1300s. As the universities passed from ecclesiastical control, brighter colors distinguished the academic robe from the drab clerical gown. Colonial American universities based their academic regalia on the British system.

In the 1880s, a student movement centering in New England investigated the establishment of a “senior badge,” to improve commencement week exercises and revive the traditions of university life. In 1893, an intercollegiate commission established a uniform code for caps, gowns and hoods for the various degrees.

Of the costume’s three components, the hood is the most interesting. Originally it had three uses: as a head covering, as a shoulder cape, and as a bag in which alms could be collected. It is mentioned as early as 1480 in clerical literature. When large wigs were in vogue in Britain, the cape part of the hood was split in front and a narrow neckband inserted. The entire cape and hood was allowed to fall back as it is today, and it was never restored to the original style.

Following is a list of the hood and tassel colors established by the Intercollegiate Code to represent departments of learning:

- Architecture ................. Blue-Violet
- Agriculture ..................... Maize
- Arts, Letters, Humanities .... White
- Business Administration, Commerce,
- Accountancy ........... Sapphire Blue
- Dentistry ...................... Lilac
- Economics ..................... Copper
- Education ..................... Light Blue
- Engineering ................. Orange
- Fine Arts ....................... Brown
- Forestry ....................... Russet
- Home Economics ............. Maroon
- Journalism ................. Crimson
- Law .................. Purple
- Library Science ............. Lemon
- Medicine .................... Green
- Music ....................... Pink
- Nursing ...................... Apricot
- Oratory (Speech) .... Silver Gray
- Pharmacy ..................... Olive Green
- Philosophy .................. Dark Blue
- Physical Education ...... Sage Green
- Public Administration, including
  - Foreign Service .......... Peacock Blue
- Public Health ............. Salmon Pink
- Science ..................... Gold-Yellow
- Social Science ............ Citron
- Theology or Divinity ...... Scarlet
- Veterinary Science .......... Gray

Black tassels are correct for all degrees, and colored tassels are worn only by preference. Gold metallic tassels may be worn by doctors or presidents of universities and colleges.
