

ARIZONA STATE UNIVERSITY  
COMMENCEMENT  
AND  
CONVOCATION  
PROGRAM

Fall 2014

December 15-17, 2014

**THE NATIONAL ANTHEM  
THE STAR SPANGLED BANNER**

O say can you see, by the dawn's early light,  
What so proudly we hailed at the twilight's last gleaming?  
Whose broad stripes and bright stars through the perilous fight  
O'er the ramparts we watched, were so gallantly streaming?  
And the rockets' red glare, the bombs bursting in air  
Gave proof through the night that our flag was still there.  
O say does that Star-Spangled Banner yet wave  
O'er the land of the free and the home of the brave?

**ALMA MATER  
ARIZONA STATE UNIVERSITY**

Where the bold saguaros  
Raise their arms on high,  
Praying strength for brave tomorrows  
From the western sky;  
Where eternal mountains  
Kneel at sunset's gate,  
Here we hail thee, Alma Mater,  
Arizona State.  
*—Hopkins-Dresskell*

**MAROON AND GOLD**

Fight, Devils down the field  
Fight with your might and don't ever yield  
Long may our colors outshine all others  
Echo from the buttes, Give em' hell Devils!  
Cheer, cheer for A-S-U!  
Fight for the old Maroon  
For it's Hail! Hail! The gang's all here  
  
And it's onward to victory!

Students whose names appear in this program are candidates for the degrees listed,  
which will be conferred subject to completion of requirements.

University commencement and convocation ceremonies are special events for all  
involved. Please show respect for everyone who has come to share in the experience.  
Individuals who engage in inappropriate or disruptive behavior  
may be removed from the event.

As a courtesy to those around you and to our graduating students,  
please turn off all electronics devices and phones during the ceremony.

# **MISSION STATEMENT**

## **UNIVERSITY COMMENCEMENT**

**University Commencement** represents the culmination of a student's academic achievement.

**It is a time of celebration and reflection for students, families, friends, faculty and staff.**

**It brings together a diverse community to share in the joy of accomplished goals.**

Arizona State University continually demonstrates its dedication to efficiency, technology and sustainability. The full University Commencement program is being made available to graduates on a reusable external flash drive.

This change aligns with our growing institutional efforts to enhance sustainability practices, and our broader endeavors to employ technology in heightened service to our students.

The reusable external flash drive, combined with the abridged program, will yield a 2.2 million page reduction in the amount of printed materials distributed at graduation ceremonies over the next three days.

We kindly ask for your help in our sustainability efforts by returning unused or unwanted programs to the venue or recycling your printed programs after you have enjoyed them.

To order additional copies of this program, scan the QR code with your smart phone's reader app or go to <http://ironwood.worksmartsuite.com> (User name: ASUuser Password: password)

## HISTORY OF HONORARY DEGREES

Harvard was the first university to confer honorary degrees in 1692. Since then it has become a recognized function of degree granting institutions. Honorary degrees are an opportunity for universities to single out people who have made contributions to society. At ASU, honorary degree recipients are nominated by faculty members. The six-member Academic Affairs Honorary Degrees Committee reviews faculty nominations for the Honorary Degree. It then recommends candidates to the president. The committee is appointed by and responsible to the president.

## THE UNIVERSITY MEDAL OF EXCELLENCE

The University Medal of Excellence honors innovative leaders who have worked to advance awareness and action on issues that affect the well-being and positive development of their communities. These leaders embody a dedication to the community, partnership in the community, and a constant desire to learn and do more to improve communities and provide models for success. Their leadership is consistent with ASU's efforts to define excellence and inclusion, and serves as a model to others for positive community impact.

### EDWARD LOPEZ PASTOR

United States Representative Ed Pastor will complete 23 years in Congress and 39 years in public office when he retires on January 3, 2015, the end of his current term. Across the long span of his career, Pastor has championed such critical causes as equitable educational and economic opportunity for all, public health and safety, cultural preservation and sustainable practices for living. Many of the associated issues began at the grass roots level and grew to acquire complex, sophisticated political meanings and processes. Pastor grew with them. Described variously by his colleagues and constituents as dedicated, insightful, passionate, devoted, responsive, a mentor and role model, and a trailblazer and leader, Pastor was the first elected Hispanic member of Congress from Arizona and became the senior member of the state's delegation. He became also a powerful member of the House Appropriations Committee and a member of the Congressional Hispanic Caucus, serving as chair for his 1995 to 1996 term. Across his many efforts, Pastor attended to the centrality of civil discourse in the workings of democracy. His contributions to the nation and the state of Arizona exemplify a number of Arizona State University's guiding aspirations, including those identified as transforming society, leveraging place, conducting use-inspired research and being socially embedded.

Born in 1943 in the small mining community of Claypool, Arizona, Pastor is the son of a miner and the oldest of three children. He was the first in his family to attend and graduate from college. With a Bachelor of Arts degree in chemistry from Arizona State University, he started his career as a chemistry teacher at Phoenix's North High School. A career transition followed when he became the deputy director of the Guadalupe Organization, Inc., a nonprofit, community based organization. His work there with students, families and seniors motivated his enrollment in what is now the Sandra Day O'Connor College of Law at ASU. After earning the Juris Doctorate degree in 1974, Pastor began his 39 years of service in public office when he joined Governor Raul Castro's staff in the enforcement of the Civil Rights Act of 1964. He was elected subsequently to the Maricopa County Board of Supervisors, where he served three terms before resigning in May of 1991 to run for the Congressional seat vacated by the late Mo Udall. He won the special election on September 24, 1991, to serve the people of what was then Arizona's Second Congressional District. Changes following the 2000 and 2010 censuses resulted in his representation of the Fourth and Seventh Congressional Districts,

respectively. The lessons of Pastor's early years and early career remained apparent across his decades of leadership in public office.

Having learned firsthand the power of education to change lives and societies, Pastor has advocated tirelessly in support of educational opportunity nationally and in the state of Arizona. His efforts have fostered continuing financial assistance programs like Pell grants, work-study opportunities and federally subsidized loans that are critical in access to higher education for many students, especially for underserved and under-represented groups. Relatedly, Pastor's support of research opportunity for the nation's universities provides not only critical funding for the advance of applied and theoretical science but also current knowledge for students in a rapidly changing world and solutions for problems of global, national and local scope. In this regard, he supported competitive opportunities at the federal level for many universities and research institutes. Pastor was instrumental also in establishing the Phoenix-based Translational Genomics Research Institute that is a collaborative partnership between academia, government agencies, and clinical and corporate entities in Arizona and across the globe.

Pastor's efforts in the service of under-represented groups and cultural preservation are equally pervasive. A strong supporter of the DREAM Act, he worked consistently to increase opportunity for Hispanic students nationally, institutionally and individually. As an advocate for Hispanic Serving Institutions, he helped to secure resources to assist these institutions as they provide supportive resources for their students. Further, he helped give ASU, one of the top Hispanic-friendly universities in the nation, a national voice as a university with a focus on Hispanic students. He spoke similarly on behalf of students and children who are Navajo in heritage. With his help, the ASU Indian Legal Program was established in the Sandra Day O'Connor College of Law. Pastor's commitment to cultural preservation extended also to include advocacy for the restoration of public buildings in Glendale, Arizona. In 2007, the Ed Pastor Outstanding Graduate Student Award was established in recognition of Pastor's support and leadership in the establishment of the ASU Hispanic Convocation that serves as a stepping stone for future generations of ASU graduates.

In the areas of sustainable living and being socially embedded, Pastor shepherded many projects for the state of Arizona. A champion for energy research and the Southwest Center of Environmental Research, he encouraged research support from the Environmental Protection Agency. He secured millions of dollars in funding the Central Phoenix/East Valley light rail project that helps bring the community together while also reducing the cities' carbon footprint. His attention to water resources in an arid region extended to include such efforts as the Agua Fria Groundwater Project, the Tucson Drainage Area Arroyo Chico Project, and the Tres Rios Project, to name a few. His commitments and contributions in these areas are significant and many. Pastor is recognized also for his efforts in drug awareness and prevention and for his support of better communication systems across Phoenix area police departments.

Arizona State University is proud to present Representative Edward Pastor with the University Medal of Excellence in recognition of the breadth of his contributions and of his exemplary vision and service to the nation, the state of Arizona and Arizona State University.

At its founding, the College of Law at Arizona State University committed itself to innovation. While retaining important aspects of traditional legal education, Dean Willard H. Pedrick and the six well-respected faculty members, whom Pedrick recruited to the desert from around the country, embraced a vision of the future of legal education, befitting a young school in a growing city.

Nearly from its inception, the College pursued clinical legal education models, through which students receive a foundation in lawyering before they become practicing attorneys, while providing indigent members of the community with valuable legal assistance. Today, the College of Law has a dozen clinics and clinical units, more per capita than almost any law school in the country. These programs offer hands-on experience in both litigation and transactional settings, across an extraordinarily wide range of topic areas. Each year, approximately 90 percent of students participate in clinics, externships, or pro bono activities.

In the four decades since its founding, the College of Law, now renamed the Sandra Day O'Connor College of Law, has grown in size and national prominence, assembling an acclaimed faculty in the traditionally core areas of legal study while continuing to offer innovative approaches to legal education. The Center for Law, Science & Innovation is the nation's first and largest academic center focused on the intersection of law and science, and through it the College offers the country's only LL.M. in Biotechnology and Genomics, as well as innovative new programs in the Governance of Emerging Technologies; Personalized Medicine, Law & Policy; Public Health Law and Policy; Law and Sustainability; and Information and Communications Technology. The Indian Legal Program is arguably the leading program on Indian law in the country. It offers a strong curriculum, including the LL.M. in Tribal Policy, Law, and Government, the Certificate in Indian Law, and the Indian Legal Clinic, and trains students to be leaders in Indian Country. The College of Law's Center for Law and Global Affairs supports and inspires research, education, and practice regarding emerging forms of transnational governance that extend beyond the traditional paradigms of international law. The College of Law continues to reach further to provide opportunities for its students and graduates with innovative endeavors such as the creation of a nonprofit law firm, an employer outreach initiative, new international licensure programs, and a faculty and staff committed to student success.

The College of Law bridges the gap between theory and practice, and our faculty and students address the pressing public policy challenges of our time. In short, the Sandra Day O'Connor College of Law remains an innovator, building new models for 21st century public legal education in a dynamic, increasingly diverse, local, national, and global environment.

**The Barrett Story**

Barrett, The Honors College at Arizona State University, is a selective, residential college for academically outstanding undergraduates. Named “Best Honors College” in the nation, the college often has more National Merit Scholars than Princeton, Yale or Stanford.

The college is supported by a \$10 million endowment that is used exclusively to benefit honors students and fund their projects. Barrett students major in any field offered at ASU’s campuses - Tempe, Polytechnic, Downtown or West.

Barrett students are members of a small community of scholars who have direct access to our deans and receive personalized attention from approximately 35 honors faculty fellows and 45 staff members who care about them as individuals. In addition to these full-time honors college personnel there are more than 1800 university faculty members who teach and mentor Barrett students across all four campuses.

The \$140 million Barrett campus in Tempe was designed by students, faculty and staff working with nationally-renowned architects. The Barrett complex functions as its own small honors community on the ASU Tempe campus where students enjoy the amenities and resources of a large university. This unique arrangement is a model for higher education and has often been referred to as the best of both worlds by students who thrive in a small college atmosphere but appreciate access to large university programs like Division I athletics and high profile lecturers.

**Student Opportunities**

Barrett students take advantage of an array of opportunities that enrich the honors experience. They participate in study abroad programs that enable them to travel to foreign countries, immerse themselves in small classes taught by honors faculty, and experience different cultures and societies while earning honors credits. Barrett Summer Abroad destinations include France, Greece, Italy, Germany, Spain, the British Isles, South America and China. Barrett students receive national

and international graduate scholarships such as Rhodes, Truman and Marshall Scholarships. They take advantage of unique undergraduate research and internship opportunities, such as those available at the Translational Genomics Research Institute, the governor's office, Congress, the White House, or on Wall Street. Barrett students attend social and cultural events, publish poetry in the honors literary publication *LUX*, shadow doctors at the Mayo Clinic, and work with professors in the Biodesign Institute on the latest developments in nanotechnology. Many honors students seek leadership opportunities and find fulfillment in serving others, both on campus and in the larger metropolitan community. Barrett students also have opportunities to meet with individuals renowned for contributions in their fields, such as retired U.S. Supreme Court Justice Sandra Day O'Connor, former CNN anchor Aaron Brown, authors Guy Dauncey and David Kessler, and photographer Joel Meyerowitz.

### Signature Events

Barrett hosts two signature events annually, the Centennial Lecture and the Rhodes Lecture. In 1985, the Flinn Foundation established an endowment to commemorate ASU's 100th year. The gift created the ASU Centennial Lecture, and in 1989 it provided the Barrett Honors College the resources to bring some of the world's most influential intellects to campus. The Centennial Lecture has become one of ASU's premier intellectual events featuring noted diplomats, scientists, playwrights, and authors. Each Centennial Lecturer has helped to strengthen the university and has provided students and community members with a memorable experience. Former Centennial lecturers include Edward James Olmos, dedicated actor, and community activist in 2010; Dr. Oscar Arias, Nobel Peace Laureate and two-time president of Costa Rica in 2011; and most recently, Michael Pollan, journalist and author of the best-sellers *In Defense of Food: An Eaters Manifesto* and *Cooked: A Natural History of Transformation*.

The Rhodes Lecture is given by the John J. Rhodes Chair in Public Policy and American Institutions at Barrett. The Chair was created to celebrate the career in public service of one of Arizona's and the nation's most distinguished leaders. The Rhodes Chair is dedicated to deepening theoretical and practical understanding of the many voices and forces that influence public policy. The Chair honors the values of personal integrity, fiscal responsibility, respect for persons, and international farsightedness exemplified in the Hon. John J. Rhodes' career. The 2014 Rhodes Chair was Jay Kopelman, veteran and author of *New York Times* and international bestselling memoir, *From Baghdad With Love: A Marine, the War, and a Dog named Lava*; and *From Baghdad to America: Life After War for a Marine and His Rescued Dog*, shared his wartime experience, discussed social and political issues affecting returning military veterans and their families, resources for vets, and "vetrepreneur" success stories. The 2015 Rhodes Lecture will take place on Wednesday, February 25 at the Galvin Playhouse and feature Mary Frances Berry, the former chairwoman of the United States Commission on Civil Rights. Visit [www.barrettthons.asu.edu/events/](http://www.barrettthons.asu.edu/events/) for more information about future Barrett events.

## **Barrett on all four campuses**

In fall 2009, Barrett, The Honors College at Arizona State University, opened the nation's first comprehensive four-year residential honors college within a top-tier Research I university that underscores its standing as the premier honors college in the nation. On the Tempe campus, the nine-acre college includes resident halls for 1700 students, several classrooms, a community center with student lounges, activity rooms, computer labs, a fitness center, a multi-room dining facility with a refectory, café, and administrative, faculty and staff offices.

Multiple upgrades to the Barrett Honors College facilities on Downtown, Polytechnic and West campuses have taken place – featuring honors student lounges, libraries, kitchens, computer labs, student activity and study rooms, faculty and administrative offices, and honors residential communities.

Barrett at the Downtown Campus is home to about 500 honors students. The Barrett residential community, called “B-Town D-Town,” is located at Taylor Place at the heart of the campus and offers a living environment where students have easy access to ASU's downtown colleges and programs, as well as Phoenix's increasingly vibrant lifestyle.

Barrett at the Polytechnic campus gives students the feeling of studying at a small private college with the advantages of a large university. The honors residential community is unique among the ASU campuses – freshman honors students reside together on a floor of Century Hall, which opened in the summer of 2012 while upper-division honors students live in 2- and 3-bedroom houses in a special Barrett neighborhood on campus. Honors students also have access to a new dining hall and fitness facility.

Barrett at the West Campus provides the entire range of honors activities in a small liberal arts college setting. Barrett West students live and learn on the ASU West Campus with approximately 500 other residents. Honors students live in the new Casa de Oro, a residence hall that opened in fall 2012. The 5,000-square-foot Barrett Suite includes a computer lab, study rooms, a meeting area, a library, and staff and faculty offices.

With its outstanding programs, dedicated faculty and staff, and comprehensive facilities, Barrett is a national model for organizing resources to support the honors experience at all four campuses at ASU.

The Moeur Award is Arizona State University's oldest, continuing honor. It was established in 1901 by Dr. Benjamin B. Moeur and Honor Anderson Moeur, and is now sponsored annually by the Arizona State University Alumni Association. The award is presented at each Commencement ceremony to those individuals who have attained the highest academic standing in any four-year curriculum during their undergraduate years at ASU. All courses of the curriculum must be completed at ASU.

### ABOUT THE COLLEGE OF HEALTH SOLUTIONS

Arizona State University established the College of Health Solutions (CHS) in May 2012 as part of its strategic initiative to build a new model for health education. The college has experienced rapid enrollment growth and developed a number of new degree programs to service its students' acute interests for opportunities in health education. The college is a dynamic, growing, interprofessional enterprise bringing together the social and natural sciences, and humanities in the name of health.

The multidisciplinary college includes the **School of Nutrition and Health Promotion, School for the Science of Health Care Delivery, Department of Biomedical Informatics, Department of Speech and Hearing Science, Medical Studies** program and the **Doctor of Behavioral Health** program. Located on the Downtown Phoenix Campus, the college collaborates with academic units across ASU's campuses including the College of Nursing & Health Innovation, the School of Biological and Health Systems Engineering, the School of Life Sciences, College of Public Programs and numerous research centers and programs, including the Center for Health Information and Research, the Health Care Delivery and Policy Program and the Healthcare Transformation Institute.

Working closely with faculty and leadership in the College of Nursing & Health Innovation (CONHI), CHS is a catalyst for partnerships across ASU's campuses, in Arizona, around the nation and around the world. Committed to improvements in health outcomes and expanding patient access to highly skilled, trained health professionals, CHS attracts dedicated students looking to make a difference in confronting the global health crisis on a variety of fronts.

Throughout each unit within CHS, students have access to top-tier faculty, research facilities, and opportunities for practical experiences working within a matrix of partner organizations to engage at-risk populations in health and behavioral change to improve the daily lives of men, women and children. As the vanguard of ASU's health and health education focus, CHS provides students with a breadth and depth of programs and connectivity with allied programs that cannot be found at other universities. More information can be found at [chs.asu.edu](http://chs.asu.edu).

## **ABOUT THE SCHOOL OF NUTRITION AND HEALTH PROMOTION**

The School of Nutrition and Health Promotion (SNHP) offers students a range of academic programs and research opportunities spanning Nutrition, Exercise and Wellness, Kinesiology, Health Sciences, and Medical Laboratory Science. With state-of-the-art facilities – including the learning kitchen, Exercise Assessment and Movement Analysis lab, and campus garden – undergraduate and graduate students extend their learning outside of the classroom into original research impacting health outcomes on campus and in the community.

The school offers Baccalaureate degrees in Exercise and Wellness, Health Sciences, Kinesiology, Medical Laboratory Sciences, and Nutrition master's degrees in Exercise and Wellness, and Nutrition; and a PhD in Physical Activity, Nutrition and Wellness. More information can be found at [snhp.asu.edu](http://snhp.asu.edu).

## **ABOUT THE SCHOOL FOR THE SCIENCE OF HEALTH CARE DELIVERY**

The inaugural class in the School for the Science of Health Care Delivery (SHCD) enrolled in the fall of 2013 with pioneering curriculum for their master's program of study. The nationally recognized faculty, leading this innovative Master of Science (MS) program, engages students in rigorous curriculum exploring fundamental aspects of systems-design, leadership health promotion and diffusion of innovation to create the next generation of health leaders. In addition to their faculty mentor and teachers, students are engaging community health leaders from Arizona and around the nation as they work to address the complex issues of health care delivery. This fall, additional degrees were launched in the school: Baccalaureate degrees in the Science of Health Care Delivery and in Public Health. In addition, ASU now hosts two Master of Public Health programs offered by the University of Minnesota. More information can be found at [chs.asu.edu/shcd](http://chs.asu.edu/shcd).

## **ABOUT THE DEPARTMENT OF BIOMEDICAL INFORMATICS**

The Department of Biomedical Informatics (BMI) fosters collaboration among academic researchers, clinical practitioners and regional health care providers to apply new developments in informatics theory to clinical practice.

BMI currently offers Master of Science (MS) and Doctor of Philosophy (PhD) degrees, with concentrations that include Bioinformatics, Clinical Informatics, Imaging, Knowledge Discovery, and Population Health. Partnerships with Mayo Clinic, Barrow Neurological Institute and Banner Health, among others, infuse the program with practical research mandates and clinical relevance that reinforce BMI's standard of excellence and leadership. In the past five years, BMI faculty have received more than \$13 million in research awards. In fall 2014, BMI began to offer a Baccalaureate degree. More information can be found at [bmi.asu.edu](http://bmi.asu.edu).

## **ABOUT THE INTERNATIONAL SCHOOL OF BIOMEDICAL DIAGNOSTICS**

The Master of Science in Biomedical Diagnostics is a one year, 30-credit degree program with shared curriculum and courses offered by both ASU and Dublin City University (DCU). The program is delivered through a blended, global classroom experience, focusing on the technology, science, business/legal, and application of diagnostics.

The program culminates in an applied project which students complete with industry and academic partners. Diagnostics influences every facet of health care including pharmaceutical and technology development, patient management, health care finance, and health care policy. Graduates from this program will be better prepared to transform health care.

## **ABOUT THE DEPARTMENT OF SPEECH AND HEARING SCIENCE**

The Department of Speech and Hearing Science (SHS) joined the College of Health Solutions in the fall of 2013. While it is the newest academic unit in the college, the department will continue to operate from the Tempe campus where it has had a long history of teaching and service. With national rankings in audiology (#17) and speech-language pathology (#21), SHS has led research innovation in both clinical and academic areas of health with \$25 million in research awards during the past five years. The department offers graduate and undergraduate degrees – BS, MS, AuD, and PhD.

Through its two on campus, non-profit clinics, members of the public and campus communities have access to high quality professional services for individuals of all ages, infants through senior citizens, with needs in communication and hearing improvement. The clinics also serve as training and research facilities for bachelor's, master's, and doctoral programs in audiology and speech-language pathology. More information can be found at [shs.asu.edu](http://shs.asu.edu).

## **ABOUT THE MEDICAL STUDIES PROGRAM**

The Bachelor of Science in Medical Studies program provides students interested in health care and medicine with a well-rounded foundation in social sciences, humanities, interprofessionalism, and leadership, in addition to the basic health/medical science prerequisites necessary for graduate programs in health care and medicine. The curriculum for this program has been designed to meet new MCAT requirements. Students that choose to major in Medical Studies will take advantage of: research or clinical internship, dedicated pre-health advising and a curriculum that emphasizes critical thinking skills and an analytical approach to problem solving and effective communication. More information can be found at <http://chs.asu.edu/chs/bachelor-science-medical-studies>.

## ABOUT THE DOCTOR OF BEHAVIORAL HEALTH

The Doctor of Behavioral Health was launched in 2009 as an applied, clinical doctorate with a focus on integrated behavioral health care. The program was created to graduate licensed clinicians who understood how to deliver evidence-based, efficient integrated care interventions designed to improve both clinical and cost outcomes. The vision was to graduate a professional expert in integrated health clinical interventions as well as management and entrepreneurship. A key requirement for admission to the program was a master's degree and a license to practice in health care.

The program was an immediate success and continues to grow in size and recognition. Demand for admission from non-licensed clinicians led to the development of the Doctor of Behavioral Health (DBH) Management Track. Prospective students can now choose between the DBH Clinical or Management Track based on their background and interests. The DBH degree program prepares students with the medical literacy, evidence-based intervention, and business entrepreneurial skills to accomplish the triple aim of improving patient health care experiences, expanding reach to address population health issues, and reducing service delivery costs. Students in the program are trained to become health care leaders in primary care settings where they effectively address the changes occurring in an evolving health care marketplace through new integrated care models. The internship is designed to provide students with the experience of working on a multidisciplinary, integrated primary care team using central medical records, collaborating with other providers in treatment planning and interventions, and sharing the responsibility of improving outcomes. More information can be found at [chs.asu.edu/dbh](http://chs.asu.edu/dbh).

**COLLEGE OF LIBERAL ARTS AND SCIENCES**

Serving as the intellectual heart of this vibrant university, the College of Liberal Arts and Sciences is engaged in redefining what is expected of the well-educated person of the 21st century. Creatively synthesizing teaching, research and scholarship that span the humanities, social sciences, natural sciences and life sciences, CLAS offers a challenging environment of learning and discovery in which students and faculty aspire to personal achievement and collaborative problem-solving.

The College of Liberal Arts and Sciences, the largest at ASU, is structured to help students identify and focus their dreams and aspirations. The college is in actuality many communities within communities where students meet peers and faculty who share their interests and passions through a rich diversity of schools, departments, majors, programs, institutes, centers, laboratories, clubs and organizations.

Faculty members in the college are committed to providing each of our students with the best education that we can, recognizing that the pace and complexity of the modern world will ask successful citizens and leaders to reinvent themselves time and again. Any institution of higher learning can train a student for a first job. Our goal is to equip our students with knowledge and skills for a lifetime of success. Although we are continually innovating and adapting as a college, the liberal arts remain the best foundation for successful careers and deeply rewarding personal and professional lives.

The College of Liberal Arts and Sciences—*Transforming learning, discovery and lives*

**COLLEGE OF NURSING AND HEALTH INNOVATION****Equipping Health Leaders of the Future**

The growing footprint of the ASU College of Nursing & Health Innovation is about both our literal space – significantly expanded with the opening of our second building in 2009 – but also about the spaces we have created to fulfill on our mission to do more, serve more, and sustain innovation. Centrally located outside of the new building, and daily in full view of students, staff and faculty, is the challenge to everyone to “dream, discover, and deliver.” It is our mission and challenge that drives us to offer the highest quality of academic, research and clinical practice programs so we can create graduates who will be the best clinicians, teachers, advocates of good health, and researchers.

Just as our research and teaching extends far beyond our classroom walls, so does our drive to make an impact in the world and improve health outcomes. We make this real in six ways.

First, our interprofessional model guides us as we build programs and curriculum to meet the needs of future health workers. Both our graduate and undergraduate programs continue to expand with a determined focus on the preparation of world-class health workers, ready to advance complex patient care and dynamic delivery

systems. As our students' rising accomplishments on NCLEX attest, our program design and delivery is central to the start of students' careers as well as their advancement and mobility within the systems where they work.

Second, Innovation is in the name of the college and at the core of our thinking. Everyone working in a clinical context knows the challenges and complexity connected with the management of individuals' health. The challenges and opportunities that pervade the health care system require innovative solutions that improve whole systems and global patient outcomes. Our curriculum and clinical experiences are designed to give students a breadth and depth of exposure to different types of delivery systems and equip them with tools to provide innovative thinking and value from the very first day. We foster innovative thinking at ASU—being on the cutting edge and visioning solutions to the most complex healthcare problems.

Third, while our programs encourage creative processes of discovery and dreaming, we place a premium on delivery. We encourage and provide an environment where dreams are cultivated. Whether through the college's centers, where nationally recognized research leaders are impacting research agendas, or through our funded research collaborations and the community partnerships they support, our students, faculty and staff are making a difference on a broad scale.

Fourth, we continue to push innovations – technological and otherwise – to better ourselves and our work within the college. As our online programs continue to expand access to the highest quality training, they do so with an intense focus on rigor and adoption of new and better instructional tools. Our simulation center not only provides state-of-the-art education for our students, but also is a partner with the State of Arizona Nursing Board to assess and ensure competence among nursing professionals with the confidence and essential practice skills they need to transition to real-world healthcare environments. We also operate three high-quality nurse-led health centers in the greater Phoenix area that emphasize an interdisciplinary approach to care, which are among the more than 700 clinical placement sites where our students receive outstanding educational experiences in the real world.

Fifth, as we lead the future of health education, our college places a strong value on connections to and appreciation for our past, our traditions, and the students and leaders who have brought us to this moment. As our students graduate and embark on their next journey, it is important to be mindful of the mentors, friends, family and loved ones who helped each of us reach this significant milestone. We want to encourage our alumni to stay connected to the college, watch our developments and participate in our activities or programming in the future. Our conversations and time together are not complete because you still can make a great difference to those who will follow you.

Finally, as our college cultivates creativity, innovation and entrepreneurship, we are confident the tools and training our students have received will make them lifelong

---

learners and significant contributors to our dynamic industry. We encourage our students to challenge themselves and those around them to think more critically, to listen more closely and to work more diligently – especially on behalf of those who disparately suffer from acute and chronic illness and disease – as they are remaking the world and its possibilities.

**THE COLLEGE OF PUBLIC PROGRAMS**

The College of Public Programs is preparing the next generation of public service leaders and advancing teaching, research and creative problem-solving in complex urban environments - locally and globally. We are home to ASU's most diverse student body and the largest community of first-generation college students.

Through four schools and 17 research centers, faculty and students are working to solve society's most pressing challenges. Our degree programs and research cover the spectrum of public service including public policy, social work, criminology and community resources and development. Together we bring creativity, entrepreneurship, and systems-level thinking to the shared goal of creating and promoting dynamic, healthy and prosperous communities.

**THE SCHOOLS IN THE COLLEGE OF PUBLIC PROGRAMS**

*The School of Community Resources and Development* students, faculty and staff share a commitment to making communities better places to live, work and visit. The fields within our School are extremely diverse and involve the private, government and nonprofit sectors of the economy. The concept of building sustainable and healthy communities is the unifying principle encompassing our School's focus areas of community sports management, parks and recreation management, tourism development and management, and nonprofit leadership and management.

---

*The School of Criminology and Criminal Justice* merges theory and practice. This occurs in the teaching, research and service activities of our faculty, students and alumni. The convenient downtown Phoenix location makes the School accessible to working professionals and traditional students. In addition, the location of major criminal justice agencies downtown enhances the opportunities for instruction, practice and internships for all students. The School offers bachelor's, master's and doctoral degree programs as well as certificates. The curriculum is delivered both in-class and online.

*The School of Public Affairs* is continuing its long tradition of developing outstanding public leaders; people who are committed to making a difference in our world and who are well prepared to meet the rigorous demands and substantial challenges of the future. We offer innovative educational and professional opportunities to help build strong and more effective leaders. We are the only public administration program in the Phoenix area to be accredited by the National Association of Schools of Public Affairs and Administration (NASPAA) and are consistently ranked among the top 20 public affairs schools in the country.

*The School of Social Work* strives to develop and provide access to innovative social services that allow disadvantaged families and communities to prosper. We are among the largest and most diverse social work programs in the U.S., with over 1,400 students now enrolled at our Phoenix and Tucson locations, and with more than 10,000 alumni. We offer bachelor's, master's and doctoral degrees, as well as many certificate and continuing professional education programs. Our students intern at more than 800 field placement sites. Extensive online and nontraditional courses facilitate access to those with varying schedules and needs.

## **THE CENTERS, INSTITUTES AND PROGRAMS**

### *Bob Ramsey Executive Education*

Bob Ramsey Executive Education is dedicated to improving the effectiveness of the people and organizations that serve communities. Through the center's programs and seminars, public service professionals can enhance their management and leadership competencies and can earn the Certified Public Manager®, Certified Municipal Clerk, or Master Municipal Clerk credential. The center also assists state, local, and tribal governments with the implementation of their staff development initiatives.

### *Center for Applied Behavioral Health Policy*

The Center conducts research, provides program development and evaluation services, and designs and conducts workforce development initiatives to improve policies and programs that affect people with substance use disorders or mental illness.

### *The Center for Emergency Management and Homeland Security*

The Center fuses academics, research and solution delivery capabilities to meet crisis mitigation, response and recovery needs of government and private sector stakeholders today, and train the public management professionals of tomorrow.

*The Center for Organization Research and Design*

The Center promotes, supports and conducts fundamental research on public, nonprofit and hybrid organizations and their design. Its emphasis is on attention to new organizational forms and designs in science- and knowledge-intensive organizations and technology-intensive aspects of nontechnical organizations.

*Center for Policy Informatics*

The Center leverages cutting-edge technology and cross-disciplinary theory to help individuals and communities make and evaluate policy choices. It develops policy-relevant models that balance the complexity of real-world phenomenon with transparent, actionable evidence.

*Center for Social Cohesion*

The Center for Social Cohesion, a project of Arizona State University in partnership with the New America Foundation, is dedicated to studying the forces that shape our sense of social unity. Wholly non-partisan, pluralistic and multidisciplinary in outlook, the Center seeks to promote understanding of how diverse societies cohere.

*Center for Science, Technology and Environmental Policy Studies*

C-STEPS promotes collaborative research among faculty, postdoc graduate students, scientists and practitioners on interdisciplinary problems related to science, technology, information and the environment.

*Center for Sustainable Tourism*

The Center for Sustainable Tourism is devoted to studying the role of tourism in community development in order to strengthen its contribution to viable economic, social and environmental systems, especially in megapolitan regions around the world – aptly named tourism for the public good.

*Center for Urban Innovation*

A focal point for research on urban affairs, the Center for Urban Innovation is working to improve the quality of life in neighborhoods, cities and urban regions by promoting innovation in governance, policy and management. The Center also leads ASU's partnership in the Alliance for Innovation, an international network of progressive governments and partners committed to transforming local government by accelerating the development and dissemination of innovations.

*Center for Violence Prevention and Community Safety*

The Center brings together scholars from social, behavioral and humanistic backgrounds to conduct research confronting international, regional and local problems for the purpose of conceiving and implementing policies, programs and practices grounded in evidence.

*Lodestar Center for Philanthropy and Nonprofit Innovation*

The ASU Lodestar Center builds the capacity of the social sector by enhancing the effectiveness of those who lead, manage and support nonprofit organizations. It promotes the understanding of the nonprofit sector and philanthropy in community

life, with a particular focus on effective practices that help organizations meet their missions.

*Morrison Institute for Public Policy*

Morrison Institute bridges the gap between academic scholarship and public policy development through independent research and services to public and private sector clients. The Institute researches public policies that impact Greater Phoenix, the state of Arizona and the nation.

*Office of Sex Trafficking Intervention Research*

The Office of Sex Trafficking Intervention Research is a central source for data collection, dissemination, and solutions on domestic sex trafficking to help inform the decisions made by those who contact victims and perpetrators of sex trafficking including law enforcement and prosecutors, educators, and those in medical and social services.

*Osher Lifelong Learning Institute at ASU*

The Osher Lifelong Learning Institute at ASU provides university-quality learning experiences for adults ages 50 and over through diverse short courses and lectures, campus-based learning opportunities and civic engagement initiatives.

*Partnership for Community Development*

The Partnership works to build collaborative relationships among public and private community organizations to address critical community needs.

*Policy Analytics Lab*

Policy Analytics Lab (PAL) is a computing environment modeled using the Decision Theater framework where students, researchers, and community members can collaborate to tackle complex problems and design innovative solutions to some of the most pressing local and global governance challenges.

*Southwest Interdisciplinary Research Center*

The Center conducts transdisciplinary minority health and health disparities research, research education training, and community outreach and engagement on drug abuse, mental health and HIV/AIDS.

**ABOUT THE HERBERGER INSTITUTE FOR DESIGN AND THE ARTS**

The ASU Herberger Institute for Design and the Arts leads an exploration of the contemporary human condition through creative practice and research, bringing together a unique array of disciplines that allow for distinctive opportunities for collaboration. Continually striving to enable design and arts students to succeed beyond graduation, the Herberger Institute consists of the following five schools: Art; Arts, Media and Engineering; Design; Film, Dance and Theatre; and Music.

More than 4,700 students are supported by over 675 faculty and faculty associates and 155 staff offering a total of 135 degree programs and concentrations. The ASU

Art Museum supports research initiatives while diverse community engagement projects enable students and faculty to interact with the public through meaningful partnerships.

We encourage all of our alumni to continue to share their stories with us and to take an active role in the Herberger Institute Alumni Chapter. For more information on our alumni activities, please visit us on the Web at [herbergerinstitute.asu.edu/alumni](http://herbergerinstitute.asu.edu/alumni).

**ENGINEERING AT ARIZONA STATE UNIVERSITY**

The Ira. A Fulton Schools of Engineering, ranked in the top 50 U.S. engineering schools, are home to 300 faculty and more than 13,000 students. The Schools were awarded over \$80 million in externally funded research awards in fiscal year 2014. In 2012-2013, the Fulton Schools of Engineering granted 1,891 undergraduate and graduate degrees. Today, nearly 49,000 alumni of the Fulton Schools are advancing the fields of engineering and technology in Arizona and around the world.

To produce the engineers and innovations needed to address society's changing needs, we have crafted a visionary blueprint for an engineering school that transcends traditional organization around degrees and disciplines, and fosters a transdisciplinary approach to teaching and research. Through our six schools, we offer 24 undergraduate and 28 graduate degree programs that encourage innovative collaboration across disciplines, with faculty and students alike focusing their efforts on developing solutions that will have significant, lasting impact on our local and global communities. We offer online options for selected programs and professional development programs like Six Sigma.

**The School of Biological and Health Systems Engineering** provides a rich, interdisciplinary curriculum that prepares students to use engineering and scientific principles and methods to develop instrumentation, materials, diagnostic and therapeutic devices, artificial organs or other equipment and technologies needed in medicine and biology. The school's biomedical engineering degree program strives to produce graduates with a broad-based education in both engineering and the life and natural sciences, with a focus on improving the overall quality of global healthcare. Graduates from the biological design doctoral program are creative thinkers prepared to work at the intersection of biology, engineering and computing to advance human health and quality of life.

**The School of Computing, Informatics, and Decision Systems Engineering** is home to computer engineering, computer science, computer systems engineering, engineering management, industrial engineering and informatics degree programs. From data to decisions, the school covers the spectrum for designing the modern, information-driven society, engaging in the fundamental activities of sensing, optimizing, controlling and communicating. Computing serves as the engine that drives this transformation, linking together the school's fundamental activities. The school is dedicated to creating new knowledge and technology that contributes to solving the major problems facing modern society.

---

**The School of Electrical, Computer and Energy Engineering** brings together university faculty, students and companies to develop collaborative relationships and solutions. The school's computer engineering and electrical engineering degree programs and research efforts are aligned with national and international efforts to address worldwide challenges in energy production and distribution, healthcare technology and delivery, sustainable development and economic growth, communications technology and information management and global security.

**The School for Engineering of Matter, Transport and Energy** leverages the synergy of engineering and science to develop new knowledge and technologies, and create innovative solutions to society's most pressing problems in energy, human health, public safety, exploration, environmental infrastructure and sustainability. Degree programs in aerospace engineering, chemical engineering, materials science and engineering, mechanical engineering, and solar energy engineering and commercialization are offered. The school gathers together a broad range of disciplines and world-class faculty members who are engaged in a cutting-edge research, all of which contributes to a unique educational experience for all of our students.

**The School of Sustainable Engineering and the Built Environment** provides a nexus for education and research that address the critical infrastructure needs of our society in an environmentally sound manner. The school offers a holistic approach in its degree programs, covering the engineering expertise of civil, environmental and sustainable engineering, the design and construction principles of construction engineering and the project management and leadership skills of construction management.

**The Polytechnic School** is organized into seven academic programs that offer a breadth of engineering and technology-related degrees. The programs thrive under the guidance of more than 100 faculty members with deep expertise and industry experience in the important technological challenges that society faces. The school is located in the dynamic, growing Gateway region on the southeast edge of the Greater Phoenix metropolitan area, and is home to some of the most advanced learning laboratories available to students on any university campus.

### **Ira A. Fulton**

#### ***Chairman of the Board and CEO, Fulton Homes***

Ira A. Fulton, founder and CEO of Arizona-based Fulton Homes, established an endowment of \$50 million in support of ASU's College of Engineering and Applied Sciences in 2003. The college was renamed the Ira A. Fulton Schools of Engineering in his honor. The gift has enabled the Ira A. Fulton Schools of Engineering to provide funding for scholarships, fellowships, research programs and investments in faculty, all integral to the school's goal to move from its position as a highly ranked U.S. program into the ranks of world-class institutions.

*"With this endowment, we are building an engine of educational and economic growth that will endure for generations. It is a gift of opportunity, prosperity, social equality and hope." – Ira A. Fulton*

**ABOUT MARY LOU FULTON TEACHERS COLLEGE**

Mary Lou Fulton Teachers College is setting a new standard for teaching, discovery and innovation as one of the top 20 graduate programs in education nationally, according to *U.S. News & World Report*. A key contributor within a research-intensive university, Teachers College offers rigorous undergraduate and graduate programs founded in scholarship and research, and led by nationally and internationally recognized professors who are leaders in their field.

**ADDRESSING THE CHALLENGES OF EDUCATION  
IN A RAPIDLY CHANGING ENVIRONMENT**

With research at the heart of the Teachers College experience, students, faculty and staff actively address the challenges of education in a rapidly changing environment. College faculty and researchers demonstrate their commitment to advancing the science of teaching and learning by conducting evidence-based research, and tackling issues such as social justice, school reform, policy, language and literacy, and more.

Teachers College faculty members are accomplished scholars, researchers and leaders in their field — and most have taught in pre-K through 12th-grade classrooms. Among the college's esteemed faculty are a Nobel Laureate, American Educational Research Association Fellows, Fulbright American Scholars, Arizona

Regents' Professors and members of the National Academy of Education. Even beyond academia, they are caring and community-minded citizens of the world who are committed to inspiring and enriching education for all children and youths.

### **EXCELLENT PROGRAMS PREPARE EXCEPTIONAL GRADUATES**

Teachers College programs combine classroom- and community-based learning opportunities, and courses are designed to encourage diversity of thought — engaging students in the latest educational theories and research, as well as new technologies, that place them on the cutting edge of the education field. The college offers undergraduate and graduate degree programs and certificates on all four ASU campuses, at off-campus locations and online.

Students' exposure to evidence-based research and practical application means they graduate with an educational foundation rooted in experience and innovation. And that foundation pays off. An ASU exit survey of 2012-2013 graduates found that 94 percent of Teachers College graduate students pursuing jobs — and 93 percent of Teachers College undergraduate students pursuing jobs — were employed or had at least one job offer 90 days after graduation.

Graduates of Teachers College enrich the lives of others as inspired and informed teachers, administrators and researchers working in classrooms and communities. As advocates of education, they share a commitment to enable all children to reach their potential. Many go on to win awards in their respective fields, and often contribute by giving back to the college through their time, talents and treasure.

### **MARY LOU FULTON TEACHERS COLLEGE NAMESAKE**

Mary Lou Fulton Teachers College is named for Mary Lou Fulton, a distinguished alumna of the college who, with her husband Ira A. Fulton, generously established a transformational endowment to foster excellence in education. The Fultons are committed to supporting the well-being and education of children, and initiatives dedicated to improving public education. Their gifts have provided opportunities for quality teaching, research and service that extend far beyond the university, touching the lives of generations to come.

### **MESSAGE TO THE NEW COLLEGE GRADUATES**

Congratulations on your extraordinary achievement! The faculty and staff of New College offer our sincere best wishes for your continued personal and professional success. We all look forward to seeing your work in the world; we know you will make your mark as an ASU New College graduate. Today, you join a prestigious body of New College and ASU alumni, who have shared in some of the same remarkable experiences. Please stay in touch with us by joining the ASU Alumni Association, so we can continue to celebrate your triumphs and share the journey of our new students with you. You can take advantage of special new graduate membership rates (\$25 annual or \$300 lifetime dues) and become an active member of the ASU Alumni Association at [www.asu.edu/alumni](http://www.asu.edu/alumni).

### **ABOUT THE NEW COLLEGE**

The New College of Interdisciplinary Arts and Sciences offers a nationally unique environment: a small college experience with the power of ASU's major research university resources. Working one-on-one with our cutting-edge faculty—often through our New College Undergraduate Inquiry and Research Experience program (NCUIRE), our students reshape the boundaries of knowledge in their fields of study. This prepares them for a future of reshaping the world outside of ASU.

New College was founded on a “new” way of thinking about the academy. Instead of reproducing the intellectual silos that separate fields of study in other institutions, our programs have been structured on the notion that if we break down the barriers between fields, we can think in more innovative ways, do more path-breaking work, offer more effective solutions to real-world problems. From our Interdisciplinary Arts and Performance degree that teaches students many forms of artistic expression and then asks into what mode a concept should be born; to our Forensics degree that brings together fields like chemistry, psychology, and legal studies; to our Social Justice and Human Rights degree that explores sociological, historical, and contemporary cultural analyses of the issues, New College offers educational experiences that transcend more limited ways of thinking about the world.

The mission of New College is to prepare students to succeed in a globalized, diverse economy by providing them with solid disciplinary foundations that are coupled with an ability to think and act constructively across disciplines to discover

answers to the complex problems that face society today and to create civic and economic well-being, within contexts ranging from the local to the global.

New College's programs build on the philosophy that inter-, multi-, and transdisciplinary education enhances our graduates' ability both to address the needs of business, industry, schools, and communities of this region and to meet the challenges of the twenty-first century. New College's Bachelor of Art and Bachelor of Science degrees include American Studies; Applied Computing; Applied Mathematics; Applied Science; Applied Science—Cell and Molecular Biology Research; Communication; English; Ethnicity, Race, & First Nations Studies; Forensics; History; Integrative Studies; Interdisciplinary Arts & Performance; Life Sciences; Life Sciences—Environmental Sciences Concentration; Life Sciences—Forensics Concentration; Political Science; Psychology, Psychology (Online); Religion & Applied Ethics Studies; Social & Behavioral Sciences; Sociology; Spanish; Statistics; and Women & Gender Studies. New College offers Master of Art degrees in Communication Studies, Interdisciplinary Studies and Social Justice & Human Rights and a Master of Science in Psychology.

**SCHOOL OF LETTERS AND SCIENCES**

The School of Letters and Sciences provides students across ASU with the knowledge and skills to comprehend and effectively engage the changing world of the 21st century at local, national and global levels.

We offer graduate and undergraduate degree programs that prepare students for a rapidly changing marketplace, as well as foundational instruction in humanities, social and natural sciences, mathematics, and professional fields. Our exploratory and major and career exploration programs empower students to find a major anywhere at ASU based on their interests, career goals and personality traits. Faculty support knowledge enterprise development by advancing research, clinical and creative activities that promote discovery, innovation and human understanding. The school is guided by the principles of student success, strategic partnerships within the university and the community, and interdisciplinary inquiry.

Theory, creativity and applied learning are integrated as students build entrepreneurial opportunities both inside the university and in their communities. In addition, the school serves the citizens of Arizona by offering a variety of outreach programs that engage people in cultural events and lifelong learning. The school is home to the Center for the Study of Race and Democracy, which serves as a leading interdisciplinary, problem-solving venture committed to engaged scholarship, and information dialogue involving the topics of race and democracy.

## **ABOUT THE SCHOOL OF SUSTAINABILITY**

Established in 2006, the School of Sustainability educates a new generation of scholars and practitioners and creates innovative modes of scholarship by bringing together leaders, stakeholders, and people from multiple disciplines to develop practical solutions to the most pressing sustainability challenges.

The School offers graduate programs leading to Master of Science, Master of Arts, Master of Sustainable Solutions, Executive Master for Sustainability Leadership and Doctor of Philosophy degrees in Sustainability and undergraduate programs leading to Bachelor of Science and Bachelor of Arts degrees in Sustainability. Degree programs focus on collaborative learning, transdisciplinary approaches, and solution-oriented training to address sustainability challenges relating to areas such as energy and materials, water, ecosystems, urbanization, international development, social transformations, climate, and food systems.

The School of Sustainability works closely with the Julie Ann Wrigley Global Institute of Sustainability, which is the hub of Arizona State University's sustainability initiatives. The Institute advances research, education and business practices for an urbanizing world. Both the School and the Institute initiate and nurture work on issues of sustainability across the University and collaborate with other academic institutions, governments, businesses and industries, and community groups locally, nationally, and globally. ## WALTER CRONKITE SCHOOL OF JOURNALISM AND MASS COMMUNICATION

### **About the School**

The Cronkite School is widely recognized as one of the nation's premier professional journalism programs. Rooted in the time-honored values — accuracy, responsibility, objectivity, integrity — that characterize its namesake, the school fosters journalistic excellence and ethics among students as they master the practical professional skills they need to succeed in the digital journalism world of today and tomorrow.

The Cronkite School's 1,800 students consistently lead the country in national competitions. The school has the best record in the Hearst Journalism Awards, often called the Pulitzer Prizes of college journalism, over the past nine years. Cronkite also has the country's best overall record in the national Society of Professional Journalists' Mark of Excellence competition over the same period and has taken first place in its region for 14 consecutive years and students have won three international Robert F. Kennedy Journalism Awards for reporting on social justice issues in recent years.

Students are guided by a faculty that is made up of both award-winning professional journalists and world-class media scholars. In recent years, the school has added to its faculty such leading journalists as former Washington Post Executive Editor Leonard Downie Jr., Minneapolis Star Tribune Editor Tim McGuire, BET Vice President Retha Hill, Sacramento Bee Executive Editor Rick Rodriguez, Forbes Magazine Publisher Jeff Cunningham, New York Times Senior Business Correspondent Micheline Maynard and Pulitzer Prize-winning journalist Jacques Petchel.

The Cronkite School continues to lead the field of journalism education with its innovative use of the teaching hospital model for which it has received national acclaim. Recently, Arizona PBS, one of the nation's largest public television stations, became part of the school, serving as a hub for full-immersion professional programs and a testing ground for new approaches in journalism.

Cronkite students choose among a dozen different professional programs in which they work under experienced journalists and communications professionals to apply what they have learned in the classroom. They report on sports from multimedia bureaus in Los Angeles and Phoenix; they do public affairs reporting from news bureaus in Phoenix and Washington, D.C.; and they produce a nightly newscast that reaches 4.8 million viewers on Arizona PBS.

In the Public Insight Network Bureau, students work with professional news organizations to deepen their connections to audiences, and in the New Media Innovation and Entrepreneurship Lab, they use digital technologies to forge the future of journalism. Students in the school's Public Relations Lab develop campaigns for client companies, while Carnegie-Knight News21 student reporters

---

conduct national data-driven investigations into issues critical to Americans. New bureaus opening at the school include a Business Reporting Bureau in which students will report on business, finance and economics and a Digital Production Bureau, which will serve as a multimedia development and production hub for the school.

Elsewhere at the school, the Donald W. Reynolds National Center for Business Journalism provides education and training to professional journalists and Cronkite Global Initiatives brings international journalists to the school for study and training.

All of these initiatives take place in a state-of-the-art building that is unparalleled in journalism education. ASU's investment in the school has generated national and international attention from educators and media professionals who place the school in the top tier of all U.S. journalism schools. The Times of London and The New York Times have pointed to the Cronkite School as a leading example of changes taking place at journalism schools across the country. The prestigious publications called the Cronkite School a pioneer, kindling a notion of new media that will shape how news is delivered and how people will stay informed in the future.

### **About Walter Cronkite**

ASU's journalism program was named in honor of former CBS News anchor Walter Cronkite in 1984.

The relationship started when Tom Chauncey, longtime owner of the CBS affiliate in Phoenix and a leading supporter of journalism education at ASU, contacted his old friend in an effort to advance the program. An endowment on behalf of the program was soon established and the school was named after "the most trusted man in America."

Over the next quarter of a century, Cronkite lent much more than his name to the school. He was closely involved — advising leadership, guiding students and faculty and traveling to Arizona each year to personally give the Walter Cronkite Award for Excellence in Journalism to one of the nation's top journalists. The most special relationship, though, was with "our students," as Cronkite would always call them. Young women and men, some with parents barely old enough to remember Cronkite behind the anchor desk, lit up when he walked into a classroom. They hung on his every word as he thoughtfully answered their questions about the profession he so loved. They lined up just to shake his hand, and he loved every minute of it.

In what turned out to be Cronkite's last visit to ASU in 2007 before declining health prevented him from traveling, a group of 100 students gathered with just a few minutes of notice that Cronkite was in the building. He held them spellbound as he spoke about covering World War II, Vietnam, Apollo, Watergate and presidents from Truman to Reagan — and of how important "our school" was to him.

Although Cronkite died on July 17, 2009, before he was able to visit the new building, he remains an ever-present part of the school's heartbeat and direction. His legacy lives on in the spirit and passion with which the school teaches both the skills to do journalism in today's media environment and the time-honored ethics and news values necessary to do it in the manner that would make him proud. The Cronkite School has established a special memorial fund in Cronkite's name. For more information on the fund and to learn more about Cronkite's legacy and career, visit [cronkite.asu.edu/rememberingcronkite](http://cronkite.asu.edu/rememberingcronkite).

### **About Our Graduates**

The Cronkite School has more than 8,000 alumni throughout the Valley, across the country and around the world. Many are leaders in television, digital media, newspapers, radio, magazines and public relations.

In 1993, the Cronkite School inducted its first class into the Cronkite Alumni Hall of Fame. The charter inductees were Al Michaels ('66), an Emmy Award-winning sports broadcaster best known for anchoring "Monday Night Football," and Bill Redeker ('71), an ABC News correspondent who covered the Middle East and the Far East during his 30 years with the network.

Other notable Cronkite Alumni Hall of Fame inductees include Becky Anderson ('94), CNN International anchor; Julie Cart ('98), Pulitzer Prize-winning Los Angeles Times reporter; Derrick Hall ('91), president of the Arizona Diamondbacks; Christine Devine ('87), news anchor at FOX 11 in Los Angeles; Mary Kim Titla ('85), founder of Native Youth Magazine; Ray Artigue ('76), president of The Artigue Agency; and Chip Dean ('77), director of ESPN's "Monday Night Football."

Graduates of the school who are interested in joining the Cronkite School alumni chapter are encouraged to call us at 602.496.5555 or visit [asu.edu/alumni](http://asu.edu/alumni). Stay connected to fellow alumni by registering at [cronkitenation.com](http://cronkitenation.com).

**ABOUT THE W. P. CAREY SCHOOL OF BUSINESS**

The W. P. Carey School of Business at Arizona State University is one of the highest-ranked and largest business schools in the United States. The school is internationally recognized for its leadership in business education and for positively impacting the practice, science and art of management on a national and international scale. The school works to rethink the nature of business, engage the world, and create a better future.

More than 10,000 students attend the W. P. Carey School of Business, including about 50 National Merit Scholars and more than 100 doctoral candidates. The student body is especially diverse, including representatives from more than 90 countries.

The acclaimed faculty includes a Nobel Prize winner, members of the National Academy of Sciences, a Guggenheim Fellow, and a fellow of the American Academy of Arts and Sciences. Many faculty members are also on the editorial boards of academic journals and publications. The school boasts 10 well-known research centers and a research institute, and is ranked Top 25 in the nation among business schools for research productivity.

Both the school's graduate and undergraduate business programs are ranked Top 30 in the nation by *U.S. News & World Report*. The executive MBA program is ranked No. 13 in the world by *The Wall Street Journal*. The W. P. Carey School of Business is also known for providing excellent "return on investment" at both the graduate and undergraduate levels.

Undergraduate Bachelor of Science degrees are offered in nine areas, including accountancy, business data analytics, business entrepreneurship, computer information systems, economics, finance, management, marketing and supply chain management.

Undergraduate students also have the option of earning a Bachelor of Arts degree in business with a concentration in communication, food industry management, global agribusiness, global leadership, global logistics management, global politics, human resources, law, public service and public policy, retail management, sports and media studies, statistics, sustainability, technology, tourism management or urban policy.

The school's renowned MBA program is offered in five platforms: full time, evening, executive, weekend and online. Students can also earn master's degrees in accountancy, business analytics, finance, global logistics, information management, management, real estate development or taxation. The school ranks high for the quantity and quality of its doctoral graduates. Many managers and executives also come to the school for its highly desirable executive- education certificates, placing a heavy emphasis on professional development.

The school's extensive alumni network is 90,000 strong. Distinguished alumni represent highly regarded companies from diverse industries, including manufacturing, technology, retail, banking, accounting, entertainment and food, as well as smaller entrepreneurial firms and respected nonprofit organizations.

The school provides students with personalized assistance in their job searches through dedicated graduate and undergraduate career centers.

**Mi Jung Kim** *Computer Science*

*Dissertation: TensorDB and Tensor-Relational Model (TRM) for Efficient Tensor-Relational Operations*  
 Chair: Kasim Selcuk Candan, School of Computing, Informatics, and Decision Systems Engineering

**George Rogers Kunnen** *Electrical Engineering*

*Dissertation: TFT-Based Active Pixel Sensors for Large Area Thermal Neutron Detection*  
 Chair: David Ray Allee, School of Electrical, Computer and Energy Engineering

**Christopher James Kupitz** *Biochemistry*

*Dissertation: Method Development in Crystallization for Femtosecond Nanocrystallography*  
 Co-Chairs: John Charles Spence, Department of Physics; Petra Fromme, Department of Chemistry and Biochemistry

**Agnieszka Magdalena Kuriata**  
*Biochemistry*

*Dissertation: Self-Assembly Mechanism Of Rubisco Activase*  
*Chair: Rebekka M. Wachter, Department of Chemistry and Biochemistry*

**Marilyn Ruth LaCount** *Curriculum and Instruction (Mathematics Education)*

*Dissertation: Searching for the Third R: An Exploration of the Mathematics Experiences of African Americans Born in, and Before, 1933*  
*Chair: Ronald W. Zambo, Division of Teacher Preparation/West*

**Jong Hwa Lee** *Mechanical Engineering*

*Dissertation: A Musculoskeletal Model of the Human Hand to Improve Human-Device Interaction*  
*Co-Chairs: Devin Jindrich, School of Life Sciences; Panagiotis K. Artemiadis, School for Engineering of Matter, Transport and Energy*

**Lingjun Li** *Computer Science*

*Dissertation: Identity Authentication and Near Field Device Authentication for Smart Devices*  
*Chair: Guoliang Xue, School of Computing, Informatics, and Decision Systems Engineering*

**Brian Charles Lines** *Construction Management*

*Dissertation: Action Research Approach to Implementation of APDMs within Owner Organizations Strategic Management and Overcoming Resistance to Change in the AEC Industry*  
*Chair: Kenneth T. Sullivan, School of Sustainable Engineering and the Built Environment*

**Kent Arnold Lorenz** *Curriculum and Instruction (Physical Education)*

*Dissertation: Environmental and Behavioral Influences of Physical Activity in Middle School Students*  
*Chair: Hans Van Der Mars, Division of Educational Leadership and Innovation*

**Edgar Marti-Arbona** *Electrical Engineering*

*Dissertation: Integrated Distributed Power Management System for Photovoltaic*  
*Chair: Sayfe Kiaei, School of Electrical, Energy and Computer Engineering*

**Natalie A. Martinez** *English*

*Dissertation: Towards a Disruptive Theory of the Affectual: Queer Hemispheric Theories of Affect and Corporeality in the Americas*  
*Chair: Keith Douglas Miller, Department of English*

**Melissa Dianne McMullen**  
*Communication*

*Dissertation: Visual Narratives Of The Old West: How Arizona Old Western Towns Communicate History to Contemporary Tourists*  
*Chair: Eric Margolis, Hugh Downs School of Communication*

**Luis Mejia Sanchez** *Industrial Engineering*

*Dissertation: Reliability Information and Testing Integration for New Product Design*  
*Co-Chairs: Jesus R. Villalobos, School of Computing, Informatics, and Decision Systems Engineering; Rong Pan, School of Computing, Informatics, and Decision Systems Engineering*

**Saeed Adil Merza** *Mechanical Engineering*

*Dissertation: Design of a Miniaturized Underwater Vehicle with Propulsion for Deep-Sea Research Applications*  
*Chair: Deirdre Ruth Meldrum, Biodesign Institute*

**Diana Milner** *Counseling Psychology*

*Dissertation: Validation of the STEM Interest and Self-Efficacy Tests*  
*Chair: John Joseph Horan, Counseling and Counseling Psychology*

**Carlos Alberto Morales Betanzos**

*Biochemistry*

*Dissertation: Protein Post Translational Modifications in Human Diseases: Bacterial Glycosylation Profiling by Peptide Microarray Protein Phosphorylation Analysis in High Risk Neuroblastoma*  
*Chair: Joshua LaBaer, Biodesign Institute*

**Ehab Awad Nasir** *Industrial Engineering*

*Dissertation: Simulation-based Bayesian Optimal Accelerated Life Test Design and Model Discrimination*  
*Chair: Rong Pan, School of Computing, Informatics, and Decision Systems Engineering*

**Krupa Arun Navalkar** *Biological Design*

*Antibody Based Strategies For Multiplexed Diagnostics*  
*Co-Chairs: Phillip Stafford, Biodesign Institute; Stephen Albert Johnston, Biodesign Institute*

**Rebecca Pauline Newland** *Psychology*

*Exploring Goodness of Fit, Mother-Child Relationships, and Child Risk*  
*Chair: Keith Alan Crnic, Department of Psychology*

**Tuan Anh Nguyen** *Computer Science*

*Dissertation: Planning with Incomplete User Preferences and Domain Models*  
*Chair: Subbarao Kambhampati, School of Computing, Informatics, and Decision Systems Engineering*

**Catherine Anitra Nichols** *Anthropology*

*Dissertation: Museum Networks The Exchange of the Smithsonian Institution's Duplicate Anthropology Collections*  
*Chair: Richard Toon, School of Human Evolution and Social Change*

- William David Nitzky** *Anthropology*  
*Dissertation: Entanglements of "Living Heritage": Ecomuseum Development in Rural China*  
*Co-Chairs: Gwyneira Isaac, School of Human Evolution and Social Change; Hjordleifur Rafn Jonsson, School of Human Evolution and Social Change*
- Jason Michael Norris** *Curriculum and Instruction (Physical Education)*  
*Dissertation: Current Practices and Perceptions of Physical Education Teacher Evaluation Systems*  
*Co-Chairs: Audrey Lee Beardley, Division of Educational Leadership and Innovation; Hans Van Der Mars, Division of Educational Leadership and Innovation*
- Daniel Muasya Nzengya** *Sustainability*  
*Dissertation: Designing Institutions and Health Education Interventions for Sustainable Supply of Safe Water in Urban Informal Settlements: The Case of Kenya*  
*Chair: Rimjhim M. Aggarwal, School of Sustainability*
- Janet Elaine O'Brien** *Educational Psychology (Measurement, Statistics and Methodological Studies)*  
*Dissertation: Competency Assessment in Nursing Using Simulation: A Generalizability Study and Scenario Validation Process*  
*Co-Chairs: Debra Hagler, College of Nursing and Health Innovation; Exec Dean, Marilyn S. Thompson, The Sanford School*
- Anne-Marie OBrien** *Nursing and Healthcare Innovation*  
*Dissertation: Factors Associated with Medication Adherence In Frail Urban Older Adults: A Descriptive and Explanatory Study*  
*Chair: Karen Sue Marek, College of Nursing and Health Innovation*
- Ronald Evan Palmer** *Geography*  
*Dissertation: Analysis of the Spatial Thinking of College Students in Traditional and Web-facilitated Introductory Geography Courses using Aerial Photography and Geo-visualization Technology*  
*Chair: Ronald I. Dorn, Geographical Sciences and Urban Planning*
- Sanjay Paul** *Civil, Environmental and Sustainable Engineering*  
*Dissertation: Demographic Evolution Modeling System for Activity-Based Travel Behavior Analysis and Demand Forecasting*  
*Chair: Ram Mohan Pendyala, School of Sustainable Engineering and the Built Environment*
- Angela Lynn Peace** *Applied Mathematics*  
*Dissertation: Stoichiometric Producer-Grazer Models, Incorporating the Effects of Excess Food-Nutrient Content on Grazer Dynamics*  
*Chair: Yang Kuang, School of Mathematical and Statistical Sciences*
- Anthony Jay Perrenoud** *Construction Management*  
*Dissertation: Exploratory Study of Risk Maturity Impact on Construction Project Outcomes*  
*Chair: Kenneth T. Sullivan, School of Sustainable Engineering and the Built Environment*
- Danielle Tatiana Protas** *Neuroscience*  
*Dissertation: Calcium-Mediated Excitation and Plasticity in Primary Olfactory Pathways of the Honey Bee Antennal Lobe*  
*Chair: Brian Smith, School of Life Sciences*
- Janine Clare Quijano** *Molecular and Cellular Biology*  
*Dissertation: Genetic Analysis of Signal Transduction Regulation in Drosophila melanogaster*  
*Chair: Stuart J. Newfeld, School of Life Sciences*
- James Matthew Ramos** *Biomedical Engineering*  
*Dissertation: Poly(amino ether) based Polymeric and Nanoparticle Systems for Nucleic Acid Delivery and Bioimaging*  
*Chair: Kaushal Rege, School for Engineering of Matter, Transport and Energy*
- Pilar Ramos** *Molecular and Cellular Biology*  
*Dissertation: Characterization of Small Cell Carcinoma of the Ovary, Hypercalcemic Type (SCCOHT)*  
*Chair: Karen S. Anderson, Biodesign Institute*
- Somilkumar Jagdishchandra Rathi** *Materials Science and Engineering*  
*Dissertation: Growth Of Novel Semiconducting Nano And Heterostructures*  
*Chair: Jeffery S. Drucker, Department of Physics*
- Terrence Bradley Ritzman** *Anthropology*  
*Dissertation: A Comparative Radiographic Investigation of Variation in Facial Projection in Anthropoid Primates*  
*Chair: Gary T. Schwartz, School of Human Evolution and Social Change*
- Matthew William Rossi** *Geological Sciences*  
*Dissertation: Hydroclimatic Controls on Erosion Rates in Mountain Landscapes*  
*Chair: Kelin X. Whipple, School of Earth and Space Exploration*
- Danielle Sy Roubinov** *Psychology*  
*Dissertation: Father Involvement in Mexican American Families*  
*Chair: Linda J. Luecken, Department of Psychology*
- Arti Radhika Sarma** *Counseling Psychology*  
*Dissertation: Parental Pressure for Academic Success in India*  
*Chair: Sharon E. Kurpius, Counseling and Counseling Psychology*

- Rosary Virginia Schmitt** *Curriculum and Instruction (Art Education)*  
 Dissertation: *Museum Educators and Curators: Teaching in 21st Century Art Museums*  
 Co-Chairs: *Mary Louise Erickson, School of Art; Richard Toon, School of Human Evolution and Social Change*
- Helen N. Schwerdt** *Electrical Engineering*  
 Dissertation: *Fully Passive Wireless Acquisition of Neuropotentials*  
 Chair: *Junseok Chae, School of Electrical, Computer and Energy Engineering*
- Lietta Marie Scott** *Educational Psychology (Measurement, Statistics and Methodological Studies)*  
 Dissertation: *Analytic Selection of a Valid Subtest for DIF Analysis when DIF has Multiple Potential Causes among Multiple Groups*  
 Co-Chairs: *Roy Levy, The Sanford School; Samuel Green, The Sanford School*
- Daisuke Shibata** *Kinesiology*  
 Dissertation: *Sensory-Motor Integration for Control of Digit Position in Grasping and Manipulation*  
 Chair: *Marco Santello, School of Biological and Health Systems Engineering*
- Amy Elizabeth Spears** *Music (Music Education)*  
 Dissertation: *Constructivism in the Band Room: Facilitating High School Band Students' Playing by Ear through Informal, Student-led Practices*  
 Chair: *Margaret Emily Schmidt, School Of Music*
- Matthew Mark Stevenson** *Psychology*  
 Dissertation: *Active Fathering, Children's Self-Regulation, and Social Skills*  
 Chair: *Keith Alan Crnic, Department of Psychology*
- Courtney S. Teatro** *Curriculum and Instruction (Physical Education)*  
 Dissertation: *Coaching Efficacy and Stakeholders' Perceptions of Coaches: Relationships with National Coaching Standards*  
 Chair: *Pamela Hodges Kulinna, Division of Educational Leadership and Innovation*
- Sophie Christiane Marie Theron** *Business Administration (Agribusiness)*  
 Dissertation: *Umbrella Branding of Private Labels*  
 Chair: *Timothy James Richards, W. P. Carey Agribusiness*
- Eric Christian Turner** *Materials Science and Engineering*  
 Dissertation: *Luminescent Cyclometalated Platinum and Palladium Complexes with Novel Photophysical Properties*  
 Chair: *Jian Li, School for Engineering of Matter, Transport and Energy*
- Revak Raj Tyagi** *Electrical Engineering*  
 Dissertation: *Performance Models for LTE-Advanced Random Access*  
 Chair: *Martin Reisslein, School of Electrical, Computer and Energy Engineering*
- Joyce Iris Van Walsum** *Educational Psychology (Measurement, Statistics and Methodological Studies)*  
 Dissertation: *Visually Understanding School Grounds: Schooling At Its Intersections With Community And Social Status*  
 Co-Chairs: *Elsie Gloria Jean Moore, School of Social Transform; Eric Margolis, Hugh Downs School of Communication*
- Kirk Erik Vance** *Civil, Environmental and Sustainable Engineering*  
 Dissertation: *Early Age Characterization and Microstructural Features of Sustainable Binder Systems for Concrete*  
 Chair: *Narayanan Neithalath, School of Sustainable Engineering and the Built Environment*
- Thomas Lee Vierra** *Philosophy*  
 Dissertation: *Nature's Own Voice: Reason, Nature, and the Birth of Natural Law*  
 Chair: *Michael Joe White, School of Life Sciences*
- Terrance Lamonte Walker** *Counseling Psychology*  
 Dissertation: *The Role of Future Time Perspective and Career Development: An Examination of a Structural Model*  
 Chair: *Terence John Tracey, Counseling and Counseling Psychology*
- Dong Wang** *Biological Design*  
 Dissertation: *Characterizing the Influence of Amino Acids on the Oxidation/Reduction Properties of Transition Metals*  
 Chair: *James Paul Allen, Department of Chemistry and Biochemistry*
- Wei Wang** *Biochemistry*  
 Dissertation: *Exploring the Nature of Protein-Peptide Interactions on Surfaces*  
 Chair: *Neal Walter Woodbury, Biodesign Institute*
- Carl Arthur Whitesel** *Curriculum and Instruction (Engineering Education)*  
 Dissertation: *Relationships Among Personal Characteristics, Self-Efficacy, and Conceptual Knowledge of Circuit Analysis of Community College Engineering Students*  
 Chair: *Dale Rose Baker, Division of Educational Leadership and Innovation*
- Lynn Melissa Wilkie** *Psychology*  
 Dissertation: *Individual Differences in the Efficacy of Sodium Chloride and Sucrose as Bitterness Suppressors of Brassicaceae Vegetables*  
 Chair: *Elizabeth Deutsch Phillips, Office of University Provost*

**Curtis Davis Williams** *Geological Sciences*

*Dissertation: Early Solar System to Deep Mantle: The Geochemistry of Planetary Systems*  
 Chair: Meenakshi Wadhwa, Center for Meteorite Studies

**Katherine Lynn WongCarter** *Chemistry*

*Dissertation: Photoprotective & Solar Light Collecting Biomimetic Molecules*  
 Chair: Ana L. Moore, Department of Chemistry and Biochemistry

**Brian William Woodrum** *Biochemistry*

*Dissertation: Glycan-Cyanovirin-N Interactions and Designed WW Domains: Combining Experimental and Computational Studies*  
 Chair: Giovanna Ghirlanda, Department of Chemistry and Biochemistry

**Zhenhua Wu** *Economics*

*Dissertation: Essays in Organizational Economics: Information Sharing and Organizational Behavior*  
 Chair: Amanda Friedenberg, W. P. Carey Economics

**Ziming Yang** *Chemistry*

*Dissertation: Mechanistic Studies of Hydrothermal Organic Geochemistry*  
 Chair: Everett Shock, School of Earth and Space Exploration

**Venkata Divya Teja Yellapantula**

*Biomedical Informatics*

*Dissertation: Informatics Approaches for Integrative Analysis of Disparate High-Throughput Genomic Datasets in Cancer*  
 Chair: Valentin Dinu, Biomedical Informatics

**Koichi Yonezawa** *Business Administration (Agribusiness)*

*Dissertation: Three Essays on Consumer Behavior under Uncertainty*  
 Chair: Timothy James Richards, W. P. Carey Agribusiness

**Jinjun Zhang** *Mechanical Engineering*

*Dissertation: Multiscale Modeling Of Heterogeneous Material Systems*  
 Chair: Aditi Chattopadhyay, School for Engineering of Matter, Transport and Energy

**Qiang Zhang** *Computer Science*

*Dissertation: Semantic Sparse Learning in Images and Videos*  
 Chair: Baoxin Li, School of Computing, Informatics, and Decision Systems Engineering

**Yanan Zhao** *Physics*

*Dissertation: Application of Recognition Tunneling in Single Molecule Identification*  
 Chair: Stuart Lindsay, Biodesign Institute

**Jiayu Zhou** *Computer Science*

*Dissertation: Multi-Task Learning and Its Applications to Biomedical Informatics*  
 Chair: Jieping Ye, School of Computing, Informatics, and Decision Systems Engineering

**Hui Zou** *Educational Policy and Evaluation*

*Dissertation: U.S. and Chinese Middle School Mathematics Teachers' Pedagogical Content Knowledge: The Case of Functions*  
 Chair: Gustavo Enrique Fischman, Division of Educational Leadership and Innovation

## THE ARIZONA STATE UNIVERSITY MACE AND PRESIDENT'S CHAIN OF OFFICE

In Medieval times, a mace was a hand-to-hand combat weapon. In about the year 1400 A.D., a mace evolved from a weapon to a ceremonial instrument used by academicians in rituals such as commencement and inaugurations. The oldest known ceremonial mace was that of the Faculty of Common Law of St. Andrew University in Scotland, used in 1438.

The Mace and Chain of Office are presented only at ceremonies in which faculty members are in full academic regalia, such as the Inauguration of the ASU President, University Commencement, Faculty Assemblies, Regents' and President's Professor Induction Ceremonies and Convocation.

The Mace is carried at the head of the procession and laid in a cradle, thus signifying the formal onset of the ceremony.

ASU's ceremonial mace and chain of office was created in observance of ASU's Centennial in 1985. Handcrafted by ASU Professor of Art, David Pimentel (1943-2004), the mace and chain was created with "austere elegance and traditional southwestern motifs." In keeping with these directions, Professor Pimentel constructed both items out of materials native to Arizona. The ASU Mace is a wood staff, approximately three and a half feet long, weighing eight pounds and made of hollowed and polished Mesquite.

The head of the ASU Mace has four sterling silver blades and is banded with copper, Morenci turquoise, and a silver ring on which the words Arizona State University are embossed. The turquoise inlay was cut and polished by Navajo jeweler Richard Charlie of Mesa. The ASU seal is embossed in silver on the heel of the mace.

The President's Chain of Office includes a silver rope woven from strands of hand-turned links, which holds a medallion six inches in diameter that reverses to reveal the ASU seal in gold on one side and the same in silver and turquoise on the other.

### College Marshals Fall 2014

College Marshals consist of selected faculty members from each college at all ASU campuses. Selection criteria is left to the individual colleges, but faculty who have recently won awards or have received special recognition are given primary consideration.

**Barrett, the Honors College** — Dr. Mary Ingram-Waters has been an Honors Faculty Fellow at Barrett, the Honors College, since 2009. She was awarded the PhD in Sociology from the University of California, Santa Barbara. Her teaching and research interests in gender, social inequalities, media, and science, have led to collaborations and mentorship opportunities for Barrett students on projects addressing trans\*healthcare, fantasy sports, gendered violence and social media, and the localized politics of immigration. Dr. Waters has been selected by students for honors and awards related to teaching, pedagogy, and mentorship, including the Apple Polisher, the CLAS Distinguished Mentor, and the Woman as Hero Conference.

**College of Health Solutions** — Dr. Pamela Swan has been at ASU for 20 years. She earned her PhD from the University of Tennessee, Knoxville in 1991. Dr. Swan was recently selected as one of the three ASU faculty named as Outstanding Doctoral Mentors for 2014-2015. Her research focus is on the impact of exercise on obesity and chronic disease. Recently she has been studying the metabolic and neural-muscular consequences of severe weight loss (i.e., post bariatric surgery) on health. She is a Fellow of the Obesity Society and a Fellow of the American College of Sports Medicine (ACSM). She served as president of the Southwest Chapter of ACSM from 2004-2007. Dr. Swan oversees the interdisciplinary PhD program in Physical Activity, Nutrition and Wellness (PANW) in the College of Health Solutions.

**College of Liberal Arts and Sciences** — J. Edward Mallot is an Associate Professor in the Department of English, where he specializes in postcolonial and contemporary British literatures. His book *Memory, Nationalism, and Narrative in Contemporary South Asia* is available from Palgrave Macmillan. He is the faculty director for the Arizona Center of Medieval and Renaissance Studies' study abroad program in Oxford, England. This year, Professor Mallot received the Zebulon Pearce Distinguished Teaching Award for the Humanities, which is the most prestigious teaching honor given through the College of Liberal Arts and Sciences.

**College of Nursing and Health Innovation** — Patricia Harris is a Clinical Associate Professor in the College of Nursing and Health Innovation and is the Associate Director of the RN-BSN Program. She has served in numerous professional organization leadership roles and health care facility boards, and is a Chair Emeritus of St. Joseph's Hospital and Medical Center Board of Trustees after serving for nine years. She is a master reviewer for Quality Matters, a quality accreditation program for on-line and blended learning. She had been honored for State leadership in workforce development by Governors Hull and Napolitano and the Arizona State Senate.

---

**College of Public Programs** — John Hepburn is a professor in the School of Criminology and Criminal Justice. During his tenure at ASU, he has served in multiple leadership roles including Director of the School of Justice Studies, Dean of the College of Human Services and as Vice Provost for Academic Affairs. Hepburn is widely recognized for his expertise on contemporary issues of corrections, helping to improve correctional practices in the United States. He recently received the Lifetime Achievement Award from the American Society of Criminology and the Paul Tappen Award from the Western Society of Criminology for outstanding contributions to the field of criminology.

**Herberger Institute for Design and the Arts** — William Heywood, PhD, is an Assistant Clinical Professor in the Design School and director of the PhD program as well as a Jungian psychologist. He earned his PhD in Clinical Psychology and his BFA in Photography/Design. He also works with athletes pursuing an elite level of competition; lecturing at numerous US Rowing National Team selection camps and working individually with athletes through the Olympic level. He also co-teaches the Applied Research Collaborative, a transdisciplinary design graduate thesis studio, awarded the NCARB prize for collaborative excellence, as well as courses in creativity and the popular “Finding Purpose”, a class that focuses on guiding students to connect their professional area with their life purpose.

**Ira A. Fulton Schools of Engineering** — Karmella Haynes earned her Ph.D. in Molecular Genetics at Washington University, St. Louis. Her postdoctoral training focused on designing bacterial DNA for mathematical applications (Davidson College) and engineering synthetic proteins to control human cell fates (Harvard Medical School). She has received grant awards from the NIH NCI Mentored Research Scientist program, the NSF Synthetic Biology Engineering Research Center, ASU Foundation's Women and Philanthropy, and the NSF Biotechnology, Biochemical, and Biomass Engineering program. Karmella Haynes was among scientists and engineers to address national leaders at a recent U.S. Congressional briefing on issues raised by the emerging field of synthetic biology.

**Mary Lou Fulton Teachers College** — Sarup R. Mathur, PhD, is Associate Professor of Special Education and the Program Co-Coordinator of Special Education in the Division of Educational Leadership and Innovation. Dr. Mathur is nationally recognized for her work in the field of emotional and behavioral disorders. She has been the coeditor of the TECBD Monograph Series on Severe Behavior Disorders of Children and Youth for more than 20 years. She has authored/co-authored numerous articles on the topics related to professional development of teachers, effective strategies for children with emotional and behavioral disorders, and transition and re-entry of juvenile offenders. She is a former secretary and president of the Council for Children with Behavioral Disorders and the past president of Teacher Educators for Children with Behavioral Disorders. She has also been an associate director of the National Center of Education, Disability, and Juvenile Justice. Currently, she is a PI of Project RISE funded by the Office of Special Education Programs (OSEP) that focuses upon

re-entry success of youth released from secure care. She is a CO-PI for the In-STEP program funded by USAID that focuses on providing professional learning experiences to Fellows from India who are enrolled in a 3-month residency program in the Teachers College.

**New College of Interdisciplinary Arts and Sciences** — Douglas Kelley (Ph.D. 1988, University of Arizona) studies interpersonal communication processes. Most of this research has focused on *Marital Communication*, resulting in a book by the same name, released Fall 2011 by Polity Press. His co-authored book with Vince Waldron, *Communicating Forgiveness* (2008, Sage Publishing), has received both the Distinguished Book in Family Communication Award and the Sue DeWine Distinguished Award for a Scholarly Book. A third book, *Marriage at Midlife* (Waldron & Kelley, 2009, Springer Publishing), presents issues related to empty nest marriage, and a fourth book currently in press at Peter Lang Publishing, *Good Relationships*, examines how family members and relationship partners negotiate their joint moral codes. Professor Kelley's work has also appeared in such outlets as the *Journal of Social and Personal Relationships*, *Journal of Applied Gerontology*, *Communication Quarterly*, and the *Journal of Communication and Religion*. Dr. Kelley, a recipient of the *Centennial Professor Award*, teaches relationship-based courses and conducts workshops in the community on forgiveness and reconciliation, marital and family communication, conflict processes, relational communication (including intimacy and love), and inner-city families. Of particular note is his service-learning course, *Inner City Families*, which every semester for ten years has expanded students academic experience by placing them in essential community-based nonprofit organizations.

**School of Letters and Sciences** — Maxim Sukharev, associate professor of physics at ASU's Polytechnic campus, explores the interactions of light with matter at the nanoscale and how molecules and molecular aggregates can be manipulated using laser radiation. His research has exciting implications for many areas of science, medicine, and computing, including photon memory, slow light, solar energy harvesting, and understanding chemical reactions that occur on the femtosecond timescale (10<sup>-15</sup> seconds). Dr. Sukharev's most recent honors include a US Air Force summer fellowship at Wright-Patterson Air Force Base and visiting professorships at University of Paris-Orsay (France) and at University of São Paulo (Brazil). He earned his doctorate at the Russian Academy of Sciences.

**School of Sustainability** — David Manuel-Navarrete is an Assistant Professor in Sustainability at Arizona State University. He analyzes the dynamics of coupled socio-ecological systems to promote climate change adaptation and sustainable tourism. His recent work in Mexico explores the adaptation, resilience and transformation of urban centers and coastal communities exposed to climatic risks, and the mediating role of emotions in wildlife tourism governance. Before coming to ASU, David worked as a consultant for the United Nations, and as a researcher at King's College London and the Free University of Berlin. He conducted sustainability research and assessments in Argentina, Brazil, Central America, and Mexico.

---

**Walter Cronkite School of Journalism and Mass Communication** — Associate Professor Fran R. Matera is the founding director of the Cronkite School's Public Relations Lab, which launched in August 2011. In its inaugural year, the PR Lab produced award-winning campaigns for Intel and the Tempe Coalition and received grant support from the Phoenix chapter of the Public Relations Society of America.

Matera joined the Cronkite faculty in 1989. Her Ph.D. in educational administration from the University of Miami focused on organizational analysis. Matera's research, focusing on Hispanic audiences and conducted in both English and Spanish, has appeared in top journals and she is co-author of "Public Relations Campaigns and Techniques" which was translated, reprinted and released in China in 2009.

Under her direction, Cronkite PR students have won four NASA Means Business national student competitions and two Zenith Awards for their campaigns. Industry honors also include two honorable mentions in the Platinum PR Awards (pro bono and public affairs); multiple Awards of Excellence and Awards of Merit (PSAs) from the Accolade Competition; platinum, gold and silver awards (PSAs, new media/ website) from WorldFest Houston; and a Copper Anvil Award from PRSA Phoenix.

**W. P. Carey School of Business** — Lonnie L. Ostrom is Professor of Marketing, Joan and David Lincoln Professor of Applied Business Ethics and President Emeritus, ASU Foundation. His research interests include non-profit marketing and non-profit fundraising. Lonnie served for 10 years as Associate Dean for Graduate Programs in the school of business, 23 years as President of the Arizona State University Foundation and Vice President of Development for the university. In Spring 2011, Lonnie was named the Huizingh Outstanding Undergraduate Professor in the W. P. Carey School of Business. He is also the recipient of the 2013-2014 John W. Teets Outstanding Undergraduate Teaching Award.

**Emeritus College** — Elmer Gooding is Interim Dean of the Emeritus College. He began his career at ASU in August 1967 as Assistant Professor of Economics. He earned his Ph.D. and M.A. in Economics from the University of Kansas and his B.S. from McPherson College. He retired from ASU as Emeritus Professor of Economics in 2004. At ASU he held numerous academic and administrative positions including the following: Associate Dean of the College of Business and Director of Graduate Programs, Assistant Provost, Acting Vice President for Academic Affairs, Loaned Executive to the Arizona Board of Regents, Vice Provost, Interim Provost and Vice President for Academic Affairs, Acting President (for two months in the spring of 1991). His teaching fields were international economics and macroeconomics. After retirement he served as president of the ASU Retirees Association and has served as associate dean and interim dean of the Emeritus College.

**HISTORY OF THE ACADEMIC COSTUME**

The present-day academic costume seemingly originated at Oxford and Cambridge Universities in the 1300s. As the universities passed from ecclesiastical control, brighter colors distinguished the academic robe from the drab clerical gown. Colonial American universities based their academic regalia on the British system.

In the 1880s, a student movement centering in New England investigated the establishment of a “senior badge,” to improve commencement week exercises and revive the traditions of university life. In 1893, an intercollegiate commission established a uniform code for caps, gowns and hoods for the various degrees.

Of the costume’s three components, the hood is the most interesting. Originally it had three uses: as a head covering, as a shoulder cape, and as a bag in which alms could be collected. It is mentioned as early as 1480 in clerical literature. When large wigs were in vogue in Britain, the cape part of the hood was split in front and a narrow neckband inserted. The entire cape and hood was allowed to fall back as it is today, and it was never restored to the original style.

*Following is a list of the hood and tassel colors established by the Intercollegiate Code to represent departments of learning:*

Architecture .....	Blue-Violet
Agriculture .....	Maize
Arts, Letters, Humanities .....	White
Business Administration, Commerce, Accountancy .....	Sapphire Blue
Dentistry .....	Lilac
Economics .....	Copper
Education .....	Light Blue
Engineering .....	Orange
Fine Arts .....	Brown
Forestry .....	Russet
Home Economics .....	Maroon
Journalism .....	Crimson
Law .....	Purple
Library Science .....	Lemon
Medicine .....	Green
Music .....	Pink
Nursing .....	Apricot
Oratory (Speech) .....	Silver Gray
Pharmacy .....	Olive Green
Philosophy .....	Dark Blue
Physical Education .....	Sage Green
Public Administration, including Foreign Service .....	Peacock Blue
Public Health .....	Salmon Pink
Science .....	Gold-Yellow
Social Science .....	Citron
Theology or Divinity .....	Scarlet
Veterinary Science .....	Gray

Black tassels are correct for all degrees,  
and colored tassels are worn only by preference.  
Gold metallic tassels may be worn by doctors or presidents of universities and colleges.

*This information was taken from  
“An Academic Costume Code and An American Ceremony Guide”  
by Eugene Sullivan, American Council on Education*
